

ANNUAL REPORT 2016/17

1. LETTER OF TRANSMISSION

Honourable Nkwinti, GE (MP)
Minister for Rural Development and Land Reform

Sir,

Report to Parliament in terms of Section 21 of the Restitution of Land Rights Act, 1994 (Act No. 22 of 1994).

It is my pleasure to submit this Annual Report of the Commission on Restitution of Land Rights for the financial year that ended on 31 March 2017, for tabling in Parliament. This is in compliance with Section 21 of the Restitution of Land Rights Act, No. 22 of 1994, as amended, which prescribes that we submit this report no later than 1 June every year.

I will present the same report to the Portfolio Committee on Rural Development and Land Reform in the National Assembly, as well as to the Select Committee of Land and Mineral Resources in the National Council of Provinces, on the dates to be decided by these committees.

Yours faithfully

Ms Nomfundo Ntloko-Gobodo
Chief Land Claims Commissioner
May 2017

5. MINISTER'S FOREWORD

The historical legacies of colonialism and apartheid led to material destruction and disposessions of the culture of the indigenous people of South Africa.

Colonialism and apartheid, which were pursued by the various governments over 350 years, saw to the transfer of a vast amount of the country's resources into the hands of a few. This is a legacy that as a society we live with. Those government policies of years gone by continue to shape the political, economic and social life of our country.

Grinding poverty and high unemployment still haunt the black communities and is a burden that this current democratic government seeks to reverse.

This inequality is also evident in ownership patterns. Land, property and human capital remains heavily skewed in the hands of a minority while the majority continues to strive for a better life. It was for this reason that the democratic government introduced measures to arrest these imbalances and to provide redress to those who were dispossessed of their land through discriminatory laws and or practices. This resulted in the Restitution programme of the government, which derives its mandate from Section 25 of the 1996 Constitution, and is central to the government's vision of "radical Socio - economic transformation" of the country.

The Commission on Restitution of Land Rights has over the years continued to restore land to various individuals and communities to reverse this legacy. The focus is ensuring that the beneficiaries of restitution are empowered to use their land sustainably to ensure through their participation in various activities like agriculture, mining, eco-tourism and forestry are central to Radical socio - Economic transformation of our society. The CRLR has been progressively moving towards better efficiency and over its period of existence acquired 3.4 Million Hectares of land for 2 045 412 Beneficiaries around the country. This represents 410 049 households of which 156 687 are headed by females and 1 025 are people with disabilities.

Despite these milestones the CRLR still has a number of outstanding claims that were lodged before the cut-off date of December 1998 to be settled and finalized. Therefore, once the Restitution Amendment Act is reintroduced and assented to by the President they will have to be geared to deal with the new claims that the CRLR had already received between July 2014 and July 2016 before the Restitution Amendment Act was declared invalid. The Constitutional Court declared the Restitution Amendment Act of 2014 invalid because parliament had failed to consult adequately.

Visionary communities have made optimum use of the restored land and are beginning to successfully reverse the Legacy of Colonialism and Apartheid that had resulted in the disposessions. Some of these communities have even begun to provide for the future of their children by establishing bursary funds to finance the education of their children up to tertiary level.

They are using the restituted land to break the market ceiling and are now competing amongst the best in the country and in international markets through their exports.

These trailblazers have provided the needed employment and skills training for their fellow compatriots in their places of abode. It is hoped that when a new window of lodgment of land claims is opened, the Restitution programme will continue to serve as a fulcrum to unlock the economic opportunities that had not been available to the rural communities and those living in peri-urban areas.

In this way the restitution programme will serve as a conveyance belt in the economic transformation of the country that would usher in social cohesion and nation building. Where the 3 perennial scourges of poverty, unemployment and inequality would be drastically narrowed.

For the Commission to achieve these noble ideals it will have to accelerate, reconfigure itself into an autonomous institution that is efficient in order to best deliver on the mandate as encapsulated in the Restitution of Land Rights Act. I am pleased with the steady performance of the Commission on Restitution of Land Rights as reflected on this report.

Nkwinti, GE (MP)
Minister of Rural Development and Land Reform

6. OVERVIEW BY THE CHIEF LAND CLAIMS COMMISSIONER

The Commission on Restitution of Land Rights is a Commission established by the Constitution of the Republic of South Africa to fulfil a Constitutional imperative which is to provide redress to those South Africans who were disposed of the land as a result of discriminatory laws and or practises. The dispossession happened well in the past however the effects of the dispossession is an ever present pain for those who lost their land. As the custodians of this programme we have a responsibility to reverse this legacy.

The Commission continues to focus on the settlement of all Land claims lodged before the cut- off date of 31 December 1998. We also acknowledge the concerns raised by our stakeholders with regards to the slow pace of the settlement of claims.

We have however in the past 5 years made significant strides, this is evident in the fact that we have over this period been able to ensure that all our annual targets are met and that the allocated budget is fully expended.

The Restitution Act was in 2014 amended to allow an opportunity for those Communities and or individuals who did not lodge their land claims prior to the December 1998 cut-off date to do so, this meant a further extension of 5 years. However, in July 2016 the Constitutional court in the LAMOSA Judgment declared the Restitution Amendment of 2014 invalid on the basis that Parliament had failed to consult adequately. The result is that the Commission is barred from receiving or processing any new claims that had already been received after July 2014 as a result of the 2014 Amendment. We will only be able to receive and attend to the new claims once a new amendment has been introduced and signed off by the President. The Commission by the end of July 2016 had already received 25 388 new claims from all 9 Provinces.

We report that despite evident challenges the CRLR was able to meet all its performance targets for 2016/17. We were able to settle 804 land claims against an annual target of 615 claims. We finalised 672 land claims against an annual target of 454 claims. Of the Phased projects for settlement, we achieved a target of 75 against the annual target of 76

The Commission is moving swiftly to ensure that all the land claims that were lodged by December 1998 are researched, as such the Commission has increased its annual research target to ensure that all outstanding research for these claims is finalized. I therefore report that for the year 2016/17 we were able to research 1558 claims against an annual target of 1530. We are gearing up our capacity in order to finalise all outstanding research for the 1998 land claims in the 2017/18 financial year.

In the year under review the Commission was able to expend 100% of its allocated a budget with a clean audit achieve.

We are however aware of the concerns that have been raised around the pace of settlement of these Land claims. We will use the opportunity presented by the 2016 Operation Phakisa for the Department of Rural Development and Land Reform, and the Department of Agriculture, Forestry and Fisheries to pursue innovative strategies to fast- track the settlement of Land Claims lodged before the cut- off date of 31 December 1998.

The Commission will need to work differently in order for it to meet this obligation. We will be required to re-design the restitution business process, acknowledge our strengths and weaknesses identifying threats while taking full advantage of identified opportunities. We also want to relook at the current organogram to understand whether it is fit for this purpose.

