## 1 PART A: GENERAL INFORMATION

### 1.1 Introduction

In terms of Section 17 of the Communal Property Association Act, Act No. 28 of 1996 the Director-General is required to compile a report on the extent to which the objectives of the Communal Property Association Act are being achieved and the Minister is required to table such report in Parliament in every calendar year.

The economic benefits of functional Communal Property Associations, which are able to put the land they own into productive use, can result in the alleviation of the high levels of unemployment and poverty within the country. The Department of Rural Development and Land Reform has registered a total of 1526 Communal Property Associations since the inception of the Act. In the majority of cases these entities do not comply with their reporting obligations. There is a high incidence of dysfunctionality and non-compliance within CPAs which warranted intervention by the Department and other stakeholders.

### 1.3 Foreword by the DRDLR Minister

Land Reform is one of the key areas that have been prioritised by our government. Access to land gives families an opportunity to provide for their basic nutritional needs. The importance role of the CPAs is that they play as facilitators of economic development in their respective areas and that can never be overemphasised. The agents of change need to be capacitated with both appropriate business management skills and agricultural skills to put them on a sound production footing.

We are engaging in efforts to turn the fortunes of our CPAs around. In the past year I reported on the establishment of structures in each district to support and facilitate provision of support to CPAs. We have been building capacity within these structures and clarifying their roles to enhance their effectiveness. Efficiency and co-ordination of efforts are key to addressing the lack of support to our legal entities.

The amendment we seek to introduce to the legislation will solve most of the challenges currently experienced with CPAs. Dedicated capacity as envisaged in the establishment of the Communal Property Associations will bring the Departmental support closer to CPAs. The gap between the Department and CPAs has led to lack of monitoring and early detection of problems before they entrench themselves. More creative ways are needed in order to solve the challenges facing CPAs. It is in that light that the Department is required to continuously evaluate its intervention mechanisms to look into the existing gaps and plug them.

We believe that through our collaboration with all the role players and stakeholders and a conducive legislative environment we will find success in addressing the well-known challenges facing our legal entities.

## 1.4 Overview

The past financial year has seen the Department strengthen the partnerships it has established with civil society. This was done through the establishment and strengthening of various forums that will support projects as well as facilitate access to various services within a reasonable distance. At the core of these partnerships is the provision of support for land reform projects and to put them on a trajectory of success. Amongst others we have the CPI District Forums taken through a capacity building workshop.

Land Reform is not only about giving access to the landless masses but also about the improvement of their economic position and food security. In this respect the department is striving to make Communal Property Associations fully functional so that they can contribute to the broader development agenda. The value of the investment that we made in acquiring land for communities in the acquisition of land makes it necessary for us to develop mechanisms, plans and strategies to solve a myriad of challenges plaguing CPAs. Our multi-pronged approach as contained in the Communal Property Associations Strategy entails amending the legislation, strengthening the institutional capacity and extending the scope of support given to CPAs.

Fully functional and economically active CPAs will not only contribute to the economic empowerment of their members but will also contribute to economic growth and alleviate reliance on the social security system of the country.

## **1.5 Communal Property Association Strategy 2017**

The property portfolio of CPAs runs into billions of Rands and therefore the Department cannot afford not to realise the return on its investment in Land Reform and Restitution. This necessitates the proper diagnosis of what the challenges are and the remedies or interventions required for those challenges.

A number of meetings were held both internally with officials and externally with other role-players. A CPA Indaba was held with implementers in September 2016, another CPA Indaba was held in June 2017 following a task team was established. The Task Team met in July 2017 to take the recommendations of the CPA Indaba and develop them into actionable plans.

In order to address the immediate, medium-term and long-term challenges the following interventions are being considered for implementation:

### **1.5.1 Establish a credible CPA Database**

- Update the hardcopy and electronic CPA Register
- Include additional fields in the Register. e.g. Hectars, Enterprise, Geographic location
- Capture compliance status
- Create an email address and assign a phone number to each CPA
- Finalize all verification processes for CPA projects to finalise membership lists
- The Commission on Restitution of Land Rights must update the records of Hectars transferred to CPAs

### **1.5.2 Develop an Information Management System (IMS)**

- Compliance status
- Upload and download reports

### **1.5.3 Build and strengthen stakeholders networks**

- Enter into MoAs and MoU with stakeholders. e.g. IEC

1.5.4 Capacitate the CPA component both Nationally and Provincially

- Review the CPA Delegations
- Assign personnel to CPA work (minimum of 2 per provinces)
- Provide training to all personnel working CPAs
- Assign Recap officials to work on agricultural development in CPAs

