#### FOREWORD BY THE MINISTER

The Department's 2018/19 Annual Report reflects on the past five years and the extent to which the Western Cape Department of Agriculture has succeeded in realizing its vision of a united, responsive and prosperous agricultural sector in balance with nature.

I am pleased that through effective partnerships, the commodity approach strategy is proving to be effectively driving mentorship support, market access and commercialisation for land reform farmers.

These partnerships have been extended to events such as the Annual Provincial Agri Awards which honours and acknowledges the critical role that agri-workers play in building the economy of the Western Cape. This together with the social and development opportunities offered to agri workers remains a priority for the Department as it improves their capacity to participate in the sector, contribute to land reform initiatives and enhance productivity.

Likewise, the Annual Female Entrepreneur Award recognizes contributions of women to the sector, celebrates their tenacity and achievements and honours the role that women play in the agricultural sector.

The drought undoubtedly has had a major impact on agriculture and while in some areas there has been veld recovery, there remains parts where conditions have deteriorated.

The sector has showed its resilience and in 2018/19 exports still increased by 1.4% irrespective of the difficult times it faced. The sector's contribution to the overall economic performance and exports was in fact significant as it produced 51% of all exported goods from the Western Cape.

This success can be attributed to the remarkable manner in which the department in partnership with various other National, Provincial and Local Government entities together with commodity partners pulled together.

I am particularly pleased that the Department continues to embrace the 4IR as it enhances its strive to ensure sustainability in the sector. New technologies such as the Sentinel-2 Portal and other remote sensing tools will continue to play a vital role in our response to climate change.

I certainly look forward to being part of new initiatives such as the development of a back-up system to ensure water and energy supply during times of power outages or water unavailability, management of climate change and new technology development.

Agriculture fills the food basket of the Western Cape and we will therefore continue to celebrate the sector's successes and embrace and manage its challenges through partnerships, innovation and technology.

Dr IH Meyer

Minister of Agriculture

Date: 31 May 2019

#### 4. REPORT OF THE ACCOUNTING OFFICER

#### 4.1 Overview of the operations of the department

Greater resource efficiency has been achieved in terms of energy usage, which reduced with 20%, and water with about 50% per month. These resources have shown a continual high increase in tariffs that simply had to be funded from within the existing budget. The Department's dependency on the municipal supply will be further reduced with the installation of a third borehole.

Although the human capital processes seem to turn slowly, 280 young persons participated in various development programmes for the period under review. An additional 120 young agricultural graduates who were funded by the Comprehensive Agricultural Support Programme (CASP) have completed their first year of a two-year internship programme with farmers and external host employers. The YPP programmes have produced its first PhD student as well as its first African Candidate Engineer who received support since Grade 11 and has now been appointed in the department.

Following the three-year extreme drought from 2015 to 2017, the winter of 2018 brought welcome relief with rainfall measuring near average in the western areas and along the coastal belt. However, at the end of March 2019, the Klein Karoo and Central Karoo drought conditions remain severe with water storage levels in all the major dams remaining alarmingly low, at less than 10%. The water storage levels in the dams within the Western Cape Water Supply System (WCWSS) made a good recovery, reaching 75% during October 2018 just before the onset of the new hydrological cycle. To mitigate the risk of major water shortages in the future, curtailments on water use in the WCWSS for the 2018-2019 cycle was adjusted to 10% of the allocations for both the agricultural and urban sectors. For the previous cycle, curtailments of 60% for agriculture and 45% for urban water use were instituted. At the end of March 2019 water storage levels in the WCWSS stood at 50% compared to 21% for March 2018.

The FruitLook project promoted the efficient use of water by commercial and smallholder irrigation farmers. This project covers all the irrigation areas in the Western Cape. Near real time information on actual crop water use and eight other growth parameters are provided on a weekly basis to farmers via the FruitLook web portal. Climate change and the impact of the drought have led to additional demands on the limited water resources in the Province. For the FruitLook 2018-2019 season, 617 active users registered a total of 90 063ha for the running season which include a total of 47 224ha for fields smaller than 25ha, which is deemed to be usage or uptake at farmer level.

The Lower Olifants River Water User Association (LORWUA) was supported with R3.026 million to conduct preventative maintenance construction work on the concrete canal system. Additionally, LORWUA was supported with R8.7 million in support of the development of an emergency groundwater water supply scheme.

The proposed raising of the Clanwilliam Dam by the DWS will significantly increase the yield of the Dam by 70 million m³/a. Seventy percent of this additional water is earmarked to resource smallholder farmer development and the balance to improve the water supply of existing water allocations. The department is providing valuable input to the Bridging Study to determine where the water should be used and the infrastructure required to deliver water to the farm boundaries.

The Department is a key role-player in the implementation of the Berg River Improvement Plan (BRIP), which aims to improve the water quality of the Berg River and improve the livelihood of all the people living along the 260 km length of the river. The successful BRIP methodology is being replicated in the Breede River catchment area.

The development of candidate engineers and engineering technicians to gain suitable engineering experience, enabling them to qualify for the Engineering Council of South Africa (ECSA) professional registration is supported. One civil engineer completed his masters in engineering and one engineering technician submitted his application for professional registration with ECSA.

The Western Cape Department of Agriculture's LandCare sub-programme lead the way in Sustainable Resource Management at the National LandCare Awards. The Western Cape scooped up 12 awards, including four golds, at the Department of Agriculture, Forestry and Fisheries' National LandCare Conference.

With regard to land use, the cultivation of crops is only possible on about two million hectares (15.45%) of the total area of the Western Cape. For this reason, the evaluation of and commenting on an increasing number of applications for subdivision and/or rezoning of agricultural land is designed to conserve unique and high potential agricultural land and to ensure the optimal and integrated management and use of land, including the utilisation of land and natural resources for production purposes, taking into consideration conservation imperatives and preventing the fragmentation of land. In this regard, 802 applications for changes in land use were dealt with in the 2018/19 financial year.

An allocation of R190.263 million for the 2011/12 floods is nearly complete (expenditure currently at 60%) with four major flood rehabilitation structures currently constructed in the Overberg District. The 2013/14 flood allocation of R95.542 million currently has two projects (located in the Cape Winelands and Central Karoo) in the construction phase.

The Western Cape is currently in the fourth year of the drought. In parts of the Province the veld has experienced recovery, however, in areas such as the Central Karoo, parts of the Garden Route and West Coast District the veld conditions have deteriorated even further. An amount of R170 million was allocated to the Western Cape from NDMC through CASP. A biannual disaster risk assessment will be conducted throughout the Western Cape which will form part of our early warning system and disaster response and recovery.

R10 million was received in February 2019 for the Garden Route Fire of 2018. The department is currently assisting farmers that incurred damages as a result of this fire.

The Farmer Support and Development programme continued with the implementation of the commodity approach strategy for the commercialisation of land reform farmers. The programme had partnered with 10 commodity organisations aimed at strengthening the support delivered to land reform farmers through the provision of mentorship support and access to markets. The commodity approach is simply an institutional arrangement that draws in multiple spheres of government and the private sector, each understanding their unique roles, working from the same plan, towards achieving the same outcomes. Accordingly, a total of 112 projects had been supported during the year reported on, as follows: 3 Wine grapes, 32 Fruit, 2 Citrus, 6 Table grapes, 15 Grain, 14 Vegetables, 24 Red meat (beef and sheep) and 16 White meat (piggery and poultry). Through the commodity approach, a total of 49 mentors were linked with smallholder farmers to help facilitate access to markets which is critical for sustainability of businesses. It must be mentioned that these mentors are not paid by the department or by the farmers, but it is a contribution and commitment from the commodity organisations.

The programme championed the delivery of the 9<sup>th</sup> annual departmental Extension and Advisory Symposium, held from 18 to 20 July 2018 in the West Coast. The session provided a platform for information sharing and integrated service delivery amongst all extension officials across programmes of the department. In addition, smallholder farmers were invited to the session to provide feedback on how they experienced service delivery from the department.

In line with the Departmental Strategic Goal 2, namely: ensure at least 70% success in performance agricultural land reform projects, an external land reform study was commissioned to gauge performance of agricultural projects that the department supported during 2014 to 2019. The study assessed projects based on five critical success factors, namely: i) determine if businesses had access to markets, ii) existence of sound production and sales records, iii) determine the extent to which profits are being reinvested, v) gauge compliance with tax and labour laws and v) determine existence of an updated business plan. Accordingly, the study revealed a 72% success rate from a population of 243 projects, which represents a 10% improvement from the previous study

The Veterinary Services Programme continued to deliver export certification services to approximately 100 exporters of animal products, both edible and inedible in the Western Cape Province.

The Programme also successfully applied the legal requirements of the Meat Safety Act (Act 40 of 2000) to the roughly 66 abattoirs in the province and no abattoir-related food poisoning outbreaks occurred during the reporting year.

The laboratory continued seeing a steady increase in the number of samples received for testing. Most of these were due to continued surveillance on ostriches and wild birds for the avian influenza virus H5N8. On average, 54% of submissions received by the laboratory came from other provinces. Testing activities were done with high quality (as per ISO 17025 requirements) and within stipulated turnaround times. The laboratory is also the first provincial veterinary laboratory to be accredited for African Horse Sickness (AHS) PCR testing and passed another SANAS audit/assessment during the period under review. Most of the equipment in the Chemical Residue testing facility were ready for use but it is an ongoing challenge to get qualified personnel on board.

The Research and Technology Development programme executed the department's mandate in a stable service delivery environment. The prevailing drought conditions had a serious impact on research trials, research flocks and herds, on-farm fodder production and water availability. In some cases, the small grain trials were at risk due to the drought conditions. Severe winds resulted in a 50% loss of the harvest at Langgewens research farm. The drought resulted in a lower than normal on-farm production of fodder for the animal resources. This led to severe budget pressure as fodder had to be procured from external sources at high prices as a result of scarcity caused by the ongoing drought in the other provinces of South Africa.

The strategic objectives of the programme included cutting-edge research, development and adaptation of appropriate technologies to ensure sustainable production, the dissemination of research information in user-friendly and also online format, and the maintenance of seven research farms, ensuring an enabling research environment within the specific districts of the Western Cape.

The implementation of the actions of the SmartAgri plan (Developing a Climate Change Framework and Implementation Plan for the agricultural sector which was concluded in 2016) within the department and the sector to build a climate change resilient agricultural sector continued in 2018/19 and will remain on the agenda for the years to come.

Comprehensive and client-focussed research programmes and projects in animal and plant sciences were executed with due consideration of the needs and challenges of commodities, commercial and small holder farmers. Technical advice and rendering of online web-based support, and diagnostic and analytical services to a range of internal and external clients were expanded in the drive to lower input cost and increase production levels with the ultimate aim to increase agricultural production with 10% over the next ten years with the support of sustainable farming practises.

The year commenced with 73 research projects. Eighteen new projects were approved by the research project committee whilst considering the available budget and human capacity.

The interaction between researchers, industry organisations and farmers was once again extremely active during 2018/19, resulting in a more than expected number of informal and formal engagements with industry to discuss research related issues and industry challenges. These meetings not only gave researchers the opportunity to disseminate technical information, but also conveyed the research needs and challenges of clients to researchers and the subsequent alignment of the research portfolio. Advice was even more pivotal under the prevailing drought, and the challenges of crop and livestock farmers, both commercial and small holders.

The technology transfer portfolio, both on scientific and popular level, was again comprehensive. Thirty three scientific papers were published, whilst 43 presentations were made at scientific peer reviewed events. On the popular side, 162 presentations were made at technology transfer events, 104 articles were published in popular media and 20 radio talks were broadcasted. The research team organised 17 technology transfer events, whilst 14 information packs were developed and distributed to stakeholders. Furthermore, the use of online technology tools has exceeded expectations.

Support in terms of GIS services and web-based tools were expanded to service the needs of both internal and external clients. Furthermore, the new approach to technology transfer and exploring the application

of new technologies like drones has brought a new dimension to the research programmes' data capturing and service delivery agenda.

On local government level, research and technical staff supported land reform and rural development, agriprocessing and alternative crop industries with information and spatial decision making tools. Collaboration with industry partners expanded and requests received to act as study leaders or co-study leaders for post-graduate studies underlined the importance of research networks, the partnerships between the department and various tertiary institutions, and the role in human capacity building as part of the goal to build the new generation of farmers, researchers and technical support staff.

The research farms furthermore increased in importance as much sought after hubs of excellence for research trials of external research partners and post-graduate students. In this way the research partnerships grew to the benefit of the agricultural sector in the Western Cape.

The agricultural sector showed its resilience in 2018/19, as exports still increased by 1.4% irrespective of the severe drought it faced during recent years. However, it is important to note that this is a very important sector for the economy of the Western Cape as in the past 10 years agricultural exports increased from R20.9 billion in 2007 to more than R63.8 billion in 2017. This equals an annual growth rate of 11.8% for the past decade, which was remarkable performance for the sector that faced various difficulties. Therefore, the performance of the sector in contributing to the overall economic performance of exports from the Western Cape were significant as the sector produced 51% of all exported goods from this province.

The market development and other support services to various industries is perceived to have made a positive contribution to increased exports from the Western Cape. During the reporting year, the marketing platforms facilitated led to exports of goods worth more than R20 million. However, a lot more gets concluded after a few follow up events. Trade analysis conducted within the Agricultural Economic Services (AES) Programme reveals that in 2017 about 54% of all exports from the sector went to Europe especially to the UK and the Netherlands. However, it should have been noted that Europe's overall share has been declining overtime. This decline, was made up by strong growth in the share of exports going to Asia (22% to 31%) and Africa (5% to 9%) between 2007 and 2017.

Looking at the Food, Beverages and Tobacco segment, there were noticeable shifts with Namibia and Botswana being the first and third biggest export destinations for Western Cape exports in 2017. China has also emerged as a key destination. The significance of the rise of Africa as a destination of the province's food, beverages and tobacco exports is notable as the region's share stood at 44% in 2017 compared to 15% ten years ago, now making it the biggest regional destination. Even though there were challenges, wine exports to Angola as a Project Khulisa market more than doubled from 2016 to 2017 after oil prices slumped in 2014/15. Wine exports to China increased by 109% in 2017. Wine exports to China declined in 2018 due to changed market conditions but packaged wine volume increased by 17%; while the value increased by 33% in US\$ and the latter being the focus of the Project Khulisa strategic intent. In these key targeted markets under Project Khulisa, special attention has been given to Black-owned Brands who wish to enter or grow their brands in the market.

In support of this, continuous trade analysis that focuses on the African continent is conducted with the AES Programme. The research also forms part of the annual Bureau for Food and Agricultural Policy (BFAP) baseline book and the launch that takes place every year. To maintain access to markets, especially in Europe and other developed markets, the department is investing about R2.5 million a year in the wine and fruit industries for increased implementation of ethical trade programmes. As a result of this support, 1102 participants were trained on ethical trade across all levels, while ethical trade membership grew from 2490 in 2017 to 2732 in 2018. The Agribusiness Investment Unit has managed to attract investment of R653 942 142 into the sector and an estimated 487 jobs were created. The unit closed the 2018/19 year with a healthy investment pipeline of approximately 27 projects that has a high potential to be converted.

The Financial Record Keeping Programme, which is a land reform intervention, consists of 68 projects. From these projects, 43 are on the electronic system while 25 are manual. Thirty-five of the 43 projects on the electronic system had complete financial statements at the end the year. The businesses are in varying

degrees of compliance but the majority also comply with Income Tax, Pay As You Earn, Unemployment Insurance Fund and Workman's Compensation. The support given to 43 land reform projects that form part of the Market Access Programme has made a considerable contribution to the success of land reform projects in the Western Cape. From this, 57 market access linkages were reconfirmed while 29 were newly signed. These linkages resulted in R12 423 321 million of sales from black businesses. The technical support provided to businesses through the programme resulted in R6 465 271 million of approved finance.

Thirty-one reports were produced, based on the research conducted especially by the Macro and Resource Economics division. Highlights from this is the review of the 2017 Carbon Tax Bill, Lower Olifants River drought impact assessment, and the agricultural section of the Provincial Economic Review and Outlook, which proved to be useful in informing especially policy decision makers. Some of the research outputs undergo a peer review process that is indicative of the quality of research conducted as part of the AES Programme. The annual BFAP Baseline launch, which is one of the prominent events in the agricultural sector's calendar, was held during August 2018. Complementary to all the research done is 154 databases that have been populated during the reporting year. This is an outstanding achievement as no other comparable Programme in another province has that number of databases. The Green Agri Portal, the web-based portal and one-stop tool targeted at clients and stakeholders interested in getting involved in the green economy, is proving its worth since its launch and is monitored for usage on a monthly basis. The tool is regularly maintained through a partnership with GreenCape. As a result of this partnership, the sector also benefits from an annual Market Intelligence report which is a collection of research conducted to stimulate the uptake of smart agri production.

The Structured Agricultural Education and Training (SAET) Programme provided accredited education and training programmes at the Elsenburg Agricultural Training Institute (EATI) and its decentralised centres.

The Agricultural Skills Development (ASD) sub-programme presented four (4) types of Learnership programmes and more than 40 different short skills courses. In December 2018, a total of 54 Learnership students graduated, of whom 22 continued on the Higher Education and Training (HET) programmes.

The Learnership programme registered 63 learners in January 2019 for learnership training in the National Certificate: Animal Production and the National Certificate: Plant Production. The learnership students were once again exposed to Workplace Integrated Learning on farms. All 63 students, enrolled for the 2019 academic year, had been successfully placed on farms for their practical exposure.

Short skills courses were presented to 2 720 beneficiaries in the Province. A large percentage of these beneficiaries are linked to the CASP and Ilima/Letsema programmes, which supports participants in the land reform programme, as well as cooperation with Farmer Support and Development (FSD). Additional training was provided for World Food Day and during the Eden fire disaster to upskill the affected communities.

With regard to Higher Education and Training, SAET provided the B. Agriculture Degree Programme, Certificate in Horse Mastership and Preliminary Riding Instruction, Diploma in Agriculture and Higher Certificate in Agriculture. A total of 479 HET students registered at the start of the 2019 academic year, of which 45% were equity candidates. In total, 122 students graduated from HET programmes in December 2018. Financial assistance was awarded to 34 students, which is an indication of the increased demand for bursaries. Existing partnerships were reinforced and new partnerships established through continuous engagements with stakeholders and role-payers in the agricultural education and training environment. To strengthen governance, existing collaboration with other programmes within the Department is being formalised. The Memorandum of Understanding between SAET and Farmer Support and Development was signed-off by the Head of Department and will be implemented in the first quarter of the 2019/20 financial year. Similar agreements have been developed with other programmes. Collaboration with the University of Stellenbosch was further strengthened by formally appointing staff members to various Committees such as the Academic Planning Committee, Staff Development Committee, Student Recruitment and Registration Committee, Teaching and Learning Committee and the Faculty Board.

The department, through its Rural Development programme, provides coordination support in the sixteen (16) prioritised rural areas in the province (CRDP nodes) through liaison with twenty eight (28) Community Representative Forums, in these communities and coordinates thirteen (13) Intergovernmental Steering

Committees (ISCs)/ Regional Coordination Committees. Fifty-two (52) Regional Coordination Committee engagements were facilitated across the province with the relevant government departments towards achieving a more integrated, transdisciplinary approach to development during the reporting period, resulting in one-hundred and fourteen (114) projects completed in the rural development nodes, led by various stakeholders. Rural youth from the sixteen (16) prioritised rural areas participated in six (6) themed interventions focussed on capacity building and strategic planning.

In an effort to facilitate a growing and developing workforce in the sector towards successful land reform and transformation the department's sub-programme: Farm Worker Development funded four (4) strategic training and development projects/ interventions for agri-workers and their family members. A total of three hundred and ten (310) agri-workers and family members were assisted through the referral system providing access to services offered by government departments and stakeholders. Fifteen (15) municipal engagements were facilitated with various municipalities to share the findings of the provincial-wide Agri-worker Household Census.

Sixteen (16) Western Cape Prestige Agri Awards regional competitions were facilitated and two (2) provincial engagements were hosted in the roll-out of the final adjudication in October 2018 and the Annual Western Cape Prestige Agri Awards Gala event, with a total number of one thousand three hundred and eighteen (1 318) agri-workers participating. The final adjudication took place on 9 October 2018, at Kromme Rhee Training Centre. The Western Cape Prestige Agri Awards gala ceremony was hosted on 3 November 2018, at the Nederburg Wine Estate, in Paarl, where Mr Isaac Ntoto, from Garden of Eden Berries in Brandwacht, Mosselbay, was announced as the overall winner for 2018.

Resource efficiency has been achieved through various measures but to secure business continuity of at least critical services when faced with power outages and a cut in water supply will require further investment in appropriate technology and infrastructure such as individual battery power storage systems.

Staffing the CRT facility has been an ongoing challenge for the laboratory. The processes of preparation for the upgrading/renovation of the laboratory's infrastructure started gaining some momentum towards the end of this period, as Public Works announced an earmarked allocation of about R3 million for the laboratory's upgrades, which were to start towards the end of the period under review, but unfortunately did not happen as planned.

Sub-programme: Export Control of Programme: Veterinary Services experienced difficulties in the absence of a formal data management system for recording, managing and reporting on export control activities.

Access of provincial exporters to international markets are hampered by the lack of capacity in the National Department of Agriculture, Forestry and Fisheries (DAFF) to negotiate export access with trade partners. A failure by DAFF to ensure proper implementation of the National Chemical Residue Plan, an essential requirement to be able to export ostrich meat and meat products to the European Union, resulted in suspension of exports to Europe. This had a devastating effect on the ostrich industry in the province.

The continuing outbreak of Highly Pathogenic Avian Influenza on ostrich farms in the province and the outbreak of Food and Mouth Disease in January 2019 had a marked influence on the quantities of ostrich meat and red meat exported from the province during the year.

Given recent court decisions regarding the implementation of SPLUMA, decision-making powers are transferred from the Department of Local Government (DLG) and the Department of Environmental Affairs and Development Planning (DEADP) (as custodians of spatial planning) to local authorities (municipalities). The imminent change in the process to protect agricultural land makes it difficult to anticipate the number of applications the department may receive. With this new era, every local authority may make decisions according to their own legislative frameworks (Spatial Development Frameworks, by-laws, etc.) which may differ from municipality to municipality. This creates the potential for municipalities to override concerns or objections by other government departments. This places an enormous challenge of aligning the processes and goals of the other departments with those of the municipalities. Pro-actively, the mandate of the preservation of agricultural land is being introduced in spatial planning during the Spatial Development Framework development of local authorities with the support of the National Department of Agriculture, Forestry and Fisheries; Directorate: Land Use and Soil Management. In this

regards the WCDoA also contributed to the development of the "Western Cape Land Use Planning Guideline: Rural Areas" to inform local authorities on spatial development parameters suitable for the rural areas.

The services provided by the Disaster Risk Management sub-programme is currently under immense pressure due to the limited capacity to meet the increase in demand for services for the entire Western Cape, especially with regards to mitigation of natural disasters (i.e. major fires, flash floods, the prevailing drought etc.) that affect the Agricultural sector at large. This sub-programme has to manage more than R500 million.

Although the province received some rain during the reporting period, the drought and curtailment of agricultural water by the DWS continued to affect some parts of the province and caused farmers to delay in planting in the fruit sector and continue with the culling of livestock due to limited pastures. In addition, the moratorium placed on the implementation of poultry projects as a result of the avian influenza outbreak was only lifted during the third quarter, thereby affecting the implementation of projects. The silver lining in all these had been the increased uptake of climate smart farming as a means to adapt to the new normal.

As a contribution towards the realisation of the Sustainable Development Goal 2 (zero hunger) in particular, the programme championed the commemoration of the national World Food Day event held on 24 October 2018 in Brandwacht, Mosselbay Municipality. As a contribution towards food and nutrition security, the department supported a total of four community food gardens and 151 households with the means to produce their own food for food security. The event was delivered in collaboration with the DAFF, DWS, Mosselbay Municipality, South African Breweries (SAB) and civil society structures involved in the food security space.

The study around the preservation and protection of the Philippi Horticultural Area (PHA) had been concluded. The findings confirm the centrality of the PHA and the need to have it protected for agriculture given its contribution to job creation and food security. Subsequently, on 8 August 2018, the provincial cabinet approved that the 'Whole of Society Approach' be the basis for the inter-governmental structure to co-ordinate the implementation of public sector commitments for the protection of PHA. The intention of the inter-governmental structure is to build the collaborative public sector ownership and shared responsibilities for the implementation of the PHA agricultural, socio-economic plan. Accordingly, an implementation framework had been developed and will be consulted with broader PHA stakeholders in the coming year.

Adverse climatic conditions resulted in more pressure on human capacity and technology development to ensure sustainable and climate smart farming operations, albeit on the seven research farms and in support of the farmers. Fodder production on the research farms dwindled due to the drought and resulted in pressure on the operational budget as fodder prices soared during 2018/19. The number of animals in the research herds and flocks were kept at a minimum without compromising the number needed for scientifically sound research. It was furthermore ensured that animal resources were well maintained and business continuity plans implemented on all the research farms. Upgrading of water infrastructure on the farms was done to ensure that animal resources were supported from boreholes and reservoirs and not municipal water.

An issue receiving continuous attention is the integration of research activities and outputs into the service delivery and training agenda of extension officers and lecturers, respectively. The research and technical team was also involved in the block sessions of the programme Farmer Support and Development, whilst they were also lecturing and moderating at the programme Structured Agricultural Education and Training. Availing research infrastructure and herds and flocks for student practical sessions ensured a more practical approach to the training of the students. In this respect, the extended utilisation of the research farms for more on-farm practical experiences to students were discussed and visits to three of the research farms were undertaken by the management of the College to explore synergies and collaboration opportunities.

Building human capacity in the research and technical fields of the Research and Technology Development Programme remained a challenge. This is due to the decline in students in agriculture, ageing of current researchers and technicians and the SACNASP requirements as set out in the OSD for scientists and technicians. The programme mitigated this challenge by being actively involved in various internal and external student programmes and initiatives. Furthermore, a comprehensive human resource plan for the programme serves as a blueprint for appointments, EE targets, succession planning and capacity development initiatives over the next five years. The MOA's with NMU and SU undoubtedly brought a new

dimension to capacity building and skills development. Senior researchers acted as study-leaders for various post-graduate students with the aim of recruiting these students for careers in the sector.

Maintenance and/or replacement of old research equipment is constantly receiving more attention as the research effort is dependent on reliable equipment and infrastructure. Negotiations with manufacturers of said equipment were pursued to establish win-win partnerships. Several pieces of equipment have already been donated or offered for use on a temporary basis after negotiations with various agri-businesses.

The redirecting of some CSC functions back to the programme, as well as more stringent SCM regulations, is putting pressure on the already limited administrative capacity within the programme.

The opportunities for practical training and development remain one of the competitive advantages of the training provided at EATI. However, with the increased demand for training, the increase in student numbers, the changing work environment on farms and the steep cost to maintain and expand practical training facilities, this competitive advantage is coming under increased threat. To alleviate the pressure on practical facilities, Workplace Integrated Learning was implemented, by placing learnership students on farms for almost half of their training period in order to gain real-life practical farming experience. In addition, six lecturer posts were filled in order to reduce the cost of external facilitators and to ensure continuity of services.

The lack of proficiency of students in mathematics and science, the high cost of training provision and affordability of tuition fees versus a higher demand in training and addressing the different language requirements and preferences of trainees, remains priority challenges. Also, the lack of financial assistance available to students studying at the EATI – compared to students studying at universities and universities of technology who have access to the National Student Financial Aid Scheme – also hampers the transformation of the diversity profile at Elsenburg. Bursaries were awarded to all deserving students and all students that could not pay registration fees, were allowed to register. A transformation plan to promote and ensure student diversity in the demographics of the student population was implemented and is ongoing. The articulation process where students from the sub-programme: ASD (specifically the learnership programme) can progress to the Higher Education and Training band, creates an opportunity for EATI to improve the intake of students from the PDI target group.

The most pressing challenge has been the disjuncture and duplication amongst various rural development structures, being established at district level, stifling effective coordination across the three spheres of government. The Rural Development programme facilitated the development of the provincial Rural Development Workgroup in the absence of a much needed provincial coordination structure, to streamline efforts towards achieving National Outcome 7 and the Provincial Strategic Goals, responsive to the Provincial Strategic Plan commitments. Four (4) provincial engagements, related to addressing such transversal matters relevant to rural development, have been facilitated.

The Installation of a third borehole by the Department of Transport and Public Works will ensure far greater independency from municipal water supply whilst still having it as a safety net.

A photo voltaic solar system was implemented (1 200 panels) that reduces the usage from the municipal supply. However, as mentioned before, further technical infrastructure investment will be needed for the storage of energy generated to be used at critical times.

During this year the CASP-funded Graduate Placement Programme was implemented in conjunction with the Programme: Farmer Support and Development Services. This is a two-year internship programme. One-hundred-and twenty (120) agricultural graduate interns have been employed as interns and placed externally with 68 farmers.

The Modernisation Project: Refurbishment of Elsenburg will start in August 2019. Modernised laboratories will be established as part of the project and the main building will also be renovated. The project will run in phases over a period of five years. Preparations for the first phase has already begun.

Although electronic content management has been halted as a result of the evaluation of the implementation of 'My Content', this department continues to work on its readiness for implementation.

Significant projects for the year were without doubt the rewards obtained during the DAFF National LandCare Conference both by the junior and senior teams that attended the conference. Besides the conference, the subprogramme: LandCare implemented 57 projects during the year to the value of R10.682 million and successfully lobbied for a further R41.9 million for drought interventions in the Western Cape.

The most successful project for this year is the fodder support project with an allocation of R170 million (the second highest allocation received for drought response in the Province). This project incorporated all of the departmental programmes in the form of a biannual disaster risk assessment in the Western Cape. This assessment will form part of our early warning system and disaster response and recovery. It is a coordination between all the departmental staff at district level as well as support from the DAFF and the Provincial Disaster Management Centre to improve communications and need for support at a national level. Expenditure is at 53% spent (i.e. R89 723 404.90 spent), while the monthly support is approximately R20 million for over 1 500 farmers.

The programme hosted a consultative workshop with the farmers on 8 June 2018. The workshop sought to solicit input from the farmers on the Comprehensive Producer Development Support (CPDS) policy, championed by the DAFF. The CPDS policy seeks to provide a framework to harmonise, guide and regulate the development and provision of support to various categories of producers to ensure a sustainable and competitive agricultural sector. Accordingly, a total of 100 farmers participated and made recommendations to the policy.

The programme hosted the provincial Female Entrepreneur Awards (FEA) on 7 August 2018 at Hudson's Restaurant (Vredenheim Estate) in Stellenbosch. The FEA is a joint venture initiative between DAFF, the Western Cape Department of Agriculture and sector partners. The objective of this competition is to leverage women from subsistence and smallholder producers to commercial entrepreneurs and gradually create opportunities for them to enter into export markets. The category winners of the provincial competitions then compete at national level and are awarded for their contribution at a Gala Dinner, which was hosted by the DAFF in East London on 23 August 2018. It was at this event that Ms Leandre Mitchley (a young pig farmer from the West Coast) was announced as overall winner in the category: Top entrepreneur smallholder.

This year saw the implementation of Independent Meat Inspection at abattoirs in the province. This is an important new policy direction for the country that, while improving food safety controls for meat produced in the province, also requires alignment by the Department to ensure the proper management of the implementation in the province.

The PCR section of the WCPVL received accreditation for the African Horse Sickness [AHS] testing method.

The mandate and strategic objectives of the programme Research and Technology Development was aligned with the National Outcomes, Provincial Strategic Goals and Departmental Strategic Goals, and was carried out as planned. With regard to PSG 1 and specifically Project Khulisa, inputs were given to the focus area of agriprocessing and several actions activated. Inputs were also given to PSG 4 with regard to climate change and resource use and planning, whilst input was provided to the green economy working group and related activities. On local government level, research and technical staff supported rural development, land reform, agri-processing and alternative industries with research support, spatial decision making tools and information.

Comprehensive, client-centred and problem-focussed research programmes and projects were continuously critically evaluated against the departmental strategic goals, the objectives of the research directorates, as well as industry and client priorities. The year commenced with 73 research projects. Eighteen new projects were approved by the research project committee, bringing the total number of projects for 2018/19 to 91.

The researchers attended various informal and formal internal and external meetings on strategic and technical level, gave input and commented on various issues. The need for agricultural resource information and judicial management of these resources has led to a more in-depth focus on conservation agriculture and soil health, whilst the need for information on animal nutrition, breeding and management, continued to be much sought after. Advice to farmers in relation to animal feeding under drought conditions and challenges in terms of crop production was critical and much needed.

The challenges of climate change and climate smart agricultural production, management of resources, decision support tools and low input high output technology development remained on the agricultural and research agenda in 2018/19 and will be the most important drivers towards a climate change resilient and sustainable

agricultural sector. The drought and accompanying shortage of fodder and water challenges on the research farms remained and contingency plans were implemented to secure the research base. The drought resulted in a lower than normal on-farm production of fodder for research animals, which has resulted in severe budget pressure as fodder had to be procured externally at very high prices due to the scarcity thereof as other parts of the province and South Africa were also under a drought burden and fodder production was low.

The SmartAgri plan and its implementation with the Department as lead agent has gained more momentum and the continued drought and water scarcity has put a new focus on the need to plan for and address the climate change challenges which are envisaged to change the agricultural production and sustainability landscape drastically. In this regard, the focus on the six priority projects of the SmartAgri plan increased, including the expansion of the conservation agriculture programme on small grains, dairy pastures and potatoes. The focus on climate smart extension services was expanded with the assistance of GreenCape. The contract of the specialist advisor on the implementation of the plan came to an end in July after a very productive period of two years, which assisted in fast tracking implementation in the department and the sector. An implementation and design evaluation of the plan will commence in 2019/20 as one of the departmental evaluations to be conducted.

A departmentally funded climate smart project by GreenCape has been completed and is addressing the sixth priority project of SmartAgri, focussing on an integrated knowledge system for climate smart agricultural extension. This project was a joint effort between RTD, SRM, FSD and GreenCape and focussed on green technology for small holder farmers. The Department also hosted the Climate Smart Agriculture (The Development and Optimisation of CSA Interventions for South Africa's Priority Agricultural Value Chain for a Changing Climate) Workshop for DEA and DAFF.

Four climate change e-newsletters ("SmartAgri Barometer") were published and disseminated to keep our stakeholders abreast of the SmartAgri actions. During the Adaptation Futures 2018 international conference held for the first time in Cape Town, a group of 60 delegates visited the Langgewens research farm on a Learning Journey, one of the several learning journeys during the conference. The SmartAgri plan and the conservation agriculture research programme of the department was presented to the delegates. Adaptation Futures is the biennial conference of the Global Programme of Research on Climate Change Vulnerability, Impacts and Adaptation (PROVIA), and is the premiere international climate change adaptation conference with approximately 1 300 delegates from countries around the world attending. This conference was the first of its kind held in South Africa.

As part of our climate change drive and in creating awareness, a series of 52 programmes on climate change, called "Die Kwik Styg" was launched on RSG (with 300 000 listeners) during April 2018. The programme series was so successful and popular that a second series was commissioned for April 2019. The first series will now be disseminated in memory stick format to stakeholders, whilst 14 programmes were selected and transcribed into Afrikaans and English, and Xhosa translation will also follow. These booklets will be printed and disseminated to small holder and other farmers.

The climatic forecast service resulted in 12 agricultural condition and 12 climate reports disseminated (Unit: Risk and Potential Management) to relevant role players in the Province. The GIS team participated in the BRICS delegation exhibits and also at the launch of the 4IR report launch. Their input in the monitoring of drought through NDVI mapping continued on a regular basis. The spatial intelligence project (also called the Fly Over) which commenced in 2017 to map Western Cape agriculture, its resources and infrastructure, was finalised and launched during June 2018. The specialist GIS researcher was invited to join a peer review panel of the SA Journal of Geomatics, whilst he was also invited to act as external moderator of a Ph.D at the University of Stellenbosch. The Cape Farm Mapper online tool is continuing its popularity and several training sessions were held to inform farmers and other stakeholders on the application and the use for farm planning and decision making.

As part of its own drive to embrace the 4<sup>th</sup> IR and support the sector in its strive to sustainability, the department has developed several novel technologies and online decision making tools, of which the latest is the Sentinel-2 portal and remote sensing tools. Sentinel-2 is an earth observation satellite mission developed by the European Space Agency as part of their Copernicus Programme to perform terrestrial observations in

support of a wide range of services, including agriculture. What is innovative and relevant about this recent development is its 10-20m spatial resolution, its five-day revisit frequency, its global coverage and the open and free ESA data policy. It represents a considerable improvement on the old stalwart of agricultural remote sensing, Landsat. Whilst many other satellite platforms offer higher resolution (at a cost), the free access to Sentinel data offers new opportunities at a scale appropriate for crop (and veld) monitoring at field to regional scale. There are various value-added Web Service products available to the GIS user community at a relatively low cost via the Sentinel Hub. Furthermore, the ability to undertake analysis and return products online and operating in the "cloud" vastly streamlines the workflow. Previously the only option to access satellite imagery was to browse through catalogues of images, select suitably cloud-free images and then download and archive each image, with all its multispectral wave bands. This process was both laborious and highly data-intensive, whilst the subsequent analytical workflows required specialist skills and expensive software. The new Sentinel portal and remote sensing tools will leverage the extraordinary wealth of agriculturally relevant Sentinel-2 (and other) satellite data in an integrated, free, unique, online platform which hides the complexities from the non-specialist user. The impact of this portal and tools will provide rapid access to near real-time information on vegetation (veld) and crop conditions resulting in quicker information flow and better decision making and understanding; rapid assessment of natural disaster impacts (fire scar extents, drought, crop failure, pest and disease damage); improved assessment of resource condition and sustainability potentially to support key performance indicators on natural resources, required nationally, and improved long-term investigation into changes in production sustainability on a geographic basis – particularly in the light of climate change.