The Commission continues to work hard to reach out to all its stakeholders especially the claimant communities. In the last financial year we rolled out a number of key communication initiatives one being the Pro-active

District Based Communication strategy, where all Provinces held District based consultations and information sessions in all the claimants communities in all the Districts that still have outstanding claims. We continue to urge the claimants to continue to use our call centre for further interaction.

Whilst this means that the officials in the Commission will need to work even harder than they already do, to deliver considerably more within the limitations of the budget allocated to us. I have full confidence that Team Restitution, will, as they have done in the past few years, deliver on the mandate of the Commission.

A handwritten signature in black ink, appearing to read "Ms Nomfundo Ntloko-Gobodo".

Ms Nomfundo Ntloko-Gobodo
Chief Land Claims Commissioner

7. STRATEGIC OVERVIEW

7.1 Vision

A Commission of excellence that ensures that effective, efficient and speedy redress is provided to victims of racially based land disposessions.

7.2 Mission

We exist to provide equitable redress to victims of racially motivated land dispossession, in line with the provisions of the Restitution of Land Rights Act, 1994 (Act No. 22 of 1994), as amended.

7.3 Values

We uphold the following values:

- We value and encourage diversity and will not discriminate against anyone. We uphold the rights of individuals as enshrined in the Constitution of the Republic of South Africa.
- We strive to be transparent, accountable and responsive in all the services we offer to claimants and other stakeholders, in order to ensure equitable redress.
- We strive towards maintaining high service standards through improved business processes and a focus on ethical and professional operational principles.
- We ensure that we have a dedicated, loyal, results-oriented, professional and people-focused workforce that is passionate and committed to serve the people of South Africa.
- In collaboration with all stakeholders, the CRLR will comply with all laws of this country and will not pass any legislation that is in conflict with the Constitution.

8. LEGISLATIVE AND OTHER MANDATES

8.1 Mandate

The CRLR is an autonomous institution established by the Restitution of Land Rights Act, 1994 (Act No. 22 of 1994) to solicit land claims, investigate them and attempt to resolve them through negotiation and mediation.

8.1.1 Constitutional mandate

8.1.1.1 Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996)

The mandate for restitution of land rights is derived from section 25 (7) of the Constitution of the Republic of South Africa, 1996 (“the Constitution”) which states that a “person or community dispossessed of property after 19 June 1913 as a result of past racially discriminatory laws or practices is entitled, to the extent provided by an Act of Parliament, either to restitution of that property or to equitable redress.”

8.2.1 Legislative mandate

8.2.1.1 Restitution of Land Rights Act, 1994 (Act No. 22 of 1994)

Emerging from section 25(7) of the Constitution, the Restitution of Land Rights Act, 1994 (Act No. 22 of 1994), as amended (“the Restitution Act”), was promulgated. The long title of the Restitution Act is “to provide for the restitution of rights in land to persons or communities dispossessed of such rights after 19 June 1913 as a result of past racially discriminatory laws or practices; to establish a CRLR and a Land Claims Court; and to provide for matters connected therewith.”

The Restitution Act also empowers the Minister of Rural Development and Land Reform and the Land Claims Court to make awards to restitution claimants where he or she is satisfied that there is a valid restitution claim, by awarding to the claimant land, a portion of land or any other right in land, the payment of financial compensation, or an award of both land and financial compensation.

On 30 June 2014, the President assented to the Restitution of Land Rights Amendment Act, 2014 (Act No. 15 of 2014), which came into operation on 1 July 2014. The Restitution of Land Rights Amendment Act, 2014 provided, among others, for the re-opening of lodgement of land claims, this has however been interdicted by the constitutional court LAMOSA judgement pending re introduction of of bill by Parliament which has since been stopped following the Land Access Movement of South Africa (LAMOSA) judgement.

The rationalisation of the CRLR was pronounced by the Minister on 7 June 2011 during the Minister’s Budget and Policy Speech where the Minister clarified to Parliament actions he took to create improved synergy with clear lines of accountability between the Department and the CRLR. The Minister made it clear that the Chief Land Claims Commissioner (CLCC) has the responsibility and authority over the CRLR, whilst the Director General (DG) of the Department of Rural Development and Land Reform is accountable for the finances of the Department, including all other Public Management Finance Act (PFMA) and related legislation.

The Minister, in his budget speech, captured the essence of an autonomous CRLR which receives its financial allocations through the Department, whilst maintaining its identity in executing its mandate.

The fourteen (14) CRLR offices in the provinces are each headed by a Chief Director. Since 1 April 2015, these offices have been supplemented by six (6) mobile lodgement offices, two (2) of which are designed for access to rugged rural areas.

Although the CLCC reports directly to the Minister of Rural Development and Land Reform, the DG remains the accounting officer in terms of the PFMA.

The CRLR is implementing an Autonomy Programme which is a process of comprehensive transformation of the Commission into an efficient, cost effective organisation that improves the experience of our constituents, of which becoming autonomous (“being a separate public entity”), is but one project.

PART B PERFORMANCE INFORMATION

9. OVERVIEW OF THE PERFORMANCE OF THE CRLR

The CRLR has prepared the overview of the performance of the CRLR in the annual report against predetermined objectives in accordance with the requirements of sections 40(3) (a) and 55 (2(a) of the PFMA, Chapter 18 section 18.3.1 (b) of Treasury Regulations and Chapter 6 of the National Treasury Framework for Managing Programme Performance Information, issued by the National Treasury.

The information reported is a product of established internal policies, procedures and controls related to the management of performance information designed to provide reasonable assurance about the integrity and reliability of the performance information.

9.1 Service Delivery Environment

The CRLR was in the second year of the implementation of 2014 reopening of the lodgement of land claims. The lodgement process opened on 1 June 2014 and initially the lodgement offices were experiencing large volumes of queries from prospective claimants which placed undue pressure on both claimants and CRLR officials. The burden was lightened significantly during the reporting period due to the roll-out of six (6) mobile lodgement offices, two (2) of which are designed for access to rugged rural areas. These mobile lodgement offices are specially equipped vehicles fitted with technology to process applications for land claims on site.

The roll-out was accompanied by a substantial communication campaign to:

- Create awareness about the opening of the land claim process amongst all South Africans;
- Mobilise prospective claimants to come forward to lodge their claims by the end of June 2019;
- Provide information about the criteria and process to be followed when lodging a land claim; and
- Update existing land claimants about the government's commitment to finalise their claims.

There were challenges due the inability of the CRLR to fill vacant post or make new appointments. This created additional pressure on existing staff who are already over burdened.

Despite challenges in the service delivery environment, the CRLR managed to exceed its targets by settling 804 new claims against the target of 615, finalising 672 claims against a target of 454 and approving 75 phased projects against a target of 76. The CRLR researched 1558 claims against an initial target of 1530.