1.5.5 Capacitate the CPAs with regular training and support

- Conduct a skills audit on all CPAs
- Provide training to all CPAs and their committees
- Provide resources to CPAs. e.g. laptops & stipends
- Conduct Quarterly Reviews with all District Forum to check the performance of CPAs

1.5.6 Allocate adequate resources from the REID budget to support the development of enterprises on CPA land

- Identify possible enterprises on CPA land
- Facilitate the development of rural enterprises

1.5.7 Allocate adequate resources from the RID budget to support infrastructure development on CPA projects

- Identify CPA projects with infrastructural needs or decaying infrastructure
- Facilitate infrastructure development on CPA land

## 1.6 Legislative and Other Mandates

The Communal Property Associations Act 28 of 1996 requires that the Director-General of the Department must annually submit a CPA report to the Minister. The requirement is set out in Section 17 of the Act. The Minister will therefore table the report in Parliament. The report seeks to reflect the extent to which the objects of this Act are being achieved and if not what are the challenges which results in failure to achieve the intended objectives.

The CPA Act No.28 of 1996 is currently undergoing amendments owing to the gaps and loopholes identified during its implementation. The CPA Amendment Bill is currently undergoing parliamentary consultations process to allow the public to make inputs before it is considered and passed into law. The Bill makes provision for the creation of the office of the CPI Registrar and his/her deputies which will enable efficient oversight of the CPAs. The Bill further aims to extend the establishment of CPAs for Labour Tenants and Farm dwellers as they were not catered for in the Act as it is currently. It was discovered that the Act has significant gaps with regard to protecting the rights of ordinary CPA members and was less strict on those individuals who were found to have contravened the Act and CPA constitutions. In order to deal with disruptive individuals the Bill seeks to introduce certain actions as offenses and remedial actions where necessary.

## **2 PART B: Performance Information**

### **2.1 Institutional Arrangements, Challenges and Interventions**

#### **i) Institutional Arrangements**

The Minister strategically guided that the CPI District Forums should be formed. The intention is to allow members of the CPIs to be part of these forums whereby experiences, guidance and lessons learned are shared and to some extent mediation of disputes can be facilitated through these forums. Each Provincial Office has established at least 1 (one) forum per district. The outcome from those active forums are positive as certain compliant CPAs are presenting to the rest of the CPAs strategies and processes through which they function properly such as Constitutional amendments, compliance with CPA constitutions, accountability issues etc.

#### **ii) Challenges**

The challenges experienced by CPIs range from low literacy level, lack of understanding of legal framework, lack of accountability, incomplete/incorrect verification processes, inability to handle and manage large sums of money amongst others. These challenges are the root-causes of the high levels of non-compliant within the CPIs. Where possible the Department through internal resources attempts to assist with capacity building workshops and amendments of constitutions where necessary. The increasing number of CPA's is not matched with the available strictly dedicated to CPI's Human Resources in the Department due to the cut on compensation of employees budget and this is currently a major challenge. Over 1526 CPAs have been registered across the country however the Departmental human resource is not increasing to match the growing need to stretch and reach the increased functions. In those CPAs with money, the Chairpersons and some committee members use the funds to protect their wrongdoings through paying for legal action against anyone who intervenes to hold them to account. This leaves other beneficiaries frustrated and destitute because their funds utilized for selfish purposes by the committee. The CPAs end up becoming dysfunctional or having internal conflicts. The growing competition between the CPIs and Traditional Leaders competition for power and resources is visible in CPAs such as Moletele CPA in Limpopo, Bakgatla Ba Kgafela CPA in North West and many others. The consolidation of groups of individual

claimants or tribal claimant communities a single legal entity also present challenges which manifests when the division become evident within the CPA. Some CPA members are calling for deregistration of CPAs and subdividing the land in such instances.

### **iii) Interventions**

The Department through its PSSCs: TSI, continues to support those ailing CPAs through mediations, meetings, guiding AGMs, capacity building with the aim of capacitating the members. These processes however require continuous efforts as the CPAs change office bearers frequently. The LRMF facility works together with the Department to regularize dysfunctional CPAs through mediation in some instances litigation.

## **2.2 Judicial Administration**

The below table depicts CPAs currently placed under judicial administration for various reasons including those reflected at 2.1 (ii) above.