An annual feedback meeting with all the beneficiaries of the Alternative Crops Fund was held to report on the industry advancements emanating from the funding. The department again partnered with Agri-Expo to present the third Cape Made Kitchen at the 2018 South African Cheese Festival in an attempt to showcase the use of alternative crops and products on a culinary level. The kitchen was hosted by chefs and students of the Institute of Culinary Arts (ICA). This initiative was a sterling success and the recipe book published was a good example of a Better Together Project, with partners Agri-Expo, MPO (Milk Producers Organisation), WCDoA, Hortgro and the ICA. The fifth round of the Alternative Crops Fund (ACF) was concluded at the end of 2018/19 and 14 projects to the value of R2 199 876 were approved.

A meeting was held with GrainSA to discuss alternative crops for the Swartland as wheat farming is becoming a challenge due to the market situation and climatic challenges. An action plan will now be rolled out to investigate some possibilities and it is envisaged that an alternative crops programme for the small grain industry will be established.

Well-attended WCARF (Western Cape Agricultural Research Forum) meetings were held during 2018/19 and dealt with discussions on important matters like the Fourth Industrial Revolution Report, online resources of the department, opportunities of mutual interest, to name but a few. This forum is ensuring a greater coherence between research institutions and further exploring areas of mutual interest and resource sharing.

The first bakery school in the Western Cape where artisanal bakers will be trained, was established early in 2018 due to the catalytic role of the department. This initiative was one of the outcomes of the department and Upper Austria bi-lateral discussions in 2017. Eight students completed their theoretical studies and graduated. Further courses will now be presented.

The Standing Committee for Economic Opportunities, Tourism and Agriculture, visited Outeniqua reseach farm to familiarise themselves with the research portfolio and the operations on a research farm. All the departmental programmes residing on the farm were present to give an overview of the department's service delivery footprint in the Southern Cape.

A very successful Conservation Agriculture conference was held and more than 200 persons attended the two-day event, which included a day of lectures and a practical day at Tygerhoek research farm where conservation agriculture practices were showcased. The long term small grain trials at Langgewens has been internationally recognised with an invitation to take part in the Global Long Term Experimental Network being managed by the Rothamsted Research Institute in the UK. The data will be used as part of a meta-analysis from four long term experiments on four continents to analyse trade-offs and synergies between three sustainability criteria: productivity, nitrogen use and soil carbon.

The largest ever ostrich auction was held at Oudtshoorn research farm where 160 breeding birds were offered on the 15<sup>th</sup> auction and fifteen buyers registered. One buyer bought 12 males and 44 females. The average price obtained was R5 500, compared to R4 100 last year. The highest price for a female was R9 200, and R6 000 for a male. The good results are undoubtedly due to the new excitement in the industry after the news that the export ban to the EU has been lifted.

Two post graduate students in the directorate Animal Sciences excelled with one being awarded the Protein Research Foundation award for the best M.Sc degree, whilst the other student received the AFMA (Animal Feed Manufacturing Association) prize for the best poster at the SA Society for Animal Sciences annual conference. The department's crop specialist received several awards at the recent SA Society for Crop Production Conference: the Rovic-Leers prize for best presentation in the field of conservation agriculture, the Board floating trophy for the best paper, and the Fellowship of SASCP for his dedicated service to the society.

During the 2018 Premier Service Excellence Awards ceremony, the SmartAgri plan received Gold in the category "Best Implemented Project". This category recognises a programme or project that has had a positive impact on service delivery, saved costs and improved the lives of citizens. One of the reasons for entering SmartAgri was to showcase how a sector plan can be innovatively implemented in a department and in the sector using novel approaches and by using current and new awareness and information dissemination tools and vehicles. The department also received a Silwer Award for the Best Public Service Innovator for the development of its very popular online tool "Cape Farm Mapper" which is also part of SmartAgri (developing of smart spatial tools). Another accolade was bestowed on the programme at the agricultural technology exhibition at the Moorreesburg Connect Agri event. It was awarded third prize in the category for Machinery, where Cape Farm Mapper was demonstrated. The department also took part in the Innovation Day organised by DEDAT and showcased Cape Farm Mapper and SmartAgri.

Lobbying for external funding of research projects continued and funding was received from Sasol Agritrust, Cape Wools, Winter Cereal Trust (WCT), Potatoes SA, Protein Research Foundation (PRF), Technology and Human Resources for Industry Programme (THRIP), Research and Technology Fund (RTF) and CASP.

The Institute continued with the roll-out of formal academic support to students. This includes the reading programme, tutorial classes and extra classes, contributing to the success of students. The filling of crucial posts has been prioritised, especially academic and middle management posts in order to provide the organisational and support functions needed to get the Institute running efficiently. Ten posts, including lecturers, administrative and auxiliary posts, have been filled during this financial year.

The Institute focused on strengthening governance and quality management processes and policies, including the preparation of accreditation of all relevant training programmes in line with the Council for Higher Education (CHE) and the Quality Council for Trades and Occupations (QCTO). To assist with and streamline this process, the Association of Principals of Agricultural Colleges (APAC) conducted a peer evaluation from 8 to 10 October 2018 to determine compliance to the accreditation processes of the Council on Higher Education as well as Quality Council for Trade and Occupations (QCTO). An application for the accreditation of a new Diploma in Agriculture was submitted and the approval is pending.

Students at the EATI participated in the different sporting codes where they primarily competed with teams from the University of Stellenbosch and Agricultural Training Institutes nationally. The soccer and netball teams participated in the NACSANO national tournament for Agricultural Colleges and the students were again true ambassadors for the institution. Elsenburg teams participated both in the Maties hostel leagues for soccer and rugby and at the Pannar Rugby Tournament for agricultural colleges. The rugby team defended their title successfully at the Pannar rugby tournament.

Ongoing exposure of agri-workers to social upliftment and development opportunities remains a high priority for the department as this contributes to their capability to participate in the sector and make a contribution to land reform initiatives and maintain farm productivity. To this end, four (4) agri-worker projects were funded, which focussed mainly on: Substance Abuse Prevention with a focus on Foetal Alcohol Syndrome (FAS) awareness and prevention campaigns, Early Childhood Development, Technical Skills Development and a Rural Female Youth Mentoring programme. Rural youth from the sixteen (16) prioritised rural areas participated in six (6) themed

interventions focussed on capacity building and strategic planning. In addition, the department hosts an annual Agri Femina event for women in agriculture, celebrating the contribution of women to the sector. This event was hosted in Grootbrak Rivier, Mosselbay, on 14 September 2018 and is aligned to the World Food Day commemoration in the same municipal area.

Sixteen (16) Western Cape Prestige Agri Awards regional competitions were facilitated and two (2) provincial engagements were hosted in the roll-out of the final adjudication in October 2018 and the Annual Western Cape Prestige Agri Awards Gala event, with a total number of one thousand three hundred and eighteen (1318) agri-workers participating. The final adjudication took place on 9 October 2018 at the Kromme Rhee Training Centre. The Western Cape Prestige Agri Awards gala ceremony was hosted on 3 November 2018, at the Nederburg Wine Estate, in Paarl, where Mr Isaac Ntoto, from the Garden of Eden Berries in Brandwacht, Mosselbay, was announced as the overall winner for 2018.

A total of 690 guests attended the function. This included agri-workers, representatives from our major sponsor: Shoprite, several members of the Provincial Cabinet, various provincial Heads of Departments, senior management officials, farmers, agri-worker organisations, regional agri award coordinators as well as the competition adjudicators and various industry experts. In addition, an excellent partnership with Hortgro and Vinpro has been established to present the annual 'Agri's Got Talent' event for agri-workers on 3 August 2018 where agri-workers can present their talents beyond their contributions in the agricultural sector.

#### 4.2 Overview of the financial results of the department

#### Departmental receipts

|  |          | 2018/19                       |                            | 2017/18  |                               |                            |

| Interest, dividends and rent on land                 | 500      | 8 522                         | (8 022)                    | 1 900    | 10 564                        | (8 664)                    |
| Sale of capital assets                               | -        | 381                           | (381)                      | -        | 241                           | (241)                      |
| Financial transactions in assets and liabilities     | -        | 7 298                         | (7 298)                    | -        | 1 041                         | (1 041)                    |
| Total  | 30 440   | 53 356                        | (22 916)                   | 29 226   | 48 480                        | (19 254)                   |

The department has over collected on all categories, except on transfers received.

The Department has a debt write-off policy that is aligned with the provincial policy in terms of which bad debt is written off. The total debt written off amounts to R1.197 million and consists of 22 cases. Seventeen of these cases were of non-materiality, while four cases were damage to fleet vehicles totalling R305 000 where the drivers were assessed not to have lost their insurability and one case of R697 000 where the department has written off a claim against SARS.

Interest, although less than the prior year, has exceeded the estimate as 70% interest received on unspent disaster funds are paid back into the Provincial Revenue Fund and is not seen as a normal revenue stream for the department. This amount will decline as the disaster funds are spent.

The other outlier that is not repetitive in nature, is R5.9 million received in credit from Stellenbosch Municipality for overestimation of water consumption. This formed part of transactions in assets and liabilities.

The better than budgeted performance for sales of goods and services is due to tuition and boarding for the 2018 academic year received earlier than budgeted for and soil laboratory analysis revenue, as well as veterinary services (increase in export certification) was higher than expected.

All capital assets that were sold were written off and were irreparable or unusable.

This department does not collect any form of tax revenue. With the exception of the revenue received for Tertiary Education from paying students, all other revenue is incidental or spin-offs from either research, training or industry support (inspections and laboratory work). The department does have an implemented revenue policy.

The tariffs in the tariff register are done on a variety of principles i.e. market-related, cost recovery and determined by legislation. Other considerations are influences like whether the clients are smallholder and/ or subsistence farmers, the demand for the product or service, as well as whether it is excess stock. On the tariff register this is indicated at every individual tariff. The register is revised annually. The latest tariff register is available on the department's website.

Free services that are rendered by the department are extension services that could lead to substantial income in consultation fees. However, by far the biggest users of these services are the smallholder and/or subsistence farmers who can ill-afford to pay for these services and rely on the department for advice, information and technology transfer. It is the mandate of the department to provide this advice to all citizens for free.

The Animal Health sub-programme extended its support to the smallholder livestock farmers through training and primary animal healthcare services. This free service is crucial for the survival of farmers in rural communities with no or limited access to private veterinary clinics and services. The value added services provided by veterinarians in the Compulsory Community Service (CCS) programme, allowed smallholder farmers to receive a high quality service at no cost. With the deployment of additional CCS vets in the State Veterinary Offices of Worcester, Oudtshoorn, George and Beaufort West, indigent farmers now had access on a regular basis to professional veterinary facilities that was not available in the past.

#### Free services included vaccination of production animals against the following diseases:

| Disease                | Number of animals vaccinated | Species  | Amount of free services |
|------------------------|------------------------------|----------|-------------------------|
| Anthrax                | 3 315                        | Cattle   | 10 574                  |
| New Castle Disease     | 1 381                        | Chickens | 1 727                   |
| Brucellosis RB51       | 767                          | Cattle   | 65 839                  |
| African Horse Sickness | 560                          | Horses   | 132 148                 |
| Total                  | 210 288                      |          |                         |

#### Other free services provided

| Type of service                      | Species              | Number of animals | Amount of free<br>services<br>R |  |
|--------------------------------------|----------------------|-------------------|---------------------------------|--|
| Tuberculosis tests                   | Cattle               | 8 525             | 75 957                          |  |
| Animals dipped – external parasites  | Multiple species     | 5 070             | 32 955                          |  |
| De-wormer                            | Horses               | 349               | 31 033                          |  |
| Clinical examination                 | Cattle, sheep, goats | 44                | 3 920                           |  |
| Faecal egg count-internal parasites  | Multiple species     | 15                | 210                             |  |
| Ram – tests for fertility            | Sheep, goats         | 97                | 1 028                           |  |
| Euthanasia                           | Multiple species     | 422               | 16 800                          |  |
| Clinical services animals treated    | Multiple species     | 429               | 372 736                         |  |
| Companion animals treated BFW clinic | Multiple species     | 2 502             | 330 420                         |  |
| Total                                |                      |                   | 865 059                         |  |

The wellbeing of companion animals is related to the psychosocial well-being of a community. However, with limited access to veterinary services the assistance of Animal Welfare organisations in the province is vital in supporting these communities. In the past financial year, the department donated an amount of R650 000 to the Garden Route SPCA in support of their Mass Animal Sterilisation Project (MASP) to sterilise dogs and cats at no costs to the animal owners. This kind of project has a long-term effect on both the well-being of animals and humans in a community.

The samples received for smallholder farmers are tested free of charge by the Western Cape Provincial laboratory.

#### Free services provided to smallholder farmers

| 2018/19 Provincial Specific Indicator: Number of samples tested for smallholder farmers at a no cost fee P 4.4.3 |                 |  |                              |  |  |

| Rural Development                                 | 21 521                 | 21 521                | -                               | 20 170                 | 19 537                | 633                         |
| Total   | 1 120 674              | 1 108 571             | 12 103                          | 877 648                | 866 869               | 10 779                      |

The amount of under spending, R12.103 million or 1.1% of the adjusted budget is well within the national benchmark of 2%.

The split of unspent funds between equitable share and grants (CASP) are R10.681 million and R1.422 million, respectively. The CASP funding will be requested for rollover and forms part of civil works at Elsenburg Agricultural College that was not completed at year-end. The amount of equitable share relates to savings on the compensation of employees of R506 000, goods and services of R9.523 million and capital assets of R2.074 million. The last two amounts were requested for rollover to 2019/20.

Virements were done to relieve unforeseen cost pressures caused by higher than expected price increases and unforeseen commitments through the reprioritisation of the available budget. Increasing pressure to accommodate for a transfer to Ebenhaeser (R10 million) for individual water access to in excess of 150 new farmers by Programme 3 from all other programmes.

Virements were made from programme 1 (R3.344 million), programme 2 (R2.611 million), programme 4 (R1.070 million), programme 5 (R209 000) and programme 7 (R595 000) programme 8 (R1.779 million) to programme 3 (R8.889 million) and programme 6 (R719 000). In all cases the virements were approved by the Accounting Officer in terms of section 43 (1) of the PFMA and were kept within the eight percent limitation in terms of section 43 (2) of the PFMA.

No unauthorised expenditure was incurred.

Seventeen different cases of irregular expenditure to an amount of R248 000 were reported. These cases related to not abiding to Treasury Regulations (R33 000), not abiding to Cost Containment Measures (R27 000) and not abiding to Supply Chain Management Instructions (R180 000). No condonations were applied for yet as investigations were to be redone after the last Treasury Instruction on irregular expenditure came into operation on 1 December 2018.

The case carried over from the previous year to the amount of R176 000.

The new Treasury Instruction regarding irregular expenditure prescribed specific processes with more pressure on capacity which had to be contemplated first. Also refer to note 24 to the financial statements in Part E of this report.

Twenty four cases of fruitless and wasteful expenditure to the amount of R24 000 were reported during this period. Of these 12 cases were resolved, inclusive of the recovery of R8 000. The remaining 3 cases to the value of R5 000 from the previous year were all resolved. All cases were thoroughly investigated to ascertain whether these expenses could have been avoided through diligent circumspection and better planning.

As at 31 March 2019, 12 cases amounting to R20 000 were still under investigation. Also refer to note 25 to the financial statements in Part E of this report.

#### 4.4 Future plans of the department

Back-up system to ensure water and energy supply at time of power outages or water unavailability

The FruitLook project will continue for the next three years. Funding has been secured to provide the service on an annual basis to an expanded area to cover all fruit producing areas in the province and the irrigated grazing areas of the Southern Cape.

The BRIP and replication to the Breede River will also continue as a collaborative project between different government departments in the Western Cape, the Working for Water programme of the DEADP and local organisations and role-players.

The department continues to support preventative maintenance of the Lower Olifants River canal system as part of sustainable resource management. This is to limit the canal break episodes, the resultant water loses and impact on job opportunities.

The Department plans to provide resources for designing and implementing an official data management system for sub-programme: Export Control of Veterinary Services. This will enable the Department to report financials / economics of exports from the province, which is currently not possible.

Climate change will undoubtedly be the most important game changer in the agricultural sector in the Western Cape and sustainable food production will largely be determined by prevailing weather conditions (including the occurrence of extreme events), availability of water, and the judicial use of other natural resources. Changes in disease and pest complexes, and even new species, due to climate change will exacerbate the challenges of the sector. The department will have to align its service delivery agenda to "the new normal" under climate change conditions and intensify its implementation of the SmartAgri plan, and also act as lead and catalyst in the sector. Advice to farmers, decisions to be made, training to be given and projects to be planned and executed will have to be climate-smart and done against the backdrop of this plan and the ultimate goal of working towards a climate resilient agricultural sector in the Western Cape. This will also include the expansion of climate-smart agricultural practises on our own research farms. An implementation and design evaluation of the SmartAgri plan will commence in 2019/20 as one of the annual departmental evaluations to be conducted.

Budget and human capacity constraints will necessitate RTD to maintain its research portfolio and resources in a judicial way and new models of collaboration with partners will be explored to seek efficiency gains. Whole farm planning will be crucial to ensure that available on-farm resources are used in the most sustainable and optimal way.

New technology development and technology transfer advancement will be high on the agenda to serve clients with more real time information and online applications and tools. This will be executed as part of the drive of the 4<sup>th</sup> Industrial Revolution and its future role in the agricultural sector. The programmes' growing expertise in drone technology will furthermore advance the research efforts and provide data and visuals which was not possible in the past

Mega trends like shift of economic power and growth in various countries, uncertainties posed by Brexit, AGOA, the Non-Tariff Barriers to name a few force various countries to have dynamic strategies in order to adapt quickly to any new developments in the global environment. As an exporting province and sector that is vulnerable to the unstable market environment, emphasis on identification, development and optimisation of new (e.g. Africa, Middle East and Asia) and existing markets (e.g. in the European Union) will always be imperative to grow and maintain trade. Hence the department will continue to support market development initiatives that are aimed at these markets. The fragile export environment and competition that local products face from imports also calls for emphasis in market development initiatives in the local

market. The Cape Made: Taste the Alternatives platform is one of the prominent events aimed at brand awareness, market research and exhibition of locally produced products. This event is gaining momentum to the processors every year. However, continuous research efforts are investigating what products and approach to be followed to promote agricultural products from the Western Cape. Internationally, even though for a longer period the focus on compliance has been on food safety, but that has grown to include social and environmental responsibility. Hence, the department will continue to support the expansion of the Sustainability Initiative for South Africa (SIZA), and the Wine Ethical Trade Association standard. Part of future plans is to escalate the targeted programme on social and environmental compliance for smallholder farmers as it is an area of concern revealed by the land reform evaluation that was conducted by the department. Attention will also be given to other commodities beyond the horticultural industry. Agriprocessing as a new area, will bring its own complexities with regards to standards. This will require attention as producers have to be assisted given complexity, food scares encountered across the globe and massive costs of compliance. The latter is viewed as one of the major barriers to entry by small and medium enterprises. In order to break this barrier and for proper implementation, a clear strategy on agri-processing is vital.

Support on Geographical Indications (GIs) will be provided to various industries to be able to uptake opportunities under the Economic Participation Agreement (EPA). Capacity building and awareness in this area, including trade in general, is ongoing as meaningful support to the sector is required. Furthermore, based on demand and a need for better records at farm level, the Financial Record Keeping Programme will be expanded. More attention will also be given to production records as these are also important for compliance for completeness of records. Services like these are also critical for agri-processing businesses.

The Programme: Structured Agricultural Education and Training will continue to facilitate and provide formal and non-formal training on NQF levels 1-7, with focus on youth and all farming groups in the agricultural sector in order to promote and support a knowledgeable, prosperous and competitive sector.

Efforts will intensify to strengthen industry involvement in human capital development and training provision by means of engagements and participation in subject- and curriculum committee meetings. This will contribute to continuous adjustment and re-alignment of training offerings that are best suited to industry needs.

The SAET Programme will continue to present the Learnership Programme and non-accredited short skills courses. The short skills courses will be repackaged to address the holistic training needs of different categories of farmers and workers (i.e. middle managers and supervisors) in farming and agri-businesses.

Infrastructure improvements in training facilities will continue in the forthcoming year. A significant investment will be made in further improving safety and security and access control at the main campus.

The roll-out and implementation of a comprehensive Learner and Learning Management System is in process and will be concluded during the 2019/20 financial year.

As a result of the drought experienced in the province the future focus of the Rural Development programme and the Farm Worker Development sub-programme specifically, will be on collaboration with other public and private stakeholders on delivery of humanitarian relief to agri-workers and rural communities. The geographical focus of Census rollout will largely be dictated to the areas most affected by the drought, starting with the West Coast and Central Karoo districts, to enable further development of the agri-worker database and farm register that could assist in disaster management efforts and further farmer support and development services.

Key pressure points identified by the Census include rural youth unemployment, poor education levels, early childhood development, substance abuse etc. as areas that require ongoing attention. The Rural Development programme will therefore continue to focus its efforts, using the coordination forums and resources, to address these issues as priorities.

The Provincial Rural Development Workgroup was established to influence improved rural spatial targeting amongst the departments operating in the province to secure relevant resource allocation and output in rural areas, as this is currently lacking. This will also contribute to the achievement of National Outcome 7 (NO7) imperatives.

#### 4.5 Public Private Partnerships

No public private partnerships were entered into in the year under review.

#### 4.6 Discontinued activities/activities to be discontinued

No activities were discontinued.

#### 4.7 New or proposed activities

Agri-processing which was added to the AES Programme through a national coordination process, is still viewed as new; the structural configuration and a proper budget to execute the mandate are still a challenge. This sub-programme is very critical for the realisation of objectives of the National Development Plan and strategies such as the Revitalisation of Agriculture and Agro-processing, Agricultural Policy Action plan, and Project Khulisa. These have highlighted the importance of value chain approach with specific focus on agri-processing for job creation. This is also a priority and will become a long term commitment for the Department and hence funds to an amount of R3 004 million have been made available at east for the top structure i.e. for the Director and the assistant.

Furthering the Rural Development mandate, in terms of its social facilitation focus will become increasingly important as democracy matures. Supporting and developing the role of civil society, in collaboration with the public and private sector, in order to encourage meaningful social and economic transformation is critical to stability in the province and the country. Creating support mechanisms, both formal and informal, leading to capacity development within civil society will be a focus. Such support will be sought by way of collaboration with credible institutions that are experienced and have credibility operating in this environment. This function has been funded as a priority allocation within the department.

The provincial Agri-worker Household Census is scheduled to continue in the 2019/20 financial year. In an effort to improve the value added by this initiative and contribute to senior officials' understanding of the complexity and depth of the agri-worker profile, the department is exploring the development of a mobile phone application that will enable accessibility down to ward level data. Making the data available even through offering statistical support to stakeholders in order to drill down into the data will enable more pointed and appropriate service delivery across departments. More detailed engagement with individual departments, municipalities and stakeholders on the findings of the census will take place during the 2019/20 financial year. The development of this application is funded as part of the suite of strategic projects undertaken in response to the Census findings within the Farm Worker Development Directorate.

#### 4.8 Supply chain management

No unsolicited bid proposals were received for the financial year 2018/19.

Supply Chain Management processes are documented in the Accounting Officer System and its approved delegations that was last reviewed on 18 December 2018. These processes are set out in these prescripts to prevent irregular expenditure.

Various challenges are being experienced with new Supply Chain Management reforms and the implementation thereof. The department resolves the challenges as a collective with the Provincial Treasury and other provincial departments. The means on resolving these challenges is documenting the position of the province and presenting it to cabinet for a policy decision. The department then executes the policy decision and operates within these confines.

#### 4.9 Gifts and Donations received in kind from non-related parties

Gifts, donations and sponsorships to the amount of R2.441 million were received from non-related parties Annexure 1H to the financial statements in part E provides a complete breakdown in this regard.

#### 4.10 Exemptions and deviations received from the National Treasury

Exemption was received from National Treasury from using suppliers on the Central Supplier Database for all high sites radio transmitters.

#### 4.11 Events after the reporting date

The Auditor-General of South Africa has submitted this department's Audit Report for the 2016/17 financial year on 31 May 2018. This was despite the department's disagreement on their assessment of the department's accounting treatment of transfer payments and their view on the principal-agent principle. The Auditor-General has decided to qualify their opinion of the department's Annual Financial Statements for 2016/17 on these two principles. After various failed attempts to solve this dispute, the department has decided to seek the intervention of a competent court of law for relief regarding this impasse. The Auditor-General has repeated his opinion for the 2017/18 period and now for the Annual Financial Statements for 2018/19 that are attached. The department will also seek relief regarding this in due course.

#### 4.12 Other

With regards to the CASP, R316.254 million was received in schedule 5 of the Division of Revenue Act. The amount of R122.013 million was spent on black subsistence, smallholder and commercial farmers for empowerment projects, mostly on infrastructure needs. All funds were spent. On training R5.413 million was received of which R1.442 million was unspent and asked to be rolled over, and R17.207 million on disasters, also through CASP. All objectives of black subsistence, smallholder and commercial farmers, as well as training, were met or close to being met. The unspent amount for the disaster (flood relief) funds was for unfinished civil works which is expected to be finished by 31 March 2020. Eleven projects were completed already, but as this is a multi-year project, all objectives were not met as yet. Furthermore, R170 million was received during the adjusted estimate (January 2019) and R1.305 million for fire disasters at Knysna. All were transferred by year-end.

In terms of schedule 5 of the Act, R46.678 million was received in terms of the LandCare Grant Programme. The total amount was transferred on 31 March 2019. All objectives were met or close to being met.

In terms of schedule 5 of the Act R55.662 million was received in terms of the Ilima Letsema grant. The total amount was spent as on 31 March 2019. All objectives were met or close to being met.

In terms of schedule 5 of the Act, R2.154 million was received in terms of EPWP. The total amount was spent as at 31 March 2019. All objectives were met or close to being met.

An amount of R38 million was received and spent by year-end through schedule 7 of the Division of Revenue Act for disaster (drought) funds from the Department of Cooperative Governance and Traditional Affairs.

An evaluation report for each of the above schedule 5 grants was submitted to the DAFF as well as to the national Department of Public Works in terms of DORA.

All the above transfers were paid into the primary provincial bank account as prescribed.

All cost containment measures were taken up in departmental policies and vigorously pursued.

#### 4.13 Acknowledgement/s or Appreciation

At the start of the 2018/19 financial year the Department prepared an Annual Performance Plan to indicate its objectives for the year. This set the framework for implementation of indicators and service delivery to an array of clients. This Annual Report is a reflection of the team effort which went into the work to achieve these indicators and the achievement of objectives. So I would like to express my sincere appreciation to all the officials of the Department for delivery on the plan of 2018/19, as without them, the plan would have been obsolete, and just a good plan.

Last but not least, to the clients of the Department and the stakeholders, your constant support (not always positive) and commitment to work with us, are appreciated. There are still many challenges ahead, but together we can make the development path go faster and better, for all of us in the Province.

#### 4.14 Conclusion

This Annual Report presents a picture to the readers of what the Department has done with the approved budget within the Annual Performance Plan. It also highlights the targets achieved, but in essence also reminds the Department what is still required in a process of progressive realisation to ensure that the Agriculture sector continues on a path of development that ultimately delivers on the vision of a united, responsive, and prosperous agricultural sector in balance with nature.

#### 4.15 Approval and sign-off

The Annual Financial Statements set out on pages 228 to 311 have been approved by the Accounting Officer.

(Ms) JS Isaacs

Accounting Officer

Department of Agriculture

Date: 23 August 2019

# 5. STATEMENT OF RESPONSIBILITY AND CONFIRMATION OF ACCURACY FOR THE ANNUAL REPORT

To the best of my knowledge and belief, I confirm the following:

All information and amounts disclosed throughout the annual report are consistent.

The annual report is complete, accurate and is free from any omissions.

The annual report has been prepared in accordance with the guidelines on the annual report as issued by National Treasury.

The Annual Financial Statements (Part E) have been prepared in accordance with the modified cash standard and the relevant frameworks and guidelines issued by the National Treasury.

The Accounting Officer is responsible for the preparation of the annual financial statements and for the judgements made in this information.

The Accounting Officer is responsible for establishing, and implementing a system of internal control that has been designed to provide reasonable assurance as to the integrity and reliability of the performance information, the human resources information and the annual financial statements.

The external auditors are engaged to express an independent opinion on the annual financial statements.

In my opinion, the annual report fairly reflects the operations, the performance information, the human resources information and the financial affairs of the department for the financial year ended 31 March 2019.

Yours faithfully

(Ms) JS Isaacs Accounting Officer

Date: 31 May 2019

#### 6. STRATEGIC OVERVIEW

#### 6.1 Vision

A united, responsive and prosperous agricultural sector in balance with nature.

#### 6.2 Mission

Unlocking the full potential of agriculture to enhance the economic, ecological and social wealth of all the people of the Western Cape through:

- Encouraging sound stakeholder engagements;
- Promoting the production of affordable, nutritious, safe and accessible food, fibre and agricultural products;
- Ensuring sustainable management of natural resources;
- Executing cutting edge and relevant research and technology development;
- Developing, retaining and attracting skills and human capital;
- Providing a competent and professional extension support service;
- Enhancing market access for the entire agricultural sector;
- Contributing towards alleviation of poverty and hunger, and
- Ensuring transparent and effective governance.

#### 6.3 Values

Caring: We care for those we serve and work with.

Competence: We will ensure that we have the ability and capability to do the job we were employed

to do.

Accountability: We take responsibility.

Integrity: We will be honest and do the right thing.

Innovation: We will be open to new ideas and develop creative solutions to problems in a resourceful

way.

Responsiveness: We will serve the needs of our citizens and employees.

## 7. LEGISLATIVE AND OTHER MANDATES

#### 7.1 Constitutional mandates

The WCDoA derives its Constitutional mandate largely from Section 104 (1) (b) of the South African Constitution (Act 108 of 1996) which conveys the power to provinces to pass legislation on any functionality listed in schedules 4A (concurrent) and 5A (exclusive provincial). Concurrent functions include agriculture, animal and disease control, disaster management, environment, regional planning, soil conservation, trade, tourism as well as urban and rural development. Exclusive provincial mandates include provincial planning, abattoirs and veterinary services.

The Constitution also provides the framework within which this concurrency must be executed. Section 40 of the Constitution constitutes government at national, provincial and local spheres. It also indicates that government at these spheres should be distinctive, interdependent and interrelated. Section 41 (2) of the Constitution rules that an Act of Parliament must regulate the relationship between the three spheres of Government, which resulted in the Intergovernmental Relations Framework Act (Act 13 of 2005). This Act

makes provision for a number of platforms where functional and coordination issues can be discussed between the various spheres of Government.

No overview of the Constitutional mandate of the Department can be complete without referring to the Bill of Rights (Chapter 2) and the responsibility it conveys onto officials. Of most relevance to the Department is rights such as fair labour relations (employers and employees) (Article 23), protected environment (Article 24), property ownership (Article 25), food and water (Article 27) and just administrative action (Article 33).

Finally, the Constitution of the Western Cape, Act 1 of 1998, also guides the policies strategies and activities of the Department.

### 7.2 Legislative mandates

- Adult Basic Education and Training Act (Act 52 of 2000)
- Agri-BEE Transformation Charter (Under Act 53 of 2003)
- Agricultural Products Standards Act (Act 119 of 1990)
- Agricultural Produce Agents Act (Act 12 of 1992)
- Animal Diseases Act (Act 35 of 1984)
- Animal Identification Act (Act 6 of 2002)
- Aquatic Animal Health Code of the World Organisation for Animal Health (OIE – Office International des Epizooties)
- Basic Conditions of Employment Act (Act 75 of 1997)
- Broad Based Black Economic Empowerment Act (Act 53 of 2003) (as amended by Act 46 of 2013)
- Codex Alimentarius of the World Health Organisation (International Code of Food Safety)
- Companies Act (Act 71 of 2008)
- Compensation for Occupational Injuries and Diseases Act (Act 130 of 1993)
- Conservation of Agricultural Resources Act (Act 43 of 1983)
- Consumer Protection Act (Act 68 of 2008)
- Cooperatives Act (Act 14 of 2005)
- Division of Revenue Act (Annually)
- Employment Equity Act (Act 55 of 1998)
- Employment of Education and Training Act (Act 76 of 1998)
- Extension of Security of Tenure Act (Act 62 of 1997)
- Fertilisers, Farm Feeds, Agricultural Remedies and Stock Remedies Act (Act 36 of 1947)
- Further Education and Training Act (Act 98 of 1998)
- General and Further Education and Training Quality Assurance Act (Act 58 of 2001)
- Government Employees Pension Law (1996)
- Government Immovable Asset Management Act (Act 19 of 2007)
- Higher Education Act (Act 101 of 1997)
- Income Tax Act (1962 4th standard)
- International Code for Laboratory Diagnostic Procedures for Animal Diseases of the World Organisation for Animal Health
- International Sanitary and Phytosanitary Code of the World Trade Organisation

- Labour Relations Act (Act 66 of 1995)
- Land Reform Act (Act 3 of 1997)
- Land Use Planning Act (Act 3 of 2014)
- Liquor Products Act (Act 60 of 1989)
- Marketing of Agricultural Products Act (Act 47 of 1996)
- Meat Safety Act (Act 40 of 2000)
- Medicines Control Act (Act 101 of 1965)
- Merchandise Marks Act (Act, 17 of 1941)
- National Archives Act (Act 43 of 1996)
- National Disaster Management Act (Act 57 of 2002)
- National Education Policy Act (Act 27 of 1996)
- National Environment Management Act (NEMA) (Act 107 of 1998)
- National Qualifications Framework Act (Act 67 of 2008)
- Natural Scientific Professions Act (Act 20(3) of 2003)
- National Water Act (Act 36 of 1998)
- Occupational Health and Safety Act (Act 85 of 1993)
- Preferential Procurement Policy Framework Act (Act 5 of 2000)
- Prevention of Illegal Evictions from and Unlawful Occupation of Land Act, (Act 19 of 1998)
- Promotion of Access to Information Act (Act 2 of 2000)
- Promotion of Administrative Justice Act (Act 3 of 2000)
- Protection of Personal Information Act (Act 4 of 2013)
- Public Finance Management Act (Act 1 of 1999 as amended by Act 29 of 1999)
- Public Holidays Act (Act 6 of 1994)
- Public Service Act (Act 103 of 1994)
- Public Service Commission Act (Act 46 of 1977)
- Rules relating to the practising of veterinary professions (GNR.2086 of 1 October 1982).
- Rules relating to the practising of the para-veterinary profession of veterinary technologist (GNR.1065 of 17 May 1991).
- Rules relating to the practising of the para-veterinary profession of animal health technician (GNR.770 of 24 August 2007).
- Sanitary and Phyto-Sanitary Agreement of the World Trade Organisation
- Skills Development Act (Act 97 of 1998)
- Skills Development Levies Act (Act 9 of 1999)
- South African Qualifications Act (Act 58 of 1995)
- Spatial Planning and Land Use Management Act (Act 16 of 2013)
- Subdivision of Agricultural Land Act (Act 70 of 1970)
- Terrestrial Animal Health Code of the World Organisation for Animal Health (OIE Office International des Epizooties)

- Trade Mark Act (Act 194 of 1993)
- Trade Practises Act (Act 76 of 1976)
- Veterinary and Para-Veterinary Professions Act (Act 19 of 1982)
- Veterinary and Para-Veterinary Amendment Act, 2015 (Act 16 of 2012)
- Waste Act (Act 59 of 2008)
- Water Services Act (Act 108 of 1997)
- Western Cape Appropriation Act (Annually)
- Western Cape Direct Charges Act (Act 6 of 2000)
- Western Cape Land Use Planning Act (Act 3 of 2014).

### 7.3 Policy mandates

#### International

- The Comprehensive Africa Agricultural Development Programme (CAADP)
- Africa Union Agenda 2063
- SADC Industrialization Strategy and Roadmap: 2015 2063
- Sustainable Development Goals (SDG)

#### **National**

- Agricultural Policy Action Plan (APAP)
- Animal Welfare Strategy of DAFF (2014)
- Comprehensive Agricultural Support Programme (CASP)
- Comprehensive Rural Development Programme (CRDP)
- Comprehensive Producer Development Support policy
- Compulsory Community Service for veterinarians
- DRDLR: Rural Development Framework (2013)
- Extension Revitalisation Programme (ERP)
- Extension and Advisory Services Policy
- Extended Public Works Programme (EPWP)
- The National Policy on Food and Nutrition Security for the Republic of South Africa
- Fetsa Tlala Programme
- Further Education and Training Framework
- Game Regulations

- Governance and Financing Framework for ATIs of South Africa
- Higher Education Policy Framework
- The Higher Education Qualifications Framework
- Ilima/Letsema Programme
- Independent Meat Inspection
- Industrial Policy Action Plan (IPAP)
- Integrated Food Security and Nutrition Programme
- Integrated Food Security Strategy of South Africa
- Integrated Growth and Development Plan (IGDP)
- Medium Term Strategic Framework
- National Abattoir Rating Scheme
- National Agricultural Research and Development Strategy
- National Articulation Framework for Agricultural training programmes
- National Development Plan 2030 (NDP)
- National Education and Training Strategy for Agriculture, Forestry and Fisheries (2015)
- National Infrastructure Plan (NIP)
- National Mentorship Framework for the Agricultural Sector
- National Programme of Action with its 14 National Objectives (NO)
- National Qualifications Framework (NQF)
- National Strategic Plan for HIV and AIDS
- Norms and Standards for Agricultural Extension
- Norms and Standards for Agricultural Training Institutes of South Africa
- Norms and Standards for Educators
- Occupations Qualifications Framework (OQF)
- Primary Animal Health Care Policy of DAFF
- Proactive Land Acquisition Strategy (PLAS)
- Revitalisation of the Agriculture and Agri-processing Value Chain (RAAVC)

- Settlement Implementation Strategy
- South African Qualifications Authority (SAQA)
- Strategic Infrastructure Projects (SIP) flowing from the NDP.