9.2 Organisational Environment

As indicated in the previous Annual Report, the CLCC reports directly to the Minister and enters into a performance agreement with him. This is in order to strengthen the status of the Commission as an autonomous institution.

The Commission continues to link to the DRDLR in respect of the implementation of the Rural Economic Transformation Model (RETM).

The Commission participated in the Agriculture and Land Reform Phakisa and substantive recommendations came out of the process which impacts on the operations of the Commission. It was proposed that the Commission interact further with the outcomes and more developed detailed plans.

The CRLR completed detailed business process mapping of the restitution process but is entering into more detailed discussions through a Phakisa Process to ensure that the processes are streamlined even more and quality control effected at the right time in the process. In line with Ministerial instructions, the Commission focussed on fast-tracking the research of all pre-1998 claims. This included the outsourcing of complex claims to service providers.

10. STRATEGIC OUTCOME ORIENTED GOALS

In line with the outcomes of government, the CRLR had identified three (3) strategic goals which it sought to achieve in the period of this plan and beyond as set out below:

Table 1: Strategic oriented goals of the CRLR

Strategic Goal 1	Land rights restored in order to support land reform and agrarian transformation by 2020
Goal Statement	Restoration of land rights or equitable redress to those dispossessed of rights in land as a result of past racially discriminatory laws or practices, prioritising claims lodged prior to 31 December 1998
Strategic Goal 2	Lodgement of restitution land claims reopened for people who did not meet the 1998 deadline
Goal Statement	Solicit and receive claims for restitution of land rights, by 30 June 2019
Strategic Goal 3	Organisational change management
Goal Statement	Improved corporate governance and service excellence through <i>inter alia</i> the operationalisation of an autonomous CRLR, a strengthened legal framework, improved business information and improved communication

In respect of Strategic Goal 1, the objectives of the annual performance targets of the CRLR for 2016/2017 were to settle claims, finalise claims and account for the number of phased claims approved, as well as the number of research reports produced.

In respect of Strategic Goal 2, the CRLR facilitated the lodgement of new claims until the court handed down a ruling that prohibited the CRLR from processing new claims.

The organisational change management goal is directly linked to the Autonomy Programme which aims to clarify the organisational mandate and business processes, to improve information and project management, to improve governance and communication and finally to improve customer satisfaction and communication.

11. OVERALL PERFORMANCE AND DELIVERY IN TERMS OF THE APP 2016

The overall performance against the strategic objective to facilitate the restoration of land rights and alternative forms of equitable redress by 2020 as set out in the APP targets is contained in table 3 below.

Table 2: Performance against APP targets

Performance indicator	Actual performance against target		Reason for variance
	Annual target (2016/2017)	Actual (2016/2017)	
Number of land claims settled	615	804	<p>Due to the lag in performance in Quarter 1 and Quarter 2, the Commission implemented a Recovery Plan in Quarter 3 that yielded the following results:</p> <ul style="list-style-type: none"> - The Limpopo office settled the Hendriksplaats Individuals claims which contributed 87 claims in Quarter 3 - The Western Cape office settled the District Six (245) Owners which contributed 245 claims in Quarter 4
Number of land claims finalised	454	672	<p>The performance was due to the following:</p> <ul style="list-style-type: none"> - Alignment of the spending plan against the project registers - Continuous monitoring of the approvals vs expenditure <p>Additional to this, the Commission was able to finalise 357 claims in Quarter 4 against a target of 118</p>
Number of phased projects approved	76	75	<p>Due to the lag in performance in Quarter 2, the Commission implemented a Recovery Plan in Quarter 3 which resulted in the Commission being able to achieve 99% of the annual target</p>

Performance indicator	Actual performance against target		Reason for variance
	Annual target (2016/2017)	Actual (2016/2017)	
Number of claims lodged by 1998 to be researched	1530	1558	<p>The Commission implemented a Research Strategy in Quarter 3 to make up the deficits of Quarter 1 and Quarter 2 which resulted in the over performance in Quarter 3 and Quarter 4.</p> <p>In addition, a Restitution Research Summit was held from 25-26 January 2017 which also enhanced the overall performance of the Commission</p>

The CRLR's performance benefitted a number of beneficiaries of the restitution programme as indicated in table 4 below.

Performance per Quarter: 2016-2017

Table 3: Number of beneficiaries and hectares awarded

Quarter	Beneficiaries	Hectares awarded	Land cost	Financial compensation
Quarter 1	23,328	9,183.5374	44,654,931.20	473,686,158.00

EASTERN CAPE PROVINCE

12.1 SUMMARY OF PERFORMANCE: EASTERN CAPE (EC)

12.1.1 Summary of Performance: Eastern Cape Province

Overview

The performance against targets is summarised as follows:

Table 10: Performance against targets

Performance indicator	Annual target	Achievement
Number of land claims settled	94	89
Number of land claims finalised	55	63
Number of phased claims approved	7	8
Number of claims lodged by 1998 researched	125	189

The past financial year has presented a mixed bag of successes and challenges for this office and as we proceed further into the new financial year, we do so with more vigour and courage, as we prepare ourselves to ensure that we finalised all the outstanding claims.

It always brings such sense of joy and achievement when claimants make settlement choices that are likely to make a lasting difference in their lives. Moments like these are not only fulfilling, but also give meaning to the work that we continue to do every day.

The office of the Regional Land Claims Commissioner for the Eastern Cape (RLCC: EC) has performed well in achieving its APP Targets for the 2016/2017 financial year, despite all the challenges we had to contend with, including limited human resources. As at 31st March 2017, the Eastern Cape has settled a total of 16 895 land claims and is now left with a total of only 743 outstanding land claims. We projected to settle 94 claims during the 2016/2017 Financial Year, and we managed to settle 89 claims. We have exceeded our targets on the other performance indicators. We have for example, finalised 63 claims out of the target of 55, and we have settled 8 phased claims out of the target of 7. We have also performed very well on research having researched 189 outstanding claims out of the 125 targeted claims.

With regards to our financial expenditure, the office has performed very well, having spent R303.6 million (127%) of our household budget against the allocated budget of R239.6 million. This is evident in the extent and the number of beneficiaries we have paid in this financial year.

The year ahead promises to be a challenging one as we have increased our targets, but we are determined to make it to the finish line, and we will see this office pulling the strongest and the most effective of its performance strategies in order to ensure continued success in the research and settlement of outstanding claims.

12.1.2 Lodgement of new land claims

During the period under review, the Eastern Cape Office of the Regional Land Claims Commissioner accepted new land claims at two lodgement sites, namely East London and Queenstown as well as a mobile lodgement bus. Following the LAMOSA court judgement in July 2016, the offices stopped accepting new claims.