PROVINCE	CPA NAME	Reg no.	Duration of administration	What lead to Administration?	What is currently happening to regularize the CPA?	Why is the CPA still under admin, if the admin period has lapsed?
Limpopo	Mamahlola	01/0279/A	3 years	Maladministration	An internal consideration is being interrogated on the implications to set aside the judicial administration order granted against Mamahlola Communal Property Association by the Court	Awaiting memo from the Director General
Mpumalanga	Moloto cpa	08/1109/A	7 months	Conflicts amongst members	Administrator is regularizing the CPA	Lack of cooperation
Northern Cape	Khomani San	99/0146/A	3 years	Failure to provide development support to the CPA	An Administrator and a farm Manager have been appointed. A three year development Plan has been developed.	The period expires August 2017
	Pniel	05/0864/A	Expired	Failure to provide development support to the CPA	A referee and a panellist have been appointed.	The community not yet ready to run the affairs of the CPA

PROVINCE	CPA NAME	Reg no.	Duration of administration	What lead to Administration?	What is currently happening to regularize the CPA?	Why is the CPA still under admin, if the admin period has lapsed?
North West	Barolong Boo Ratlou Ba Ga Seitshiro	07/1054/A	Not specified in the judgement.	Maladministration/ infighting	The administrator has stabilized the affairs of the association. Thirty leases have been signed with farmers through the administrator. Twenty five of those farmers given leases are from the beneficiary community and five are private business people. The CPA is at a stage where elections are being prepared as per administrator role provided for by the judgement. This activity will be followed by hand over which according to the administrator should be finalized before December 2017.	There were difficulties initially in carrying out the functions of administration between LRMF, administrator and the deep seated conflicts within the CPA.
Western Cape	Elandskloof	96/0001/A	June 2005-to date	There is a lot of infighting within the community, they are not complying, do not submit reports to the department and meetings are not held.	The Department has appointed a mediator to assist in setting up the committee and unite the people towards development to regulate the CPA and take it back to the community.	The Department has capacity challenges. There is not enough staff to deal with the matter.

### 2.3 CPAs that lost land

There are no reports of any CPAs that lost land across the 7 reported provinces during 2016/17 financial year.

## 2.4 Recapitalized CPAs

This programme, RECAP (Recapitalization and Development) has been relocated to Department of Agriculture, Forestry and Fisheries (DAFF). The programme is responsible for assisting those complying CPAs with financial support. A CPA qualifies for this assistance subject to green compliance level, must design a sound business plan with prospects of success and must have a mentor with expertise.

The table below reflects CPAs that receive assistance from RECAP

Recapitalized CPAs in 2016/17							
Province	CPA Name	Reg no.	Members	Extend of land	Program	RECAP Amount	Type of Production
<b>Limpopo</b>	Rapetsoa	10/1259/A	149	8384.156	Restitution	R9 459 233.00	Crop (Tomato, Potato, Maize) & Livestock (Cattle)
	Mamphodo Mushasha Begwa	05/0786/A	126	1 323.16	Restitution	R6 873 000 00	Livestock (Cattle) & Crop (Veggies and Maize).
<b>Western Cape</b>	Middlepos	13/1363/A	22	60	Redistribution	R1 780 916.00	Olives
	Ebenhaezer	14/1379/A	9	42	Redistribution	R4 646 893.00	Wine grapes

## 2.5 Conflict dynamics

### 2.5.1 Relationship conflicts:

When one considers the history of South Africa, in an apartheid era, compared to the post-apartheid era, land reform process is filled with very strong emotions. Farm dwellers/labour tenants/previous owners worked their land and enjoyed the benefit of their labour prior to the dispossession but when the same farm-dwellers/labour tenants or former owners receive ownership of the land in the new dispensation they end up not enjoying the benefits of the restored land because of conflict within their groups. The fact that there are now conflicts that are hindering these people from enjoying their land rights is a source of consternation and further deprivation. A further form of negative behaviour can be identified as greed. Most CPAs administrative structures collapse because CPA members seek self-enrichment to the detriment of the common good. By misusing their powers CPA executive committee members have created a climate of mistrust amongst the beneficiaries.

### **2.5.2 Data Conflicts:**

A lack of understanding by the CPA beneficiaries with reference to the Communal Property Associations Act no 28 of 1996, and the Trust Property Control Act no. 57 of 1998, has led to misinformation between claimants, and this often leads to conflict. Furthermore, a lack of information, training, and knowledge of management methods by the CPAs and subsequently by the leadership of the CPI's towards its beneficiaries, has caused conflicts to exist within the institution.

### **2.5.3 Interests Conflicts:**

Many executive committee members manage the CPA businesses in a manner which contravenes the CPA constitutions, they often conflict their interests and therefore fail to serve the members with honesty, transparency and accountability.