#### **Provincial**

- OneCape 2040 Provincial Spatial Development Strategy
- Provincial Delivery Plan (PDP)
- Provincial Strategic Plan (PSP)
- Integrated Development Plans of Local Government
- Priorities identified during the annual Joint Planning Initiative (JPI) with municipalities
- Provincial Spatial Development Strategy
- Western Cape Agricultural Sector Climate Change Framework and Implementation Plan (SmartAgri) (2016)
- Western Cape Green Economy Strategy Framework
- Western Cape Climate Change Response Strategy (2014)
- Western Cape Response to the Agricultural Policy Action Plan (WCAPAP).

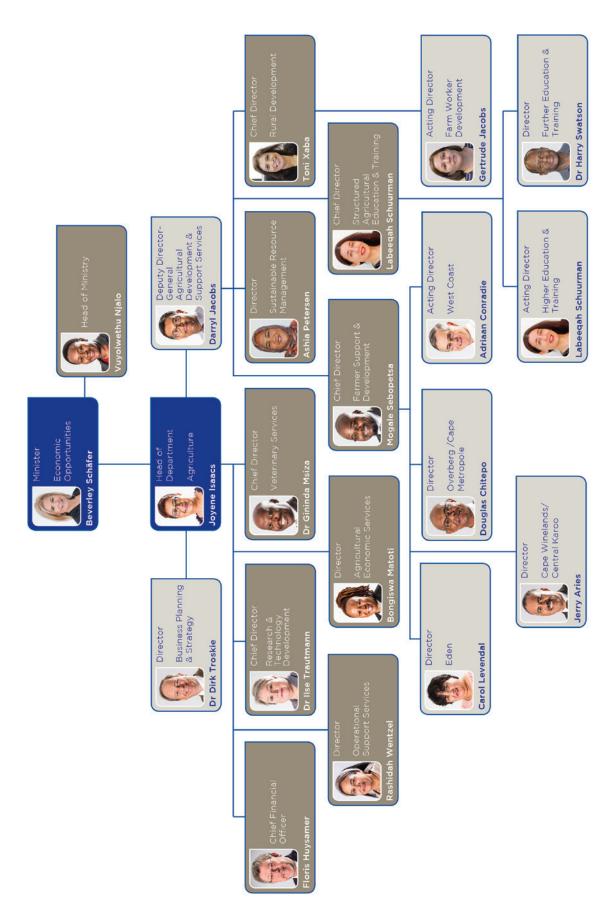

#### 7.4 Relevant court rulings

Subdivision of Agricultural Land Act (Act 70 of 1970): Stalwo v/s Wary: The owner sold portions of undivided agricultural land to be rezoned for industrial purposes. The legality of the contract was contested in court and the High Court ruled that since Sub-division of Agricultural Land Act (Act 70 of 1970) was applicable the contract was not binding. The Appeal Court thereafter set that ruling aside, which caused the status of the Sub-division of Agricultural Land Act (Act 70 of 1970) to be questioned. The Constitutional Court, however, set the Appeal Court ruling aside. Agriculture is a concurrent function and involves all three spheres of government.

The latest court decisions: Lagoon Bay Lifestyle Estates vs The Minister of Environmental Affairs and Development Planning and others; as well as the Habitat Council vs the Minister of Environmental Affairs and Development Planning and others have particular implications. These rulings, combined with the implementation of SPLUMA, means that decision making powers are transferred from the DEADP (as custodian of spatial planning) to the Local Authorities (Municipalities).

This has a huge impact on the way the WCDoA assess applications. DEADP is custodian of spatial planning whilst the Municipal Systems Act guides the way local governments view an application. The implication is that good working relations must be built and processes aligned to apply spatial planning and decision-making uniformly in the Province.

## 8. ORGANISATIONAL ORGANOGRAM

#### 9. ENTITIES REPORTING TO THE MINISTER

| Name of Entity  | Legislative<br>Mandate            | Financial<br>Relationship | Nature of Operations   |
|-----------------|-----------------------------------|---------------------------|--|
| Casidra SOC Ltd | Companies' Act,<br>Act 71 of 2008 | 100%<br>Shareholding      | Poverty alleviation through economic growth;  Development of human resources through training and empowerment;  Financial independence through restructuring; and effective business management. |

The total shareholding in Casidra SOC Ltd is with the Provincial Government of the Western Cape under the oversight of the Provincial Minister of Economic Opportunities.

Casidra SOC Ltd is structured as a state owned company under the Companies' Act, 2008, (Act 61 of 1973, now Act 71 of 2008) with a unitary Board of Directors. The organisational structure comprises of a General Manager, responsible for operational activities, and a Chief Financial Officer responsible for finance and administration, both reporting directly to the Chief Executive Officer as Chief Executive.

Casidra SOC Ltd is a schedule 3D company (Provincial Government Business Enterprise) under the Public Finance Management Act (Act 1 of 1999). This status has been assessed together with their current structure and financial viability.

The mandate of this institution is to conduct agricultural and economic development within the rural and land reform context, in terms of Resolution 271/2007 as approved by Cabinet.

It is the mission of Casidra SOC Ltd to improve the quality of life of particularly the low-income bracket of the population, mainly in the rural areas of the Western Cape through integrated, people-orientated development, thereby aiding the establishment of self-sufficient communities.

# PART B: PERFORMANCE INFORMATION

#### 1. AUDITOR GENERAL'S REPORT: PREDETERMINED OBJECTIVES

The AGSA currently performs certain audit procedures on the performance information to provide reasonable assurance in the form of an audit conclusion. The audit conclusion on the performance against predetermined objectives is included in the report to management, with material findings being reported under the Predetermined Objectives heading in the Report on other legal and regulatory requirements section of the auditor's report.

Refer to paragraphs 15-22 of the Report of the Auditor-General on Pages 224-225, published under Part E: Financial Information.

#### 2. OVERVIEW OF DEPARTMENTAL PERFORMANCE

## 2.1 Service Delivery Environment

Greater resource efficiency insofar as water and energy are concerned have been achieved. However, the recent power outage has revealed that further energy-saving infrastructure will be necessary to ensure continued service delivery at time of crisis.

The introduction of the Graduate Placement Programme, funded by DAFF through the CASP fund has provided workplace experience to 120 young agricultural graduates. Although it is an enormous task added to already limited human resources capacity, the partnerships with farmers, or industry partners as mentors and host employers assisted considerably in this regard.

Despite the high unemployment amongst the youth it took at least four advertising attempts that included electronic and print media to eventually recruit the said target of interns. Even then the amount of youth from this province was limited. The advertising and marketing efforts for the next intake will be more extensive.

The programme: Sustainable Resource Management provided a support service to enhance the sustainable utilisation of natural agricultural resources and to conserve the environment within the context of the Climate Change phenomenon. The FruitLook real time web application, through which irrigators are provided weekly with updated information on the actual water use of their crops and eight other growth parameters, continued and provided the data to all fruit crop orchards/vineyards covered by the satellite image. The FruitLook project now covering all the major irrigation areas of the Western Cape annually runs from 1 August to 31 July of the next year.

SRM, through its Engineering Services, provided engineering support services to enhance environmentally and economic sustainable farming practices (such as conservation agriculture) in order to prevent pollution through agricultural activities and to increase water use efficiency of all irrigation farmers. Dry land grain and rooibos tea farmers and emerging farmers were provided with a mechanisation support service. In total, 289 engineering support initiatives were rendered (investigation reports, designs and completion certificates) to our clients and farmers. Additionally, a total of 273 clients were provided with ad hoc engineering advice or training to increase their production.

The programme facilitated financial support to the value of R8 700 000 to the Lower Olifants Water User Association (LORWUA) for the development of groundwater boreholes for emergency bulk water supply. In total, 16 boreholes were drilled of which six are being developed as production boreholes. The full extent of this project was amended as the 2018 winter rains brought much relief so that water restrictions in the Olifantsriver catchment could be lifted.

Additionally, the programme also supported LORWUA with R3 026 000 for the construction of preventative maintenance on the very old concrete canal lining system which is the sole bulk water conveyance system in the Matzikama municipal region supplying bulk water to agriculture and eight rural towns.

The current drought situation in the province has placed a heavy burden on the department's human resources to conduct LandCare services and has required the department to organise its resources to

address the extra requirements of servicing clients during the drought. The flood works have also required the department to concentrate human resources on these important works that will protect the agricultural soil and infrastructure.

Disaster Risk management currently has two permanent people appointed on the structure (i.e. an administrator and a sub-programme manager). This unit cannot cope due to the limited capacity to meet the increase in demand for services for the entire Western Cape, especially with regards to mitigation of natural disasters (i.e. major fires, flash floods, the prevailing drought etc.) that affect the Agricultural sector at large.

The department continued with the implementation of the commodity approach strategy for the commercialisation of land reform farmers. The department had partnered with 10 commodity organisations aimed at strengthening the support delivered to reform farmers through the provision of mentorship support and access to markets. The commodity approach is simply an institutional arrangement that draws in multiple spheres of government and the private sector, each understanding their unique roles, working from the same plan, towards achieving the same outcomes. In addition, the programme had continued to provide targeted support to the 50 black commercial farmers identified in line with the DAFF's Black Producers Commercialisation Programme (BPCP).

The sub-programme: Farmer Settlement and Development delivered the following outputs for the reporting period 2018/19: fifty-four (54) smallholder producers supported; ninety-one (91) farm plans completed; fifty-eight (58) commercial farmers supported and 95 farm assessments completed. The sub-programme exceeded most targets due to support received from the commercial sector organised through the commodity approach. However, the target relating to number of commercial farmers supported could not be realised due to the persisting drought in some parts of the province and the postponement of poultry projects due to disease outbreak.

The sub-programme: Extension and Advisory Services delivered the following outputs for the reporting period 2018/19: ninety-six (96) agricultural demonstrations, thirty-five (35) farmers' days facilitated, eighty (80) skills audits completed, forty-nine (49) projects supported with mentorship and 4 445 farmers were supported with advice. The sub-programme exceeded most of its targets due to support received from the commodity partners, in the form of training and delivery of commodity-focused extension and advisory services.

The sub-programme: Food Security delivered the following outputs for the reporting period 2018/19: sixty-four (64) community food security projects, eighteen (18) school food garden projects, one-thousand and seventy seven (1077) households were supported through the suitcase programme and 4475,9 ha cultivated for food production in communal areas and land reform projects. The sub-programme exceeded targets relating to hectares planted and community and school food gardens, due to support received from the commodity organisation and private sector partners within the food security space.

As a contribution towards the realisation of the Sustainable Development Goal 2 (zero hunger) in particular, the programme championed the commemoration of the national World Food Day event held on 24 October 2018 in Brandwacht, Mosselbay Municipality. As a contribution towards food and nutrition security, the department supported a total of four community food gardens and 151 households with the means to produce their own food for food security. The WFD event was delivered in collaboration with the DAFF, Department of Water and Sanitation, Mosselbay Municipality, South African Breweries (SAB) and civil society structures involved in the food security space.

Sub-programme: Export Control of Programme: Veterinary Services experienced difficulties in the absence of a formal data management system for recording, managing and reporting data on export control activities.

Access of Province's exporters to international markets are constrained by the challenged capacity in the National Department of Agriculture, Forestry and Fisheries [DAFF] to negotiate export access with trade partners. Challenges by DAFF to implement the National Chemical Residue Plan [NCRP], an essential requirement to be able to export ostrich meat and meat products to the European Union, resulted in suspension of exports to Europe. This had a devastating effect on the ostrich industry in the province.

The continuing outbreak of Highly Pathogenic Avian Influenza [HPAI] on ostrich farms in the province and the outbreak of Foot and Mouth Disease [FMD] in January 2019 had a marked influence on the quantities of ostrich meat and red meat exported from the province during the year.

This year saw the implementation of Independent Meat Inspection [IMI] at abattoirs in the province. This is an important new policy direction for the country that, while improving food safety controls for meat produced in the province, also requires alignment by the Department to ensure the proper management of the implementation in the province.

In the fourth quarter, WCDoA received 26 Compulsory Community Service [CCS] Veterinarians. The CCS Veterinarians are deployed in areas where the department must expand the delivery of veterinary services. They were spread throughout the province. They play a major role in government sponsored projects by providing veterinary clinical services. The CCS veterinarians are also used in assisting the Department of Correctional Services in their livestock and poultry farms in rendering professional veterinary services such as Herd Health and where possible clinical services.

The Sub-programme: Animal Health in compliance with National legislation, received almost 200 applications for Performing Animal Protection Act [PAPA] licences, since implementation of the Act in late 2017. In the past these licences were issued by the local Magistrate on application but the amended PAPA Act now stipulates an extensive list of items with which must be complied. In the meantime, all State Veterinarians in Animal Health are administering the Act. CCS veterinarians are also utilised for that purpose.

The main services of the programme RTD focussed on the following:

- 1) Providing cutting-edge research and technology to commercial and small holder farmers and other stakeholders through a client-focused and problem-driven research and technology development portfolio executed by the directorates for Animal Sciences, Plant Sciences and Research Support Services. The research agenda had been consulted with the respective commodities at various forums and contact sessions and was aligned to the research needs of the said commodity. Twenty meetings with industry organisations were held to discuss research needs. The year started with 73 projects and 18 new projects were approved, bringing the total number of projects at the end of 2018/19 to 91. Services also included a spatial analysis (GIS) and risk and potential management support and an analytical service for soil, water, plant samples and plant disease diagnostics to assist stakeholders in decision making in terms of available resources and applications of fertiliser and agro-chemicals. The challenge of climate change has brought a renewed focus on resource and climate-smart agricultural production and strategic leadership and research outputs remained pivotal to build climate change resilient farmers and agri-workers. In order for agricultural producers (commercial and small holder) to increase their production, lower input cost and higher output (production) technology is of pivotal importance. In this regard, resource scientists excelled in new decision support tools for farmers, whilst animal and plant scientists were working in close collaboration with commodity organisations to develop new technologies with higher production and lower input possibilities.
- 2) Disseminating and communicating appropriate new and adapted technology and scientific information in the form of user-friendly information packages, scientific and popular publications, target-group focused information days and exhibitions, on-farm "walk and talks" and radio talks. Information emanating from research was disseminated to clients in a comprehensive technology transfer portfolio, which ranged from one-to-one sessions, walk and talks, radio talks (20), presentations at farmers' and other information sessions (162), organising of technology transfer events (17), popular publications (104), information packs (14), to the very scientific forms of technology transfer, including papers and posters at conferences (43) and scientific papers (33). Twelve agricultural condition and 12 climate reports were also designed and disseminated. The need for online tools, web applications and updated website information has increased substantially and will take the technology transfer drive to another level of innovation and client satisfaction.
- 3) Providing research and infrastructure support services to the two research directorates, other departmental programmes and external research institutions and clients from seven research farms. These farms were maintained and strategically upgraded to support the research efforts to its fullest. Fourteen technical committee meetings were held on the farms and coordinated the research effort and infrastructure needed.

The sustainability of the farms also received renewed attention and several measures were implemented in this regard. Furthermore, the prevailing drought in the Western Cape had a significant effect on pastures and water availability for crop and livestock trials. The increase in theft on research farms is also of concern and a substantial amount had to be spent on replacement of items, repair of equipment and security measures.

Globally, the economic conditions have proven to be tougher. The challenge is added by uncertainty due to political developments like Brexit, China trade wars and the fragile AGOA etc. These are envisaged to complicate the trade arena in the near future and need to be properly studied. The economic and political uncertainty in South Africa were also felt, especially the impact on foreign direct investment. Regardless, the Agribusiness Investment Unit facilitated about R653 942 142 million value of committed investment into the agriculture and agribusiness sector. This is mainly ascribed to local investors and expansion projects. The weak exchange rate, increasing fuel prices and increasing electricity prices all have an impact on the work of Programme AES. Additional encounters like load shedding also has a serious impact on service delivery because the timing of it was such that many farmers had to spend considerable amounts on extra fuel, generators and solar panels to keep pumps and packhouses operating during harvest. These continued fluctuations hamper sound planning and require regular updates on some of the work conducted by agricultural economists.

Programme AES also has the responsibility to facilitate access to the DAFF AgriBEE fund. Even though the fund was uplifted during the third quarter of 2017, no projects have been approved to date. A lot of resources went on assisting the projects that were previously approved but never received funding as the suspension was just after their approval. This had major implications for transformation especially for the Western Cape given that the four projects that were approved at the time were all from the province and more others that were still in DAFF application processes. Furthermore, the information sources used to compile various economic reports are on a user-pay basis and require considerable budgets to get the most relevant information. This is also worsened by outdated information from Statistics South Africa and at times being unable to update certain reports with the latest information because the data is not available on time and if available is not up to standard. The drought situation in the Western Cape had an impact not only on farmers but also on the services of the department as it resulted in increased demand for certain services therefore putting a lot of strain on other service offerings. However, with better management of resources this could be contained to a certain degree. On a positive note, the recovery from the 2017/18 drought is set to continue with the latest economic growth and job numbers confirming this trend. Since 2014, agri-processing workers increased by 16.8% while the Gross Value Added increased by 2.6%.

The Programme Structured Agricultural Education and Training provided accredited and non-accredited education and training programmes and skills training on both HET and ASD bands to participants in the agricultural sector in the Province.

The Programme provided four curricular offerings on Higher Education and Training level namely, B.Agric, Certificate in Horse Mastership and Preliminary Riding Instruction, Diploma in Agriculture and Cellar Technology and a Higher Certificate in Agriculture to 479 students. A total of 122 students graduated from HET-programmes in 2018.

Non-formal skills training programmes were presented and 2720 beneficiaries benefitted from this training.

A total of 63 learners registered at the beginning of the 2019 academic year and 54 students successfully completed the Learnership programme at the end of 2018. Furthermore, twenty-two (22) students articulated to Higher Education and Training, based on their performance.

As practical facilities and sufficient practical exposure remains a challenge for various reasons, the placement of Learnership students on farms to ensure Workplace Integrated Learning is still maintained and ASD continues the strengthening of partnerships with the industry and host employers.

The Revitalisation Plan for the colleges of agriculture has been gradually implemented. Earmarked CASP funding was used to fund the implementation of the different pillars of the revitalisation plan. Security at the campus, specifically construction of a new security entrance, received priority.

Actions as determined by the Transformation Action Plan for 2018/19 were completed and will continue in the 2019/20 financial year.

Rural development is complex and the scope spans across the functionality of the three spheres of government, private sector and civil society. The department has been mandated to coordinate rural development in the province, however, this presents a number of challenges mainly centred around the lack of integrated planning and rural spatial targeting within government and accountability, across departments. The capacity of grassroots communities, politics and the readiness to engage the private sector for meaningful investment are also among the challenges.

The department, through its Rural Development programme, provides coordination support in the sixteen (16) prioritised rural areas in the province (CRDP nodes) through liaison with twenty eight (28) Community Representative Forums, in these communities and coordinates thirteen (13) Intergovernmental Steering Committees (ISCs). Fifty-two (52) Regional Coordination Committee engagements were facilitated across the province with the relevant government departments towards achieving a more integrated, transdisciplinary approach to development during the reporting period resulting in one-hundred and fourteen (114) projects completed in the rural development nodes, led by various stakeholders. Rural youth from the sixteen (16) prioritised rural areas participated in six (6) themed interventions focussed on capacity building and strategic planning.

The most pressing challenge has been the disjuncture and duplication amongst various rural development structures, being established at district level, stifling effective coordination across the three spheres of government. The Rural Development programme facilitated the development of the provincial Rural Development Workgroup in the absence of a much needed provincial coordination structure, to streamline efforts towards achieving National Outcome 7 and the Provincial Strategic Goals responsive to the Provincial Strategic Plan commitments. Four (4) provincial engagements, related to addressing such transversal matters relevant to rural development, have been facilitated.

In an effort to facilitate a growing and developing workforce in the sector towards successful land reform and transformation, the department's sub-programme: Farm Worker Development funded four (4) strategic training and development projects/ interventions for agri-workers and their family members. A total of three hundred and ten (310) agri-workers and family members were assisted through the referral system providing access to services offered by government departments and stakeholders. Fifteen (15) municipal engagements were facilitated with various municipalities to share the findings of the provincial-wide Agri-worker Household Census.

Sixteen (16) Western Cape Prestige Agri Awards regional competitions were facilitated and two (2) provincial engagements were hosted in the roll-out of the final adjudication in October 2018 and the Annual Western Cape Prestige Agri Awards Gala event, with a total number of one thousand three hundred and eighteen (1318) agri-workers participating. The final adjudication took place on 9 October 2018, at Kromme Rhee Training Centre. The Western Cape Prestige Agri Awards gala ceremony was hosted on the 3 November 2018, at the Nederburg Wine Estate in Paarl where Mr Isaac Ntoto, from the Garden of Eden Berries in Brandwagt Mosselbay, was announced as the overall winner for 2018.

A total of six hundred and ninety (690) guests attended the function which included agri-workers, representatives from our major sponsor: Shoprite, the MEC of Economic Opportunities: Ms Beverley Schäfer, the MEC of Community Safety: Mr Alan Winde, the MEC of Local Government, Environmental Affairs and Development Planning: Mr Anton Bredell, the MEC of Social Development: Adv Albert Fritz, the MEC for Finance: Dr Ivan Meyer, the MEC of Cultural Affairs and Sport: Ms Anroux Marais, the MEC of Education: Ms Debbie Schafer, the MEC of Transport: Mr Donald Grant, the MEC for Health: Dr Nomafrench Mbombo, Members of the Standing Committee, various provincial Heads of Departments, senior management officials, farmers, agri-worker organisations, regional agri award coordinators as well as the competition adjudicators and various industry experts. In addition, an excellent partnership with Hortgro and Vinpro has been established to present the annual 'Agri's Got Talent' event for agri-workers on 3 August 2018 where agri-workers can present their talents beyond their contributions in the agricultural sector.

## 2.2 Service Delivery Improvement Plan

The department has completed a service delivery improvement plan. The tables below highlight the service delivery plan and the achievements to date.

Main services and standards

| Main services               | Beneficiaries                          | Current/actual   | Desired standard of  | Actual achievement   |
|-----------------------------|--|--|--|--|
|                             |  | standard of service  | service  |  |
| Provide an Extension and    | Commercial farmers Smallholder farmers | a) 4015 site visits to<br>all categories of<br>farmers   | a) 4015 site visits to<br>all categories of<br>farmers   | a) 4445 site visits to all categories of farmers   |
| Advisory service to farmers | Subsistence farmers Agri               | b) 70 agricultural<br>demonstrations<br>facilitated  | b) 63 agricultural<br>demonstrations<br>facilitated  | b) 96 agricultural demonstrations facilitated.   |
|                             | processors                             | c) 28 farmer days<br>held  | c) 24 farmer days<br>held  | c) 35 farmer days held.  Targets exceeded due to an increased demand for farmers' days and demonstrations from the farmers. Visits to farmers increased to assist farmers with the help of commodity partners. |
|                             |  | d) Fully trained and equipped Extension and Advisory staff using the commodity approach together with the involvement of commodity formations, to timely render holistic services across the value chain to farmers. | d) Fully trained and equipped Extension and Advisory staff using the commodity approach together with the involvement of commodity formations, to timely render holistic services across the value chain to farmers. | d) Regular extension block periods instituted and utilised as a critical platform to strengthen extension and advisory personnel in order to render holistic services across the value chain to farmers.       |

### 2.3 Organisational environment

Greater water and energy efficiency have been achieved. The focus has been on exploring further measures of saving these resources and close daily electronic monitoring through the Livewire system. Although the implementation of time of use tariffs has produced savings, more can be achieved if the request to Eskom for further adjustments can be implemented.

The current generator system is very old and faulty at times. Further investment into appropriate technology and infrastructure such as individual battery power storage systems to ensure that critical services can continue at time of crisis, have to be considered. Discussion are underway with the Department of Transport and Public Works to reconfigure the operational functions of the current generators. Consideration to this will also be given during the Elsenburg: Modernisation project.

Although the human capital processes seem to turn slowly, 280 young persons participated in various development programmes for the period under review. An additional 120 young agricultural graduates who were funded by the Comprehensive Agricultural Support Programme (CASP) have completed their first year of a two-year internship programme with 68 farmers as mentors and external host employers. The YPP programmes have produced its first PhD student, and first African Candidate Engineer. The latter after 10 years of support since Grade 11. Demand for skills development remains high.

The OSD prescripts for engineers and engineering technicians require ECSA professional registration for new entrants to be employed full time. Despite the bursary programmes and candidate engineering initiatives instituted by the department, successful professional registration with ECSA is not guaranteed. The slow progress in this regard and the increased demand for engineering services due to the drought, placed a huge load on the very limited number of available qualified and experienced officials in the field of irrigation systems management and water resource management.

A candidate engineer was appointed for a 4-year contract term and a candidate engineering technician is being recruited. They will be given the opportunity to obtain the necessary experience for ECSA professional registration.

The services provided by the LandCare sub-Programme are under pressure due to the limited capacity to meet the increase in demand for services, especially with regards to the implementation of the drought relief scheme and the flood disaster protection works. The plan is to fill all vacant posts within the LandCare sub-programme to ensure improved service delivery.

Disaster Risk management currently has two permanent people appointed on the structure (i.e. an administrator and a sub-programme manager). This unit cannot cope due to the limited capacity to meet the increase in demand for services for the entire Western Cape, especially with regards to mitigation of natural disasters (i.e. major fires, flash floods, the prevailing drought etc.) that affect the Agricultural sector at large.

The Plan would be to create coordinator posts for each district with an assistant disaster officer as there many engagements, initial assessments, site visits, inspections and monitoring and evaluations that need to occur in order for this unit to manage more than R500 million.

The DAFF requirement for agricultural economists to register with SACNASP remained a thorny issue during the reported year. The Programme had raised the matter with DAFF with a view to revise this requirement as agricultural economists cannot be accommodated within a biological science body.

The programme RTD has progressed well with the filling of its vacancies. The 30% overtime regulation has resulted in challenges, especially in the case of milking staff at the two research dairies and planting/harvesting staff in crop production trials who need to work extra hours during the said seasons.

Challenges to recruit suitably qualified and SACNASP registered research technicians and researchers, especially black candidates, are still being experienced and for technical posts headhunting after several rounds of advertising had to be done. Despite the challenges, several vacancies were filled after retirement or resignations.

The new post of information developer was evaluated and will be filled in 2019/20 in support of the technology and information dissemination drive of the programme.

The lack of career opportunities for agricultural economists in the public sector is an ongoing concern. Some fields within agricultural economics have become scarce over time e.g. production economists in addition to quantitative analysts including statisticians, econometricians. New mandates like agri-processing require new skills altogether and is not an area that has been considered for very long by tertiary institutions for the skills set required by Programme: AES. Another biggest challenge for Programme: AES is to provide the experienced senior economists with proper reasons to stay to further their career within the Department given lack of career progression. The other is the development of relatively young agricultural economists and then to retain them for a few years. The programme experienced increased demand for certain services. Adding to these are few funded positions in Programme: AES to be able to respond to this demand

The programme: Structured Agricultural Education and Training remains challenged to recruit and retain well-skilled and experienced lecturing staff at the current salary levels. Although the post of Lecturer was job evaluated by DAFF, the recommended post level remains unchanged. This poses further challenges to the Programme, as lecturing staff become more demotivated and are exploring other options within the Department, to the detriment of the College.

The shortage of lecturing staff was augmented by appointing external training facilitators. These vacant posts place pressure on the existing staff and the Programme as a whole. Engagement with sector bodies to address some of these challenges continues, for example, the wine industry has agreed to assist with longer term solutions with regard to training in Viticulture and Oenology at the EATI.

All critical posts have been identified, funded and advertised, both academic and middle management level. Ten posts were permanently filled, which will ensure that the amount of external facilitators can be decreased.

The programme: Rural Development remains under increasing pressure with a growing awareness amongst stakeholders of the need for coordination and the 'Whole of Society Approach' to development. Due to this increasing demand, the programme's limited capacity is showing. The extent of collaboration and coordination by far outweighs the capacity of the programme and hence, it is only able to achieve limited reach. While fiscal pressures are unavoidable, the aim is to fill all funded vacancies in the 2019/20 financial year as a matter of urgency with emphasis on senior management vacancies.

#### 2.4 Key policy developments and legislative changes

Various changes have been brought about by the introduction of the Public Service regulation of 2016. Contract employment has to follow the same full recruitment process, awarding higher salaries are no longer possible except as counter offers but then the process is much stricter than before. The new functions of ethics and financial disclosure must be executed and simply have to be performed by existing staff additional to their current responsibilities. Since January 2019 staff transfers from other organs of state are regarded as "normal" transfers with the entitlement to full resettlement cost to be covered, which was not previously the case. However, some of the prescriptive changes have been positive; for example, the possibility to absorb beneficiaries of a development programme and turning transformation into permanent employment.

The Department of Water and Sanitation (DWS) embarked on studies covering the Berg River and the Breede-Gouritz River catchments in the Western Cape to determine Water Resource Quality Objectives (RQOs), which will be gazetted. Proposals to improve the environmental classification of natural resource often have significant cost implications, especially for the agricultural sector. The Programme contributed to the RQO development process and emphasised the implications for the agriculture sector.

For Land Use Management, the implementation of SPLUMA impacted on the additional processes due to the introduction of pre-application meetings and appeal processes. In view of the increase in demand as well as from a legal requirement perspective, a work study has been requested for the programme: SRM with the intention to establish a multi-disciplinary team to deal with applications for sub-division and/or rezoning of agricultural land, evaluations of and commenting on Environmental Impact Assessments (EIA) and disaster risk management.

The DAFF embarked on a process of developing a Comprehensive Producer Development Support (CPDS) policy aimed at providing a framework to harmonise, guide and regulate the development and provision of support to various categories of producers to ensure a sustainable and competitive agricultural sector. It is expected that amongst others, this policy will address areas relating to short-term insurance for smallholder farmers and provide guidance on 'graduation' of farmers based on economic indicators. In addition, the blended finance had been launched and will help leverage private sector funding support for land reform farmers in the coming years.

This year saw the implementation of Independent Meat Inspection at abattoirs in the province. This is an important new policy direction for the country that, while improving food safety controls for meat produced in the province, also requires alignment by the Department to ensure the proper management of the implementation in the province.

The rise in diesel prices and increase in VAT offset the improving exchange rates against major currencies as well as the lower than expected inflation rate. The United States of America has published on the 11 June 2018 that it is in a process of allowing citrus fruit from across South Africa to have full access into the US market. Previously, only citrus from Western Cape and Northern Cape could access US market since it is black-spot free. These are positive news for the South African Citrus fruit producers as the industry is currently in its growth stages.

The South African Parliament has passed a carbon tax bill in order to reduce the harmful carbon emissions and it will commence on 1 June 2019. Even though this might not be direct to the agricultural sector but the research conducted by Programme: Agricultural Economic Services revealed that the indirect impact will also have serious implications onto the sector. The National Energy Regulator of South Africa (NERSA) recently announced that it granted Eskom a permission to increase electricity by 4.1% which will be effective from the 1 April 2019. More so, Eskom also tabled a request for a 15% tariff increase which is still considered by NERSA. It is further indicated that for 2020 consumers can expect a double increase on inflation. Given the sector that was hit hard by the drought and in some areas has not yet recovered, will be severely affected.

The possible transfer of agricultural colleges from the Western Cape Department of Agriculture to the Department of Higher Education impact on the governance of agricultural colleges and the resource requirements of the EATI.

Furthermore all policies and standard operating procedures of the EATI will be revised in order to accommodate the new student administration system.

#### 3. STRATEGIC OUTCOME ORIENTED GOALS

## 3.1 Support the Provincial Agricultural Sector to at least maintain its export position for the next five years by growing its value added income from R16.349 billion in 2013

Engineering services were provided to departmental agricultural clients by the programme Sustainable Resource management to maintain or increase the export position and at the same time increase the feasibility and sustainability of their farming enterprises. Engineering services were provided to clients through 289 support initiatives such as investigation advisory reports, designs and completion certificates and 273 clients were provided with ad hoc engineering advice or training.

The programme continued with the implementation of the commodity approach strategy for the commercialisation of land reform farmers. The programme had partnered with 10 commodity organisations aimed at strengthening the support delivered to land reform farmers through the provision of mentorship support and access to markets. The commodity approach is simply an institutional arrangement that draws in multiple spheres of government and the private sector, each understanding their unique roles, working from the same plan, towards achieving the same outcomes. Accordingly, a total of 112 projects had been supported during the year reported on as follows: 3 Wine grapes, 32 Fruit, 2 Citrus, 6 Table grapes, 15 Grain, 14 Vegetables, 24 Red meat (beef and sheep), 16 White meat (piggery and poultry). Through the commodity approach, a total of 49 mentors were linked with smallholder to help facilitate access to markets which is critical for sustainability of businesses. It must be mentioned that these mentors are not paid by the department nor the farmers, but it's a contribution and commitment from the commodity organisations.

The Sub-programme: Export Control of Programme: Veterinary Services continued to deliver export certification services to the more or less hundred exporters of animal products, both edible and inedible in the Western Cape Province.

Research on market access opportunities and challenges is key to the successes of small holder and commercial farmers. Market access not only includes focus areas like accessing new or previously inaccessible markets, but also focuses on the specifications and compliance of products to successfully enter these markets. In this regard the department has played a leading role in contributing to the setting of standards and providing support to industries. The programme RTD has contributed to the industry standards of various commodities, with special focus on the livestock industry, and has also continued with the refinement of biosecurity measures of the ostrich industry as a prerequisite for entering the EU market. Research to improve ostrich leather quality with better production practises, has also contributed to higher quality skins and better prices being obtained. Furthermore, our small stock breeding programme is supporting better fine wool quality for the export market. The Alternative Crops Fund (call five concluded in 2018/19) is supporting the smaller and niche alternative crop industries to do pivotal research towards production and market access, both locally and internationally.

During the course of 2018, more than R5,3 million that had been invested on market development initiatives benefitted 113 companies. These include local events like the Cape Made: Taste the Alternatives pavilion that has been held at the Cheese Festival. Targeted interventions for small holder farmers like the Market Access Programme are also part of this. Complementary, 31 market information reports have been produced and disseminated during this year. Supporting new and growing markets within BRICS and Africa are on top of the agenda of the Western Cape Department of Agriculture. China and Angola are prioritised markets for wine and brandy under Project Khulisa. Hence the department has supported 12 international marketing platforms of which it was directly involved in five of these. The financial support (R2.5 million) given to the wine and fruit industries to drive their ethical trade initiatives is also a response to strategic goal one to at least maintain the export position and access in the existing established markets like the EU. The outcomes of this are the 1102 participants that were trained on different modules of the ethical trade code. Also, the support helped to increase ethical trade membership within the province and was reported at 2732 for both the fruit and wine industries at the end of the year.

The Programme: Structured Agricultural Education and Training contributed in a very significant way to human capital and skills development in the agricultural sector and continued to provide formal and nonformal training, on NQF levels 1-7, with a focus on youth, all farming groups, i.e. small-holder, subsistence and commercial farmers and agri-workers, in the agricultural sector in order to promote and support a knowledgeable, prosperous and competitive sector. A total of 2720 participants were trained in agricultural skills development programmes. On ASD level, 63 learners registered for the National Qualification in Plant and Animal Production NQF 4 at the start of 2019. A Total of 54 learners graduated from these programmes in December 2018.

The Programme: Structured Agricultural Training offered four formal training programmes on HET level, namely, B.Agric, Diploma and Higher Certificate in Agriculture and the Certificate in Horse Mastership and Preliminary Riding Instruction to 479 students. A total of 122 students graduated from these programmes in December 2018, adding to the number of well-qualified agriculturalists to grow the sector.

## 3.2 Ensure that at least 70% of all agricultural land reform projects in the Province are successful over the next five years

Appropriate engineering services were provided by SRM to land reform beneficiaries to increase the feasibility and sustainability of their farming enterprises. This was done through support initiatives such as investigation reports (247), designs (33) and completion certificates (9).

In line with this strategic goal, the programme commissioned an external land reform study to determine performance of agricultural land projects that had been supported during the period, 2014 - 2019. The study assessed agricultural projects based on five critical success factors, namely: i) determine if businesses had access to markets, ii) existence of sound production and sales records, iii) determine the extent to which

profits are being reinvested, iv) gauge compliance with tax and labour laws and v) determine existence of an updated business plan. Accordingly, the study revealed a 72% success rate from a population of 243 projects, which represents a 10% improvement from the previous study.

In order to enhance the visibility and accountability of the extension service, the programme continued with the use of the smart-pen technology as a tool that enable the capturing of advice rendered to farmers and help in a way to 'bring the farm to the office' in real time and thereby allowing timeous response by management in cases where challenges are identified. Accordingly, a total of 4 445 farmers were reached by the extension services during the reporting period, with the support of commodity partners.

The success of land reform projects is based on a plethora of factors, of which one of the most important is the fine balance between available natural resources, especially soil and water, and choice of farming operation. In this regard research efforts and spatial intelligence tools have assisted in identifying resource limitations or opportunities, whilst spatial analysis support (maps and other tools, like Cape Farm Mapper and CAMIS) were invaluable to extension officers and farmers, to name but a few. Furthermore, the sustainability of land reform projects is also based on production technologies, and in this regard research efforts have focussed on yield-increasing and/or cost-decreasing climate-smart technologies in plant and animal production. The analytical services of the programme have furthermore provided pivotal information on water, soil and plant analyses which assisted in fertiliser recommendations and optimising production methods. The information dissemination portfolio has expanded to also include small holder farmers and their specific research and information needs. The Animal Sciences Directorate has excelled in providing high quality genetic material to our small holder farmers in a number of projects.