Table 11: New Claims lodged in the Eastern Cape since 1 July 2014 up and to the LAMOSA judgement in 2016:

District Municipality	Rural	Urban	Total
Alfred Nzo	704	18	722
Amathole	1486	1938	3424
Buffalo City	143	119	262
Chris Hani	1897	1279	3176
Joe Gqabi	958	104	1062
Nelson Mandela Bay	300	536	836
OR Tambo	2166	28	2194
Sarah Baartman	1412	436	1848
Total	9066	4458	13524

12.1.3 District based engagements sessions

The office of the RLCC: EC undertook District Based Engagement Sessions by engaging stakeholders on the LAMOSA judgement and the status of the Land Claims in the Eastern Cape.

16 Sessions were held throughout the province, one in each of the Local Municipalities. The targeted areas included municipalities in:

- Sarah Baartman district: 6 sessions
- OR Tambo district: 3 sessions
- Alfred Nzo district: 3 sessions
- Chris Hani district: 2 sessions
- Joe Gqabi district: 2 sessions

Various stakeholders, including the District Municipalities, local Mayors, Khoi and San leaders, community leaders, traditional leaders, land based NGO's and religious leaders were included in all the sessions.

Further to that, 60 briefing sessions were held with the claimants who lodged claims before 1998 cut-off date. The purpose of the sessions was to inform the claimants on the status of their claims and to manage to public enquiries and protests that were emerging in the province.

Mass media campaigns were further conducted to assist the process, by utilizing District Community Radios, the printed media as well as brochures and printed material.

12.1.4 Untraceable Claimants

The office, implementing the planned Communication Strategy for the period under review, traced claimants that were thought to be previously untraceable, thereby considerably reducing the figure of outstanding untraceables.

Various strategies to improve the tracing process were considered by the office for implementation, and this will include the appointing of tracing agents during 2017/2018 financial year.

12.1.5 Settlement Land Claims

Highlights of claims settled by the office in 2016/17

Appiesdraai community claim

The office settled Appiesdraai community claim, which is one of the biggest claims in the province, on 2 June 2016. The Appiesdraai community claim is situated in Fort Beaufort, in Amathole District and comprises of approximately 2770, 7498 hectares.

145 families who lived there were dispossessed between 1966 and 1968 when they were forcefully removed by the Municipality of Fort Beaufort. The settlement value for this claim was R 44 980 828.45. The whole financial compensation translates to R 310212.61 per household.

The claim stands to benefit approximately 1200 beneficiaries and 40 female headed households.

Khiba and Skisazana community claims

The Khiba and Skisazana communities were dispossessed in terms of the Betterment Policy" through Proclamation No. 116 of 1949. The claim was approved by the Minister on the 10th October 2016. An amount of R 86 649 607.00 was paid to 448 households comprising of 2899 beneficiaries. The beneficiaries used their financial compensation to improve the quality of their lives at a very significant scale.

UMfanta Community claim

The community of Umfanta was dispossessed as a result of the implementation of the Betterment Planning Policies, in terms of the Transkei Agricultural Development Act No.10 of 1966. The claim was approved by the Minister on the 14th December 2016 and an amount of R 79 881 840.00 was paid to 360 households comprising of 2362 beneficiaries. Each household was paid an amount of R 221 894.00 as financial compensation for the loss of residential, arable, grazing land and the improvements.

Phase 2 (full and final settlement) Qelana Community claim

Phase 2 of Qelana community claim was approved by the Chief Land Claims Commissioner on the 30th June 2016 for financial compensation for an amount of R 27 403 909.00. The settlement of this claim benefited 178 households and 2000 beneficiaries. Hand-over celebration was held for this claim and was officiated by the CLCC. This is one of the biggest claims as it involved the forestry land that is currently leased by Merensky. The forestry land was restored to the community as part of Phase 1.

Implementation of the Rural Economy Transformation Model (RETM)

The office has started with the implementation of the RETM for Mgungundlovu community which was settled for the restoration of land currently used by Sun International. The office is working through the Joint Co-ordinating Committee comprising of all the stakeholders, and we have enlisted the services of Vumelana Transactional Advisors to assist the community to negotiate a better deal.

The RETM was rolled out through the Share-Equity Enterprise Model for the forestry claims that were settled and land restored to the claimants. We are tapping on the practical implementation of the Enterprise development for our communities.

Challenges

One of the main challenges experienced during this period was the settlement of rural claims. These claims have over the years proven to be complex to settle, as the land is unregistered and unsurveyed, thus making the processes that accompany successful restitution difficult to complete on time. Further complicating settling of claims, is the fact that most rural claimants leave their homes in search for employment and better opportunities in urban areas, and this results in the accumulation of even more untraceable claimants as most of them never bother to update their details.

The statistical information with regards to the claims which were settled during 2016/2017 financial year is as follows:

Table 12: List of claims settled in the Eastern Cape in 2016/2017

Claim (project)	Location (municipality)	No of claims settled	Claim type		Hectares approved for restoration			Total award cost	Type of award

**FREE STATE
PROVINCE**

12.2 SUMMARY OF PERFORMANCE: FREE STATE (FS)

12.2.1 Summary of Performance: Free State Province

Overview

The performance against targets is summarised as follows:

Table 16: Performance against targets

Performance indicator	Annual target	Achievement
Number of land claims settled	0	3
Number of land claims finalised	40	84
Number of phased claims approved	0	2
Number of claims lodged by 1998 researched	0	4

12.2.2 Lodgement of new land claims

A total number of 1207 new land claims were lodged from the office, whilst 1047 were lodged at the mobile bus. This brings it to a total of 2252 new land claims lodged. The lodgement of new claims have since been stopped.

12.2.3 Distric based engagements sessions

The Office of the Regional Land Claims Commissioner in Free State conducted three (3) Engagement Stakeholders Sessions within all five Districts combined as follow: Thabo Mofutsanyane District held in Bethlehem on the 11th June 2016, Lejweleputswa and Fezile Dabi Districts held in Welkom on the 23rd July 2016, and Mangaung and Xhariep Districts held in Bloemfontein on the 10th September 2016. The main objective was to address claimants with progress and feedback regarding their projects (outstanding land claims lodged prior to 31 December 1998).

Lamosa judgement information sessions

After the release of the LAMOSA Judgement in July 2016, the Office of the Regional Land Claims Commissioner Free State planned and conducted LAMOSA Information Sessions within the province to engage Municipalities and held briefing sessions in different areas/communities on the implications of the Judgement and the outcome thereof. Media Briefing was also conducted with 8 media houses to mobilise communities within reach through Radio and Newspaper announcements on the 8th November 2016. The office conducted information sessions in the following towns since October 2016 to March 2017: Memel, Senekal, Kroonstad, Ficksburg, Koffiefontein, Frankfort, Sasolburg, Bothaville, Bethlehem, Fouriesburg, Clarens, Paul Roux, and Rosendal.