### **2.5.4 Structural Conflicts:**

Destructive behaviour by conflicting parties is often considered as being rife in terms of each party when their demands, suggestions and ideas are not met or adhered to. The fact that the claimed farms are often scattered over a large geographical area, this creates a lack of cohesion amongst the beneficiaries, and hinders unity in co-operation and decision making; As a result of unequal economic distribution, some of the farms are more economically viable than others, e.g. A game farm is more viable than grazing land, and this lead to conflict between the claimants, as those who reside on the more viable farms, and inevitably work harder and longer than those who reside on grazing land, even though all members are constitutionally equal.

### **2.5.5 Conflict over limited resources**

In most instances where there are resources conflicts emanate because of one groups trying to benefit to the exclusion of other members of the CPA

## 3 PART C: HUMAN RESOURCE MANAGEMENT

### 3.1 Introduction

The Implementation of CPA legislation and support to CPAs is heavily dependent on the availability of capacity in the Department to deal with CPAs specifically. There has been increase with regard to the number of CPA's being registered and this has put capacity challenges to the Department. Tenure is structured in such a way that the limited available officials are responsible for all other Tenure programmes and implementation which is inclusive of CPAs, Labour Tenants, ESTA, ULTRA, IPILRA etc. This has put immense pressure on the limited capacity available which therefore impacts negatively on the support to CPAs which currently sits at more than 1500 registered CPAs across the country. Only 84 officials are responsible for working with tenure nationally CPAs. The Department through the current re-engineering process will look at how it can optimally utilise the available resources to fit its operational demand. This is due to the budget cut on the compensation of employees budget resulting to the challenges to add more human resources to the Department.

## 4 PART D: LAND RIGHTS MANAGEMENT FACILITY

The Land Rights Management Facility is being outsourced, this is due to the feasibility of being able to employ and stretch the goods and services budget resulting from implementation of austerity measures in some areas and also balancing the deployment of required skills and expertise to execute the required functions. The functions of this facility include dealing with among other matters, ESTA, LTA and CPA. The bulk of interventions into the CPAs are carried out by the services of this facility which include regularization and in some instances litigation. CPAs however comply for a limited period post regularization, the bigger challenge being the tendency of committees refusing to relinquish power when their term of office lapses.

### 4.1 LRMF Expenditure

Most of the work done by the LRMF is reactive in nature. Their work is based on the cases that are referred by provinces. There are currently 222 CPA matters referred to LRMF for regularization and the table below reflects costs incurred through those matters:

<b>LRMF financial expenditure on CPAs</b>		
<b>PROVINCE</b>	<b>EXPENDITURE JULY 2016</b>	<b>EXPENDITURE AUGUST TO JULY 2017</b>

#### 4.3 Conclusion

This report reflects a very dire situation the Communal Property Associations find themselves in. The level of non-compliance is extremely high, the Department after holding CPA Indabas is finalising the CPA Strategy that will have an implementation plan for immediate implementation to mitigate the risks associated with high levels of non-compliance. The Department take seriously the objective of existence of CPA's particularly in addressing the triple challenges of poverty, unemployment and inequality and will therefore implement a turnaround strategy that will see the vision of the Act being attained. During the last 22 years in South Africa, we have seen the creation and the implementation of a range of land tenure policies and related legislation. This has brought upon us as a democracy a new era in terms of protecting those citizens of the country who have been vulnerable in the past. In doing so, big strides have been taken to ensure and facilitate real change and the restoration of rights that were violated under the apartheid government

The Tenure Reform Programme seeks to redress the wrongs of the past by strengthening the rights of black farm occupiers, and in so doing, addressing their vulnerability. In the formulation of these land tenure reform policies and their related legislation, the abuse of human rights, forceful evictions, and insecure tenure, which led to gross human rights violations, were all considered. The implementation of the land tenure reform programmes has been experienced by parties throughout the country, ranging from farm dwellers, farmers, local and provincial, as well as national government. The reforms have sought to address the plight of farm dwellers, farm occupiers and labour tenants, within the constitutional framework property rights. The department has simultaneously formed the Land Rights Management Facility to assist claimants by providing specialised legal and negotiation services. This project, together with other mechanisms, provides opportunities and access to justice to farm dwellers residing in even the most remote rural areas. Although great strides have been made to redress the wrongs of the past, albeit at a vast financial cost, in the pioneering of a restorative justice process, the Department note with regret the conflicts within the process which have manifested themselves, and have escalated to critical levels, however hope is not lost and the Department going forward will prioritise the implementation of the turn-around strategy to mitigate the existing risks that are as a result of compliance deficiencies.