Targeted interventions for black small holder and commercial farmers within Programme: AES include the Financial Record Keeping programme where 68 businesses were assisted with comprehensive support i.e. on farm financial records including business compliance. The programme is also a custodian to a Black Farmer and Food Garden databases which have proven to be useful managerial tools to assist decision making and does provide baseline for certain land reform questions even though serious updates are required on these tools. The Programme also provides support to other funding mechanisms beyond CASP e.g. AgriBEE fund and awareness on other public and private sector products through farmer days and workshops. An information portal on this was established through the Elsenburg website. A booklet has also been compiled and is updated on a regular basis to share at various events. The Market Access Programme is also a targeted intervention to improve the ability of black smallholder and commercial farmers to uptake market and related opportunities across the value chain. During the 2018/19 year there were 43 projects that received support through this programme. There are also targeted interventions within broader programmes like SIZA to address social and environmental compliance of 19 fruit farms that are part of the Jobs Fund. In addition, food safety is also prioritised in collaboration with Perishable Products Export Control Board (PPECB). Furthermore, Black producers are also targeted for international events such as the Market Access Study Tour that links with Fruit Logistica in Germany, Prowine China, and promotional activities carried out by Wines of South Africa as part of Project Khulisa in Angola.

The Programme: Structured Agricultural Training in collaboration with the Farmer Support and Development unit presented a variety of skills programmes across the province to beneficiaries of CASP/ILIMA during this reporting period. This contributed to approximately 2 720 beneficiaries trained in total, including training of agri-workers, smallholder farmers, subsistence farmers, commercial farmers and all other interested parties. In addition to this, emphasis on governance and quality assurance issues ensures quality training offered to all project beneficiaries in collaboration with the Programme: Farmer Support and Development.

Close collaboration by the department's Rural Development Programme with the Department of Labour and the Department of Social Development has enabled improved collective responses to the humanitarian pressures experienced on farms affected by both the prevailing drought and Avian Influenza outbreak, in order to sustain basic needs of affected families and maintain critical agri-worker employment with farming enterprises.

Ongoing exposure of agri-workers to social upliftment and development opportunities remains a high priority for the department as this contributes to their capability to participate in the sector and make a contribution to land reform initiatives and maintain farm productivity. To this end, four (4) agri-worker projects were funded, which

focussed mainly on: Substance Abuse Prevention focussing on Foetal Alcohol Syndrome (FAS) awareness and prevention campaigns, Early Childhood Development, Technical Skills Development, and Rural Female Youth Mentoring programme. A total of three hundred and ten (310) agri-workers and family members were assisted through the referral system providing access to much needed services, which indirectly or directly impact on the agricultural enterprises that employ these agri-workers.

# 3.3 Support the sector (farmers and industries) to increase sustainable agricultural production (primary provincial commodities) by at least 10% over the next 10 years

Irrigation farmers were provided with relevant information by the programme: Sustainable Resource Management to assist them to optimally utilise the natural resources available to them to increase production whilst using the same water allocation. Farmers were furthermore assisted with the DAFF mechanisation project, conservation farming of Rooibos, two on-farm value adding, farm structures and animal handling and river bank erosion protection initiatives.

The programme continued with the implementation of the commodity approach strategy for the commercialisation of land reform farmers. The programme had partnered with ten commodity organisations aimed at strengthening the support delivered to land reform farmers through the provision of mentorship support and access to markets. The commodity approach is simply an institutional arrangement that draws in multiple spheres of government and the private sector, each understanding their unique roles, working from the same plan, towards achieving the same outcomes. Accordingly, a total of 112 projects had been supported during the year reported on as follows: 3 Wine grapes, 32 Fruit, 2 Citrus, 6 Table grapes, 15 Grain, 14 Vegetables, 24 Red meat (beef and sheep), 16 White meat (piggery and poultry). Through the commodity approach a total of 49 mentors were linked with smallholder farmers across commodities to facilitate access to markets and hence, contribute to their graduation into commercial farming, thereby, contributing to National Outcome 4, namely: Decent employment through inclusive economic growth. It must be mentioned that these mentors are not paid by the department nor the farmers, but it is a contribution and commitment from the commodity organisations.

Furthermore, a total of sixty-four (64) community food security projects, eighteen (18) school food garden projects and 1 077 households were supported through the suitcase programme as a contribution to National Outcome 7, namely; Vibrant, equitable and sustainable rural communities with food security for all. Accordingly, a total of 1 482 direct beneficiaries had been reached and supported with means to produce their own food.

Agriculture is one of the most important and one of the largest knowledge based sectors in South Africa, and science and technology with research as key cornerstone are important to underpin agrarian economic growth and to ultimately address food security and rural development. Comprehensive, client-centred and problem-focussed research programmes and projects were executed by the directorates of Animal and Plant Sciences, and supported by the directorate Research Support Services. In order for agricultural producers (commercial and small holder) to sustain or increase their production, two critical factors, i.e. lower input technology (lower input cost) and higher output technology (production) have to be researched. This is furthermore of utmost importance against the challenges of climate change and the adoption and implementation of climate smart practices. New and adapted technology generated from cutting-edge research efforts has and will ensure that producers are sustainable and competitive with limited natural resources (especially water and soil quality) and the changing environment and will secure the base to increase agricultural production by 10% over the next ten years. The SmartAgri project and its implementation plan will continue to be of utmost importance in all climate smart agricultural operations across the entire value chain. In this regard, the partnership with GreenCape and our green agri-portal was pivotal in providing farmers with green solutions. The Western Cape Agricultural Research Forum (WCARF) is striving to coordinate all research efforts and optimise available research resources to increase the research support to the agricultural sector in the Western Cape. Three meetings were held in 2018/19.

Through collaboration with BFAP, research is conducted based on economic modelling, specifically medium term projections of price and production volumes for different agricultural industries and farm level models for strategic decision making. The basket of industries that are included in the industry projections have

expanded over the past few years as new industry models are developed, while maintaining existing industry models. These include wine, table grapes, apples, pears, winter grains, dairy, meat, and potatoes. An attempt is also made to focus on the African market and value chains. Some of these industries are among those with identified potential under the National Development Plan. This research is disseminated through a book and an annual event known as BFAP baseline launch. Included in the BFAP tools is the agribenchmark that generate sustainable, comparable, quantified information about farming systems in particular comparisons of typical farms (production systems, production costs, competitiveness, future development). Other complementary activities within the Programme include production economics research and services e.g. development of enterprise budgets which resulted into 60 enterprise budgets being developed during the year. Furthermore, 101 clients benefitted from production economics advice.

The Programme: SAET partnered with various stakeholders in promoting and supporting skills development and capacity building in agriculture. Skills-based training was provided to 2720 farmers and farm-aids, while 542 students enrolled for full-time study in higher education and training and agricultural skills development programmes. A total of 176 students graduated from these programmes and will enter the sector primarily as farmers, farm managers, assistant farm managers, supervisors, agriculturalists and agricultural advisors.

As part of the governance and quality assurance issues addressed, the intensified drive to establish and maintain subject and curriculum committees ensures the active involvement of the agricultural industry, ensuring training offerings are in line with the training demand, latest technologies and development and all challenges faced, including relevant information included in the curriculum to ensure sustainable agricultural production.

As a result of the drought, many agri-worker households have been under threat of unemployment and many have been reached through collaborative humanitarian relief efforts with the Department of Social Development. Through these interventions responsible use of resources has been at the forefront of the interactions, increasing awareness on water scarcity. Leading up to the end of the medium term, there has been an increase in demand for farm investigations related to agri-workers' working and living conditions in response to queries by civil society organisations. Many of the investigations have centred around access to water considering the prevailing drought and sensitivity and awareness on sustainable use of water has been a key focus in all interactions with both farmers and agri-workers in support of achieving this goal.

#### 3.4 Optimise the sustainable utilisation of water and land resources to increase climate smart agricultural production

The programme: SRM provided relevant information to irrigators via the Fruitlook methodology to assist them to increase their water use efficiency to produce more crops with less water and provided relevant information. For the 2018-19 Fruitlook season 617 active users registered at farm level a total of 47 224ha (total area of lands smaller than 25ha.

The sub programme LandCare implemented 57 projects during the year to the value of R10.682 million and successfully lobbied for a further R41.9 million projects for drought interventions in the Western Cape. As part of these projects 5956ha of agricultural land was rehabilitated and 26 576 days of employment was created for 741 people.

Given the persisting drought conditions and municipal water restrictions, the programme: Farmer Support and Development designed a household garden system (smart garden) that uses recycled water for irrigation to enhance household food production. In addition, the programme revised its extension messaging to farmers to include climate smart agriculture aimed at helping farmers embrace the new normal whilst improving soil quality.

The challenges of climate change have already dramatically impacted on the Western Cape, believed to be the province which will be affected most by this phenomenon. The drought conditions and adverse climatic conditions are testimony of the challenges the sector and the research effort will have to mitigate in future. For this reason, there was a high demand for research and technology development services to assist farmers in sustaining their production against a set of climate challenges. The focus on climate smart research has deepened, including minimum or no tillage for soil conservation, crop rotation for higher production, increased crop cover to prevent evaporation (these are the three pillars of conservation

agriculture), judicial fertiliser use, alternative farming practices and possible new and alternative crops for the Western Cape. The SmartAgri plan and its implementation will ensure that the sector has a climate resilient and sustainable future. Several actions have been executed since the launch of the plan. Conservation agriculture (one of the priority projects identified in the SmartAgri plan) in the small grain and potato industry have received more attention and promotion in focussed technology transfer efforts. During 2018/19, 21 projects directly linked to climate smart production and technology development, were executed. The programme is linked to research that is conducted through GreenCape e.g. on renewable energies, water, waste etc. The programme conducted a study on carbon footprint on departmental research farms which was updated regularly. To complement this, a study was done to consider the implications of carbon tax on agriculture. There are also plans to take the carbon footprint studies to the next level e.g. target other industries that are not active in this space. The Department also developed a GreenAgri Portal in collaboration with GreenCape and the database is maintained on a regular basis. The aim of the portal is to increase access to relevant information to support the clients in their green initiatives as one of the responses towards climate change mitigation. A considerable effort is also placed on drought impact studies. An environmental module of SIZA is now implemented on smallholder farmers as well.

The promotion of sustainable farming practices forms a central theme in the teaching of students on both ASD and HET levels. The Programme: Structured Agricultural Training (Sub-programme: Agricultural Skills Development) promotes sustainable agricultural practices, i.e. present a module on sustainable farming practices, and organic farming, natural resource management and principles of food security, as part of a structured Learnership programme. The promotion of sustainable farming practices also forms a central theme in the teaching of students in all tertiary education training programmes. The curriculum of all HET training programmes covers a substantial amount of course content on natural resource management. It is a module that is offered in each year of study. It forms a third of all course content, especially the Diploma in Agriculture.

#### 3.5 Increase agricultural and related economic opportunities in selected rural areas based on socio-economic needs over a 10-year period and strengthen interface with local authorities

As a contribution towards the realisation of the Sustainable Development Goal 2 (zero hunger) in particular, the programme championed the commemoration of the national World Food Day event held on 24 October 2018 in Brandwacht, Mosselbay Municipality. As a contribution towards food and nutrition security, the programme supported a total of four community food gardens and 151 households with the means to produce their own food for food security. The event was delivered in collaboration with the DAFF, Department of Water and Sanitation, South African Breweries (SAB) and civil society structures involved in the food security space.

The establishment of new agricultural enterprises in rural areas was supported by the research and development portfolio of the department. This included the development and supplying of decision making tools (for example Cape Farm Mapper and CAMIS) and technical support in the judicial use of natural resources to optimise agricultural production with limited input. The programme has availed livestock of superior genetic quality to small holder farmers to provide a quality livestock source for their farming operations. The SmartAgri plan also include vulnerable rural communities and the envisaged outcomes will also be beneficial to these communities, and building a resilient workforce on farms.

All the activities of Subprogramme 6.1 are targeted at farm level and have a direct or indirect socio economic impact in rural areas. One of the highlights is cooperative development support that is aimed at mobilising groups within communities to uptake opportunities in the agriculture and agribusiness sector. The Agribusiness Investment Unit has made a considerable contribution to achieve the above objective as the Unit has committed R 653 942 142 to a number of projects during the 2018/19 financial year of which a number are in rural areas.

The Programme: SAET is actively involved with skills development in the rural nodes of the Province, especially within the Comprehensive Rural Development Programme (CRDP) nodes. Training in leadership, communication, entrepreneurship, agri-marketing and financial management is provided to mainly members of Councils of Stakeholders.

The Department holds joint responsibility with the national Department of Rural Development and Land Reform's (DRDLR) provincial Shared Services Centre for rural development coordination in the province. Stakeholders across the three spheres of government, private sector and civil society closely collaborate in working towards the achievement of the National Outcome 7. The NDP, Chapter 6 and the Provincial Strategic Plan (PSG 4), emphasises development imperatives in rural areas which are aligned to NO7. In order to secure responses to rural communities' basic needs and social protection, the agricultural activities, services and industrial activities to stimulate economic diversification; investment and integrated approaches are needed. This requires the physical, social and financial infrastructure as support.

As contribution, the department, through its Rural Development programme, provides coordination support in the sixteen (16) prioritised rural areas in the province (CRDP nodes) through liaison with twenty eight (28) Community Representative Forums, in these communities and coordinates thirteen (13) Intergovernmental Steering Committees (ISCs). Fifty-one (52) Regional Coordination Committee engagements were facilitated across the province with the relevant government departments towards achieving a more integrated, transdisciplinary approach to development during the reporting period resulting in 114 projects being completed in the rural development nodes, led by various stakeholders.

The roll-out of the provincial-wide Agri-worker Household Census has provided an improved understanding of the challenges currently faced in rural communities which has enabled the department to share data with all departments in the province to steer resource allocation to programmes that could be responsive to the needs identified. The Census scope covered over one thousand (1 000) variables across a spectrum of socio economic themes providing a cross section of pressure points requiring attention. The findings have been shared with municipalities and departments and a Provincial Rural Development Workgroup was established, which should strengthen integration of rural development efforts across departments towards more efficient and sustainable approaches to what deems 'development', social, economic, infrastructural and environmental, in specific rural landscapes.

The job losses experienced as a result of natural disasters calls for a rethink of human capital development and entrepreneurial opportunities; also considering the implications of the 4<sup>th</sup> industrial revolution on the agricultural sector. The high prevalence of social ills plaguing rural communities will also require innovative responses such as support programmes geared at rural youths to pursue social entrepreneurship in the rural and agricultural space. This has already been initiated through rural youth capacity building strategic projects identified as a result of the Census findings during the 2018/19 financial year.

#### 3.6 Enhance the agri processing capacity at both primary and secondary level to increase with 10% over baseline by 2019

Engineering services were provided to farmers to assist them with on-farm value adding/agri-processing activities.

The programme: Farmer Support and Development continued to support agri-processing initiatives in rural areas aimed at facilitating smallholder farmers' access into the value chain, but also to strengthening the commercialisation of farmers in line with DAFF.

Sub-programme: Export Control of Programme: Veterinary Services continued to deliver export certification services to the more or less hundred exporters of animal products, both edible and inedible in the Western Cape Province. Most of these exports related directly to processed agricultural products of animal origin. Access to international marketing opportunities enable local processors to grow their market as well as earn higher returns on investment.

The research portfolio of programme RTD included projects and actions to support the agri-processing part of the Project Khulisa game changer and its eminent role in the future of agriculture in the Western Cape. During 2018/19, 16 projects with a direct impact on agri-processing were executed. This included new production practises to improve leather quality in the ostrich industry and higher milk production and quality. Several projects are also indirectly in support of production and ways to increase job creation, economic development and also new and innovative products for the local and export market.

Apart from continuous economic research conducted by the programme on agri-processing, the subsector has been receiving support from Programme: AES through market development initiatives like product promotions at local and international levels. For example, 11 of the 12 promotional events enabled by the department were targeted at processed products. Other support services include training, food safety compliance for processors, and AgriBEE fund facilitation. The subsector also benefited from the services of the Agribusiness Investment Unit that promotes and facilitates investment into the agriculture and agribusiness sector through Wesgro. Furthermore, a database on agri-processing business has been developed and is maintained on a regular basis. Through the Agrifutura project with the University of Stellenbosch the Programme: AES gave partial funding to six students studying the agricultural economics and food science stream in an attempt to increase the capacity of the pool of skills required to support agri-processors. Now that this is an official mandate for Programme AES: many other service offerings will be provided to the sector. The Programme also takes part in the National Agri-processing Forum where all role players involved in this space, especially in government, discuss issues of common interest. An outcome of this is the Draft National Framework for Agro-processing given that it is a priority sector flowing from the National Development Plan. The Programme also plays a key role in the implementation and coordination of Project Khulisa initiatives in collaboration with the Department of Economic Development and Tourism and Wesgro.

The focus on agri processing short skills courses will continue in the current financial year in order to enhance the agri processing capacity at both primary and secondary levels.

#### 3.7 Facilitate an increase of 20% in relevant skills development at different levels in the organisation and the sector over the next 10 years

Two hundred and eighty beneficiaries who were predominantly young people, benefitted from various human capital development programmes. One -hundred and eighteen were interns, who included graduates, students, Agricultural Partnership for Youth (APFYD) interns, especially rural youth interns, and Premier's Advancement of Youth Programme (PAY) interns. Bursaries were awarded to 171 candidates: 9 to beneficiaries on the Young Professional Persons Programme, 5 to scholars, 103 for undergraduate studies in agriculture and 54 to departmental employees. A total of 3 249 youths were exposed to information on careers in agriculture through eight different exhibitions opportunities.

An external evaluation of all human capital development programmes have been completed. Recommendations have been considered and an implementation plan was developed to address the issues raised. Generally, the findings were positive especially concerning the Young Professionals Persons Programme and it was recommended that the intake amount should be increased while communication with beneficiaries and host employers must be improved.

An additional 120 young agricultural graduates funded by the Comprehensive Agricultural Support Programme (CASP) have completed their first year of a two-year internship programme with 68 farmers as mentors and external host employers. The establishment of partnerships with farmers as external host employers and mentors has continued to indirectly contribute to stretch the human capital development rand.

One civil engineering technician was part of the in-house training exercise of the Engineering Services Sub-Programme to equip him for ECSA registration. A civil engineer completed his post graduate masters study at the University of Stellenbosch and commenced with his candidate engineering programme for ECSA professional registration. Both persons are from previously disadvantaged groups.

The LandCare sub-programme increased the skills levels of more than 10 000 youth attending LandCare initiatives.

The programme: Farmer Support and Development embarked on a skills audit process to ensure alignment between training interventions delivered and skills gaps identified within the projects supported. Accordingly, a total of 2 955 farmers received training based on the results of the skills audit process across all the value chains. In addition, 71 farmers received accredited training through the partnership arrangement with commodity organisations.

The programme RTD expanded on its partnerships with leading tertiary institutions in the Western Cape to firstly maintain and secondly address the lack of critical and scarce skills in the sector. The MOAs with the University of Stellenbosch (SU) and Nelson Mandela University (NMU) brought new opportunities of capacity building to the department, especially with regard to post-graduate studies, research collaboration at all levels and sharing of resources including equipment, infrastructure and facilities. The Western Cape Agricultural Research forum (WCARF) served as a pivotal conduit in this regard to optimise research resources and in identifying training needs and opportunities for the youth in agriculture, especially also in the agriprocessing context. RTD also participated in departmental human capital development initiatives which were strengthening the human resource base. This formed part of a comprehensive human development plan for the next five years, which focusses on the current skills base, succession planning, transformation of the researcher and technician levels and capacity building at all levels to ensure a sustained research and development human resource base with career and development opportunities for all. The plan also focuses on the appointment of women and people with disabilities.

A concern that remained was that the students were inadequately prepared for agricultural higher education as they struggled with mathematics and science. At the same time, it was extremely difficult for the department to recruit, attract and retain skilled and experienced staff. New models of collaboration with our commodity partners included opportunities for vocational experience for the young professionals in agriculture. The array of smart web-based and other technological tools developed at a rapid rate in RTD and the department will undoubtedly also attract young people to agriculture, which has not been a popular sector for youth for many years. The annual school days were presented and attracted over 800 primary school learners from previously disadvantaged schools and exposed the learners to the array of careers in agriculture.

One of the cornerstones of the Programme: AES to ensure a capable workforce is training of its staff. Officials were trained through attendance of courses, workshops, and conferences hosted locally and abroad. For conferences, a number of papers were written and presented as part of development and quality assurance by peers. In addition, the programme participated in departmental human capital development initiatives, especially internal bursaries targeting critical and scarce skills, for the programme and the department at large. The programme also embarked on external initiatives e.g. Agrifutura with the University of Stellenbosch. The aim of the project is to give strategic information and insights to agricultural decision makers in the Public, Private and Non-Governmental Organisations. The project provides the opportunity for this objective to be reached at relatively low costs. The reason for this is that focussed and relevant research is done by post graduate studentsmainly from previously disadvantaged communities who are then given the opportunity to become involved in the research process. Furthermore, knowledge transfer to existing staff was also done through collaboration with the Bureau for Food and Agricultural Policy (BFAP).

The Programme: Structured Agricultural Education and Training is in the process of renewing all relevant accreditation to ensure that quality skills development courses are available and offered to the agricultural sector. Accreditation with the QCTO is in process with the focus on vocational training to contribute to the increase of skills development within the agricultural sector.

## PERFORMANCE INFORMATION BY PROGRAMME

### 4.1 Programme 1: Administration

The purpose of Programme 1: Administration is to manage and formulate policy directives as well as priorities and to ensure there is appropriate support service to all other Programmes with regard to finance, personnel, information, communication and procurement.

The purpose per sub-programme is as follows:

Office of the MEC: To set priorities and political directives in order to meet the needs of clients. (For the efficient running of the MEC's office).

**Senior Management:** To translate policies and priorities into strategies for effective service delivery and to manage, monitor and control performance. Corporate Services: To provide coordination or support services as applicable to the other programmes with regard to human resources management and human capital development, facility support maintenance registry services and security and safety, Financial Management: To provide effective support service (including monitoring and control) with regard to budgeting, financial accounting, moveable assets, motor fleet service, provisioning and procurement and caretaking of information technology

Communication Services: To focus on internal and external communications of the department through written, verbal, visual and electronic media as well as marketing and advertising of the departmental services.

strategic objectives are documented per sub-programme.

## Strategic objectives, performance indicators, planned targets and actual achievements

this environment (please see above). The Programme's performance indicators and the various targets are structured to create this environment. The As Programme 1: Administration provides the environment within which the rest of the Department operates. Its objectives are focussed on creating achievement of targets is discussed below.

#### Strategic objectives

| Programme 1: Administration  |                               |                           |  |   |                       |
|--|-------------------------------|---------------------------|--|---|-----------------------|
| Strategic objectives   | Actual Achievement<br>2017/18 | Planned Target<br>2018/19 | Actual Achievement planned target to 2018/19 Actual Achievemer for 2018/19 | Deviation from planned target to Actual Achievement for 2018/19 | Comment on deviations |
| Senior Management  |                               |                           |  |   |                       |
| <b>S.1.2.1</b> National, provincial and local government objectives mapped | Yes                           | Yes                       | Yes  | None  | None                  |

| Programme 1: Administration  |                               |                           |                               |   |   |

## Contribution towards outcome of Department's Strategic Goals

# Facilitate an increase of 20% in relevant skills development at different levels in the organisation and the sector over the next 10 years

wo hundred and eighty beneficiaries who were predominantly young people, benefitted from various human capital development programmes. One nundred and eighteen were interns, who included graduates, students, Agricultural Partnership for Youth (APFYD) interns, especially rural youth interns, Professional Persons Programme, 5 to scholars, 103 for undergraduate studies in agriculture. Fifty four bursaries were awarded to departmental employees and Premier's Advancement of Youth Programme (PAY) interns. One hundred and seventy one bursaries were awarded: 9 to beneficiaries on the ` as their continued development remains important to the sector and department. In conjunction with the Programme: Farmer Support and Development Services an additional 120 young agricultural graduates funded by the Comprehensive Agricultural Support Programme (CASP) have completed their first year of a two-year internship programme. Sixty eight farmers served as mentors, and external host employers to them. An external evaluation of all human capital development programmes have been completed. Recommendations have been considered and <del>a</del> management improvement plan was developed to address the issues raised. Generally, the findings were positive especially for the Young Professionals Persons Programme and it was recommended that the intake amount should be increased, while communication with beneficiaries and host employers must be improved.

the establishment of partnerships with farmers as external host employers and mentors has continued and indirectly contributed to stretching the human capital development rand. The student exchange programme between this province and Upper Austria continued. The first group of students from this province completed their programme in Upper Austria. Preparations are underway to receive the Upper Austrian students here in September 2019. The Agricultural Fellows Partnership Programme also continued and the seven beneficiaries for 2018/19 are currently completing the final module of the programme

## Strategy to overcome areas of under performance

No areas of underperformance were recorded.

### Changes to planned targets

No targets were changed, however, it must be noted that the User Asset Management Plan (UAMP) is only developed and submitted annually and not biannually

### Linking performance with budgets

### Sub-programme expenditure

## Programme 2: Sustainable Resource Management

The purpose of the Programme is to provide agricultural support services to farmers in order to ensure sustainable development and management of agricultural resources.

## Strategic objectives, performance indicators, planned targets and actual achievements

The Programme: SRM delivers a support service to all farmers in the Province, and the major emphasis is to maintain and improve the current natural resources through implementation of projects, application of regulations and communication campaigns. In its endeavours to ensure the overall sustainability of the agricultural sector, the focus is on interventions at farm level. The impact of climate change will be felt by SRM first and the changes in methodologies to support famers will force this Programme to remain innovative.

The purpose of the four sub-programmes is as follows:

**Engineering Services:** To provide engineering support (planning, development, monitoring and evaluation) with regard to irrigation technology, on-farm mechanisation, value adding infrastructure, farm structures and resource conservation management.

Land Care services: To promote the sustainable use and management of natural agricultural resources by engaging in community based initiatives hat support sustainability (social, economic and environmental), leading to greater productivity, food security, job creation and better wellbeing for all.

**.and Use Management:** To promote the preservation and sustainable use of agricultural land through the administration of the Subdivision of Agricultural Land Act (SALA) and the Conservation of Agricultural Resources Act (CARA)

Disaster Risk Management: To provide agricultural disaster risk management support services to clients/farmers.

Strategic objectives are documented per sub-programme.

#### Strategic objectives

| Sustainable Resource Management   |                                  |                           |                                  |   |   |
|---|----------------------------------|---------------------------|----------------------------------|---|---|
| Strategic<br>objectives   | Actual<br>Achievement<br>2017/18 | Planned Target<br>2018/19 | Actual<br>Achievement<br>2018/19 | Deviation from<br>planned target<br>to Actual<br>Achievement<br>for 2018/19 | Comment on deviations   |
| Engineering Services:   |                                  |                           |                                  |   |   |
| Number of engineering services provided to support and increase agricultural production and optimise sustainable natural resource use | 843                              | 449                       | 564                              | 115   | Most services depend on demand from clients. The persistent drought in the province affected demand significantly and changed historical demand patterns.   |
| S.2.2.1  Number of actions to promote the sustainable use and management of natural agricultural resources *                          | 516                              | 432*                      | 189                              | (243)   | Due to the drought less drainage, veld utilisation and protection works were constructed and fewer farms were planned due to decreased investment into new development, which makes up the biggest portion of this strategic indicator. |

| Susi  | Sustainable Resource Management  |                                  |                           |                                  |   |  |
|---|--|----------------------------------|---------------------------|----------------------------------|---|--|

\*Previously reported on with LandCare. For 2013/14 and 2014/15 moved from LandCare to Land Use Management to comply with national indicator prescripts. Back under LandCare from 2015/16 onwards.

\*\*Only new fence erected reported, some fences were also repaired.

<sup>\*</sup>Subject to funding made available from DAFF

## Contribution towards outcome of Department's Strategic Goals

Support the provincial agricultural sector to maintain its export position for the next five years by growing its value added from R16.349 billion in The Sustainable Resource management programme provided engineering services to the department's clients to maintain or increase their export positions and at the same time increase the feasibility and sustainability of their farming enterprises. Engineering services were provided to clients through 289 support initiatives such as the investigation of advisory reports, designs and completion certificates and 273 clients were

# Ensure that at least 70% of all agricultural land reform projects in the province are successful over the next five years

provided with ad hoc engineering advice or training.

Appropriate engineering services were provided to land reform beneficiaries by SRM. The aim is to increase the feasibility and sustainability of their farming enterprises. This was done through support initiatives such as investigation reports (247), designs (33) and completion certificates (9).

## Support the sector (farmers and industries) to increase sustainable agricultural production (Primary provincial commodities) by at least 10% over the next 10 years

utilise the natural resources available to them to increase production whilst using the same water allocation. Farmers were furthermore assisted with the DAFF mechanisation project, conservation farming of Rooibos, two on-farm value adding, farm structures and animal handling and river rigation farmers were provided with relevant information by the programme: Sustainable Resource Management to assist them to optimally sank erosion protection initiatives.

# Optimise the sustainable utilisation of water and land resources to increase climate smart agricultural production

to produce more crops with less water and provided relevant information. For the 2018-2019 Fruitlook season 617 active users registered at farm evel a total of 47 224ha (total area of lands smaller than 25ha). Enhance the agri-processing capacity at both primary and secondary level to The programme: SRM provided relevant information to irrigators via the Fruitlook methodology to assist them to increase their water use efficiency increase with 10% over baseline by 2019

Engineering services were provided to farmers to assist them with on-farm value adding/agri-processing activities.

# Facilitate an increase of 20% in relevant skills development at different levels in the organisation and the sector over the next 10 years

Within the Engineering Services Sub-Programme one civil engineering technician was part of the in-house training exercise to equip him for ECSA registration. A civil engineer completed his post graduate masters study at the University of Stellenbosch and commenced with his candidate engineering programme for ECSA professional registration. Both persons are from previously disadvantaged groups

## Strategy to overcome areas of under performance

The services provided to the department's clients are to a large extent demand driven and we do not have control over the demand. All requests received during the year were dealt with. The current economic situation plays an important role in the investment farmers can make on the oroperties which has an impact on the engineering/landcare service they request from the department

Land Use management: Provision to be made for additional capacity.

### Changes to planned targets

The Performance Indicator P.2.1.4 Number of reports detailing the departmental agri-processing activities was discontinued for the 2018-2019 financial year

### Linking performance with budgets

The programme's performance was in line with budgeted financial resources.

### Sub-programme expenditure

| Sub-Programme Name       |                        | 2018/19               |                             |                        | 2017/18 (Audited)     |                             |

## 3 Programme 3: Farmer Support and Development

The purpose of the programme 3 is to provide support to farmers through agricultural development programmes.

The purpose of the sub-programmes:

## Strategic objectives, performance indicators, planned targets and actual achievements

Farmer Settlement and Development: To provide support to smallholder and commercial producers for sustainable agricultural development

Extension and Advisory Services: To provide extension and advisory services to farmers

Food Security: To support, advise and coordinate the implementation of the National Policy on Food and Nutrition Security.

Casidra SOC Ltd: To support the department with project implementation and state farm management.

#### Strategic objectives

| Farmer Support and Development  |                                  |                           |                                  |   |   |
|---|----------------------------------|---------------------------|----------------------------------|---|---|
| Strategic objectives  | Actual<br>Achievement<br>2017/18 | Planned Target<br>2018/19 | Actual<br>Achievement<br>2018/19 | Deviation<br>from planned<br>target to Actual<br>Achievement<br>for 2018/19 | Comment on deviations   |
| Earmer Settlement and Development: S.3.1.1  Number of farm assessments and farm plans completed for smallholder and commercial farmers within the agrarian reform initiatives | 220                              | 172                       | 186                              | 14  | Target exceeded, as there was an increased demand for farm plans and farm assessments by the DRDLR as part of their land acquisition programme. In addition, farm plans and farm assessments are requested by farmers when they approach financial institutions for support.  |
| Extension and Advisory Services:  S.3.2.1  Number of site visits to subsistence, smallholder and commercial farmers to deliver extension and advisory services                | 4 180                            | 4 015                     | 4 445                            | 430   | Target exceeded. An increased number of farmers were reached by extension and advisory services with the support of commodity partners who delivered commodity focused extension support to farmers. This partnership also helps to augment the programme limited extension resources.  |
| <b>Sod Security: S.3.3.1</b> Number of food security projects implemented as per integrated Food Security Strategy of SA (IFSS-SA)  | 1 146                            | 942                       | 1 159                            | 217   | Target exceeded, as there was an increased demand for support from communities and the programme was able to respond with the assistance of private sector partners and other government departments. In addition, the hosting of the national World Food Day event helped to unlock financial resources from the DAFF for subsistence farmers. |
| Casidra SOC Ltd: S.3.4.1 Number of agricultural projects facilitated  | 45                               | 44                        | 51                               |   | Target exceeded due to additional support received from the commodity partners in the delivery of projects, e.g. Grain SA provided funding for Iming for smallholder farmers.   |

### Performance indicators

| T.3.2.1  Number of smallholder producers supported with agricultural advice  Provincial Specific Indicators:  P.3.2.1  Number of projects supported through mentorship | 2 007                            | 30  | 1 620                            | 1 620                        | 1 990                            | 370  | Target exceeded, as an increased number of smallholder farmers were reached by the extension and advisory services with support from commodity partners who delivered commodity partners. Through this partnership, the programme was able to augment for the limited extension resources.  Target not met, there were fewer mentors appointed due to reduced number of projects supported. This is linked to the delayed planting in the fruit sector as a result of water shortages and the moratorium that was placed on the implementation of poultry projects due to disease outbreak. |
| <b>P.3.2.2</b> Number of agricultural businesses skills audited  | 113                              | 83  | 80                               | 80                           | 80                               | None   | None  |

## Contribution towards outcome of Department's Strategic Goals

## Support the Provincial Agricultural Sector to at least maintain its export position for the next 5 years by growing its value added from R16.349 billion in 2013

The programme continued with the implementation of the commodity approach strategy for the commercialisation of land reform farmers. The programme had partnered with 10 commodity organisations aimed at strengthening the support delivered to land reform farmers through the orovision of mentorship support and access to markets. The commodity approach is simply an institutional arrangement that draws in multiple spheres of government and the private sector, each understanding their unique roles, working from the same plan, towards achieving the same outcomes. Accordingly, a total of 112 projects had been supported during the year reported on as follows: 3 Wine grapes, 32 Fruit, 2 Citrus, 6 Table grapes, 15 Grain, 14 Vegetables, 24 Red meat (beef and sheep), 16 White meat (piggery and poultry). Through the commodity approach, a total of 49 mentors were linked with smallholders to help facilitate access to markets which is critical for sustainability of businesses. It must be mentioned hat these mentors are not paid by the department nor the farmers, but it is a contribution and commitment from the commodity organisations.

# Ensure that at least 70% of all agricultural land reform projects in the Province are successful over the next five years

n line with this strategic goal, the programme commissioned an external land reform study to determine performance of agricultural land namely: i) determine if businesses had access to markets, ii) existence of sound production and sales records, iii) determine the extent to which orojects that had been supported during the period, 2014 - 2019. The study assessed agricultural projects based on five critical success factors, orofits are being reinvested, iv) gauge compliance with tax and labour laws and v) determine existence of an updated business plan. Accordingly, he study revealed a 72% success rate from a population of 243 projects, which represents a 10% improvement from the previous study. n order to enhance the visibility and accountability of the extension service, the programme continued with the use of the smart-pen technology as a ool that enables the capture of advice rendered to farmers and assists to 'bring the farm to the office' in real time and thereby allowing timeous response by management in cases where challenges are identified. Accordingly, 4 445 farmers were reached by the extension services during the reporting period, with the support of commodity partners.

## Support the sector (farmers and industries) to increase sustainable agricultural production (primary provincial commodities) by at least 10% over the next 10 years

The programme continued with the implementation of the commodity approach strategy for the commercialisation of land reform farmers. The programme had partnered with 10 commodity organisations aimed at strengthening the support delivered to land reform farmers through the orovision of mentorship support and access to markets. The commodity approach is simply an institutional arrangement that draws in multiple spheres of government and the private sector, each understanding their unique roles, working from the same plan, towards achieving the same outcomes. Accordingly, a total of 112 projects had been supported during the year reported on as follows: 3 Wine grapes, 32 Fruit, 2 Citrus, 6 Table grapes, 15 Grain, 14 Vegetables, 24 Red meat (beef and sheep), 16 White meat (piggery and poultry). Through the commodity approach a total of 49 mentors were linked with smallholder farmers across commodities to facilitate access to markets and hence, contribute to their graduation nto commercial farming. This also contributes to National Outcome 4, namely: decent employment through inclusive economic growth. These mentors are not paid by the department nor the farmers, but it is a contribution and commitment from the commodity organisations.

Furthermore, a total of 64 community food security projects, 18 school food garden projects and 1 077 households were supported through the suitcase programme as a contribution to National Outcome 7, namely; Vibrant, equitable and sustainable rural communities with food security for all Accordingly, a total of 1 482 direct beneficiaries had been reached and supported with the means to produce their own food.

# Optimise the sustainable utilisation of water and land resources to increase climate smart agricultural production

Given the ongoing drought and municipal water restrictions, the programme: Farmer Support and Development designed a household garden system (smart garden) that uses recycled water for inigation to enhance household food production. In addition, the programme revised its extension messaging to farmers to include climate smart agriculture aimed at helping farmers embrace the new normal while improving soil quality,

## Increase agricultural and related economic opportunities in selected rural areas based on socio-economic needs over a 10-year period and strengthen interface with local authorities

for food security. The event was delivered in collaboration with the DAFF, Department of Water and Sanitation, South African Breweries (SAB) and civil As a contribution towards the realisation of the Sustainable Development Goal 2 (zero hunger) in particular, the programme championed the commemoration of the national World Food Day event held on 24 October 2018 in Brandwacht, Mosselbay Municipality. As a contribution towards food and nutrition security, the programme supported a total of four community food gardens and 151 households with the means to produce their own food society structures involved in the food security space.

# Enhance the agri processing capacity at both primary and secondary level to increase with 10% over baseline by 2019

The programme: Farmer Support and Development continued to support agri-processing initiatives in rural areas aimed at facilitating smallholder farmers' access into the value chain, but also to strengthening the commercialisation of farmers in line with DAFF.