However, the office has planned on embarking in continuing with more Information Sessions in other areas not yet reached and this will commence from July 2017.

12.2.4 Untraceable Claimants

The office of the Regional Land Claims Commissioner Free State has financial compensation awards that have been approved but have not yet been paid as the claimants have become untraceable. As a result during the stakeholder engagement sessions with stakeholders from various district municipalities the office used the opportunity to communicate its plight on untraceable claimants. Claimants/beneficiaries from the commitment register as well as the Suspense Account who still have funds to be disbursed as per the approved submissions were requested to come forward. From the four District Municipalities and one Metropolitan Municipality in the FS province, 3 stakeholder engagement sessions were held. The first session was held in the Thabo Mofutsanyane District (Bethlehem), second session was in Lejweleputswa District (Welkom) combined with Fezile Dabi District and the last one was for Mangaung Metro (Bloemfontein) combined with Xhariep District.

The untraceable claimants' lists were also displayed at the mobile office and entrances of venues where stakeholder sessions were held. All managers that were interviewed on radio would further highlight the call to action to untraceable claimants or their descendants to contact the Commission for processing of their payments.

The office spearheaded an engagement with SASSA in order to establish a working relationship through an MOU which seeks to see the two organisations making use of their databases to trace untraceable land claimants.

12.2.5 Settlement Land Claims

Highlights on claims settled by the office during the year under review

Schuttesdraai family land claim

The Schuttesdraai family land claim was approved by the Minister on the 2nd of April 2016 for 108 current households comprising 400 beneficiaries. No money was spent, as the two properties measuring 872.7744 hectares were state land that was donated. The project was handed over to the Recapitalisation and Development unit for post settlement support. The main farming activity is livestock farming.

Venter family land claim

The claim was approved by the CLCC on the 30th of May 2016 and both beneficiaries were paid during the 2016/2017 financial year. An amount of R4 660 484.80 was paid to one household comprising two beneficiaries.

Rietlaagte Malakoane Claim

Brindisi 2 family land claim

The claim was approved by the CLCC on the 30th of March 2017 for 25 Households comprising 43 beneficiaries who will be paid an amount of R4 326 933.00 during Quarter 1 of the 2017/2018 financial year.

Challenges

The biggest challenge in settling land claims is that the majority of land owners have declined offers to purchase made by the Regional Land Claims Commissioner (RLCC). This is further compounded by the ever escalating prices of land which implies that fewer claims are settled at a huge cost.

Moreover, the land owners are disputing the validity of the claims despite the overwhelming evidence that is disclosed to them regarding the research that has been conducted. Such cases are therefore referred to the court at huge costs which could have been used to settle the outstanding claims. Lastly, there are delays in the appointment of valuer/s and determination of prices by the Office of the Valuer-General (OVG).

Highlights

We are excited to announce that the Free State office will be the first of the provincial offices to finalise its research reports for all land claims lodged before the 31 December 1998.

During the period under review 84 claims were finalised against an annual target of 40 claims.

Below is a table reflecting statistical information for the 3 land claims approved for settlement which includes the 2 phased settlement projects.

Table 17: List of claims settled in the Free State in 2016/2017

Claim (Project)	Location (Municipality)	No. of Claims settled	Claim Type		Total Approved for restoration			Total Award Cost	Type of Award
			Rural	Urban	Private	State	Total		
Venter	Maluti a Phofung	1	1	0	0	0	R 4 660 484.80	Land Restoration	
Schuttesdraai	Fezile Dabi	1	1	0	0	872.7744 ha	872.7744 ha	0	Land Restoration
Brindisi 2	Mantsopa	1	1	0	0	0	0	R 3 324 812.30	Financial Compensation

12.2.6 Phased Land Claims

Phase 1 Groenhof family land claim

The claim was approved by the CLCC on the 16th of September 2016 and all beneficiaries were paid during the 2016/2017 financial year. An amount of R3 766 312.32 was paid to six households comprising 80 beneficiaries of which three are disabled people.

Phase 2 and Phase 3 QwaQwa National Park community land claims were respectively approved on the 11th and 30th November 2016, respectively for 206 current households comprising 306 beneficiaries. An amount of R24 800 000 was spent to purchase four properties measuring 2024.6999 hectares which will be used for mixed farming. The farms are receiving good rainfalls.

Table 18: Phased claims 2016/17 for the Free State

Claim (Project)	Land Use (i.e forestry, mining, financial compensation)	No. of rights / land parcels	Claim Type		H/ Hs	BEN	Total Approved for restoration			Land Cost	Financial Compensation	Total Award Cost
			Rural	Urban			Private	State	Total			
Qwa Qwa National Park Phase 2 and Phase 3	National Game Reserve	36	1	0	206	367	2024.6999 HA			R24 800 000.00	0	R 24 800 000.00
Groenhof/Geluksvlei Phase 1	Agricultural	6	1	0	6	80	0	0	0	0	R 3 766 312.32	R 3 766 312.32

12.1.7 Finalised Land Claims

Efforts by dedicated commitment, settlement and finance units has resulted in efficient system that allowed for overachievement in the finalisation of 84 land claims against the set target of 40.

The office of the Regional Land Claims Commissioner Free State transferred during the 2016/2017 financial year 986.671 hectares of private land. This finalized the following claims Zoar, Letlhaka and Groenheuvel. In addition, the office transferred 3458.988 hectares of state land which are: Modderpoort, Modderina, Schuttesdraai and Palmietfontein.

Below is the table reflecting all the finalised land claims:

Table 19: 2016/17 Free State Summary: Finalised restitution claims for the Period: 01 April 2016 - 31 March 2017

12.3 SUMMARY OF PERFORMANCE: GAUTENG PROVINCE (GP)

12.3.1 Summary of Performance: Gauteng Province

Overview

The performance against targets is summarised as follows:

Table 21: Annual Performance Plan

Performance indicator	Annual target & achievement	Achievement
Number of land claims settled	24	24
Number of land claims finalised	31	78
Number of phased projects approved	0	2
Number of claims lodged by 1998 researched	63	76

For the year under review, The office of the Regional Land Claims Commissioner: Gauteng Province (RLCC: GP) managed to achieve its settlement target by settling the projected 24 land claims in the APP. There was no target set for settling phased projects but the office overachieved by settling two projects for nine phased land claims. Good performance is again reflected with the finalisation of land claims; the office has set a target of 31 and has overachieved through finalising 78 land claims. The research target was set at 63 and performance was set at 76 researched claims with a variance of four claims that will be researched in the 2017/2018 financial year.