# Facilitate an increase of 20% in relevant skills development at different levels in the organisation and the sector over the next 10 years

The programme: Farmer Support and Development had embarked on a skills audit process to ensure alignment between training interventions delivered and skills gaps identified within the projects supported. Accordingly, a total of 2955 farmers received training based on the results of the skills audit process across all the value chains. In addition, 71 farmers received accredited training through the partnership arrangement with commodity organisations.

## Strategy to overcome areas of under performance

The FSD programme will continue to engage with civil society structures within the food security space, with a view to determine the ideal group size for community and school food garden

### Changes to planned targets

None

### Linking performance with budgets

The programme's performance was in line with its budgeted financial resources.

### Sub-programme expenditure

| Sub- Programme Name               |                        | 2018/19               |                             |                        | 2017/18 (Audited)     |                             |

### 4.4 Programme 4: Veterinary Services

The purpose of the Programme is to provide veterinary services to clients in order to ensure healthy animals, safe animal products and the welfare of people of South Africa.

The programme executes its mandate from the four sub-programmes:

- Animal Health
- Export Control
- Veterinary Public Health
- Veterinary Laboratory Services

## The strategic objectives of the sub-programmes are as follows:

#### Animal Health

Detection, prevention and control or eradication of significant animal diseases.

#### **Export Control:**

Provide an enabling environment for export certification for animals and animal products from the Western Cape Province.

### Veterinary Public Health:

Fulfil a mandatory legislative role through implementation of the Meat Safety Act (Act 40 of 2000), the AnimalDiseases Act (Act 35 of 1984) and other relevant legislations.

### Veterinary Laboratory Services:

Render an efficient and appropriate veterinary diagnostic service.

## Strategic objectives, performance indicators, planned targets and actual achievements

The Programme continued to work with Stakeholders in finding working solutions to the ever increasing challenges around the handling of abattoir waste in the Province.

enjoyed a favourable and supportive regulatory environment. The Programme witnessed further improvements of the poultry facilities during and in addition a few other key role players have committed significant resources to the commencement of major structural upgrading of facilities during the The Importation of meat, with specific reference to poultry, continued to impact on local producers. Notwithstanding these challenges, the local Industry next registration cycle. The annual auditing and routine assessment of facilities affected a marked response in efforts by facilities in promoting compliance. -acilities have showed good progress in addressing non-conformances during the past cycle.

the BLNS agreement impacted positively on the local market and the Province witnessed a steady increase in the frequency and the number of imports The country wide drought stifled the local farming industry and impacted negatively on meat production capacities. The importation of livestock under These imports brought some relief in the medium term to challenges faced by local producers and provided an opportunity for the industry to subsidize by facilities

the local meat supply

Sampling of livestock in many cases resulted in the diagnosis of a controlled animal disease and such farms in most cases required quarantine of the farm also for the country to ensure production of safe and wholesome animal products for consumers and to ensure the required international standards for export of animals and animal products. Export of animals and animal products again contributed to a large portion of the WC economy and social Visiting small scale- and commercial farms and inspecting animals on a regular basis ensured a high standard of animal disease surveillance in the WC. though it also caused deviation from the planned target beyond control. Animal disease surveillance and control is crucial not only for the WCDoA but n order to control the disease. These actions usually required more regular and increased sampling of animals to monitor disease control processes, welfare of the people. Increased trade contributed immensely towards provincial economic growth.

| Veterinary Services  |                                  |                              |                                  |   |   |
|--|----------------------------------|------------------------------|----------------------------------|---|---|
| Strategic objectives   | Actual<br>Achievement<br>2017/18 | Planned<br>Target<br>2018/19 | Actual<br>Achievement<br>2018/19 | Deviation from planned target to Actual Achievement for 2018/19 | Comment on deviations   |
| Animal Health:  S.4.1.1  Number of animals surveyed for diseases                 | 1 251 410                        | 000 006                      | 1 569 805                        | 908 899   | The main reason for the deviation is because of additional surveillance sampling that was done due to outbreak of diseases such as Brucellosis, Rabies and Avian Influenza. The fact that sufficient amount of bovine tuberculin was available also contributed to the over production as vets could catch up on most of the outstanding tests in dairy cattle. |
| S.4.2.1 Number of clients serviced for animal and animal products export control | 384                              | 405                          | 383                              | (22)  | The number of clients that wishes to export is a demand driven service that cannot be directly planned or influenced by the Department. The ban on exports to Europe resulted in less export certification (HPAI and NCRCP). The outbreak of FMD in the country resulted in further decline in exports.   |

| Veterinary Services  |                                  |                              |                                  |   |   |
|--|----------------------------------|------------------------------|----------------------------------|---|---|
| Strategic objectives   | Actual<br>Achievement<br>2017/18 | Planned<br>Target<br>2018/19 | Actual<br>Achievement<br>2018/19 | Deviation from planned target to Actual Achievement for 2018/19 | Comment on deviations   |
| Veterinary Public Health:  S.4.3.1  Average percentage of compliance of all operating abattoirs in the Province to the meat safety legislation | 71.95                            | 09                           | 82.62                            | 22.62   | The average percentage of all operating abattoirs in the province to the meat safety legislation is above the national target of 60%.   |
| Veterinary Laboratory Services:<br>S.4.4.1<br>Number of specimens tested   | 225 962                          | 220 000                      | 269 870                          | 49 870  | An average of 54% submissions received by the laboratory was from other provinces. This could not be controlled, as the services of the laboratory are demand driven. Continued post Avian Influenza outbreak surveillance of especially ostriches and wild birds also contributed to these higher figures, as some farms in the province were still under quarantine and thus farmers were trying to monitor their biosecurity measures and effectivity thereof. This is indicated by higher than normal environmental swab tests that were requested during this period. The PCR section was also accredited for the AHS test method, which saw more submissions being received for this particular test especially after the private laboratory that tested for this controlled disease in the past, got suspended by SANAS for this test. |

### Performance indicators

| Sub-programme 4.1: Animal Health  |   |                                  |                                  |                              |                                  |  |   |
|---|---|----------------------------------|----------------------------------|------------------------------|----------------------------------|--|---|
| Performance Indicator   | Actual Actual Actual Actual Achievement 2015/16 2016/17 2017/18 | Actual<br>Achievement<br>2016/17 | Actual<br>Achievement<br>2017/18 | Planned<br>Target<br>2018/19 | Actual<br>Achievement<br>2018/19 | Deviation<br>from planned<br>target to<br>Actual<br>Achievement<br>for 2018/19 | Comment on deviations   |
| Sector Specific Indicators:   |   |                                  |                                  |                              |                                  |  |   |
| <b>1.4.1.1</b> Number of visits to epidemiological units for veterinary interventions | 10 776  | 14 918                           | 14 245                           | 70 000                       | 13 773                           | (56 227)   | Annual target for this indicator is incorrect at 70 000, it should be 10 000 annually and 2500 per quarter. If the correct target of 10 000 is used there would be an over performance which is due to increase on farm disease surveillance to monitor controlled animal diseases such as Rabies, Avian Influenza and Brucellosis. |
| Provincial Specific Indicators:   |   |                                  |                                  |                              |                                  |  |   |
| P.4.1.1<br>Number of cats and dogs<br>vaccinated against Rabies                       | 93 254  | 92 197                           | 95 548                           | 70 000                       | 125 756                          | 55 756   | Over production was because of several outbreaks of Rabies across the province and the increased risk of the disease spreading to humans in the affected areas. Rabies campaigns were intensified to vaccinate as many companion animals against Rabies as possible.  |
| P.4.1.2  Number of cattle tested by the intra-dermal test for Bovine Tuberculosis     | 78 883  | 102 859                          | 76 871                           | 70 000                       | 87 450                           | 17 450   | Over production is due to availability of medication and private veterinarians trying to catch up on the backlog to ensure compliance with milk processors requirements.  |

| Sub-programme 4.1: Animal Health  |  |   |                                  |                              |                                  |  |  |

| P.4.4.3<br>Number of samples tested for<br>smallholder farmers      | 2 416                            | 3 341   | 1 670                            | 1 500                        | 2 348                            | 848  | More smallholder farmers needed the laboratory's support and services than anticipated. The major amount of support was required for Avian flu testing and surveillance and also Brucellosis testing.  |
| <b>P.4.4.4</b><br>Number of specimens tested                        | 185 004                          | 214852  | 220 448                          | 220 000                      | 269 870                          | 49 870   | Services of the laboratory are demand driven. More than 50% of submissions received were from other provinces, the WCPVL has no control over this.   |
| <b>P.4.4.5</b><br>Number of samples tested for<br>chemical residues | 1                                | 1   | 1                                | 200                          | 0                                | (200)  | No personnel appointed for the facility yet as there were no funds allocated for staffing the CRT. This has delayed testing and method validation processes and has had a negative impact on the potential of service delivery from this facility. |

## Contribution towards outcome of Department's Strategic Goals

Support the provincial agricultural sector to at least maintain its export position for the next five years by growing its value added from R14.014 billion in 2009

The programme: Veterinary Services is continuously supporting the above through certification, inspecting abattoirs and by-products establishments.

## Collaborate with farmers and industries to support the sector to increase agricultural production (primary provincial commodities) by at least 10% over the next 10 years

By vaccinating animals against anthrax, brucellosis, rabies and Newcastle disease, the programme contributed towards increasing agricultural production. The intervention reduces mortalities significantly, resulting in more and heavier animals being presented to markets. The programme supported the maintenance of agricultural production through collecting specimens for notifiable and non-notifiable diseases, conducting epidemiological studies and performing tests.

## Strategy to overcome areas of under performance

Underperformance was due to unforeseen circumstances and no improvement in approach or planning would have changed that. This must also be compared to the cases where the targets were exceeded dramatically. All these are circumstances which are beyond our control. Programme operates in environment were environmental conditions are significant component and in most situations can only be mitigated

### Changes to planned targets

No in-year targets were made within this financial year.

### Linking performance with budgets

The programme's performance was in line with its budgeted financial resources.

### Sub-programme expenditure

| Sub-Programme Name             |                        | 2018/19               |                             |                        | 2017/18 (Audited)     |                             |

## 4.5 Programme 5: Research and Technology Development

The purpose of Programme 5 is to provide expert and needs-based research, development and technology transfer impacting on development **Research:** To improve the agricultural production through conducting, facilitating and coordinating medium to long-term research and technology objectives. The objective of the sub-programmes is as follows:

iechnology Transfer: To disseminate information on research and technology developed to clients, peers and scientific community.

development.

**Research Infrastructure Support:** To manage and maintain infrastructure facilities for the line function to perform research and technology transfer functions, i.e. experimental farms.

## Strategic objectives, performance indicators, planned targets and actual achievements

Strategic objectives are documented per sub-programme.

| Research and Technology Development   | ment                             |                           |                                  |   |  |
|---|----------------------------------|---------------------------|----------------------------------|---|--|
| Strategic objectives  | Actual<br>Achievement<br>2017/18 | Planned Target<br>2018/19 | Actual<br>Achievement<br>2018/19 | Deviation from<br>planned target<br>to Actual<br>Achievement<br>for 2018/19 | Comment on deviations  |
| S.5.1.1 Research projects executed to support research and technology development | 89                               | 80                        | 91                               |   | The year commenced with 73 projects. Eighteen new projects were approved. New projects were judicially approved against available budget and capacity.   |
| Technology Transfer: S.5.2.1 Provide scientific and technical information         | 482                              | 333                       | 417                              | 8   | The higher output can be ascribed to various reasons, i.e. more than the anticipated number of scientific papers published; invitations to present presentations at external events which cannot be precisely planned; information published or broadcasted when events happened, when data became available or on invitation by the agricultural press; due to additional technology transfer events conducted; and additional info packs developed. This was in response to the demands of our clients and/or responding to information needs. |

## Contribution towards outcome of Department's Strategic Goals

## Support the Provincial Agricultural Sector to at least maintain its export position for the next five years by growing its value added from R16.349 billion in 2013

and world class sustainable and climate-smart agricultural practises. The research portfolio of the department was aligned with the needs of both commercial and small holder farmers. The increase in the engagement and collaboration with industry organisations was a clear indication of smart technologies. Research to improve ostrich leather quality with better production practises, has also contributed to higher quality skins and better prices obtained. Furthermore, the small stock breeding programme is also supporting better fine wool quality for the export market. The Alternative Crops Fund (fifth call concluded in 2018/19) is also supporting the smaller and niche alternative crop industries to do pivotal research A thriving export sector is only sustainable if primary production is supported by sound and cutting-edge research and technology development the need for cutting-edge technology development and information dissemination, especially with regard to low-input high-output and climateowards production practises and market access, both locally and internationally.

# Ensure that at least 70% of all agricultural land reform projects in the Province are successful over the next five years

The success of land reform projects is based on a platform of various factors, of which one of the most important is the fine balance between available natural resources, especially soil and water, and choice of farming operation. In this regard the research effort and spatial intelligence ools have assisted in identifying resource limitations or opportunities, whilst the spatial analysis support (maps and other tools, like Cape Farm Mapper and CAMIS) were invaluable to extension officers and farmers, to name but a few. Furthermore, the sustainability of land reform projects is also based on production technologies, and in this regard the research efforts have focussed on yield-increasing and/or cost-decreasing climate-smart technologies in plant and animal production. The analytical services have furthermore provided pivotal information on water, soil and plant analyses which assisted in fertiliser recommendations and optimising production methods. The information dissemination portfolio has expanded to also include small holder farmers and their specific research, technology and information needs. The Animal Sciences directorate nas excelled in providing high quality genetic material to our small holder farmers in a number of projects.

## Support the sector (farmers and industries) to increase sustainable agricultural production (primary provincial commodities) by at least 10% over the next 10 years

Comprehensive, client-centred and problem-focussed research programmes and projects were executed by the directorates of Animal and Plant Sciences, and supported by the directorate Research Support Services. In order for agricultural producers (commercial and small holder) to nave to be researched. This is of the utmost importance against the challenges of climate change and the adoption and implementation of climate smart practises. New and adapted technology generated from cutting-edge research efforts has and will ensure that our producers are sustainable and competitive with limited natural resources (especially water and soil quality) and the changing environment and will secure the base to increase agricultural production by 10% over the next ten years. The SmartAgri plan (which was concluded in 2016/17) is currently being mplemented across the entire value-chain. Conservation agriculture (CA), one of the priority projects of SmartAgri, especially in the small grain and potato industries, has been expanded with the support of focused research and intensified technology transfer efforts. Furthermore, the partnership with GreenCape and the green agri-portal will be pivotal in providing farmers with green solutions. The Western Cape Agricultural Research Forum (WCARF) has furthermore strengthened the drive to coordinate all research efforts and optimise available research resources and human capacity to increase the research support base to the agricultural sector in the Western Cape. Three meetings were held in 2018/19. sustain or increase their production, two critical factors, i.e. lower input technology (lower input cost) and higher output technology (production)

# Optimise the sustainable utilisation of water and land resources to increase climate smart agricultural production

The challenges of climate change have already impacted on the Western Cape, believed to be the province which will be affected most by this ohenomenon. The drought conditions of 2018/19 were testimony of the challenges that the agricultural sector will have to manage and the esearch effort of the department will have to assist in adapting and mitigating this challenge to ensure a resilient agricultural sector. For this eason, a high demand for research and technology development services were experienced to assist farmers in sustaining their production against a set of climate challenges. The focus on the research portfolio is on climate smart research, including minimum or no tillage for soil conservation, crop rotation for higher production, increased crop cover to prevent evaporation (these are the three pillars of conservation agriculture), judicial fertiliser use, alternative farming practises and possible new and alternative crops for the Western Cape. Conservation agriculture (CA),one of the priority projects of SmartAgri, in the small grain and potato industry is also advocated and promoted in focussed esearch and technology transfer efforts. The intensification of the implementation of the SmartAgri plan will ensure that the sector has a climate esilient and sustainable future. Twenty-one projects with a direct link to climate smart production and technology development were executed

## ncrease agricultural and related economic opportunities in selected rural areas based on socio-economic needs over a 10-year period and strengthen interface with local authorities

The establishment of new agricultural enterprises in rural areas was supported by the research and development portfolio of the department. This ncluded the development and supply of decision making tools (for example Cape Farm Mapper and CAMIS) and technical support in the judicial use of natural resources to optimise agricultural production with limited input. The programme also continued to avail livestock of superior genetic quality to small holder farmers to provide a quality livestock source for their farming operations. The implementation of the SmartAgri plan also includes vulnerable rural communities. The envisaged outcomes will also be beneficial to these communities, and building a resilient workforce

# Enhance the agri processing capacity at both primary and secondary level to increase with 10% over baseline by 2019

The research portfolio of programme RTD included projects and actions to support the agri-processing part of Project Khulisa and its eminent role in the future of agriculture in the Western Cape. During 2018/19, 16 projects with a direct impact on agri-processing were executed. This included new production methods for better leather quality in the ostrich industry and higher milk production and quality. Several projects are also indirectly in support of production and ways to increase job creation, economic development and also new and innovative products for the local and export market.

# Facilitate an increase of 20% in relevant skills development at different levels in the organisation and the sector over the next 10 years

he lack of critical and scarce skills in the sector. The MOAs with the University of Stellenbosch (SU) and Nelson Mandela University (NMU) brought oivotal conduit to optimise research resources and in identifying training needs and opportunities for the youth in agriculture, especially also in the agri-processing context. RTD also participated in departmental human capital development initiatives, which will furthermore strengthen the human resource base. This forms part of a comprehensive human development plan for the next five years, which focusses on the current skills The programme RTD expanded on its partnerships with leading tertiary institutions in the Western Cape to firstly maintain, and secondly address new opportunities to capacity building to the department, especially with regard to post-graduate studies, research collaboration at all levels and sharing of resources including equipment, infrastructure and facilities. The Western Cape Agricultural Research Forum (WCARF) served as a base, succession planning, transformation of the researcher and technician levels and capacity building at all levels to ensure a sustained research and development human resource base with career and development opportunities for all. The plan also focuses on the appointment of women and people with disabilities.

development. New models of collaboration with our commodity partners included opportunities for vocational experience for the young orofessionals in agriculture. The array of smart web-based and other technological tools being explored and developed at a rapid rate in RTD A remaining concern is that students are inadequately prepared for agricultural higher education when it comes to mathematics and science. Simultaneously, it was difficult for the department to recruit, attract and retain skilled and experienced staff in research and technology and the department will undoubtedly also attract young people to agriculture, which has not been a popular sector for youth for many years.

## Strategy to overcome areas of under performance

The programme RTD underperformed in the number of meetings with industry organisations to establish research needs. Due to the fact that this is beyond the control of the department, the indicator has not been included in the set of indicators for 2019/20. It also underperformed in the number of research presentations made at peer reviewed events due to the cancellation of an important conference. This was beyond the control of the programme.

### Changes to planned targets

RTD: No changes were made to performance indicators or targets during the year.

### Linking performance with budgets

The programme's performance was in line with its budgeted financial resources.

### Sub-programme expenditure

| Sub-Programme Name              |                        | 2018/19               |                             |                        | 2016/17 (Audited)     |                             |

## 4.6 Programme 6: Agricultural Economics Services

### Purpose

The purpose of the programme AES is to provide timely and relevant agricultural economic services to ensure equitable participation in the economy.

### Sub programmes

The Programme executes its mandate over three sub-programmes:

- Production Economics and Marketing Support
- Agro-Processing Support
- Macroeconomics Support.

## Strategic objectives, performance indicators, planned targets and actual achievements

Production Economics and Marketing Support: Provide agricultural stakeholders with agricultural economic advice.

Agro-Processing Support: Agri-processing initiatives performed to support the agri processing subsector.

Macroeconomics Support: Information activities performed to support sound decision-making.

| Agricultural Economics Services  |  |                           |                                  |   |  |
|--|--|---------------------------|----------------------------------|---|--|

## Contribution towards outcome of Department's Strategic Goals

Support the provincial agricultural sector to at least maintain its export position for the next five years by growing its value added from R16.349 billion

The market access activities such as the support provided to smallholder farmers through the market access programme, the market research conducted and compliance and market development initiatives performed under Programme: AES are aimed at achieving the above–mentioned

# Ensure that at least 70% of all agricultural land reform projects in the Province are successful over the next five years.

The programme has targeted interventions for land reform beneficiaries such as the market access programme to support the beneficiaries towards achieving market access by eliminating the barriers up and down stream. The Financial Record Keeping Programme, cooperatives development supports the beneficiaries with capacity building and actual financial records at farm level, including benefits offered by cooperatives

## Strategy to overcome areas of under performance

There was no under achievement experienced during the year.

### Changes to planned targets

There have been no changes on the planned targets.

### Linking performance with budgets

The activities performed under sub-programme 6.1 are carried throughout the Province and are therefore placing pressure on expenditure related to subsistence and transport The programme also has a number of agreements with various institutions/commodity organisations. A significant amount of the programme budget therefore goes on transfers. Market development activities in the international markets are also among the cost drivers for the programme.

The programme's performance was in line with its budgeted financial resources.

### Sub-programme expenditure

## 4.7 Programme 7: Structured Agricultural Education and Training

The purpose of the programme: SAET is to facilitate and provide structured agricultural education and training in line with the Agricultural Education and Training Strategy to all participants in the agricultural sector in order to establish a knowledgeable, prosperous and competitive sector.

SAET activities are delivered under the following sub programmes:

The sub-programme: Higher Education and Training (HET) provides accredited higher education and training from NQF level 5 to anybody who meets the minimum requirements to study in agriculture and related fields.

The sub-programme: Agricultural Skills Development (ASD) provides formal and non-formal training on NQF levels 1 to 4 through ASD structured education and training programmes to all interested agricultural role players.

## Strategic objectives, performance indicators, planned targets and actual achievements

Strategy for Agriculture, Forestry and Fisheries (NETSAFF) and adhering to quality standards of the Higher Education Quality Committee in order to The objective of this programme is to facilitate and provide structured education and training aligned to the National Education and Training establish a knowledgeable, prosperous and competitive agricultural sector.

The purpose of the sub-programmes is as follows:

**Higher Education and Training (HET):** To provide tertiary agricultural education and training to anyone who meets the minimum requirements.

Agricultural Skills Development (ASD): To provide formal and non-formal vocational education and training programmes on NQF levels 1-4 to nterested agricultural role-players.

| Structured Agricultural Education and Training   |                                  |                           |                                  |   |   |

## Contribution towards outcome of the Department's Strategic Goals

## Support the provincial agricultural sector to at least maintain its export position for the next five years by growing its value added from **R14,014 trillion**

The programme: Structured Agricultural Education and Training contributed in a very significant way to human capital and skills development in the agricultural sector where a total of 2720 agricultural beneficiaries benefitted from skills training. The increased agricultural skills base along the whole programmes were 63, 54 and 22 respectively. The increased numbers of highly motivated youth participating and completing programmes has also been due to the enabling and healthy learning and teaching environment. With the introduction of the AgriSeta supported Recognition of Prior Learning programme, recognition is given to learning gained through experience, self-study, informal experience gained in the work place or community. Informalin-house agricultural education and training offered by companies and accredited training providers will further contribute value chain is critical for the Western Cape to successfully compete in international markets. There has been increased access to occupationally based "fit for purpose" agricultural and agricultural related training. Increased marketing of our programmes created the request and need for urther training, resulting in an overachievement of our targets. This was primarily due to beneficiaries of CASP funded projects, agri-workers, youth and people living with disabilities. The number of students enrolled in learnerships, completing learnership programmes and articulating to HEI o the declaration of competence for a large workforce who will also participate in the Provincial Agricultural sector. The programme: Structured Agricultural Education and Training offered four formal training programmes on HET level, namely, B.Agric, Diploma and Higher Certificate in Agriculture as well as the Certificate in Horse Mastership and Preliminary Riding Instruction to 479 students. A total of 122 students graduated from these programmes in December 2018, adding to the number of well-qualified agriculturalists to grow the sector.

# Ensure that at least 60% of all agricultural land reform projects in the province are successful over the next five years

driven occupational based skills training on a decentralised basis. Therefore, beneficiaries of agricultural land reform or CASP funded projects were provided with relevant agricultural skills identified in the skills gap analysis on an ongoing basis. A value chain approach is implemented in The sub-programme: agricultural skills development, in collaboration with the Farmer Support and Development unit, offered quality needs all training interventions. Other beneficiaries included agri-workers, smallholder farmers, farm aids, youth, women and people living with disabilities.

# Support the sector (farmers and industries) to increase agricultural production (primary agricultural commodities) by at least 10% over the next

programmes. A total of 176 students graduated from these programmes and will enter the sector primarily as farmers, farm managers, assistant farm based training was provided to 2720 farmers and farm-aids, while 542 students enrolled for full-time study in higher education training and skills development The programme: SAET partnered with various stakeholders in promoting and supporting skills development and capacity building in agriculture. Skillsmanagers, supervisors, agriculturalists and agricultural advisors.

# Optimise the sustainable utilisation of our natural resources through conservation methodologies to increase agricultural production

programmes include water harvesting and soil conservation and food security. These skills programmes capacitate farmers and participants to The programme: SAET provides training on sustainable agricultural practices to both students, agri-workers, youth, women and people living with disabilities. This includes modules on aspects such as sustainable farming systems, measurable indicators of sustainability, natural resource nanagement, preventive rehabilitation and strategic planning for the use and maintenance of natural resources. Other specialised skills optimise the sustainable use of our natural resources through various conservation methodologies that seek to increase agricultural production. Participants are also sensitised to agri-ecotourism and its benefits. In addition, they are able to plan and maintain agricultural and environmentally processes. Facilitators continuously enhance their knowledge and skills on the innovative and up-to-date sustainable use of natural esources in the face of climate change by attending in service training and workshops.

# Enhance the agri-processing capacity of both primary and secondary level to increase with 10% over baseline by 2019

The transformation and the subsequent adding of value to agricultural raw products created jobs in the Western Cape. This is despite the growing impact of climate change, drought, water scarcity and dwindling resources. The sub-programme: agricultural skills development provided specialised skills programmes to identified target groups in all regions of the Province. The agro-processing training and demonstrations were on olant and animal product processing such as fruit drying, chutney making, and olive preservation.

# eacilitate an increase of 20% in relevant skills development at different levels in the organisation and the sector over the next 10 years

development in the agricultural sector and continued to facilitate and provide formal and non-formal training, on NQF levels 1-7 with focus on youth, all farming groups, i.e. small-holder, subsistence and commercial farmers and agri-workers in the agricultural sector, in order to promote, transform, and support a knowledgeable, prosperous and competitive sector. Most set targets have been over-achieved largely due to an increase in demand for Iraining. A total of 2720 agricultural beneficiaries benefitted from skills training and 63 learners registered for the National Qualification in Plant and programme: Structured Agricultural Education and Training contributed in a very significant way to the promotion of human capital and skills Animal Production NQF 4. A Total of 54 learners graduated from these programmes in December 2018. Of these graduates, 22 were admitted to the HET programme through the RPL process. The programme covered aquaculture, viticulture, small and large stock production, vegetable production, and pomology. The programme took advantage of the vast opportunities and prospects for providing the relevant "fit for purpose" skills required at different levels of the organisation and the sector. Staff, enrolled for graduate and postgraduate programmes, were supported by funding from AgriSeta and provided with Recognition of Prior Learning (RPL) training to further enhance the implementation of a broader RPL programme within the Western Cape Province.

The programme: Structured Agricultural Education and Training offered four formal training programmes on HET level, namely, B.Agric, Diploma and Higher Certificate in Agriculture as well as the Certificate in Horse Mastership and Preliminary Riding Instruction to 479 students. A total of 122 students graduated from these programmes in December 2018, adding to the number of well-qualified agriculturalists to grow the sector

## Strategy to overcome areas of under performance

:

No areas of underperformance were recorded.

Changes to planned targets

None

Linking performance with budgets

The programme's performance was in line with its budgeted financial resources.

### 4.8 Programme 8: Rural Development

The purpose of the programme is to coordinate the development programmes by stakeholders in rural areas.

## The purposes of the sub-programmes are as follows:

Rural Development Coordination: To initiate, plan and monitor development in specific rural areas (CRDP sites) across the three spheres of government in order to address needs that have been identifled

Social Facilitation: To engage communities on priorities and to institutionalise and support community organisational structures (NGOs etc.)

Farm Worker Development: To enhance the image and the socio-economic conditions of agri-workers and their family members, through facilitation of training and development initiatives, in order to improve their quality of life.

## the strategic objectives of each sub-programme are as follows:

Rural Development Coordination: To successfully coordinate the implementation of the national CRDP in the selected rural nodes in the Western

**Social Facilitation**: Facilitate social cohesion and development efforts, as part of the CRDP, in the selected rural development nodes in the Western Cape.

**Farm Worker Development**: To enhance the image and the socio-economic conditions of agri-workers and their family members, through facilitation of training and development initiatives, in order to improve their quality of life.

## Strategic objectives, performance indicators, planned targets and actual achievements

The strategic objectives are documented per sub-programme.

| Farm Worker Development:  S.8.3.1  Number of strategic initiatives benefiting agri-workers and rural community members     | <b>v</b>                         |                           | <b>~</b>                         | (1)   | The Census was not conducted in the reporting period as targeted. Aa delay in the procurement of a service provider for this project occurred due to the following: Firstly, the project is based on gathering and analysing credible data to steer resource allocation in rural communities based on actual needs identified through the Census. While the procurement process was underway, a due diligence exercise was necessitated to ensure that the project implementation plan and specifications covered sufficient aspects of data collection verification to assure credibility. This process delayed finalising the procurement programme had adjusted its procurement process from using CASIDRA as an implementation agent to utilising the department's own internal Supply Chain Management processes to procure the service provider. Not being a familiar project to this system, the process took longer than expected. It should be noted that the process is currently underway and no further delays are foreseen. |

### Performance indicators

# Contribution towards outcome of Department's Strategic Goals

# Ensure that at least 70% of all agricultural land reform projects in the Province are successful over the next four years

Close collaboration by the department's Rural Development Programme with the Department of Labour and the Department of Social Development nas enabled improved collective responses to the humanitarian pressures experienced on farms affected by both the prevailing drought and Avian nfluenza outbreak, in order to sustain basic needs of affected families and maintain critical agri-worker employment with farming enterprises Ongoing exposure of agri-workers to social upliftment and development opportunities remains a high priority for the department as this contributes awareness and prevention campaigns, Early Childhood Development, Technical Skills Development, and Rural Female Youth Mentoring programme. A total of three hundred and ten (310) agri-workers and family members were assisted through the referral system providing access to their capability to participate in the sector and make a contribution to land reform initiatives and maintain farm productivity. To this end, four (4) agri-worker projects were funded, which focussed mainly on: Substance Abuse Prevention focussing on Foetal Alcohol Syndrome (FAS) o much needed services, which indirectly or directly impacts on the agricultural enterprises that employ these agri-workers.

As a result of the drought, many agri-worker households have been under threat of unemployment and many have been reached through collaborative numanitarian relief efforts with the Department of Social Development. Through these interventions, responsible use of resources has been at the forefront of the interactions raising awareness on the water scarcity. Leading up to the end of the medium term, there has been an increase in demand for farm nvestigations related to agri-workers' working and living conditions in response to queries by civil society organisations. Many of the investigations have centred around access to water considering the prevailing drought and sensitivity and awareness on sustainable use of water has been a key focus in all interactions with both farmers and agri-workers in support of achieving this goal

# Support the sector (farmers and industries) to increase agricultural production (primary provincial commodities) by at least 10% over the next 10 years

require innovative responses perhaps through support programmes geared at rural youth to pursue social entrepreneurship in the rural and agricultural The job losses experienced as a result of natural disasters calls for a rethink of human capital development and entrepreneurial opportunities also considering the implications of the 4th industrial revolution on the agricultural sector. The high prevalence of social ills plaguing rural communities will also space as well as agri-processing alternatives to support primary agriculture. This has already been initiated through rural youth capacity building strategic projects identified as a result of the census findings during the 2018/19 financial year.

# Increase agricultural economic opportunities in selected rural areas based on socio-economic needs over a 10-year period and strengthen interface with local authorities

The department holds joint responsibility with the national Department of Rural Development and Land Reform's (DRDLR) provincial Shared Services Centre for rural development coordination in the province and are collaborating closely with various stakeholders across the three spheres of government, private sector and civil society in working towards the achievement of the National Outcome 7. The NDP, Chapter 6 and the Provincial Strategic Plan (PSG 4), emphasises development imperatives in rural areas which are aligned to NO7. In order to secure responses to rural communities' basic needs and social protection, the agricultural activities, services and industrial activities to stimulate economic diversification, investment and integrated approaches are needed. This requires the physical, social and financial infrastructure as support. As contribution, the department, through its Rural Development programme, provides coordination support in the 16 prioritised rural areas in the province (CRDP nodes) through liaison with 28 Community Representative Forums in these communities and coordinates 13 Intergovernmental Steering Committees (ISCs). Fifty-two Regional Coordination Committee engagements were facilitated across the province with the relevant government departments towards achieving a more integrated, transdisciplinary approach to development during the reporting period resulting n 114 projects completed in the rural development nodes, led by various stakeholders.

programmes that could be responsive to the needs identified. The Census scope covered over 1000 variables across a spectrum of socio-The roll-out of the provincial-wide Agri-worker Household Census has provided an improved understanding of the challenges currently faced in rural communities, which has enabled the department to share data with all departments in the province to steer resource allocation to economic themes providing a cross section of pressure points requiring attention. The findings have been shared with municipalities and departments and a Provincial Rural Development Workgroup was established, which should strengthen integration of rural development efforts across departments towards more efficient and sustainable approaches to what it deems 'development', social, economic, infrastructural and environmental, in specific rural landscapes. The job losses experienced as a result of natural disasters calls for a rethink of human capital development and entrepreneurial opportunities also considering the implications of the 4th industrial revolution on the agricultural sector. The high prevalence of social ills plaguing rural communities will also require innovative responses perhaps through support programmes geared at rural youth to pursue social entrepreneurship in the rural and agricultural space. This has already been initiated through rural youth capacity building strategic projects identified as a result of the census findings during the

## Strategy to overcome areas of under performance

mplementation agent to utilising the department's own internal Supply Chain Management processes to procure the service provider. Not being a familiar project to this system, the process took longer than expected. It should be noted that the process is currently underway and no further delays are The Census was not conducted in the reporting period as targeted as a delay in the procurement of a service provider for this project occurred due to the following: Firstly, the project is based on gathering and analysis of credible data to steer resource allocation in rural communities based on actual needs identified through the Census. While the procurement process was underway, a due diligence exercise was necessitated to ensure that the oroject implementation plan and specifications covered sufficient aspects of data collection verification to assure credibility. This process delayed finalising the procurement process. Secondly, the Rural Development programme had adjusted its procurement process from using CASIDRA as an ioreseen.

### Changes to planned targets

None.

## Linking performance with budgets

The programme's performance was in line with its budgeted financial resources.

### Sub-programme expenditure

Casidra SOC Ltd is the main implementer of the CASP and Ilima/Letsema grants for projects with regard to the following commodities: vegetables, ruminant, dairy, grain, poultry, ostrich, piggery, aquaculture, viticulture and all other commodities not implemented by the Deciduous Fruit Producers Trust (See 5.2). The requested narrative for the rest of the institutions being transferred to is mentioned under purpose in the table.

In addition to the above, Casidra SOC Ltd also manages disaster projects, which form part of the CASP funding, as well as schedule 7 funding received and transferred.

All the transfers are done in terms of Memoranda of Agreement (MOAs), except for the amount of R36.689 million, which was done in terms of the Shareholder's Compact with Casidra SOC Ltd.

All transfers that are linked to MOAs also have reporting prescripts, including spending, for the scrutiny of the Department. In the case of Casidra SOC Ltd, monthly financial reporting is done and a quarterly narrative report is also submitted, including spending progress. In all other cases the MOA will stipulate reporting within the practical parameters of that specific project.

Western Cape Investment and Trade Promotion Agency (WESGRO) keeps an Agri Investment Desk, which is annually funded by the Department. This is run as part of WESGRO's operations and promotes investment into agriculture in the Western Cape.

In cases where full spending did not take place, the funds are expected to be fully spent before 31 March 2020. However, this may be subject to the drought, which still had a visible impact on the year under review.

### 5.2. Transfer payments to all organisations other than public entities

| Name of transferee   | Type of organisation  | Purpose for which the funds were used   | Did the dept. comply with s 38 (1) (j) of the PFMA | Amount transferred | Amount<br>spent<br>by the<br>entity<br>(R'000) | Reasons for the funds unspent by the entity   |

| Greencape<br>Sector<br>Development<br>Agency                                    | NPO   | To Greencape for the operations of the Agriculture Sector Desk (Agri Desk)  | Yes  | 529                              | 529  |   |
| Sustainable<br>Initiative of<br>South Africa                                    | NPO   | For the implementation of the Ethical Trade Programme in the fruit industry for improved compliance especially with ethical trade standards to maintain existing market access in South Africa's main traditional markets | Yes  | 1 552                            | 370  | The project commenced during the 3 <sup>rd</sup> quarter and is governed by a 12 months agreement that goes over the year the funds were paid in. |
| Cape of<br>Good Hope<br>Agricultural<br>Society                                 | Agricultural<br>Society   | For the 2019 Cheese<br>Festival and Youth Show  | Yes  | 300                              | 300  |   |
| Wine Industrial<br>Ethical Trade<br>Association<br>(WIETA)                      | NPO   | To improve social compliance in the wine industry using the ethical trade standard to maintain existing market access in South Africa's main traditional markets  | Yes  | 1 000                            | 831  | Balance already<br>allocated for<br>projects to be<br>finalised shortly.  |

All transfer payments budgeted for, were paid.

Deciduous Producers Trust takes responsibility for managing projects within horticulture – deciduous fruit and citrus being the major commodities here. The requested narrative for the rest of the institutions being transferred to, are mentioned under purpose.

All the transfers are done in terms of Memoranda of Agreement.

All transfers that are linked to Memoranda of Agreement also have reporting prescripts, including spending, for the scrutiny of the Department.

In the case of Deciduous Producers Trust a quarterly narrative report is also submitted, including spending progress. In all other cases the memorandum of agreement will stipulate reporting within practical parameters of that specific project.

In all cases where full spending did not take place, it is expected to be fully spent before

31 March 2020. However, again this may be subject to the drought which, as can be seen, had a visible impact on the year under review.

### The table below reflects the transfer payments which were budgeted for during the period 1 April 2018 to 31 March 2019, but no transfer payments were made

| Name of    | Type of      | Purpose for which the | Amount   | Amount      | Reasons why funds were not |
|------------|--------------|-----------------------|----------|-------------|----------------------------|
| transferee | organisation | funds were to be used | budgeted | transferred | transferred                |
|            |              |                       | for      |             |                            |
|            |              |                       | (R'000)  | (R'000)     |                            |
| None       |              |                       |          |             |                            |

### 6. CONDITIONAL GRANTS

### 6.1. Conditional grants and earmarked funds paid

No conditional grants were paid to departments or municipalities.

### 6.2. Conditional grants and earmarked funds received

Conditional Grant Comprehensive Agricultural Support Programme:

| Department who transferred the grant | Department of Agriculture, Forestry and Fisheries  |  |
|--------------------------------------|--|--|
| Purpose of the grant                 | To provide effective agricultural support services, promote and facilitate agricultural development by targeting beneficiaries of land restitution and redistribution, and other previously disadvantaged producers who acquired land through private means, and are engaged in value-adding enterprises domestically, or involved in export.  |  |
| Expected outputs of the grant        | <ul> <li>Number of subsistence, smallholder and commercial farmers supported through CASP</li> <li>Number of youth and women farmers supported through CASP</li> <li>Number of beneficiaries of CASP supported with SA GAP certification</li> <li>Number of beneficiaries of CASP trained on farming methods</li> <li>Number of on-off farm infrastructure provided</li> <li>Number of beneficiaries of CASP with markets identified</li> <li>Number of extension personnel recruited and maintained in the system</li> <li>Agricultural colleges upgrading infrastructure</li> <li>Agricultural Information Management System (AIMS)</li> <li>Number of graduate interns appointed</li> </ul> |  |

|   | Number of subsistence,<br>smallholder and commercial<br>farmers supported through<br>CASP | Subsistence: 0 Smallholder: 21 Black Commercia: 50 (benefitting 1 391 beneficiaries)   |  |
|---|---|--|--|
|   | Number of youth and women farmers (beneficiaries) supported through CASP.                 | Youth and youth: 173 Women: 1 164 People with disability: 21   |  |
|   | Number of beneficiaries of CASP supported with SA GAP certification                       | 4  |  |
|   | Number of beneficiaries of<br>CASP trained on farming<br>methods                          | 3 026 beneficiaries received training (71 accredited and 2 955 non-accredited training) 49 mentors were appointed to support smallholder farmers 4 445 farmers were reached through extension and advisory services. Site visits were conducted through the Smart Pen system. 120 Graduate interns appointed   |  |

| Monitoring mechanism by the receiving department | Monthly financial reports signed and sent to the transferring department every month |

### Conditional Grant Comprehensive Agricultural Support Programme (College Improvement):

| Department who transferred the grant   | Department of Agriculture, Forestry and Fisheries  |  |
|--|--|--|
| Purpose of the grant   | Upgrade of Agricultural Colleges   |  |
| Expected outputs of the grant  | Erection of new College Entrance   |  |
| Actual outputs achieved  | Creation of new entrance in progress. Estimated date of completion in terms of the contract with WCDTPW is end June 2019 |  |
| Amount per amended DORA (R'000)  | 5 453  |  |
| Amount received (R'000)  | 5 453  |  |
| Reasons if amount as per<br>DORA was not received  | All amounts per DORA were received   |  |
| Amount spent by the department (R'000)   | 4 032  |  |
| Reasons for the funds unspent by the entity  | Project ongoing  |  |
| Reasons for deviations on performance  | Project ongoing  |  |
| Measures taken to improve performance  | N/A  |  |
| Monitoring mechanism by the receiving department  Monthly meetings with implementing department. |  |  |

### Conditional Grant Ilima Letsema:

| Department who transferred the grant              | Department of Agriculture, Forestry and Fisheries   |   |  |
|---|---|---|--|
| Purpose of the grant                              | To assist vulnerable South African farming communities to achieve an increase in agricultural production and invest in infrastructure that unlocks agricultural production within strategically identified grain, livestock and horticulture production areas   |   |  |
| Expected outputs of the grant                     | Number of hectares planted Number of tonnes produced within agricultural development corridors e.g. maize Number of beneficiaries/entrepreneurs supported by the grant Number of newly established infrastructure plants through the grant Number of hectares rehabilitated and expanded irrigation schemes |   |  |
|   | Number of hectares (ha) planted   | 4 475,9ha   |  |
|   | Number of tonnes produced within agricultural development corridors e.g. wheat  | 13 342 tons   |  |
|   | Number of beneficiaries/<br>entrepreneurs supported by the<br>grant   | Subsistence: 1 482<br>Smallholder: 33<br>Commercial: 8  |  |
| Actual outputs achieved                           | Number of newly established infrastructure plants through the grant   | Irrigation and water canals – 2 Irrigation and stock dams – 2 Borehole drilling - 1 Pipelines - 4 Animal husbandry - 1 Soil production - 8 Fencing – 8 projects Package facility - 1 Processing and handling facilities – 2 Equipment - 5 Implements - 3 Delivery vehicles - 5 Soil preparations - 2 Livestock projects – 3 |  |
|   | Number of hectares (HA) rehabilitated and expanded irrigation schemes   | N/A   |  |
| Amount per amended DORA (R'000)                   | 55 662  |   |  |
| Amount received (R'000)                           | 55 662  |   |  |
| Reasons if amount as per<br>DORA was not received | All amounts per DORA were received  |   |  |
| Amount spent by the department (R'000)            | 55 662  |   |  |

| Reasons for the funds unspent by the entity      | 100% spent  |
|--|---|
| Reasons for deviations on performance            | N/A   |
| Measures taken to improve performance            | N/A   |
|  | Quarterly Review Meetings were scheduled by the DAFF for provinces to report on the performance of the grant. |
| Monitoring mechanism by the receiving department | Monthly financial reports submitted to the transferring department on the 15 <sup>th</sup> of every month.    |
|  | Quarterly report submitted to the transferring department by the $20^{\text{th}}$ after reporting quarter.    |

### **Conditional Grant LandCare:**

| Department who transferred the grant             | Department of Agriculture, Forestry and Fisheries   |
|--|---|
| Purpose of the grant                             | LandCare is a national movement aimed at restoring sustainability to land and water management in both rural and urban areas. |
| Expected outputs of the grant                    | 25 LandCare projects implemented  |
| Actual outputs achieved                          | 57 LandCare projects implemented  |
| Amount per amended DORA (R'000)                  | 4 778   |
| Amount received (R'000)                          | 4 778   |
| Reasons if amount as per DORA was not received   | All amounts per DORA were received  |
| Amount spent by the department (R'000)           | 4 778   |
| Reasons for the funds unspent by the entity      | 100% spent  |
| Reasons for deviations on performance            | N/A   |
| Measures taken to improve performance            | N/A   |
| Monitoring mechanism by the receiving department | Full time monitoring of outputs of projects   |

### Conditional Grant Extended Public Works Programme:

| Department who transferred the grant              | Department of Public Works  |
|---|---|
| Purpose of the grant                              | The Expanded Public Works Programme (EPWP) is one element within a broader government strategy to reduce poverty through the alleviation and reduction of unemployment and creating work. Work opportunities for unemployed persons, and so allowing them to participate economically and contribute to the development of their communities and the country as a whole |
| Expected outputs of the grant                     | 47 Full Time Equivalents (FTE)  |
| Actual outputs achieved                           | 115 FTE   |
| Amount per amended DORA (R'000)                   | 2 154   |
| Amount received (R'000)                           | 2 154   |
| Reasons if amount as per<br>DORA was not received | All amounts per DORA were received  |
| Amount spent by the department (R'000)            | 2 154   |
| Reasons for the funds unspent by the entity       | 100% spent  |
| Reasons for deviations on performance             | N/A   |
| Measures taken to improve performance             | N/A   |
| Monitoring mechanism by the receiving department  | Full time monitoring of outputs of projects   |

### **Conditional Grant Drought Alleviation:**

| Department who transferred the grant              | Department of Cooperative Governance and Traditional Affairs  |
|---|---|
| Purpose of the grant                              | Drought relief support in the form of fodder  |
| Expected outputs of the grant                     | This fodder voucher system will ensure that farmers are able to maintain not only their livelihoods but the livelihoods of the agri-workers and their families. |
| Actual outputs achieved                           | Fodder supplied to livestock farmers in the Province  |
| Amount per amended DORA (R'000)                   | 38 000  |
| Amount received (R'000)                           | 38 000  |
| Reasons if amount as per<br>DORA was not received | All amounts per DORA were received  |

| Amount spent by the department (R'000)           | 38 000   |
|--|--|
| Reasons for the funds unspent by the entity      | N/A  |
| Reasons for deviations on performance            | N/A  |
| Measures taken to improve performance            | N/A  |
| Monitoring mechanism by the receiving department | Monthly financial reports signed and sent to PDMC and DAFF every month |

Programme: SRM received a grant for EPWP amounting to R2.154 million. The full amount was spent on five projects for the clearing of alien plants by using unemployed local labour. All objectives were met.

Programme: SRM received a "normal" LandCare grant of R4.778 million for the implementation of 25 projects aimed at restoring sustainability to land and water management in both rural and urban areas, were spent. It encompasses Integrated Sustainable Natural Resource Management where the primary causes of natural resource decline are recognised and addressed. The balance of R41.9 million was received for drought spending in January 2019 and transferred and will be spent in terms of a one-year plan. All funds therefore will be spent by 31 March 2020.

Programme: SRM received a CASP grant for disaster relief amounting to R17.483 million for the 2013/14. The 2013/14 Flood Aid Scheme is a multi-year project to be completed in 2019/20. The 2013/14 Flood Aid scheme provides funding to assist farmers with the on-farm repairs of damages that resulted from the 2013 and 2014 floods. This will typically include repairs to agricultural land, fences, weirs, dams, canals and pipelines. For most of the repair work environmental authorisation is required that are costly and requires considerable time to obtain. Farmers are reimbursed for expenditure on the repair work on condition that they have obtained the required authorisations and the work is concluded up to acceptable engineering standards and specification. This resulted in limited expenditure of the allocated funding. At 31 March 2019 all was transferred.

Furthermore, the programme also received R170 million through the adjusted DORA from DAFF towards the drought disaster in the Western Cape. Of this all was transferred and R69.144 million was spent at 31 March 2019 and 1 927 farmers were assisted so far. The rest is committed until September 2019.

SRM also received R1.305 million for fire damage in Knysna which was transferred.

SRM received R38 million in terms of schedule 7 of DORA for provincial disaster grants. This money was transferred and spent by 31 March 2019.

Programme: FSD received in total R177.675 million for conditional grants. The spending can be broken down as follows per grant:

- Comprehensive Agricultural Support Programme:
- Implement infrastructure and input support projects amounting to R99.010 million; and
- Extension Revitalisation Programme funding amounting to R23.003 million.

Casidra and Deciduous Fruit Producer's Trust manage projects as part of their mandate. Casidra received R127.019 million. This institution also acts as the secretariat for the Animal Industry, Vegetable Industry, Viticulture and Table Grape Industry, Wine Industry, Dairy, Grain and Sheep and Wool, as well as Food Security projects. They are also responsible for some strategic projects. Deciduous Fruit Producers Trust received R25.795 million for the Fruit Commodities. The prescripts of DORA were adhered to the allocated budget for its intended purpose. The conditions of the Act and the frameworks of CASP and Ilima Letsema,

were adhered to. Ten commodity groups in the Western Cape were supported in this way to establish new farmers within their ranks.

### 1. Ilima Letsema:

Implementing Ilima Letsema projects amounting to R55.662 million.

The programme: SAET received an amount of R5.453 million CASP funding to initiate the implementation of the nationally accepted set of Norms and Standards for Agricultural Training Institutes. This was allocated to civil works at the College. Of this, R1.422 million was unspent and requested to be rolled over to the new financial year to for the completion of the project.

The total amount of R458.748 million for all four grants was received in one to four quarterly tranches as published.

All the above grants were deposited into the accredited bank account of the Provincial Treasury.

CASP, Ilema Letsema, LandCare and EPWP quarterly reports, as well as monthly financial reports were submitted on time as required by the Division of Revenue Act (DORA).

### DONOR FUNDS

### 7.1. Donor Funds Received

No donor assistance was received.

### 8. CAPITAL INVESTMENT

### 8.1. Capital investment, maintenance and asset management plan

The departmental asset management plan was done, linked to the budget and implemented.

The tenth UAMP in terms of GIAMA was completed and will form the basis for the accommodation, maintenance and capital needs of the Department for the next five years. Of major concern is the deterioration of the infrastructure, sewerage and water resources at the Head Office of the Department at Elsenburg.

The laboratories and other research buildings are inadequate for the research work needed and considerable upgrading has to be done to meet the standards for the Health and Safety Act and other ISO standards. A plan to totally redesign the Department's outdated research infrastructure facilities is taken up in the UAMP.

A total modernisation programme for the department's head office was presented to and accepted by the department from TPW and the five-year implementation thereof will start in August 2019.

Water supply problems continued during the reporting year at head office and has emphasised the urgent need for an Elsenburg resources master plan. This plan is part of the UAMP that was completed during the previous year. Two boreholes were tested and commissioned and supply enough water for the department's needs.

Completed building projects will be reported on by the Department of Transport and Public Works (Vote 10) as the budget and all processes lies with them.

There are no plans to close down or downgrade any current facilities.

At present the Department does not keep to its own maintenance schedule in terms of immovable assets and infrastructure and is solely reliant on the provincial Department of Transport and Public Works for its maintenance needs, since it is centralised with them in the Province.

Assets with a cost value of R12.960 million, but no book value, were written off and sold as scrap or disposed of.

Losses in terms of assets during the year were for theft of computers (R116 000 – 4 cases), damage to government vehicles (R76 000 – 19 cases), damage to private vehicles (R8 000 – 4 cases), as well as one case of theft (R22 000).

The Department is per prescript using LOGIS as an asset register. This system meets the minimum conditions of asset record keeping and is a constraint as an asset management tool, especially where the asset register is sizeable as in the case of this Department where line items in excess of 30 000 are kept. It cannot provide for all the needs of changing biological assets.

A monthly reconciliation between LOGIS and BAS ensures an updated asset register.

The condition of moveable assets varies from very good to poor. Firstly, there are vehicles (sedans and one-tonners) that are mostly in a well maintained condition, but the buses and bigger trucks are already beyond the normal replacement date. The condition of the tractors and other implements on the research farms are improved as compared to previous years with a couple of new replacements. The normal lifespan a tractor is eight years. We are still exceeding this, but have improved on the previous year's average. Some of the expensive high technology equipment like seed planters, combine harvesters and crop spraying equipment are in average to poor condition. Replacement is not affordable, but some of the items are in an irreparable condition.

All major maintenance projects on infrastructure will be reported on by the Department of Transport and Public Works (Vote 10) as the budget and all processes lies with them. No other major maintenance projects were undertaken.

The complete list of infrastructure maintenance remains longer than the available funding and capacity can support, which is an ever growing concern.

The maintenance of other asset items is under control.

No major capital projects were undertaken.

### **PART C: GOVERNANCE**

### 1. INTRODUCTION

The department has an approved strategic plan (setting out the department's policy priorities, programmes and project plans for a five-year period) and an annual performance plan (setting out what the department intends doing in the coming financial year and during the MTEF to implement its strategic plan). Performance indicators and targets are set to assist the department in realising its goals and objectives as set out in the annual performance and strategic plan.

Quarterly performance reports provide progress updates on the implementation of the department's APP with particular reference to monitoring delivery against performance targets. The aforementioned takes place in accordance with Chapter 5 of the Treasury Regulations and ensures that financial and non-financial performance information underpins planning, budgeting, implementation management and accountability reporting to promote transparency and expenditure control towards the economic, efficient and effective use of public resources.

A system of internal audit under the control and direction of the Audit Committee is in place. The Audit Committee is established as an oversight body providing independent oversight over governance, risk management and control processes in the department.

A number of other departmental structures are also in place and contribute to the improvement of governance. These include amongst other the (i) Ethics and Enterprise Risk Management Committee (ii) Safety and Security Committee (iii) Health and Safety Committee (iv) Evaluation Committee (v) various Bid Committees (Specification, Evaluation, Adjudication) (vi) Information Technology STEERCOM which provides oversight relating to information technology governance; (vii) Internal Control Unit and a (viii) Compliance Monitoring Function within Supply Chain Management.

### 2. RISK MANAGEMENT

The Accounting Officer (AO) for the Western Cape Department of Agriculture takes responsibility for implementing Enterprise Risk Management (ERM) in accordance with the National Treasury Public Sector Risk Management Framework (PSRMF) and the Directorate Enterprise Risk Management (D:ERM) in the Department of the Premier (DotP).

### ETHICS AND ENTERPRISE RISK MANAGEMENT COMMITTEE RESPONSIBILITY

The department established an Ethics and Enterprise Risk Management Committee (EERMCO) to assist the Accounting Officer in executing her responsibilities relating to risk management. The ERM Policy for the period 2016/17 – 2019/20 was approved by the EERMCO chairperson on 22 April 2016 and the ERM Strategy and Implementation Plan for 2018/19 on 19 March 2018.

The EERMCO reports that it has complied with its responsibilities arising from Section 38 (1)(a)(i) of the Public Finance Management Act, Treasury Regulation 3.2.1 and Public Service Regulations of 2016, Chapter 2, Part 1, 2 and 3.

The EERMCO furthermore reports that it has adopted a formal Terms of Reference (approved by the EERMCO chairperson on 16 May 2018 for a 3-year period) and has discharged its responsibilities in accordance therewith.

### **EERMCO MEMBERS**

The EERMCO comprises selected members of the department's management team. An invitation is also extended to various programmes within the Corporate Service Centre within the Department of the Premier (Corporate Assurance (Internal Audit, Enterprise Risk Management and Provincial Forensic Services), Employee Relations and Centre for e-Innovation) to attend each respective EERMCO. This invitation is also extended to the Safety and Security Division within the department. As per its Terms of Reference, the EERMCO met at least four times (quarterly) during the year under review. The table below discloses relevant information on EERMCO members:

| MEMBER   | POSITION   | SCHEDULED MEETINGS | ATTENDED | DATE<br>APPOINTED |
|--|--|--------------------|----------|-------------------|
| Ms J Isaacs  | Accounting Officer (Chairperson)                                       | 4                  | 2        | N/A               |
| Ms V Njalo   | Head of Ministry   | 4                  | 1        | 15/05/2017        |
| Mr F Huysamer  | Chief Financial Officer and Risk Champion                              | 4                  | 4        | 15/05/2017        |
| Ms R Wentzel   | Chief Director: Operational Support Services                           | 4                  | 4        | 13/11/2017        |
| Dr D Troskie   | Director: Business Planning and Strategy                               | 4                  | 3        | 15/05/2017        |
| Ms G Terblanche  | Acting Manager: Communication Services                                 | 4                  | 4        | 19/02/2018        |
| Mr D Jacobs  | Deputy Director General: Agricultural Development and Support Services | 4                  | 4        | 15/05/2017        |

### **EERMCO KEY ACTIVITIES**

The Chief Financial Officer is the Risk Champion and the Accounting Officer is the chairperson of the EERMCO. In executing its function and in line with the approved Terms of Reference, the EERMCO performed the following key activities amongst other during the year (Terms of Reference available at the department):

- Reviewed and recommended the EERMCO Terms of Reference for approval by the Accounting Officer;
- Reviewed and recommended the ERM Strategy and Implementation Plan for recommendation by the Audit Committee and approval by the Accounting Officer;
- Set, reviewed and applied appropriate risk tolerances as part of the ERM Strategy;

- Monitored the implementation of the departmental Risk Management Implementation Plan;
- Reviewed programme risk registers for consolidation to a departmental risk register and reviewed the department's critical risks;
- Ensured continuous risk identification specifically as it pertains to emerging risks;
- Monitored departmental and programme risk registers and risk treatments;
- Ratifyied the strategic risk register;
- Ensured alignment of the risk registers with departmental strategic objectives, annual performance plan and indicators;
- Monitor progress with respect to Business Continuity, IT Governance and Disaster Recovery Plans;
- Reviewed and recommended the Fraud Prevention Implementation Plan for approval by the Accounting Officer;
- Monitored the implementation and co-ordination of the Fraud Prevention Implementation Plan;
- Promoted positive and responsible whistle blowing;
- Engaged with Internal Audit on audit related matters (i.e. internal audit plan); and
- Reviewed and followed-up information on disciplinary cases that may pose a significant risk to the department.

### KEY RISKS CONSIDERED AND ADDRESSED DURING THE YEAR

The following are the key Strategic Risks for the Department that were considered and addressed during the year:

- Insufficient water availability, supply and quality;
- Pressure on agricultural productive land for alternate developments;
- Pressure on domestic availability of food and the increasing price of food; and
- Uncertainty around the parameters of climate change; and
- Complex environmental legislative environment.

Each programme's risks were deliberated/debated at the quarterly EERMCO meetings. Programme managers were required to provide feedback on progress with implementation of action plans to reduce the likelihood of risks materialising and/or the impact should they materialise. EERMCO also referred risks back that should be analysed more extensively and recommended additional mitigations or actions to manage risks.

The Economic Cluster Audit Committee provided independent oversight of the department's system of risk management. The Audit Committee was furnished with Quarterly ERM progress reports and risk registers to execute their independent oversight role.

### KEY EMERGING RISKS FOR THE FOLLOWING FINANCIAL YEAR

The following are key emerging risk which needs to be considered in the next financial year:

- National reconfigurations of departments; and
- New guidelines for strategic and annual performance plans.

### CONCLUSION

The Committee recognises that it does not operate in a risk-free environment and practising risk management enables management to operate more effectively in environments filled with uncertainty. While it is

acknowledged that not all risks can be eliminated, it is good practice to acknowledge that risk management is an essential enabler for the desired risk management culture that will support (Western Cape Government and department) efforts to meet objectives, maximise opportunity and minimise adverse consequences.

For the year under review, the Committee is satisfied that it has fulfilled its responsibilities in accordance with its Terms of Reference. The Committee furthermore also acknowledges that some refinement to the risk management process is still needed as we increase our risk maturity as risk management is a process of continuous improvement.

### 3. FRAUD AND CORRUPTION

Fraud and corruption represent significant potential risks to the Department's assets and can negatively impact on service delivery efficiency and the Department's reputation.

The Western Cape Government (WCG) adopted an Anti-Fraud and Corruption Strategy, which confirms the Province's zero-tolerance stance towards fraud, theft and corruption. In line with this strategy the Department is committed to zero-tolerance with regard to corrupt, fraudulent or any other criminal activities, whether internal or external, and vigorously pursues and prosecutes by all legal means available, any parties who engage in such practices or attempt to do so.

The Department has an approved Fraud and Corruption Prevention and Response Plan as well as a Fraud Prevention Implementation Plan which gives effect to the Prevention Plan. Progress made with respect to the implementation of the Fraud Prevention Plan as well as progress made on investigations is reported to EERMCO quarterly (as part of EERMCOs oversight responsibility).

Various channels for reporting allegations of fraud, theft and corruption exist and these are described in detail in the Provincial Anti-Fraud and Corruption Strategy and the Departmental Fraud and Corruption Prevention and Response Plan. Each allegation received by the Provincial Forensic Services (PFS) Unit is recorded in a Case Management System, which is used as a management tool to report on progress made with cases relating to the Department and to generate statistics for the Province and Department.

Employees and workers who blow the whistle on suspicions of fraud, corruption and theft are protected if the disclosure is a protected disclosure (i.e. meets statutory requirements e.g. was made in good faith). Following amendments by the Protected Disclosures Amendment Act, No 5 of 2017 the transversal Whistle-blowing Policy was reviewed and the revised Whistle-blowing Policy was approved on 18 July 2018. The Policy provides guidelines to employees and workers on how to raise concerns with the appropriate line management, specific designated persons in the WCG or external institutions, where they have reasonable grounds for believing that offences or improprieties have been or are being perpetrated within the WCG. The opportunity to remain anonymous is afforded to any person who would like to report acts of fraud, theft and corruption and should they do so in person, their identities are kept confidential by the person to whom they are reporting.

Once fraud, theft or corruption is confirmed after completion of an investigation, the relevant employee who participated in these acts is subjected to a disciplinary hearing. In all such instances, the WCG representative initiating the disciplinary proceedings is required to recommend dismissal of the employee concerned. Where *prima facie* evidence of criminal conduct is detected, a criminal matter is reported to the South African Police Services.

For the year under review, PFS issued a Case Movement Certificate for the Department noting the following:

| Cased Load                     | Number |
|--------------------------------|--------|
| Open cases as at 1 April 2018  | 0      |
| New cases (2018/19)#           | 2      |
| Closed cases (2018/19)         | 0      |
| Open cases as at 31 March 2019 | 2      |

<sup>#</sup>one (1) case Internal Tip-off line (allegation type: alleged corruption – favouritism)

<sup>\*</sup>one (1) case referred by the Department (allegation type: alleged fraud – electricity sales)

### The following table further analyses the closed cases indicated above:

### Nature and investigation outcome of cases closed

There were no cases closed during the 2018/19 financial year.

### 4. MINIMISING CONFLICT OF INTEREST

The Code of Conduct for the Public Service and the Code of Conduct for Supply Chain Management Practitioners both lay down norms and standards to promote integrity and guide employees as to what is expected of them ethically (both in their individual conduct and in their relationships with others, including the avoidance and/or declaration of any interest that may pose a conflict of interest). All employees are expected to comply with the Code of Conduct for the Public Service, while all SCM Practitioners must also comply with the Code of Conduct for SCM Practitioners.

With regard to bid committees, all members of the bid adjudication committee, specification committee and evaluation committee are required to declare any conflict of interest which may exist (declaration of confidentiality, impartiality and conflict of interest). Should a conflict of interest arise, the committee member must recuse him/herself from proceedings.

In terms of the Public Service Regulations, 2016, designated employees are required to disclose their financial interests (particulars of all interests in respect of the period 1 April of the previous year to 31 March of the year in question). The objective is to identify any conflict of interest in order to promote just and fair administrative actions of officials in positions of authority.

Regulation 13(c) of the Public Service Regulations 2016 (read together with the Directive on "Conducting business with an Organ of State"), prohibits any employee from conducting business with an organ of state, or holding a directorship in a public or private company doing business with an organ of state unless the employee is a director (in an official capacity) of a company listed in schedules 2 and 3 of the PFMA. The Provincial Treasury in collaboration with departments have already implemented a mechanism through which potential conflict of interests are identified by comparing similar and comparable information from PERSAL with information on the suppliers' database. Where cases are identified through system checks, such transactions are reviewed to ascertain whether a conflict exists.

With regards to remunerative work outside of the department (Public Service), no employee is allowed to perform other remunerative work before applying and receiving permission to do so. Applications received are evaluated to ensure (as far as practically possible) that the nature and extent of the remunerative work to be performed are not in conflict with the normal duties that employees perform in the public service.

The department also has an approved gift policy that provides specific guidelines and procedures for the receipt, acceptance and declaration of gifts by employees.

Should any conflict of interest be confirmed, such conflict will be managed in accordance with the Disciplinary Code and Procedures for the Public Service.

### CODE OF CONDUCT

The Code of Conduct for the Public Service, as included in the Public Service Regulations, 2016, is the adopted code. All employees are expected to comply with the Code of Conduct for Public Service. The code of conduct:

- lays down norms and standards in promoting integrity, efficient and effective delivery of service to the public;
- provides a set of standards describing the behaviour we expect from our employees;
- guides employees with regard to what is expected of them ethically, both in their individual conduct and in their relationships with others; and
- forms an integral part of the way we work every day.

The code is furthermore strengthened by the Code of Conduct for Supply Chain Management Practitioners. The Code of Conduct for the Public Service as well as the Code of Conduct for Supply Chain Management Practitioners are communicated to employees at least annually. Both Codes are also available on the department's intranet. During the year a number of ethics awareness sessions also took place which dealt with the Code of Conduct for Public Service.

All bid committee members and supply chain management practitioners are required to acknowledge that they will abide by the Code of Conduct for Supply Chain Management Practitioners. All new employees are also required to undergo induction training of which the Code of Conduct forms are an integral part.

The Disciplinary Code and Procedures for the Public Service are used to promote acceptable conduct, and to avert and correct unacceptable conduct. Quarterly feedback on disciplinary matters is also reported on a quarterly basis to EERMCO.

### 6. HEALTH, SAFETY AND ENVIRONMENTAL ISSUES

The nature of work in agriculture may pose many threats to the health and safety of personnel for many reasons including the manual requirements of the job, exposure to the weather, noise or vibration, contact with animals, the possibility of contracting zoonotic diseases, the exposure to organophosphates and other hazardous chemicals or substances.

In the office environment, ergonomics and other environmental health issues also pose a risk to employee wellness.

The expeditious and safe evacuation of staff and clients is critical, hence the need for effective evacuation systems and equipment. Business Continuity Planning and Disaster Recovery Procedures are integral to the Disaster Management System.

The health, safety and environmental risks within the department vary from office incidents to more complex occupational hazards which may result in health problems and physical injuries.

The Department strives to ensure compliance with all Health and Safety legislation by conducting risk assessments, health and safety audits, employee health assessments and conducting awareness programmes. All statutory appointments are in place, such as Programme Managers as Section 16(2) delegates, health and safety representatives, emergency evacuation personnel, first aiders and establishing safety and security committees.

### 7. STANDING COMMITTEES

| Date of<br>Meeting  | Committee   | Subject addressed  | Manner of address  |
|---------------------|---|--|--|
| 18 April 2018       | Standing Committee on<br>Economic Opportunities,<br>Tourism and Agriculture | To brief the committee on the following:  The impact of drought on the agricultural sector. The committee has requested various entities from the sector to brief the Committee on the same agenda item, as per the Departments request.  The impact study conducted on the Philippi Horticultural Area. | Presentation to the committee.   |
| 23 May 2018         | Standing Committee on<br>Economic Opportunities,<br>Tourism and Agriculture | To brief the committee on land reform in the Western Cape  | Presentation to the committee.   |

|                   | and their circumstances.                      |                          |                            |                      |

| Resolution<br>No. | Subject  | Details  | Response by the department                           | Resolved<br>(Yes/No) |
|-------------------|--|--|--|----------------------|
| Departmen         | ntal resolution  |  |  |                      |
| Departmen         | The Committee requested that the Department includes an explanatory note in all future annual reports, which highlights past assurance engagements of the previous financial year and how these were addressed, including whether any engagement linkages were identified between the previous and currently reported assurance engagements. | Page: 177 of the Annual Report  Heading: "The Effectiveness of Internal Control"  Description:  The Committee takes note of the following assurance engagements that were approved and completed by Internal Audit during the 2016/17 financial year, as follows:  • Further Education and Training (FET) & Higher Education and Training (FET) (Assurance Engagement);  • Evaluation Plans – Management Improvement Plan (Assurance Engagement);  • Transfer Payments – WIETA (Assurance Engagement); and  • FRUITLOOK Project (Consulting Engagement). | This has been responded to under paragraph 11 below. | Yes                  |

#### 9. PRIOR MODIFICATIONS TO AUDIT REPORTS

None.

#### 10. INTERNAL CONTROL UNIT

The establishment of an effective system of internal control emanates from section 38 of the PFMA. Internal control is broadly defined as a process undertaken by an institution's Accounting Officer, management and other personnel, designed to provide reasonable assurance regarding the achievement of objectives. It includes processes and procedures that management implements to ensure that revenue, expenditure, assets and liabilities are managed effectively and efficiently.

Management is accountable to the Accounting Officer for designing, implementing and monitoring the process of internal control. The internal control unit forms an integral part of the system of internal control. In order to carry out its role effectively, the internal control unit maintains a degree of independence from the other financial management activities, although being part of the organisational structure of the Office of the Chief Financial Officer.

During the year, the unit supported the improvement of financial governance mainly through:

- rendering financial compliance management support;
- monitoring, follow-up and reporting on various improvement plans;
- rendering assurance services in respect to the Monitoring Performance Assessment Tool (MPAT) on all key performance areas (strategic management, governance and accountability, human resource management and financial management);
- revising, coordinating and monitoring the fraud prevention implementation plan for the department;
- attending audit committee meetings;
- provisioning of full secretariat support to the EERMCO;
- rendering advice/support on risk management, including serving as an active member on EERMCO;
- conduct and/ or assist with preliminary investigations;
- manage all administrative arrangements in respect to anti-corruption awareness initiatives; and
- reporting on financial misconduct in accordance with Treasury Regulation 4.3.1, 4.3.4 and 4.3.5.

#### 11. INTERNAL AUDIT AND AUDIT COMMITTEES

Internal Audit provides management with independent, objective assurance and consulting services designed to add value and to continuously improve the operations of the Department. It assists the Department to accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of Governance, Risk Management and Control processes.

The following key activities are performed in this regard:

- Assess and make appropriate recommendations for improving the governance processes in achieving the department's objectives;
- Evaluate the adequacy and effectiveness and contribute to the improvement of the risk management process; and
- Assist the Accounting Officer in maintaining efficient and effective controls by evaluating those
  controls to determine their effectiveness and efficiency, and by developing recommendations for
  enhancement or improvement.

The following assurance engagements were approved and completed in the 2018/19 Internal Audit Plan:

- DPSA Directive on Public Administration and Management Delegations;
- Food and Nutrition Security Initiatives;
- Evaluation Plans and Management Improvement Plans;
- Conditional Grants and Transfer Payments;
- Performance Information Monitoring and Reporting; and
- Flyover Database.

The following engagements were approved by the Audit Committee and completed by Internal Audit during the 2017/18 financially year. There were no linkages to the 2016/17 Internal Audit Plan:

- Further Education and Training (FET) & Higher Education and Training (HET) (Assurance Engagement)
- Evaluation Plans Management Improvement Plan (Assurance Engagement)
- Transfer Payments WIETA (Assurance Engagement)
- FRUITLOOK Project (Consulting Engagement).

The Audit Committee is established as oversight bodies, providing independent oversight over governance, risk management and control processes in the Department, which include oversight and responsibilities relating to:

- Internal Audit function;
- External Audit function (Auditor General of South Africa AGSA);
- Departmental Accounting and reporting;
- Departmental Accounting policies;
- Review of AGSA management and audit report;
- Review of Departmental In-year Monitoring;
- Departmental Risk Management;
- Internal Control;
- Pre-determined objectives; and
- Ethics and Forensic Investigations.

#### 12. AUDIT COMMITTEE REPORT

We are pleased to present our report for the financial year ended 31 March 2019.

#### **Audit Committee Responsibility**

The Audit Committee reports that it has complied with its responsibilities arising from **Section 38 (1) (a) (ii)** of the **Public Finance Management Act (PFMA) and National Treasury Regulations 3.1**. The Audit Committee also reports that it has adopted an appropriate formal Terms of Reference, has regulated its affairs in compliance with these Terms and has discharged all its responsibilities as contained therein.

#### The Effectiveness of Internal Control

In line with the PFMA and the King IV Report on Corporate Governance requirements, Internal Audit provides the Audit Committee and Management with reasonable assurance that the internal controls are adequate and effective. This is achieved by an approved risk-based internal audit plan, Internal Audit assessing the adequacy of controls mitigating the risks and the Audit Committee monitoring implementation of corrective actions.

The following engagements were approved by the Audit Committee and completed by Internal Audit during the year under review:

- DPSA Directive on Public Administration and Management Delegations (Assurance Engagement)
- Food and Nutrition Security Initiatives (Assurance Engagement)
- Evaluation Plans and Management Improvement Plans (Assurance Engagement)
- Conditional Grants and Transfer Payments (Assurance Engagement)
- Performance Information Monitoring and Reporting (Assurance Engagement)
- Flyover Database (Assurance Engagement).

The areas for improvement, as noted by internal audit during performance of their work, were agreed to by management. The Audit Committee monitors the implementation of agreed actions on a quarterly basis.

#### In-Year Management and Monthly/Quarterly Report

The Audit Committee is satisfied with the content and quality of the quarterly in-year management and performance reports issued during the year under review by the Accounting Officer of the Department in terms of the National Treasury Regulations and the Division of Revenue Act.

#### **Evaluation of Financial Statements**

The Audit Committee has:

- reviewed and discussed the Audited Annual Financial Statements to be included in the Annual Report;
- reviewed the AGSA's Management Report and management's response thereto;
- reviewed changes to accounting policies and practices as reported in the Annual Financial Statements;
- reviewed material adjustments resulting from the audit of the Department.

#### Compliance

The Audit Committee has reviewed the Department's processes for compliance with legal and regulatory provisions.

#### **Performance Information**

The Audit Committee has reviewed the information on predetermined objectives as reported in the Annual Report.

#### Report of the Auditor-General South Africa

We have on a quarterly basis reviewed the Department's implementation plan for audit issues raised in the prior year. The Audit Committee has met with the AGSA to discuss any unresolved issues that emanated from the regulatory audit. Corrective actions on the detailed findings raised by the AGSA are monitored by the Audit Committee on a quarterly basis. The matter relating to Transfer Payments remains unresolved for the 2018/2019 financial year.

The Audit Committee notes the AGSA's opinion regarding the Annual Financial Statements, and in addition notes the Department's comments/ views on the findings relating to Transfer Payments.