As a means of further strengthening relations with municipalities and other organs of state, a closer working relationship was developed with the South African Local Government Association (SALGA) with regard to working on the lodgement of new claims before the LAMOSA judgement stopped operations. A key highlight of 2016/17 was an overall achievement of 100% of the performance indicator targets as set out in the APP.

12.3.2 Lodgement of new land claims

Before the LAMOSA constitutional court judgement stopped the lodgement of new claims, the office made use of the Maropeng mobile office to provide lodgement services in three municipalities which are City of Johannesburg, Ekurhuleni and Tshwane. The mobile office operated in the province in the first two quarters of the financial year during the months of May, June and July 2016. Ten (10) outreach sessions were conducted for marketing and communication purposes in targeted communities. Stakeholder relationships fostered between the office, SALGA and the Gauteng municipal districts ensured that community members based in (Boksburg, Daveyton, Dlamini, Evaton, Garankuwa, Phiri, Tembisa and Soshanguve) received Commission services.

12.3.3 Distric based engagements sessions

A significant impact was made when the office developed a communication strategy to invite all old order claimants to partake in District Based Stakeholder Sessions. The aim was to provide updates on the status of all outstanding claims submitted by 31 December 1998. This resulted in the attendance of more than 2500 land claimants and their descendants or representatives from Ekurhuleni, City of Johannesburg, Sedibeng, Tshwane and the West Rand. Presentations were made providing an overview on land restitution, the Commission's restitution processes and challenges encountered by the office in processing land claims. An outline of outstanding land claims in particular districts were discussed with claimants. Complex community and family claims had further closed sessions with restitution officials in a bid to clear matters that hindered the settlement of valid claims. All these sessions for the five municipal districts in Gauteng were held during quarter 2 of the financial year.

12.3.4 Untraceable Claimants

Untraceable claimants who were not part of the above sessions were urged to contact the office through a print advert in a national newspaper in order to process the 115 claims. The untraceable claimants list was also displayed at the mobile office outings in Ekurhuleni, City of Johannesburg and Tshwane before the LAMOSA judgement stopped operations. All managers that were interviewed on radio further highlighted the call to action to untraceable claimants or their descendants to contact the Commission for processing of their land claims.

The office spearheaded an engagement with the South Africa Social Security Agency (SASSA) and CRLR for a working relationship through an Memorandum Of Understanding (MOU) which seeks to see the two organisations making use of their databases to trace untraceable land claimants. The agreement required intensive legal consultation to ensure that upon agreement of the MOU, both parties are acting in accordance and adherence to the Protection of Personal Information Act of 2013 amongst other key legislations. Negotiations are at a high level stage and should be finalised in the next financial year. The agreement will be at an enforceable stage to assist in ensuring that service delivery reaches claimants who are traceable through the SASSA database.

12.3.5 Settlement

Below are summary highlights of the settled land claims:

City of Tshwane Land Claims

Portions 97; 98, 136 (re) and 137 (re) of the farm wonderboom 302 JR – Madiba family

Mr. Reggie Richard Madiba lodged a claim on the 23rd of December 1998 for vacant land which his grandparents occupied in the late 1800s. The land which his forefathers chose and named Ga-Madiba was chosen for the arable land quality and the close proximity to natural water sources. The claimant and his family were never subjected to living under a white land owner. The land was earmarked as a military base which is still in existence today. Dispossession of the land took place through the military spraying chemicals over the Ga-Madiba land which killed all their cattle within hours. Government was then brought in to bulldoze and destroy the residential property of the family; all this took place in 1957 without any prior consultation with the family. The Madiba household was awarded a settlement offer of R221 894 for the beneficial occupation rights lost on the land.

Portion 22 re (a portion of portion 5) of the farm Krokodilspruit 290 JR

RLCC: GP received two (2) rural land claims where one was submitted by the late Mr. Papa Michael Ndlovana on behalf of his siblings on the 1st of July 1995. The other land claim was lodged on behalf of the Ndlovana families by Ms. Louise Du Plessis on the 1st of May 1998. According to information on the dispossessions, the Ndlovana and the Raseroka families owned ½ shares of the property before the dispossession. It should however be noted that the settlement outlined is only for the Ndlovana families and the Raseroka land claim will be dealt with separately.

The claimed land was originally registered in the name of C.J Prinsloo who sold the property on the 02nd of June 1911 to Charlie Raseroka for £270 (R540, 00) and Charlie Raseroka took transfer of the property under deed of transfer T8287/1912. Mr. Raseroka sold ½ share of the farm to Christian Ndlovana as evident in the deed of sale between the parties dated the 10th of April 1912. Upon the passing of Christian Ndlovana, the estate was succeeded by male descendants according to male succession rules adhered to under the African Customary Law of succession. Under such rules the late Mr. Papa Michael Ndlovana was the sole heir of the property but the rule of male primogeniture is unconstitutional and as such constitutionally, Papa Ndlovana held the property on behalf of all the members of the Ndlovana direct descendants.

On the 22nd of October 1969, the said property was bought by the Republic of South Africa after it was declared a black spot in terms of the Natives Land Act of 1936 (Act No. 18 of 1936). This was done in the furtherance of the racial segregation policies of the then apartheid government. The state then took transfer of the property on the 11th of January 1972, under deed of transfer No. 10516. The State then sold portion 22 of Krokodilspruit 290 JR to Johannes Prinsloo for R50 000.00 in 1995. It was transferred to him in terms of deed of grant T3782/1976. The portion was mortgaged to Frederick Gerriet Van der Veen. The property is currently owned by Kameelfontein Boerdery CC who bought it in 2001.

The claimants had originally opted for land restoration but due to the drawn out court battle lodged by the current landowners which bore no resolutions on the matter, the Ndlovana family which consists of 10 households opted for financial compensation with a settlement amount of R1 244 153.87.

Portion 8 of The Farm Leeuwfontein 492 JR Port

Twelve land claims were received for the above land portion on behalf of the Ntuli, Nduli, Mabena and Ndala families. Dispossession for the Ntuli and Nduli families took place between 1951 and 1974, whilst the Mabena family was removed in 1964 followed by the Ndala family in 1978. The land evictions took place at different time periods owing to the fact that the families were employed as farm labourers on the property. The dispossession resulted in the families losing labour tenancy and beneficial occupation rights which included the right to cultivate land. A settlement offer of R3 106 516.00 was awarded to the families which consist of 83 households as compensation for the rights in land lost.

City of Johannesburg

Gauteng RLCC- office during a District based Engagement Session with Claimants

Portion 174 and 369 of the farm diepsloot 388 JR – Matjila family

The late Mr. Toni Martiens Matjila lodged a land claim for the Diepsloot farm on the 30th of December 1998. He claimed on behalf of the Matjila family in his capacity as the direct descendant of Mr. Joseph Matjila who was the original dispossessed person. The family then appointed Ms. Makgetsi Emily Mokhuse as the family representative. Mr. Joseph Matjila occupied the property which was vacant land before 1900 and used the land for residential, cultivation, livestock grazing and burial purposes.