Mhoda

Mr Richard Rhoda

Chairperson of the Economic Cluster Audit Committee

**Department of Agriculture** 

Date: 2 August 2019

# PART D: HUMAN RESOURCE MANAGEMENT

#### 1. INTRODUCTION

Our unique contribution to the work of the Western Cape Government is as a result of the persistent, and often selfless, efforts of the people within the Department of Agriculture.

To consistently deliver improved services to the citizens of the Western Cape Province is not without its own challenges. The modern people management landscape has shifted significantly in recent years and requires complex navigation between a range of competing variables.

Apart from the fact that these variables are inter-dependent and inter-related, they are also governed by stringent rules and regulations, which prove difficult when retention and attraction initiatives are explored.

These include balancing service delivery imperatives, the attraction and retention of critical and scarce skills, workforce empowerment, career management, succession planning, employment equity and creating an enabling environment where employees are able to thrive. Further to this, the Department is required to function within an austere environment, which demands that managers consider the impact of "doing more with less".

Despite the changing patterns and demands impacting on the modern workplace, the consistent hard work of our people, has resulted in remarkable achievements and service delivery improvement during the year under review.

## 2. STATUS OF PEOPLE MANAGEMENT AT THE DEPARTMENT

#### 2.1 Departmental Workforce Planning Priorities

- The role of Workforce Planning is important to ensure that the Department has the required number of people with the requisite skills, knowledge and attitudes to perform the work. Through this process the Department annually assesses its workforce profile against current and future organisational needs.
- The aim of this assessment is to identify to what extent the current workforce profile addresses the key people management outcomes that would guarantee service continuity and value.
- The Workforce Plan 2016 2021, is aligned to the vision and mission of the Department and will support the Departmental Strategic Plan: 2015/16 2020/21, in reaching its Strategic Goals.
- The assumptions, objectives and strategies upon which the Workforce Plan was developed are deemed to be valid and appropriate, as they flowed from mindful collaborative planning between the Department's top and line management; as well as the CSC.
- The outcomes are as follows:
  - ✓ A performance conducive workplace;
  - ✓ Organisational structures aligned with mandate/national and provincial agenda/service delivery requirements;
  - ✓ Appointment of sufficient numbers of:
    - Suitably qualified candidates in critical and scarce occupations;
    - Qualified young black professionals; and
    - Engineers;
  - ✓ Enhanced representivity and support for designated groups;
  - ✓ Maintaining representation of women in SMS, inclusive of the employment of youth, Africans on Middle Management and SMS levels; and PWD's supported to make a contribution to service delivery;
  - ✓ Competent people in the right numbers at the right place at the right time with the right attitude.

## 2.2 Employee Performance Management

The purpose of Performance Management is to increase performance by encouraging individual commitment, accountability and motivation.

All employees are required to complete a performance agreement before 31 May each year. The agreement is in essence a contract between the employer and the employee containing the projects, programmes, activities, expectations and standards for the required delivery. In order to facilitate a standardised administration process, the Western Cape Government has devised an electronic system, namely PERMIS (Performance Management Information System), that allows for the entire performance management process to be captured, monitored and managed.

The performance management process requires that a mid-year review and an annual assessment is conducted, but that the operational targets and achievements linked to the performance agreement be monitored and communicated on an ongoing basis. In instances where targets or performance expectations are not met, the gaps are addressed through the management of poor performance. In this context, a performance consulting unit has been established within the Corporate Services Centre (Chief Directorate: People Management Practices) to assist line managers (people managers) in dealing with poor performance. The process is developmental, however, in instances where individuals have been identified as poor performers in terms of the legislative framework, they are required to subject themselves to a developmental plan or alternatively to disciplinary action.

#### 2.3 Employee Wellness

The WCG's transversal Employee Health and Wellness Programme (EHW) follows a holistic approach to employee well-being and is largely preventative in nature, offering both primary and secondary services.

The EHW Programme is monitored in the Department through monthly utilisation reports for primary services (24/7/365 telephonic counselling service, online e-Care service and reporting) and secondary services (face-to-face counselling, trauma and critical incidents, training and targeted intervention, executive coaching, advocacy).

A quarterly report is prepared by the Directorate: Organisational Behaviour within the Corporate Service Centre that provides a trend analysis of utilisation, risk identification and its impact on productivity. Furthermore, on-going reporting to the Department of Public Service and Administration (DPSA) is a requirement and such reporting focuses on four areas namely, HIV & AIDS, Health and Productivity, Wellness Management and SHERQ (Safety Health Environment Risk and Quality).

## 2.4 People Management Monitoring

The Department, in collaboration with the CSC monitors the implementation of a range of people management compliance indicators. The monthly Barometer Fact File, that is developed by the Chief-Directorate: People Management Practices within the CSC, provides the Department with regular updates on the workforce profile and other relevant people management data to enable decision-making. The indicators include, inter alia, staff establishment information, headcount, people expenditure projections, sick leave patterns, the monetary value of annual leave credits, disciplinary cases, vacancy rates, staff movement, employment equity etcetera.

## 3. PEOPLE MANAGEMENT OVERSIGHT STATISTICS

#### 3.1 Personnel related expenditure

The following tables summarise final audited expenditure by programme (Table 3.1.1) and by salary bands (Table 3.1.2).

The figures in Table 3.1.1 are drawn from the Basic Accounting System and the figures in Table 3.1.2 are drawn from the PERSAL [Personnel Salary] system. The two systems are not synchronised for salary refunds in respect of staff appointments and resignations and/or transfers to and from other departments. This means there may be a difference in the total expenditure reflected on these systems.

The key in the table below is a description of the Programmes within the Department. Programmes will be referred to by their number from this point forward.

| Programme   | Programme Designation                          |
|-------------|--|
| Programme 1 | Administration                                 |
| Programme 2 | Sustainable Resource Management                |
| Programme 3 | Farmer Support and Development                 |
| Programme 4 | Veterinary Services                            |
| Programme 5 | Research and Technology Development            |
| Programme 6 | Agricultural Economics                         |
| Programme 7 | Structured Agricultural Education and Training |
| Programme 8 | Rural Development                              |

Table 3.1.1: Personnel expenditure by programme, 2018/19

| Total                                       | 380,745                             | 100.0                                  | 320   | 1,189                  |

Note: The number of employees refers to all individuals remunerated during the reporting period, including interns, but excluding the Minister. The number is accumulative and not a snapshot as at a specific date.

The following tables provide a summary per programme (Table 3.1.3) and salary bands (Table 3.1.4), of expenditure incurred as a result of salaries, overtime, housing allowance and medical assistance. These tables do not make provision for other expenditure such as Pensions, Performance Bonus and other allowances, which make up the total personnel expenditure. In each case, the table provides an indication of the percentage of the personnel expenditure that was used for these items.

Table 3.1.3 Salaries, Overtime, Home Owners Allowance and Medical Aid by programme for the period 1 April 2018 and 31 March 2019

## 3.2 Employment and Vacancies

The following tables summarise the number of active posts on the establishment, the number of employees (excluding interns and the Minister), and the percentage active vacant posts as at the end of the financial year. This information is presented in terms of three key variables, namely: Programme (Table 3.2.1), Salary Band (Table 3.2.2) and Critical Occupations (Table 3.2.3). All information in this section is provided as a snapshot as at the end of the financial year under review.

Table 3.2.1: Employment and vacancies by programme, as at 31 March 2019

| Programme   | Number of active posts | Number of posts filled | Vacancy<br>rate % |
|-------------|------------------------|------------------------|-------------------|
| Programme 1 | 164                    | 154                    | 6.1%              |
| Programme 2 | 54                     | 54                     | -                 |
| Programme 3 | 135                    | 133                    | 1.5%              |
| Programme 4 | 139                    | 137                    | 1.4%              |
| Programme 5 | 267                    | 264                    | 1.1%              |
| Programme 6 | 28                     | 28                     | -                 |
| Programme 7 | 103                    | 99                     | 3.9%              |
| Programme 8 | 29                     | 27                     | 6.9%              |
| Total       | 919                    | 896                    | 2.5%              |

Table 3.2.2 Employment and vacancies by salary band as on 31 March 2019

| Salary Band                                 | Number of active posts | Number of posts filled | Vacancy<br>rate % |
|---|------------------------|------------------------|-------------------|
| Lower skilled<br>(Levels 1-2)               | 187                    | 186                    | 0.5%              |
| Skilled<br>(Levels 3-5)                     | 250                    | 246                    | 1.6%              |
| Highly skilled production (Levels 6-8)      | 247                    | 240                    | 2.8%              |
| Highly skilled supervision<br>(Levels 9-12) | 214                    | 205                    | 4.2%              |
| Senior management<br>(Levels 13-16)         | 21                     | 19                     | 9.5%              |
| Total                                       | 919                    | 896                    | 2.5%              |

Table 3.2.3 Employment and vacancies by critical occupations as on 31 March 2019

| Critical Occupations   | Number of active posts | Number of posts filled | Vacancy<br>rate % |
|------------------------|------------------------|------------------------|-------------------|
| Agricultural Economist | 18                     | 18                     | -                 |
| Agricultural Engineer  | 4                      | 4                      | -                 |
| M&E Specialist         | 1                      | 1                      | -                 |
| Scientific Technician  | 30                     | 29                     | 3.3%              |
| Vet Services           | 32                     | 30                     | 6.3%              |
| Agricultural Scientist | 26                     | 26                     | -                 |
| Lecturing Staff        | 22                     | 21                     | 4.5%              |
| Bacteriologist (Vet)   | 3                      | 3                      | -                 |
| Biochemist (Vet)       | 3                      | 3                      | -                 |
| TOTAL                  | 139                    | 135                    | 2.9%              |

Note: Critical occupations - refer to occupations that are critical for service delivery. If these occupations are not present in the department, the function/services will collapse.

#### 3.3 Job Evaluation

Job evaluation was introduced as a way of ensuring that work of equal value is remunerated equally. Within a nationally determined framework, executing authorities are required to evaluate each new post in his or her organisation or re-evaluate any post where the post mandate or content has significantly changed. This job evaluation process determines the grading and salary level of a post. It should be understood that Job Evaluation and Staff Performance Management differ in the sense that Job Evaluation refers to the value/ weighting of the activities that are associated with the post and Staff Performance Management refers to the review of an individual's performance.

Table 3.3.1: Job evaluation, 1 April 2018 to 31 March 2019

|  | Number                                       |                                 |                         | Posts Upgraded |   | Posts Downgraded |   |
|--|--|---------------------------------|-------------------------|----------------|---|------------------|---|
| Salary Band                                    | of active<br>posts as at<br>31 March<br>2019 | Number<br>of posts<br>evaluated | % of posts<br>evaluated | Number         | Posts<br>upgraded<br>as a % of<br>total posts | Number           | Posts<br>downgraded<br>as a % of<br>total posts |
| Lower skilled<br>(Levels 1-2)                  | 187  | 0                               | 0.0                     | 0              | 0.0   | 0                | 0.0   |

## 3.4. Employment Changes

Turnover rates provide an indication of trends in the employment profile of the Department during the year under review. The following tables provide a summary of turnover rates by salary band (Table 3.4.1) and by critical occupation (Table 3.4.2). This section does not include information related to interns.

Table 3.4.1: Annual turnover rates by salary band, 1 April 2018 to 31 March 2019

| Salary Band                                    | Number of<br>employees<br>as at<br>31 March<br>2018 | Turnover<br>rate<br>2017/18 | Appointments<br>into the<br>Department | Transfers<br>into the<br>Depart-<br>ment | Terminations<br>out of the<br>Department | Transfers out<br>of the<br>Department | Turnover<br>rate 2018/19 |
|--|---|-----------------------------|--|--|--|---------------------------------------|--------------------------|
| Lower skilled<br>(Levels 1-2)                  | 132   | 4.1                         | 20                                     | 0  | 0  | 1                                     | 0.8                      |
| Skilled<br>(Levels 3-5)                        | 279   | 4.3                         | 7                                      | 6  | 20                                       | 4                                     | 8.6                      |
| Highly skilled production (Levels 6-8)         | 222   | 11.3                        | 20                                     | 4  | 19                                       | 3                                     | 9.9                      |
| Highly skilled supervision (Levels 9-12)       | 235   | 8.4                         | 5                                      | 4  | 9  | 3                                     | 5.1                      |

| Total   | 60     | 100.0            | 6.7   |

Note: Table 3.4.3 identifies the various exit categories for those staff members who have left the employ of the Department.

<sup>\*</sup> Resignations are further discussed in tables 3.4.4 and 3.4.5.

Table 3.4.4: Reasons why staff resigned, 1 April 2018 to 31 March 2019

| Resignation Reasons                    | Number | % of total resignations |
|--|--------|-------------------------|
| Better Remuneration                    | 2      | 9.1                     |
| Change of Occupation                   | 3      | 13.6                    |
| Further Studies                        | 1      | 4.5                     |
| Insufficient Progression Possibilities | 1      | 4.5                     |
| No Reason Provided                     | 12     | 54.5                    |
| Personal/Family                        | 2      | 9.1                     |
| Starting Own Business                  | 1      | 4.5                     |
| Total                                  | 22     | 100.0                   |

Table 3.4.5: Different age groups of staff who resigned, 1 April 2018 to 31 March 2019

| Age group     | Number | % of total resignations |
|---------------|--------|-------------------------|
| Ages <19      | 0      | 0.0                     |
| Ages 20 to 24 | 1      | 4.5                     |
| Ages 25 to 29 | 5      | 22.7                    |
| Ages 30 to 34 | 2      | 9.1                     |
| Ages 35 to 39 | 6      | 27.3                    |
| Ages 40 to 44 | 3      | 13.6                    |
| Ages 45 to 49 | 3      | 13.6                    |
| Ages 50 to 54 | 1      | 4.5                     |
| Ages 55 to 59 | 1      | 4.5                     |
| Ages 60 to 64 | 0      | 0.0                     |
| Ages 65 >     | 0      | 0.0                     |
| Total         | 22     | 100.0                   |

Table 3.4.6: Employee initiated severance packages.

| Total number of employee initiated severance packages offered in 2018/19 | None |
|--|------|

| Temporary employees   | 0  | 0   | 0  | 0  | 0  | 0   | 0   | 0  | 0     |
| Grand total   | 66 | 151 | 1  | 76 | 65 | 98  | 2   | 45 | 504   |

A = African; C = Coloured; I = Indian; W = White.

Note: The above table refers to the total number of employees who have received training during the period under review, and not the number of training interventions attended by individuals. For further information on the actual training provided, refer to Table 3.13.2.

#### 3.6 Signing of Performance Agreements by SMS Members

Table 3.6.1: Signing of Performance Agreements by SMS Members, as at 31 May 2018

| SMS Post Level                      | Number of active<br>SMS posts per level | Number of SMS<br>members per level | Number of signed Performance Agreements per level | Signed Performance Agreements as % of SMS members per level |
|-------------------------------------|---|------------------------------------|---|---|
| Director-General/Head of Department | 1                                       | 1                                  | 1   | 100.0   |
| Salary Level 15                     | 1                                       | 1                                  | 1   | 100.0   |
| Salary Level 14                     | 7                                       | 7                                  | 7   | 100.0   |
| Salary Level 13                     | 13                                      | 10                                 | 10  | 100.0   |
| Total                               | 22                                      | 19                                 | 19  | 100.0   |

Note: This table refers to employees who are appointed as Senior Management Service (SMS) members only. Employees who are remunerated higher than a SL12, but who are not SMS members have been excluded. Furthermore, the table reflects post salary details and not the individual salary level of employees. The allocation of performance-related rewards (cash bonus) for SMS members is dealt with later in the report. Refer to Table 3.8.5 in this regard.

Table 3.6.2: Reasons for not having concluded Performance Agreements with all SMS Members on 31 May 2018

| F | Reasons for not concluding Performance Agreements with all SMS |
|---|--|
|   | Not applicable   |

Table 3.6.3: Disciplinary steps taken against SMS Members for not having concluded Performance Agreements on 31 May 2018

| Disciplinary steps taken against SMS Members for not having concluded Performance Agreements |  |  |  |  |  |  |  |
|--|--|--|--|--|--|--|--|
| None required  |  |  |  |  |  |  |  |

#### 3.7 Filling of SMS Posts

The tables in this section provide information on employment and vacancies as it relates to members of the SMS by salary level. It also provides information of advertising and the filling of SMS posts, reasons for not complying with prescribed timeframes and disciplinary steps taken in cases of non-compliance.

Table 3.7.1: SMS posts information, as at 30 September 2018

| SMS Level                 | Number of active<br>SMS posts per<br>level | Number of SMS<br>posts filled per<br>level | % of SMS posts filled per level | Number of SMS<br>posts vacant per<br>level | % of SMS posts vacant per level |
|---------------------------|--|--|---------------------------------|--|---------------------------------|
| Director-General/ Head of | 1  | 1  | 100.0%                          | 0  |                                 |
| Department                | ı  | l  | 100.0%                          | 0  | -                               |
| Salary Level 15           | 1  | 1  | 100.0%                          | 0  | -                               |
| Salary Level 14           | 8  | 8  | 100.0%                          | 0  | -                               |
| Salary Level 13           | 11   | 9  | 81.8%                           | 2  | 18.2%                           |
| Total                     | 21   | 19   | 90.5%                           | 2  | 9.5%                            |

Note: This table refers to employees who are appointed as Senior Management Service (SMS) members only. Employees who are remunerated higher than a SL12, but who are not SMS members have been excluded.

Table 3.7.2: SMS posts information, as at 31 March 2019

| SMS Level                            | Number of active SMS posts per level | Number of SMS<br>posts filled per<br>level | % of SMS posts filled per level | Number of SMS<br>posts vacant<br>per level | % of SMS posts<br>vacant per<br>level |

| Disciplinary steps taken for not complying with the prescribed timeframes for filling SMS posts |      |  |  |  |  |
|---|------|--|--|--|--|
|   | None |  |  |  |  |

#### 3.8. Employee Performance

The following tables note the number of staff by salary band (table 3.8.1) and staff within critical occupations (3.8.2) who received a notch progression as a result of performance management. (i.e. qualifying employees who scored between 3-5 in their performance ratings).

Table 3.8.1: Notch progressions by salary band, 1 April 2018 to 31 March 2019

| Salary Band                                 | Employees as at<br>31 March 2018 | Progressions to another notch within a salary level | Notch progressions as a % of employees by salary band |  |
|---|----------------------------------|---|---|--|
| Lower skilled<br>(Levels 1-2)               | 132                              | 53  | 40.2  |  |
| Skilled<br>(Levels 3-5)                     | 279                              | 186   | 66.7  |  |
| Highly skilled production (Levels 6-8)      | 222                              | 111   | 50.0  |  |
| Highly skilled supervision<br>(Levels 9-12) | 235                              | 142   | 60.4  |  |
| Senior management<br>(Levels 13-16)         | 23                               | 12  | 52.2  |  |
| Total                                       | 891                              | 504   | 56.6  |  |

Table 3.8.2: Notch progressions by critical occupation, 1 April 2018 to 31 March 2019

| Critical Occupations   | Employees as at<br>31 March 2018 | Progressions to another notch within a salary level | Notch progressions as a $\%$ of employees by salary band |
|------------------------|----------------------------------|---|--|
| Agricultural Economist | 14                               | 10  | 71.4   |
| Agricultural Engineer  | 4                                | 1   | 25.0   |
| M&E Specialist         | 1                                | 1   | 100.0  |
| Scientific Technician  | 27                               | 4   | 14.8   |
| Vet Services           | 31                               | 13  | 41.9   |
| Agricultural Scientist | 26                               | 9   | 34.6   |
| Lecturing Staff        | 19                               | 8   | 42.1   |
| Bacteriologist (Vet)   | 3                                | 1   | 33.3   |
| Biochemist (Vet)       | 3                                | 3   | 100.0  |
| Total                  | 128                              | 50  | 39.1   |

To encourage good performance, the Department has granted the following performance rewards to employees for the performance period 2017/18, but paid in the financial year 2018/19. The information is presented in terms of race, gender, and disability (Table 3.8.3), salary bands (Table 3.8.4 and Table 3.8.5) and critical occupations (Table 3.8.6).

Table 3.8.3: Performance rewards by race, gender, and disability, 1 April 2018 to 31 March 2019

|                             |                         | Beneficiary Profile   | Cost                    |                 |  |
|-----------------------------|-------------------------|---|-------------------------|-----------------|--|

| Highly skilled supervision (Levels 9-12) | 991        | 81.4                              | 159   | 246                             | 64.6   | 6                               | 1834                         |
| Senior management<br>(Levels 13-16)      | 91         | 87.9                              | 15  | 24                              | 62.5   | 6                               | 285                          |
| Total                                    | 4779       | 82.2                              | 701   | 1189                            | 59.0   | 7                               | 4,713                        |

Note: The leave dispensation as determined in the "Leave Determination", read with the applicable collective agreements, provides for normal sick leave of 36 working days in a sick leave cycle of three years. If an employee has exhausted his or her normal sick leave, the employer must conduct an investigation into the nature and extent of the employee's incapacity. Such investigations must be carried out in accordance with item 10(1) of Schedule 8 of the Labour Relations Act (LRA).

Incapacity leave is not an unlimited amount of additional sick leave days at an employee's disposal. Incapacity leave is additional sick leave granted conditionally at the employer's discretion, as provided for in the Leave Determination and Policy on Incapacity Leave and III-Health Retirement (PILIR).

Table 3.10.2: Incapacity leave, 1 January 2018 to 31 December 2018

Note: The leave dispensation as determined in the "Leave Determination", read with the applicable collective agreements, provides for normal sick leave of 36 working days in a sick leave cycle of three years. If an employee has exhausted his or her normal sick leave, the employer must conduct an investigation into the nature and extent of the employee's incapacity. Such investigations must be carried out in accordance with item 10(1) of Schedule 8 of the Labour Relations Act (LRA). Incapacity leave is not an unlimited amount of additional sick leave days at an employee's disposal. Incapacity leave is additional sick leave granted conditionally at the employer's discretion, as provided for in the Leave Determination and Policy on Incapacity Leave and III-Health Retirement (PILIR).

Table 3.10.3: Annual Leave, 1 January 2018 to 31 December 2018

| Salary Band                                 | Total days taken | Total number employees using annual leave | Average number of days taken per employee |
|---|------------------|---|---|
| Interns                                     | 793              | 108                                       | 7   |
| Lower skilled (Levels 1-2)                  | 3 166            | 147                                       | 22  |
| Skilled (Levels 3-5)                        | 7 513            | 295                                       | 25  |
| Highly skilled production (Levels 6-8)      | 5 307            | 235                                       | 23  |
| Highly skilled supervision<br>(Levels 9-12) | 6 563            | 246                                       | 27  |
| Senior management (Levels 13-16)            | 614              | 22  | 28  |
| TOTAL                                       | 23 956           | 1 053                                     | 23  |

| Current leave pay-outs on termination of service                                     | 531                     | 87                     | 6 099                                |

## 3.11. Health Promotion Programmes, Including HIV/ AIDS

Table 3.11.1: Steps taken to reduce the risk of occupational exposure, 1 April 2018 to 31 March 2019

| Units/categories of employees identified to be at high risk of contracting HIV & related diseases (if any)  | Key steps taken to reduce the risk   |
|---|--|
| The nature of the Department's work does not expose employees to increased risk of contracting HIV & AIDS.  Despite the very low occupational risk, all employees have been targeted at all levels within the Department. | HIV & AIDS Counselling and Testing (HCT) and Wellness screenings were conducted in general. Employee Health and Wellness Services are rendered to all employees in need and include the following:  24/7/365 Telephone counselling;  Face to face counselling (4 session model); |
|   | Trauma and critical incident counselling;  |
|   | Advocacy on HIV&AID\$ awareness, including online E-Care services and  |
|   | <ul> <li>Training, coaching and targeted Interventions where these were<br/>required.</li> </ul>   |

Table 3.11.2: Details of Health Promotion including HIV/ AIDS Programmes, 1 April 2018 to 31 March 2019

| Qu | Question   |          | No | Details, if yes   |
|----|--|----------|----|---|
| 1. | Has the department designated a member of the SMS to implement the provisions contained in Part VI E of Chapter 1 of the Public Service Regulations, 2016? If so, provide her/his name and position. | <b>√</b> |    | Ms Reygana Shade, Director: Organisational Behaviour, (Department of the Premier).  |
| 2. | Does the department have a dedicated unit or has it designated specific staff members to promote the health and  | <b>√</b> |    | The Corporate Services Centre (CSC) within the Department of the Premier provides a transversal service to the eleven (11) departments, including the <b>Department of Agriculture</b> .  |
|    | well-being of your employees? If so, indicate the number of employees who are involved in this task and the annual budget that is available for this purpose.  |          |    | A designated Employee Health and Wellness unit within the Directorate Organisational Behaviour and the Chief Directorate Organisation Development serves to promote the health and well-being of employees in the eleven (11) client departments. |
|    |  |          |    | The unit consists of a Deputy Director, three (3) Assistant Directors, and three (3) EHW Practitioners.   |
|    |  |          |    | Budget: R2. 756 million   |

| Question |  | Yes      | No | Details, if yes   |
|----------|--|----------|----|---|
| 3.       | Has the department introduced an Employee Assistance or Health Promotion Programme for employees? If so, indicate the key elements/services of this Programme.   | <b>✓</b> |    | The Department of the Premier has entered into a service level agreement with ICAS (external service provider) to render an Employee Health and Wellness Service to the eleven departments of the Corporate Services Centre (CSC).  The following interventions were conducted: Financial Management, GRIT (Guts, Resilience, Influence and Tenacity for Employees, Effective Communication, Team Cohesion (Me in a Team), Diversity Management, Relationship Enrichment, Self – Development, Conflict to Synergy, Identifying Vulnerable Employee (Tipping Point-Employee in Crises), Effective Communication for Managers (How to Have Difficult Conversations.  These interventions are based on trends reflected in the quarterly reports and implemented to address employee needs.  The targeted interventions for both employees and managers were aimed at personal development; promotion of healthy lifestyles; and improving coping skills. This involved presentations, workshops, group discussions to create awareness and encourage employees to have a pro-active approach to limit the impact of these problems in the workplace. Targeted Interventions were also implemented to equip managers with tools to engage employees in the workplace.  Information sessions were also provided to inform employees of the EHW service and how to access the Employee Health and Wellness (EHW) Programme. Promotional material such as pamphlets, posters and because a distributed. |
| 4.       | Has the department established (a) committee(s) as contemplated in Part VI E.5 (e) of Chapter 1 of the Public Service Regulations, 2016? If so, please provide the names of the members of the committee and the stakeholder(s) that they represent. | ✓        |    | brochures were distributed.  The Provincial Employee Health and Wellness Steering Committee has been established with members nominated by each department.  The Department of Agriculture is represented by DJ Jordaan and M Ferreira.   |
| 5.       | Has the department reviewed its employment policies and practices to ensure that these do not unfairly discriminate against employees on the basis of their HIV status? If so, list the employment policies/practices so reviewed.                   | <b>✓</b> |    | The Transversal Management Framework for Employee Health and Wellness Programmes in the Western Cape Government is in effect and was adopted by the Co-ordinating Chamber of the PSCBC for the Western Cape Province on 10 August 2005.  In this regard, all employment policies make provision for fair practices, regardless of the HIV status of staff or applicants. Workplace practices are constantly monitored to ensure policy compliance and fairness.  Under the EHW banner, four EHW Policies were approved which includes HIV & AIDS and TB Management that responds to the prevention of discrimination against employees affected and infected by HIV & AIDS and TB in the workplace.  Further to this, the Department of Health, that is the lead department for HIV & AIDS, has approved the Transversal HIV and AIDS/STI Workplace Policy and Programme that is applicable to all departments of the Western Government. The document is in line with the four pillars of the EHW Strategic Framework 2008.  During the reporting period, the transversal EHW policies including the HIV, AIDS and TB Management Policy have been audited by DPSA against the DPSA policies as well as the National Strategic Plan for HIV, TB and STIs (2017-2022) which ensures inclusivity and elimination of discrimination and stigma against employees with HIV.   |

| Qu | estion  | Yes | No | Details, if yes  |
|----|---|-----|----|--|
| 6. | Has the department introduced measures to protect HIV-positive employees or those perceived to be HIV-positive from discrimination? If so, list the key elements of these measures. | ✓   |    | <ul> <li>The Provincial Strategic Plan on HIV &amp; AIDS, STIs and TB 2017-2022 has been implemented to mainstream HIV and TB and its gender and rights-based dimensions into the core mandates to reduce HIV-related stigma. The aim is to:</li> <li>Reduce HIV and TB discrimination in the workplace. This included campaigns against unfair discrimination and empowerment of employees.</li> <li>Reduce unfair discrimination in access to services. This included</li> </ul> |
|    |   |     |    | ensuring that the Directorate Employee Relations addresses complaints or grievances relating to unfair discrimination and provides training to employees.  |
|    |   |     |    | The Department implemented the following measures to address the stigma and discrimination against those infected or perceived to be infective with HIV:   |
|    |   |     |    | Wellness Screenings (Blood pressure, Glucose, Cholesterol, TB, BMI)  |
|    |   |     |    | HCT Screenings   |
|    |   |     |    | TB Talks and Screenings  |
|    |   |     |    | Distributing posters and pamphlets;  |
|    |   |     |    | Condom distribution and spot talks; and  |
|    |   |     |    | Commemoration of World AIDS Day and Wellness events.   |
| 7. |   | /   |    | HCT SESSIONS:  |
|    | employees to undergo HIV counselling  |     |    | The following Wellness and HCT screening sessions were conducted:  |
|    | and testing (HCT)? If so, list the results that you have you achieved.  |     |    | The Department participated in 1 HCT and Wellness screening sessions.  |
|    |   |     |    | <b>60</b> Employees were tested and counselled for HIV, Tuberculosis and Sexually Transmitted Infections (STI's).  |
|    |   |     |    | There were <b>0</b> clinical referrals for TB, HIV or STIs for further management.   |
| 8. | Has the department developed measures/indicators to monitor &   |     |    | The impact of health promotion programmes is indicated through information provided through the EHW Contract with ICAS.  |
|    | evaluate the impact of its health promotion programme? If so, list these measures/indicators.   |     |    | The EHWP is monitored through Quarterly and Annual reporting and trend analysis can be derived through comparison of departmental utilisation and demographics i.e. age, gender, problem profiling, employee vs. manager utilisation, number of cases. Themes and trends also provide a picture of the risks and impact the EHW issues have on individual and the workplace.   |

#### 3.12. Labour Relations

The following provincial collective agreements were entered into with trade unions for the period under review.

Table 3.12.1: Collective agreements, 1 April 2018 to 31 March 2019

| Total collective agreements | None |
|-----------------------------|------|
|-----------------------------|------|

Table 3.12.2 summarises the outcome of disciplinary hearings conducted within the Department for the period.

#### Table 3.12.2: Misconduct and disciplinary hearings finalised, 1 April 2018 to 31 March 2019

| Outcomes of disciplinary hearings                           | Number of cases finalised | % of total |
|---|---------------------------|------------|
| Suspension without pay coupled with a Final Written Warning | 1                         | 33.3       |
| Final Written Warning                                       | 1                         | 33.3       |
| Dismissal   | 1                         | 33.3       |
| Total   | 3                         | 100.0      |
| Percentage of total employment                              |                           | 0.3        |

Note: Outcomes of disciplinary hearings refer to formal cases only.

#### Table 3.12.3: Types of misconduct addressed at disciplinary hearings, 1 April 2018 to 31 March 2019

| Type of misconduct                             | Number | % of total |
|--|--------|------------|
| Steals, bribes or commits fraud                | 1      | 33.3       |
| Fails to carry out order or instruction        | 1      | 33.3       |
| Possesses or wrongfully uses property of state | 1      | 33.3       |
| Total  | 3      | 100.0      |

## Table 3.12.4: Grievances lodged, 1 April 2018 to 31 March 2019

| Grievances lodged                 | Number | % of total |
|-----------------------------------|--------|------------|
| Number of grievances resolved     | 7      | 70.0       |
| Number of grievances not resolved | 3      | 30.0       |
| Total number of grievances lodged | 10     | 100.0      |

Note: Grievances lodged refers to cases that were finalised within the reporting period. Grievances **not resolved** refers to cases where the outcome was **not in favour of the aggrieved**. All cases, resolved and not resolved have been finalised..

#### Table 3.12.5: Disputes lodged with Councils, 1 April 2018 to 31 March 2019

| Disputes lodged with Councils   | Number | % of total |
|---------------------------------|--------|------------|
| Number of disputes upheld       | 0      | 0.0        |
| Number of disputes dismissed    | 1      | 100.0      |
| Total number of disputes lodged | 1      | 100.0      |

Note: Councils refer to the Public Service Co-ordinating Bargaining Council (PSCBC) and General Public Service Sector Bargaining Council (GPSSBC). When a dispute is "upheld", it means that the Council endorses the appeal as legitimate and credible in favour of the aggrieved. When a dispute is "dismissed", it means that the Council is not ruling in favour of the aggrieved.

Table 3.12.6: Strike actions, 1 April 2018 to 31 March 2019

| Strike actions   | Number |
|--|--------|
| Total number of person working days lost               | 0      |
| Total cost (R'000) of working days lost                | 0      |
| Amount (R'000) recovered as a result of no work no pay | 0      |

Table 3.12.7: Precautionary suspensions, 1 April 2018 to 31 March 2019

| Precautionary suspensions                          | Number |
|--|--------|
| Number of people suspended                         | 0      |
| Number of people whose suspension exceeded 30 days | 0      |
| Average number of days suspended                   | 0      |
| Cost (R'000) of suspensions                        | 0      |

Note: Precautionary suspensions refer to staff who were suspended with full pay, whilst the case was being investigated.

#### 3.13. Skills Development

This section highlights the efforts of the Department with regard to skills development. Table 3.13.1 reflect the training needs as at the beginning of the period under review, and Table 3.13.2 the actual training provided.

Table 3.13.1: Training needs identified, 1 April 2018 to 31 March 2019

|  |        | Number of                          | Training needs identified at start of reporting period |  |                         |       |  |  |  |
|--|--------|------------------------------------|--|--|-------------------------|-------|--|--|--|
| Occupational<br>Categories                 | Gender | employees<br>as at<br>1 April 2018 | Learnerships   | Skills<br>Programmes<br>& other short<br>courses | Other forms of training | Total |  |  |  |
| Legislators, senior officials and managers | Female | 10                                 | 0  | 7  | 0                       | 7     |  |  |  |

## PART E: FINANCIAL INFORMATION

# Report of the auditor-general to the Western Cape Provincial Parliament on vote no. 11: Western Cape Department of Agriculture

#### Report on the audit of the financial statements

#### Qualified opinion

- I have audited the financial statements of the Western Cape Department of Agriculture set out on pages 228-296, which comprise the appropriation statement, the statement of financial position as at 31 March 2019, the statement of financial performance, statement of changes in net assets and cash flow statement for the year then ended, as well as the notes to the financial statements, including a summary of significant accounting policies.
- 2. In my opinion, except for the possible effect of the matters described in the basis for qualified opinion section of my report, the financial statements present fairly, in all material respects, the financial position of the Western Cape Department of Agriculture as at 31 March 2019, and its financial performance and cash flows for the year then ended in accordance with the Modified Cash Standard (MCS) prescribed by the National Treasury and the requirements of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999) (PFMA) and the Division of Revenue Act of South Africa, 2018 (Act No. 1 of 2018) (Dora).

#### Basis for qualified opinion

#### Transfers and subsidies

- 3. The department did not account for payments made to implementing agents in accordance with the requirements of the MCS. The department budgeted and accounted for these payments as transfers and subsidies instead of as expenditure for either capital assets or goods and services, as required by the MCS. Consequently, transfers and subsidies are overstated by R475 602 000 (2018: R259 191 000) as per note 7 to the financial statements, while the following components of the financial statements are understated or not disclosed:
  - Expenditure for capital assets or goods and services classified according to the nature of the expense incurred.
  - Capital assets that belong to the department acquired or created under these arrangements.
  - Prepayments representing advance payments provided to implementing agents which were unspent as at year-end.
  - Appropriate adjustments to the appropriation statement to reflect the correct classification of transactions as required by the MCS.
  - Principal-agent relationships were not disclosed.
- 4. I was not able to determine the full extent of all the affected financial statement components and to determine the individual misstatements as it was impracticable to do so.

#### Irregular expenditure

5. The department entered into contracts with implementing agents without adhering to the Treasury Regulations. When implementing agents are contracted by the department, this does not release the department from ensuring that funds spent on its behalf by the agents meet the requirement for an appropriate procurement and provisioning system which is fair, equitable, transparent, competitive and cost-effective. Supply chain management (SCM) practices applied by these implementers were not consistent with the principles of the PFMA and the Treasury Regulations. The department did not

identify and disclose any irregular expenditure resulting from noncompliance with applicable SCM prescripts by implementing agents, as required by section 40(3)(b)(ii) of the PFMA. Consequently, irregular expenditure is understated as stated in note 24 to the financial statements. I was not able to determine the full extent of the understatement as it was impracticable to do so. These and the prior year misstatements remained unresolved.

#### Context for the opinion

- 6. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of this auditor's report.
- 7. I am independent of the department in accordance with sections 290 and 291 of the International Ethics Standards Board for Accountants' Code of ethics for professional accountants and parts 1 and 3 of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA codes), as well as the ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA codes.
- 8. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified opinion.

#### Other matter

9. I draw attention to the matter below. My opinion is not modified in respect of this matter.

#### **Unaudited supplementary schedules**

10. The supplementary information set out in pages 297-311 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

#### Responsibilities of the accounting officer for the financial statements

- 11. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the MCS prescribed by the National Treasury and the requirements of the PFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
- 12. In preparing the financial statements, the accounting officer is responsible for assessing the Western Cape Department of Agriculture's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the department or to cease operations, or has no realistic alternative but to do so.

#### Auditor-general's responsibilities for the audit of the financial statements

13. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

14. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

#### Report on the audit of the annual performance report

### Introduction and scope

- 15. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report material findings on the reported performance information against predetermined objectives for selected programmes presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.
- 16. My procedures address the reported performance information, which must be based on the approved performance planning documents of the department. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
- 17. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected programmes presented in the annual performance report of the department for the year ended 31 March 2019:

| Programmes                                   | Pages in the annual performance report |
|--|--|
| Programme 3 – Farmer Support and Development | 95 to 105                              |
| Programme 4 – Veterinary Service             | 106 to 115                             |

- 18. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
- 19. I did not raise any material findings on the usefulness and reliability of the reported performance information for the following programmes:
  - Programme 3 Farmer Support and Development
  - Programme 4 Veterinary Service.

#### Other matters

20. I draw attention to the matters below:

## **Achievement of planned targets**

21. Refer to the annual performance report on pages 76 to 148 for information on the achievement of planned targets for the year and explanations provided for the under or over achievement of a number of targets.

#### **Adjustment of material misstatements**

22. Identified a material misstatement in the annual performance report submitted for auditing. This material misstatement was in the reported performance information of Programme 4 – Veterinary Services. As management subsequently corrected the misstatement, I did not raise any material findings on the usefulness and reliability of the reported performance information.

#### Report on the audit of compliance with legislation

#### Introduction and scope

- 23. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the compliance of the department with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.
- 24. The material findings on compliance with specific matters in key legislations are as follows:

#### **Annual financial statements**

25. The financial statements submitted for auditing were not prepared in accordance with the prescribed financial reporting framework as required by section 40(1)(a) of the PFMA. Material misstatements identified by the auditors in the submitted financial statements were not adequately corrected, which resulted in the financial statements receiving a qualified opinion.

#### Other information

- 26. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report and those selected programmes presented in the annual performance report that have been specifically reported in this auditor's report.
- 27. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.
- 28. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected programmes presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
- 29. If, based on the work I have performed, I conclude that there is a material misstatement in this other information, I am required to report that fact.
- 30. I have nothing to report in this regard.

#### Internal control deficiencies

- 31. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for the qualified opinion.
- 32. The modified audit outcome is as a result of a difference in interpretation of the MCS by the department, which consequently resulted in misclassification of the funds transferred by the department to the entities.

Cape Town

31 July 2019

auditor - General

Auditing to build public confidence

## Annexure – Auditor-general's responsibility for the audit

 As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements, and the procedures performed on reported performance information for selected programmes and on the department's compliance with respect to the selected subject matters.

#### Financial statements

- 2. In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:
  - identify and assess the risks of material misstatement of the financial statements whether due to
    fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
    evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not
    detecting a material misstatement resulting from fraud is higher than for one resulting from error,
    as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of
    internal control
  - obtain an understanding of internal control relevant to the audit in order to design audit procedures
    that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
    effectiveness of the department's internal control
  - evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the accounting officer
  - conclude on the appropriateness of the accounting officer's use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Western Cape Department of Agriculture's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify the opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a department to cease operating as a going concern
  - evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

### Communication with those charged with governance

- 3. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
- 4. I also confirm to the accounting officer that I have complied with relevant ethical requirements regarding independence, and communicate all relationships and other matters that may reasonably be thought to have a bearing on my independence and, where applicable, related safeguards.

## NOTES TO THE APPROPRIATION STATEMENT for the year ended 31 March 2019

#### 1. Detail of transfers and subsidies as per Appropriation Act (after Virement):

Detail of these transactions can be viewed in the note on Transfers and subsidies, disclosure notes and Annexure 1 (A-E) to the Annual Financial Statements.

#### 2. Detail of specifically and exclusively appropriated amounts voted (after Virement):

Detail of these transactions can be viewed in note 1 (Annual Appropriation) to the Annual Financial Statements.

### 3. Detail on payments for financial assets

Detail of these transactions per programme can be viewed in the note on Payments for financial assets to the Annual Financial Statements.

#### Explanations of material variances from Amounts Voted (after Virement):

#### 4.1 Per programme

| Final<br>Appropriation | Actual<br>Expenditure | Variance | Variance as<br>a % of Final<br>Appropriation |
|------------------------|-----------------------|----------|--|
| R'000                  | R'000                 | R'000    | %  |

#### **Programme 1: Administration**

126,954

123,464

3,490

2,7%

The primary driver of the underspending relates to other provisions for asset and liability accounts influencing the "cash available" budget. The amount of R2,984 million has been requested for a roll-over to augment the outstanding accruals and payables for the 2018/19 financial year. The remainder total balance of R506,000 for compensation of employees will revert back to the Provincial Revenue fund.

## Programme 2:

Sustainable Resource Management

359.730

359.702

28

0.0%

The underspending of R28,000 is due to the Earmarked allocation: Water for sustainable growth and development. Proposals were less than initially budgeted for.

#### **Programme 4: Veterinary Services**

95,393

91,702

3,691

3,9%

The underspending relates predominantly to delays in the procurement of medicines and drugs including vaccines and tuberculin for disease prevention amounting to R2,812 million and R879,000 on the Earmarked allocation: Disaster, Drought, water and food security. The total amount has been requested for a roll-over.

#### Programme 5:

Research and Technology Development

131,113

128,641

2,472

1,9%

The underspending relates to the procurement of a small plot harvester that has to be imported from Germany with resultant delays. The process was concluded late in the 2018/19 financial year, and it is anticipated that the harvester will be delivered prior to the harvesting season of October 2019. The total amount has been requested for roll-over.

## NOTES TO THE APPROPRIATION STATEMENT for the year ended 31 March 2019

Programme 7:

Structured Agricultural Education and Training

62,441

60,019

2,422

3,9%

The underspending of R1,422 million, relates to the second phase of the Conditional Grant: CASP project of the construction of the new entrance to the College. This project is managed and supervised by the Department of Transport and Public Works and is anticipated to be completed by 30 June 2019. The other R1 million will be utilised to develop and implement the final phase of the student management system. Both amounts were requested for roll-over.

## 4.2 Per economic classification

| Final<br>Appropriation | Actual<br>Expenditure               | Variance  | Variance as<br>a % of Final<br>Appropriation  |

|                        |                                     |   |   |
| 5,158                  | 3,736                               | 1,422   | 27,6%   |
| 29,972                 | 29,320                              | 652   | 2,2%  |
|                        | <b>R'000</b> 376,773 172,090  5,158 | Appropriation         Expenditure           R'000         R'000           376,773         376,267           172,090         162,567           5,158         3,736 | Appropriation         Expenditure           R'000         R'000         R'000           376,773         376,267         506           172,090         162,567         9,523           5,158         3,736         1,422 |

An underspending of R506,000 on compensation of employees is due to internal promotions, and unplanned vacating of key positions within the Department.

#### An underspending of R9,523 million on goods and services as follows:

R2,984 million has been requested for a roll-over to augment the outstanding accruals and payables for the 2018/19 financial year.

R28,000 is due to the earmarked allocation: Water for sustainable growth and development.

R2,812 million relates predominantly to delays in the procurement of medicines and drugs including vaccines and tuberculin for disease prevention.

R227,000 on the earmarked allocation: Disaster: Drought, water and food security.

R2,472 million relates to the procurement of a small plot harvester that has to be imported from Germany with resultant delays. The process was concluded late in the 2018/19 financial year, and it is anticipated that the harvester will be delivered prior to the harvesting season of October 2019.

R1 million will be utilised to develop and implement the final phase of the student management system.

### An underspending of R2,074 million as follows:

R1,422 million relates to the second phase of the Conditional Grant: CASP project to continue with the construction of the new entrance to the College. This project is managed and supervised by the Department of Transport and Public Works and is anticipated to be completed by 30 June 2019.

R652,000 on the earmarked allocation: Disaster: Drought, water and food security.

#### PART A: ACCOUNTING POLICIES

#### Summary of significant accounting policies

The financial statements have been prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated. Management has concluded that the financial statements present fairly the department's primary and secondary information.

The historical cost convention has been used, except where otherwise indicated. Management has used assessments and estimates in preparing the annual financial statements. These are based on the best information available at the time of preparation.

Where appropriate and meaningful, additional information has been disclosed to enhance the usefulness of the financial statements and to comply with the statutory requirements of the Public Finance Management Act (PFMA), Act 1 of 1999 (as amended by Act 29 of 1999), and the Treasury Regulations issued in terms of the PFMA and the annual Division of Revenue Act.

| issue | d in terms of the PFMA and the annual Division of Revenue Act.   |
|-------|--|
| 1     | Basis of preparation The financial statements have been prepared in accordance with the Modified Cash Standard.  |
| 2     | Going concern The financial statements have been prepared on a going concern basis.  |
| 3     | Presentation currency Amounts have been presented in the currency of the South African Rand (R) which is also the functional currency of the department.   |
| 4     | Rounding Unless otherwise stated financial figures have been rounded to the nearest one thousand Rand (R'000).   |
| 5     | Foreign currency translation  Cash flows arising from foreign currency transactions are translated into South African Rands using the spot exchange rates prevailing at the date of payment/receipt.   |
| 6     | Comparative information  |
| 6.1   | Prior period comparative information  Prior period comparative information has been presented in the current year's financial statements. Where necessary, figures included in the prior period's financial statements have been reclassified to ensure that the format in which the information is presented is consistent with the format of the current year's financial statements.  |
| 6.2   | Current year comparison with budget  A comparison between the approved, final budget and actual amounts for each programme and economic classification is included in the appropriation statement.   |
| 7     | Revenue  |
| 7.1   | Appropriated funds Appropriated funds comprise departmental allocations as well as direct charges against the revenue fund (i.e. statutory appropriation).  Appropriated funds are recognised in the statement of financial performance on the date the appropriation becomes effective. Adjustments made in terms of the adjustments budget process are recognised in the statement of financial performance on the date the adjustments become effective.  The net amount of any appropriated funds due to/from the relevant revenue fund at the reporting |

date is recognised as a payable/receivable in the statement of financial position.

| 7.2   | Departmental revenue Departmental revenue is recognised in the statement of financial performance when received and is subsequently paid into the relevant revenue fund, unless stated otherwise.  Any amount owing to the relevant revenue fund at the reporting date is recognised as a payable in the statement of financial position.                            |
|-------|--|
| 7.3   | Accrued departmental revenue  Accruals in respect of departmental revenue (excluding tax revenue) are recorded in the notes to the financial statements when:  |
|       | it is probable that the economic benefits or service potential associated with the transaction will flow to the department; and  |
|       | the amount of revenue can be measured reliably.  The accrued revenue is measured at the fair value of the consideration receivable.  Write-offs are made according to the department's debt write-off policy.  |
| 8     | Expenditure  |
| 8.1   | Compensation of employees  |
| 8.1.1 | Salaries and wages Salaries and wages are recognised in the statement of financial performance on the date of payment.   |
| 8.1.2 | Social contributions Social contributions made by the department in respect of current employees are recognised in the statement of financial performance on the date of payment. Social contributions made by the department in respect of ex-employees are classified as transfers to households in the statement of financial performance on the date of payment. |
| 8.2   | Other expenditure Other expenditure (such as goods and services, transfers and subsidies, as well as payments for capital assets) is recognised in the statement of financial performance on the date of payment. The expense is classified as a capital expense if the total consideration paid is more than the capitalisation threshold.                          |
| 8.3   | Accruals and payables not recognised  Accruals and payables not recognised are recorded in the notes to the financial statements at cost at the reporting date.  |
| 8.4   | Leases   |
| 8.4.1 | Operating leases Operating lease payments made during the reporting period are recognised as current expenditure in the statement of financial performance on the date of payment. The operating lease commitments are recorded in the notes to the financial statements.  |

#### 8.4.2 Finance leases

Finance lease payments made during the reporting period are recognised as capital expenditure in the statement of financial performance on the date of payment.

The finance lease commitments are recorded in the notes to the financial statements and are not apportioned between the capital and interest portions.

Finance lease assets acquired at the end of the lease term are recorded and measured at the lower of:

- cost, being the fair value of the asset; or
- the sum of the minimum lease payments made, including any payments made to acquire ownership at the end of the lease term, excluding interest.

Finance lease liabilities are not recognised in the statement of financial position and as such finance lease payments do not reduce liabilities in the statement of financial position. Payments to the lessors are recognised as payments for capital assets in the statement of financial performance and as a result are reflected as cash for investing activities in the cash flow statement.

#### 9 Cash and cash equivalents

Cash and cash equivalents are stated at cost in the statement of financial position.

Bank overdrafts are shown separately on the face of the statement of financial position as a current liability.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held, other short-term highly liquid investments and bank overdrafts.

### 10 Prepayments and advances

Prepayments and advances are recognised in the statement of financial position when the department receives or disburses the cash.

Prepayments and advances are initially and subsequently measured at cost.

Prepayments for goods and services are expensed when budgeted for in the current financial vear.

In the case of transfer payments and prepayments are expensed when budgeted for in the current financial year and to prevent any negative impact on the cash flow of the department.

#### 11 Loans and receivables

Loans and receivables are recognised in the statement of financial position at cost plus accrued interest, where interest is charged, less amounts already settled or written-off. Write-offs are made according to the department's write-off policy.

### 12 Investments

Investments are recognised in the statement of financial position at cost.

#### 13 Financial assets

#### 13.1 Financial assets (not covered elsewhere)

A financial asset is recognised initially at its cost plus transaction costs that are directly attributable to the acquisition or issue of the financial asset.

At the reporting date, a department shall measure its financial assets at cost, less amounts already settled or written-off, except for recognised loans and receivables, which are measured at cost plus accrued interest, where interest is charged, less amounts already settled or written-off.

### 13.2 Impairment of financial assets

Where there is an indication of impairment of a financial asset, an estimation of the reduction in the recorded carrying value, to reflect the best estimate of the amount of the future economic benefits expected to be received from that asset, is recorded in the notes to the financial statements.

| 14   | Payables Payables recognised in the statement of financial position are recognised at cost.  |
|------|--|
| 15   | Capital Assets   |
| 15.1 | Immovable capital assets Immovable assets reflected in the asset register of the department are recorded in the notes to the financial statements at cost or fair value where the cost cannot be determined reliably. Immovable assets acquired in a non-exchange transaction are recorded at fair value at the date of acquisition. Immovable assets are subsequently carried in the asset register at cost and are not currently subject to depreciation or impairment.  Subsequent expenditure of a capital nature forms part of the cost of the existing asset when ready for use.  Additional information on immovable assets not reflected in the assets register is provided in the notes to financial statements.  |
| 15.2 | Movable capital assets  Movable capital assets are initially recorded in the notes to the financial statements at cost.  Movable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition.  Where the cost of movable capital assets cannot be determined reliably, the movable capital assets are measured at fair value and where fair value cannot be determined; the movable assets are measured at R1.  All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.  Movable capital assets are subsequently carried at cost and are not subject to depreciation or impairment.  Biological assets are subsequently carried at fair value.  Subsequent expenditure that is of a capital nature forms part of the cost of the existing asset when ready for use.   |
| 15.3 | Intangible assets Intangible assets are initially recorded in the notes to the financial statements at cost. Intangible assets acquired through a non-exchange transaction are measured at fair value as at the date of acquisition. Internally generated intangible assets are recorded in the notes to the financial statements when the department commences the development phase of the project. Where the cost of intangible assets cannot be determined reliably, the intangible capital assets are measured at fair value and where fair value cannot be determined; the intangible assets are measured at R1.  All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.  Intangible assets are subsequently carried at cost and are not subject to depreciation or impairment. Subsequent expenditure of a capital nature forms part of the cost of the existing asset when ready for use. |

## NOTES TO THE ANNUAL FINANCIAL STATEMENTS for the year ended 31 March 2019

### 15.4 Project Costs: Work-in-progress

Expenditure of a capital nature is initially recognised in the statement of financial performance at cost when paid.

Amounts paid towards capital projects are separated from the amounts recognised and accumulated in work-in-progress until the underlying asset is ready for use. Once ready for use, the total accumulated payments are recorded in an asset register. Subsequent payments to complete the project are added to the capital asset in the asset register.

Where the department is not the custodian of the completed project asset, the asset is transferred to the custodian subsequent to completion.

#### 16 Provisions and Contingents

#### 16.1 Provisions

Provisions are recorded in the notes to the financial statements when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the obligation can be made. The provision is measured as the best estimate of the funds required to settle the present obligation at the reporting date.

#### 16.2 Contingent liabilities

Contingent liabilities are recorded in the notes to the financial statements when there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department or when there is a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or the amount of the obligation cannot be measured reliably.

#### 16.3 Contingent assets

Contingent assets are recorded in the notes to the financial statements when a possible asset arises from past events, and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department.

#### 16.4 Commitments

Commitments (other than for transfers and subsidies) are recorded at cost in the notes to the financial statements when there is a contractual arrangement or an approval by management in a manner that raises a valid expectation that the department will discharge its responsibilities thereby incurring future expenditure that will result in the outflow of cash.

#### 17 Fruitless and wasteful expenditure

Fruitless and wasteful expenditure is recorded in the notes to the financial statements when confirmed. The amount recorded is equal to the total value of the fruitless and or wasteful expenditure incurred.

Fruitless and wasteful expenditure is removed from the notes to the financial statements when it is resolved or transferred to receivables for recovery.

Fruitless and wasteful expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.

| 18 | Irregular expenditure Irregular expenditure is recorded in the notes to the financial statements when confirmed. The amount recorded is equal to the value of the irregular expenditure incurred unless it is impracticable to determine, in which case reasons are provided in the note.  Irregular expenditure is removed from the note when it is either condoned by the relevant authority, transferred to receivables for recovery or not condoned and is not recoverable.  Irregular expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.   |
|----|---|
| 19 | Changes in accounting policies, accounting estimates and errors  Changes in accounting policies that are effected by management have been applied retrospectively in accordance with MCS requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the change in policy. In such instances the department shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.  Changes in accounting estimates are applied prospectively in accordance with MCS requirements. Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with MCS requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases, the department shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable. |
| 20 | Events after the reporting date  Events after the reporting date that are classified as adjusting events have been accounted for in the financial statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the financial statements.  |
| 21 | Principal-Agent arrangements  The department is party to a principal-agent arrangement for the National Department of Rural Development and Land Reform (DRDLR). In terms of the arrangement the department is the agent and is responsible to provide training to the youth in terms of DRDLR's National Rural Youth Service Corps (NARYSEC) programme. All related revenues, expenditures, assets and liabilities have been recognised or recorded in terms of the relevant policies listed herein. Additional disclosures have been provided in the notes to the financial statements where appropriate.   |
| 22 | Departures from the MCS requirements  Management has concluded that the financial statements fairly present the department's primary and secondary information and the department complied with the Standard.   |
| 23 | Capitalisation reserve The capitalisation reserve comprises financial assets and/or liabilities originating in a prior reporting period but which are recognised in the statement of financial position for the first time in the current reporting period. Amounts are recognised in the capitalisation reserves when identified in the current period and are transferred to the Provincial Revenue Fund when the underlying asset is disposed and the related funds are received.  |
| 24 | Recoverable revenue  Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year. Amounts are either transferred to the Provincial Revenue Fund when recovered or are transferred to the statement of financial performance when written off.  |

# NOTES TO THE ANNUAL FINANCIAL STATEMENTS for the year ended 31 March 2019

| 25 | Related party transactions  A related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party. Related party transactions within the MEC's portfolio are recorded in the notes to the financial statements when the transaction is not at arm's length.  Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the department. The number of individuals and their full compensation is recorded in the notes to the financial statements.                     |
|----|--|
| 26 | Inventories  At the date of acquisition, inventories are recognised at cost in the statement of financial performance.  Where inventories are acquired as part of a non-exchange transaction, the inventories are measured at fair value as at the date of acquisition.  Inventories are subsequently measured at the lower of cost and net realisable value or where intended for distribution (or consumed in the production of goods for distribution) at no or a nominal charge, the lower of cost and current replacement value.  The cost of inventories is assigned by using the weighted average cost basis. |
| 27 | Employee benefits  The value of each major class of employee benefit obligation (accruals, payables not recognised and provisions) is disclosed in the Employee benefits note.   |

#### **PART B: EXPLANATORY NOTES**

## 1. Annual Appropriation

### 1.1 Annual Appropriation

Included are funds appropriated in terms of the Appropriation Act (and the Adjustments Appropriation Act) for Provincial Departments (Voted funds):

|   |      |         |         |

## 2.1 Sales of goods and services other than capital assets

|  | Note | 2018/19 | 2017/18 |
|--|------|---------|---------|
|  | 2    | R'000   | R'000   |
| Sales of goods and services produced by the department |      | 37,094  | 36,451  |
| Sales by market establishment (Rental)                 |      | 144     | 238     |
| Administrative fees*                                   |      | 1,454   | 1,542   |
| Other sales**  |      | 35,496  | 34,671  |
| Sales of scrap, waste and other used current goods     |      | 61      | 183     |
| Total  |      | 37,155  | 36,634  |

<sup>\*</sup> Included in administrative fees are abattoir registration certificates and agricultural export certification.

### 2.2 Interest, dividends and rent on land

|   | Note | 2018/19 | 2017/18 |
|---|------|---------|---------|
|   | 2    | R'000   | R'000   |
|   |      |         |         |
| Interest*                               |      | 8,512   | 10,493  |
| Dividends                               |      | 10      | 6       |
| Rent on Land (Revenue for water rights) |      | -       | 65      |
| Total                                   | _    | 8,522   | 10,564  |

<sup>\*</sup> Interest earned by Casidra (R8,324 million) and paid to the Department relating to disaster funds transferred to them and not yet spent at year-end. Interest accumulated on outstanding debtor accounts for services rendered, (R188,000).

## 2.3 Sale of capital assets

|                         | Note<br>2 | 2018/19<br>R'000 | 2017/18<br>R'000 |
|-------------------------|-----------|------------------|------------------|
| Tangible assets         |           | 381              | 241              |
| Machinery and equipment |           | 7                | 4                |
| Biological assets       |           | 374              | 237              |
| Total                   |           | 381              | 241              |

<sup>\*\*</sup> Other sales include tuition and boarding fees (R12,838 million), laboratory services (R5,125 million), veterinary services (R4,239 million), as well as sale of farm produce (R10,352 million).

#### 2.4 Transactions in financial assets and liabilities

|   | Note<br>2 | 2018/19<br>R'000 | 2017/18<br>R'000 |
|---|-----------|------------------|------------------|
| Receivables                                   |           | 386              | 362              |
| Other receipts including Recoverable Revenue* |           | 6,912            | 679              |
| Total   |           | 7,298            | 1,041            |

<sup>\*</sup> Payments received in 2018/19 relating to prior year revenue. The main reason for the increase is due to receipt of the amount of R5,939 million as a refund from the municipality for incorrect water meter charges claimed from the Department.

## 3. Compensation of employees

## 3.1 Salaries and Wages

|                                      | 2018/19 | 2017/18 |
|--------------------------------------|---------|---------|
|                                      | R'000   | R'000   |
| Basic salary                         | 268,227 | 243,763 |
| Performance award                    | 3,675   | 3,717   |
| Service Based (1)                    | 568     | 564     |
| Compensative/circumstantial (2)      | 4,952   | 5,416   |
| Periodic payments (3)                | 559     | 923     |
| Other non-pensionable allowances (4) | 46,121  | 44,085  |
| Total                                | 324,102 | 298,468 |

- (1) Service based includes leave discounting and long service awards.
- (2) Compensative/circumstantial includes overtime, acting and house mother/father allowances.
- (3) Periodic payments include wages for occasional workers that work less than 40 hours per week.
- (4) Other non-pensionable allowances include housing allowances, capital remuneration and service bonuses.

### 3.2 Social contributions

|                                 | 2018/19 | 2017/18 |

#### Notes:

- (1) Advertising: Increase due to the procurement of promotional items for community based projects within the Rural Development programme. The department also started with CASP advertisements in the province during 2018/19 that required additional media space and layout costs.
- (2) Catering: Increase due to the Brics Outreach project by the Department, as well as the procurement of catering services required for community based projects within the Rural Development programme.
- (3) Consultants: Business and advisory services: Increase due to the appointment of a consultant to manage the department's communication functions as a result of the vacant Head of Communications post. The main reason for the increase is due to the finalisation of the Social Dialogue Strategy project in 2018/19 that started at the end of 2017/18. The increase in the translation of reading and training material at the college is also a contributing factor.
- (4) Infrastructure and planning services: The decrease is due to the Leeuriver diversion weir sediment removal and the maintenance of boreholes in 2017/18 that was done once-off.
- (5) Contractors: Decrease due to additional aerial photography services during 2017/18 for the mapping of agricultural production in the Western Cape for winter and summer periods, which only happens every three years.
- (6) Agency and support and outsourced services: Increase due to the appointment of temporary staff through agencies as a result of vacancies of staff members that are on maternity leave during 2018/19, more

- beneficiaries were also trained in 2018/19 relating to Agricultural Skills Development and the contracting of facilitators for strategic rural development projects in 2018/19.
- (7) Prior year correction to Rental and Hiring due to the incorrect disclosure of expenditures relating to compensation to private land owners for radio masts erected on high sites as part of the Department's communication infrastructure. This is now disclosed as Rent on Land (R243,000).
- (8) Venues and facilities: The increase is due to community projects within the Rural Development programme of the Department that requires the hiring of venues and facilities.

|     | Building material and supplies**         |      | 5,930   | 7,637   |
|     | Communication accessories                |      | 111     | 8       |
|     | IT consumables                           |      | 64      | 167     |
|     | Other consumables***                     |      | 15,057  | 18,326  |
|     | Stationery, printing and office supplies |      | 2,938   | 2,265   |
|     | Total                                    |      | 29,958  | 34,479  |

<sup>\*</sup> The increase in uniform and clothing is due to the issuing of uniforms to all extension officers in the Department.

<sup>\*\*</sup> The decrease in building material and supplies is due to the once-off erection of new drinking water systems and reservoirs for animals during 2017/18 as a result of the drought and water restrictions.

<sup>\*\*\*</sup> Other consumables include animal feed and medicine (R8,537 million), laboratory consumables (R4,147 million) and fuel supplies (R1,878 million). The decrease in other consumables is due to the purchasing of bulk animal food in 2017/18 as a result of the drought. The outbreak of the avian influenza in the Province during 2017/18 is also a contributing factor for the decrease in expenditure in 2018/19.

#### 4.5 Property payments

|                                  | Note<br>4 | 2018/19<br>R'000 | 2017/18<br>R'000 |
|----------------------------------|-----------|------------------|------------------|
| Municipal services*              |           | 20,694           | 29,639           |
| Property maintenance and repairs |           | 2,407            | 1,957            |
| Other**                          |           | 9,505            | 12,092           |
| Total                            |           | 32,606           | 43,688           |

<sup>\*</sup> The decrease in municipal services is due to the implementation of water savings initiatives by the Department as well as the decrease in municipal tariffs in the latter part of 2018/19.

#### 4.6 Travel and subsistence

|         | Note | 2018/19 | 2017/18 |
|---------|------|---------|---------|
|         | 4    | R'000   | R'000   |
| Local   |      | 19,775  | 18,015  |
| Foreign |      | 2,319   | 3,140   |
| Total*  |      | 22,094  | 21,155  |

<sup>\*</sup> Included in travel and subsistence costs are expenditures for non-employees relating to the department's service delivery objectives amounting to R1,807 million. (Students, foreign guests and smallholder farmers).

## 4.7 Other operating expenditure

|   | Note | 2018/19 | 2017/18 |
|---|------|---------|---------|
|   | 4    | R'000   | R'000   |
| Professional bodies, membership and subscription fees |      | 149     | 159     |
| Resettlement costs                                    |      | 421     | 718     |
| Other*  |      | 1,951   | 2,691   |
| Total   | _    | 2,521   | 3,568   |

<sup>\* &</sup>quot;Other" includes courier services (R194,000), insurance for subsidised vehicles (R652,000), publication and printing services (R882,000), honoraria paid (R164,000) and professional bodies/membership fees (R149,000).

<sup>\*\* &</sup>quot;Other" includes cleaning services (R3,101 million) and security services (R6,247 million). The decrease in "other" is mainly a result of the decrease in the security contract between the Department and the contractor.

#### 5. Interest and rent on land

|               | 2018/19<br>R'000 | 2017/18<br>R'000 |
|---------------|------------------|------------------|
| Interest paid | 1                | -                |
| Rent on land* | 154              | 243              |
| Total         | 155              | 243              |

<sup>\*</sup> Compensation to private land owners for radio masts erected on high sites in support of the Department's communication infrastructure.

The prior year correction of R243,000 is due to incorrect disclosure previously as Rental and Hiring as part of Goods and Services.

## 6. Payments for financial assets

|                                   | Note | 2018/19  | 2017/18 |
|-----------------------------------|------|----------|---------|

## 11.2 Recoverable expenditure (disallowance accounts)

|  | <b>Note</b><br>11 | 2018/19<br>R'000 | 2017/18<br>R'000 |
|--|-------------------|------------------|------------------|
| Supplier debt outstanding*                 |                   | 989              | 707              |
| Theft and losses still under investigation |                   | 23               | 78               |
| Salary tax debt                            |                   | 73               | 1                |
| Total                                      |                   | 1,085            | 786              |

<sup>\*</sup> The increase in supplier debt is due to the recovery of water usage costs at the Mariendhal farm from users other than the Department.

#### 11.3 Staff debt

|                        | Note | 2018/19 | 2017/18 |
|------------------------|------|---------|---------|
|                        | 11   | R'000   | R'000   |
| Employee bursary debt* |      | 2,755   | 2,643   |
| Salary tax debt        |      | 1,306   | 987     |
| Total                  |      | 4,061   | 3,630   |

<sup>\*</sup> Bursary debts relate mainly to external bursary holders who are in breach of contract as they failed to serve back their bursary obligations or did not complete their studies.

### 11.4 Fruitless and wasteful expenditure

|   | <b>Note</b><br>11 | 2018/19<br>R'000 | 2017/18<br>R'000 |
|---|-------------------|------------------|------------------|
| Opening balance   |                   | 5                | 1                |
| Less amounts recovered                                    |                   | (8)              | -                |
| Transfers from note 25 Fruitless and Wasteful Expenditure |                   | 3                | 4                |
| Total   | _                 | -                | 5                |
|   |                   |                  |                  |

### 11.5 Impairment of receivables

|  | 2018/19<br>R'000 | 2017/18<br>R'000 |
|--|------------------|------------------|
| Estimate of impairment of receivables* | 3,160            | 1,924            |
| Total                                  | 3,160            | 1,924            |

<sup>\*</sup> The estimate is mainly calculated on the outstanding staff debt in note 11.3.

## 12. Investments

|      |  | Note      | 2018/19<br>R'000 | 2017/18<br>R'000 |

| Cash on hand                           | 148              | 145              |
| Total                                  | 13,144           | 12,648           |

## 18. Contingent liabilities and contingent assets

| Contingent liabilities                            | Note     | 2018/19<br>R'000 | 2017/18<br>R'000 |
|---|----------|------------------|------------------|
| Guarantees  | Annex3A  | 3 690            | -                |
| Claims against the department                     | Annex 3B | 142              | 650              |
| Intergovernmental payables (unconfirmed balances) | Annex 5  | 97               | 1,795            |
| Total   |          | 3,929            | 2,445            |

#### 18.1 Contingent assets

|                            | 2018/19 | 2017/18 |
|----------------------------|---------|---------|
|                            | R'000   | R'000   |
| Nature of contingent asset |         |         |
| Tax refund from SARS*      | 264     | 264     |
| Total                      | 264     | 264     |

<sup>\*</sup> SARS conducted an audit at the department on employee benefits relating to employees living in official houses at non-market related tariffs. This audit resulted in a claim against the department for incorrect tax payovers for a period of three years. The claim against the department included an amount of R264,000 for 15 employees who, according to the department, were not living in official houses during the period covered by the audit. A Notice of Objection for a refund was submitted to SARS during 2017 and 2018.

There are currently two PILIR cases under investigation at the Department of the Premier and at this stage the department is not able to reliably measure the PILIR cases.

#### 19. Commitments

|                         | 2018/19 | 2017/18 |
|-------------------------|---------|---------|
| Approved and contracted | R'000   | R'000   |
| Current expenditure     | 25,441  | 22,801  |
| Capital expenditure     | 3,027   | 904     |
| Total Commitments       | 28,468  | 23,705  |

<sup>\*</sup> Included in the above are nine contracts for cleaning and gardening services amounting to R4,907 million and five other contracts amounting to R3,867 million for provisions to the college, catering, hygiene services, radio broadcasting and diagnostic tests.

#### 20. Accruals and payables not recognised

#### 20.1 Accruals

| Total   | 189     | 469     |
| Included in the above totals are the following:             |         |         |
| Confirmed balances with other departments  Annex 5          | 1       | -       |
| Confirmed balances with other government entities Annex 5   |         |         |
| Total   | 1       | -       |

### 21. Employee benefits

|                          | 2018/19 | 2017/18 |
|--------------------------|---------|---------|
|                          | R'000   | R'000   |
| Leave entitlement*       | 11,681  | 11,154  |
| Service bonus            | 10,086  | 9,297   |
| Performance awards       | 2,175   | 1,957   |
| Capped leave commitments | 12,013  | 11,916  |
| Other**                  | 972     | 628     |
| Total                    | 36,927  | 34,952  |

<sup>\*</sup> Included in Leave Entitlement is a negative amount of R652,180 for leave owed to the Department due to leave taken in advance.

<sup>\*\*</sup> Other includes long service awards payable in 2019/20 and overtime worked in 2018/19 but not yet paid at 31 March 2019. 2017/18 has been restated to include the exit gratuity of the MEC for R57,000 as provided by the Provincial Treasury. T&S accruals amounting to R1,138 million were also transferred to the Accruals note. At this stage the Department is not able to reliably measure the long portion of the long service awards included in other.

#### 22. Lease commitments

#### 22.1 Operating leases

|  | 2018/19 | 2017/18 |
|--|---------|---------|
|  | R'000   | R'000   |
| Machinery and Equipment                      |         |         |
| Not later than 1 year                        | 1,371   | 822     |
| Later than 1 year and not later than 5 years | 1,075   | 954     |
| Total lease commitments                      | 2,446   | 1,776   |

Lease agreements for 84 photocopier machines in the Department as at 31 March 2019.

#### 22.2 Finance leases

|  | 2018/19 | 2017/18 |
|--|---------|---------|
|  | R'000   | R'000   |
| Machinery and Equipment                      |         |         |
| Not later than 1 year                        | 17,522  | 17,695  |
| Later than 1 year and not later than 5 years | 19,655  | 28,569  |
| Later than five years                        | -       | 81      |
| Total lease commitments                      | 37,177  | 46,345  |

The Department of Agriculture leased 239 vehicles from GMT as at 31 March 2019 (March 2018: 244). Daily tariffs are payable on a monthly basis, covering the operational costs, capital costs of replacement of vehicles, and the implicit finance costs in this type of arrangement.

The implicit interest is based on Provincial Treasury's approved tariffs for GMT. The department uses the vehicle for most of the useful life of the vehicle. The agreement does not provide for contingent lease payments, and at the end of the useful life as determined by the lessor, the vehicles are returned where it is sold on auction for the benefit of the lessor.

### 23. Accrued departmental revenue

|   | 2018/19 | 2017/18 |
|---|---------|---------|
|   | R'000   | R'000   |
| Sales of goods and services other than capital assets | 13,166  | 11,022  |
| Interest, dividends and rent on land                  | 2,116   | 945     |
| Total   | 15,282  | 11,967  |

| Total   | '   | 24               |

### 26. Related party transactions

The total shareholding in Casidra SOC Ltd, is with the Provincial Government of the Western Cape under the oversight of the Provincial Minister of Economic Opportunities.

The Western Cape Department of Agriculture occupies various buildings and research farms in the Province managed by the Department of Transport and Public Works free of charge.

The Department received corporate services from the Corporate Services Centre of the department of the Premier in the Western Cape Province with effect from 1 November 2010 in respect of the following service areas:

- Information and Communication Technology
- Organisation Development
- Provincial Training (transversal)
- Human Resource Management
- Enterprise Risk Management
- Internal Audit
- Provincial Forensic Services
- Legal Services
- Corporate Communication.

The Department also received Security Advisory Services and Security Operation from the Department of Community Safety in the Western Cape.

The Department makes use of government motor vehicles managed by Government Motor Transport (GMT) based on tariffs approved by the Provincial Treasury.

A related party relationship exists between the Department and the Western Cape Agriculture Research Trust (Trust). Currently the department accommodates 2,715 animals belonging to the Trust for research purposes free of charge at various research farms of the Department as stipulated by the agreement between the Department and the Trust. In terms of the agreement the Department also uses Trust owned capital assets on the various research farm. These assets include tractors, milking-machine, scanner systems, controlled coolers, feed planters, vehicles and animal trailers, spray-pumps, harvester, fodder and concentrate mixers as well as other implements and equipment. The Trust has been established with the aim to facilitate, support and fund animal, plant and related research in the Province according to the needs of the various animal, plant and related industries in the Western Cape.

### Annual Report for 2018/19 Financial Year Vote 11: Department of Agriculture Province of the Western Cape

### NOTES TO THE ANNUAL FINANCIAL STATEMENTS for the year ended 31 March 2019

### 32. Principal-agent arrangements

### 32.1 Department acting as the agent

The department acts as an agent for the National Department of Rural Development and Land Reform (DRDLR) to provide training to the youth in terms of DRDLR's National Rural Youth Service Corps (NARYSEC) programme to enable them to work in their communities that will eventually leads to the creation of enterprises.

No revenue received for these agency service.

### 32.1.1 Reconciliation of funds and disbursements – 2018/19

| Category of revenue or expenditure per arrangement | Total funds<br>received | Expenditure incurred against funds |  |
|--|-------------------------|------------------------------------|--|
|  | R'000                   | R'000                              |  |
| Goods and Services                                 | 22                      | -                                  |  |
| Total  | 22                      | -                                  |  |

As at 31 March 2019 no assets held or liabilities incurred on behalf of DRDLR (principle).

### 32.1.2 Reconciliation of carrying amount of receivables and payables – 2018/19

### **Payables**