That was until the unfortunate arrival of Mr. Martinus Scheepers and eventually his descendants who required the Matjila family to provide farm and domestic labour in exchange for living on the land. The living arrangement continued over decades until the son of Mr. Scheepers evicted the family without warning in 1959. The family relocated to Mamelodi at their own cost to live with one of the Matjila sons that had bought a house in the area. The livestock they owned was accommodated by a relative in a Hammanskraal holding. The family which consists of 10 beneficiaries were awarded an amount of R579 579 as redress for the injustice they suffered.

Ekurhuleni

Portion 100 of the farm Rietfontein 115 JR

The direct descendants of Jim Sifama lodged a land claim on the 31st of December 1998 for the Benoni property. Oral evidence provided by the claimants indicated that the late Mr. J. Sifama had a license which permitted him to purchase coal and sell it making use of the land in question as a coal yard. Mr. Sifama was later to respond to his calling as a sangoma and left the coal business to use his piece of land for subsistence farming. Dispossession took place due to the area being declared as a white area by the Group Areas Act and the family was relocated to Wattville. A settlement award of R527 078.60 was awarded to the family as compensation for the beneficial occupation rights they lost to due to their forceful removal in 1960.

Sedibeng

Portion 2 (remaining extent) of the farm Langzeekoegat 323 JR

The Motaung family arrived and settled on unoccupied land in the mid 1800's. They used the land for grazing, cultivation and burial of family members. A white land owner named Johan Meyers changed the above upon his arrival on the land when he forced the family to be farm labourers or alternatively leave the land. Forceful eviction by the owner took place in 1970. A graveyard of one of the family members born in 1840 still exists on the farm. The land claim for the property was lodged by the late Mr. Stanford Motaung who before passing on appointed his daughter Ms. Zanele Motaung to represent the family. There are 12 beneficiaries in the Motaung family that will benefit from the R 2 223 701.08 compensation amount awarded to the family for the land loss they suffered.

Table 22: Statistical information for the 24 land claims approved for settlement.

12.3.6 Phased Land Claim

The reassignment of some lodgement officials to the settlement unit as an aftermath of the LAMOSA judgement implications resulted in an increased human resource capacity that allowed the office to settle phased projects even though none were projected for settlement in the APP targets. Phased projects that were settled are phase 3 of the 4 phased Kafferskraal community land claim and phase 1 of the Klipkop land claim which is for part financial compensation and land restoration.

The farm Klipkop 396 JR phase 1

PORTION 66 – According to the claimant Mr. Elias Salabakhile Mahlangu, his father Andries Kaferlana Mahlangu, was the first person with his own family (from the entire Mahlangu family) to occupy the piece of land that is now on portion 66 (a portion of portion 10) of the farm Klipkop 396 JR. He arrived on the subject portion in 1936. The subject farm was part of portion 1 of Klipkop 211 as it was previously known. The family acquired labour tenancy rights on the land. Subsequent to the labour tenancy agreement, they began to enjoy other undisturbed land use rights including grazing, cultivation and burying of deceased family members, cutting grass for making thatch rooftops for their houses, fetching of firewood from the nearby forest and water use rights.

PORTIONS 38 AND 66 - The Malobola families occupied the claimed properties from the 1800s and they indicated in their oral history that their forefathers occupied the farm long before the whites came to the area. To prove the legitimacy of the occupation and forceful removal of Malobola families and other African families who occupied the farm Klipkop at the time, there was a letter written by the Attorneys of Mr. Zwick which stated that all African people (Bantus) at Klipkoppies were in illegal occupation of the farm. They were told to remove their animals (livestock) because whites believed that they had no permission and right to graze their livestock at Klipkop. They were given a mere fourteen (14) days to remove their livestock of which if they resisted, such would be impounded. It is clear from such correspondence that claimants occupied crop fields at Klipkop before they were told to vacate. Government agents of the time took part during the removals and various approaches were applied to remove African people (previously known as Natives or Bantus) from one place to another and the then inhabitants of Klipkop which was also known as Klipkoppies suffered severe racial pressure and harassment. To prove the legitimacy of the claim, there are graves which date as far back as early 1900 on the properties under claim which also serve as concrete evidence that the areas had occupants who were African descendants in those years. In phase one of the land claim, the Malobola families have opted for land restoration with hectorage of 142.2412 ha.

Farm Kafferskraal 475 JR phase 3

The Kafferskraal community occupied the claimed properties (portions 2, 11 (R/E), 15 (R/E), 34 (R/E), 35, 37, 44 (R/E), 45, 49, 59, 63, 65, 70, 78 and 86 of the farm kafferskraal 475 JR) from the early 1900s before white occupants came to the area. They did not have registered rights on the farm but they qualify in terms of beneficial occupation as they stayed on the properties for a continuous period of more than ten (10) years. When the white people came to Kafferskraal, they used a three months approach as a business deal in order to gain access to the property of the local African people. That is how the local community was completely dispossessed of their properties. Some resorted to labour tenancy hoping that they would get their land back. All the dispossessed households were using the farm in equal shares and had common grazing land and cultivation area to some extent. To prove the legitimacy of the claim, there are graves and ruins of houses made out of mud and rocks on the properties under claim which also serve as concrete evidence that the areas had occupants of African descendants in those years. Aboriginal or indigenous rights were recognised as valid in terms of the Restitution Act.

The research report indicated that the community was removed from early the 1960s to 1970s. It should also be noted that the majority of the claimants was removed in 1976 but some who were struggling to get permits at the Refilwe location which was specifically built for occupation by black people, left gradually until in 1978 when the last group left the farm. In settlement of phase 3 of the land claim, the Kafferskraal community will be awarded with a financial compensation award of R15 183 239.89 for the beneficial occupation rights they lost due to the forced removals they endured.

Table 23: Statistical information for the two projects approved for two phased settlement projects.

**KWAZULU-NATAL
PROVINCE**

12.4. SUMMARY OF PERFORMANCE: KWAZULU-NATAL (KZN)

Summary of Performance: KwaZulu-Natal Province

12.4.1. Overview

The performance against targets is summarised as follows:

Table 26: Annual Performance Plan

Performance indicator	Annual target	Achievement
Number of land claims settled	118	110
Number of land claims finalised	59	81
Number of phased projects approved	12	14
Number of claims lodged by 1998 researched	346	413

In the recent past the land question, particularly the speed or lack thereof, with which we have processed land claims has been part of the public discourse. The general feeling has been that the processing of land claims has been generally slow, and this imposes an obligation on us to do our business a little faster without compromising the quality of the work that we do. On the other hand, claimants who lodged their claims by the deadline of 31 December 1998, are also eager for the expeditious settlement of their land claims. All of the abovementioned factors have resulted in us being under enormous pressure to deliver on the expectation of reversing the legacy of the Natives Land Act, 1913, and thereby restoring the dignity of the victims of land dispossession.

As a consequence of the pressure that has been brought to bear, our targets for the past financial year (at least against three of our four indicators), were higher than the targets we have set in the past three financial years. The reality of the matter though is that it is, generally, quicker to settle individual claims compared to community claims. Due to the increase on the number of new claims that we had to settle in the past financial year, we prioritised, mostly, the settlement of individual claims as opposed to community claims. In the majority of cases, claimants whose claims were settled during the year under review opted for financial compensation. Consequently, of the 109 new land claims that we settled in the past financial year, most of them were settled through payment of financial compensation.

We also had our fair share of challenges during the year under review. One of the biggest challenges that confronted us was the moratorium on the filling of vacant posts. For the past two financial years, we have not had district managers in two regions resulting in there being no leadership certainty in the management of land claims in five district municipalities. What exacerbated our problem was that, due to the lack of funding, we were also unable to appoint officials in acting capacities. This matter has been raised internally, and we have been assured that it will be addressed in the new financial year.

Moyeni Land Claim

12.4.2 Lodgement of new land claims

One of our responsibilities is to receive new land claims in line with the re-opened lodgment process. In this financial year, we took the lodgment process to communities through the mobile lodgment unit that, to date, has been to all district municipalities, including Ethekewini Metropolitan, in order to enable potential claimants to lodge claims closer to where they live. The partnerships that we created with the KwaZulu-Natal Provincial Government, particularly the Department of Agriculture and Rural Development as well as municipalities helped us to intensify awareness campaigns related to the arrival of the mobile lodgment unit in different parts of the Province. It is as a result of our heightened levels of communication that has seen KwaZulu-Natal leading the pack in respect of the number of newly lodged claims.

Another issue that created serious consternation within our space was the decision of the Constitutional Court in the matter between Land Access Movement of South Africa and Others v the Chairperson of the National Council of Provinces and Others [2016] ZACC 22 (LAMOSA). This decision resulted in the discontinuation of the lodgment process. Explaining this decision to new claimants and potential claimants was extremely difficult for obvious reasons. We are still inundated with enquiries from the new claimants who want to know the dates by which we shall settle their land claims. We are doing everything in our power to explain that we are hamstrung by the LAMOSA Judgment to process the newly lodged claims.

12.4.3 Distric based engagements sessions

Another major issue was the decision of the constitutional court in the matter between *Land Access Movement of South Africa and Others v the Chairperson of the National Council of Provinces and Others* [2016] ZACC 22 (LAMOSA). This decision resulted in the discontinuation of the lodgement process. Explaining this decision to new claimants and potential claimants was extremely difficult for obvious reasons. We are still inundated with enquiries from the new claimants who want to know the dates by which we shall settle their land claims. We are doing everything in our power to explain that we are hamstrung by the LAMOSA judgment to process the newly lodged claims. This financial year was also characterised by a significant number of land claim celebration events aimed at highlighting the progress that our office is making in the Settlement of land claims. These celebration events bring symbolic closure to the hardships that the victims of land dispossession were subjected to, but also bring hope to claimants, whose claims have not yet been settled that the sun will soon shine on them. We may not be where we want to be, but we are definitely making progress.

12.4.4 Untraceable Claimants

In KwaZulu-Natal, as at the fourth quarter of the year under review, we had approximately 500 land claimants whom we cannot trace. Our list of untraceable claimants has since been submitted to CLCC's office with a view to using a central point for purposes of tracing these untraceable claimants. In the past we had used Home Affairs and the Independent Electoral Commission to assist us with the tracing of untraceable claimants, but did not continue with the arrangement as it sought to take away the focus of our operational staff from their core business of settling land claims.

12.4.5 Settlement Land Claims

Below is a table reflecting statistical information for the 110 land claims approved for settlement during the period under review:

Table 27: Annual Performance Plan

			413		

As can be gleaned from the table above, we exceeded our targets on three of our four indicators during the period under review. The total value of the abovementioned settlements and approvals amount to R670,793,593.78. A total of R247,405,622.99 was spent in settling claims through land restoration and R423,387,970.79 was spent in settling claims through financial compensation. Due to a higher target on new claims settled and budgetary constraints, for the most part, this financial year was characterized by priority being given to the settlement of individual claims. Whilst we regard the settlement of any land claim as important, we would like to highlight the settlement of the following land claims.

Nzimakwe Community Claim (Ugu District Municipality)

The Nzimakwe community was dispossessed of their land rights from the 1920s onwards. During the options workshop this community opted for land restoration. The Minister approved the acquisition of Phase 3 properties and awarded land totaling 777.0569 hectares to this community, which comprises macademia, sugar cane and banana. The total value of the settlement amounts to R132 697 008.00. The total number of households that will benefit from this settlement is 36.

Vernon Crookes (Mnyengelezi) Community (Ugu District Municipality)

The Vernon Crookes community was dispossessed of their land rights in the 1970s onwards. During the options workshop this community opted for financial compensation. The Minister awarded financial compensation to this community to the value of R65 680 624.00. The total number of households that will benefit from this settlement is 296.

Mkhondeni Community (Umgungundlovu District Municipality)

The Mkhondeni community was dispossessed of their land rights in the 1960s onwards. During the options workshop this community opted for financial compensation. The Chief Land Claims Commissioner awarded financial compensation to this community to the value of R7 100 608.00. The total number of households that will benefit from this settlement is 32.

Nyembe Community (Zululand District Municipality)

The Nyembe community was formally dispossessed of their land rights from the period 1953 to 1962. During the options workshop this community opted for land restoration. The Minister awarded land totaling 502.5116 hectares to this community, which is predominantly grazing land. The total value of the settlement amounts is R6 700 700.00. The total number of households that will benefit from this settlement is 246.

KwaThunzi Community (Harry Gwala District Municipality)

KwaThunzi community was formally dispossessed of their land rights from 1965 onwards. During the options workshop this community opted for financial compensation. The Chief Land Claims Commissioner awarded financial compensation to the value of R17 973 414 .00. The total number of households that will benefit from this settlement is 81.

Glebelands Community (Ethekewini Metropolitan Municipality)

The Glebelands community was formally dispossessed of their land rights at different intervals starting from 1963 until 1985. Many of the victims of land dispossession in the Glebelands area were allocated houses when Umlazi Township was developed. During the options workshop this community opted for financial compensation. The Minister awarded financial compensation to the value of R77 777 847.00. The total number of households that will benefit from this settlement is 701.

LIMPOPO
PROVINCE

12.5. SUMMARY OF PERFORMANCE: LIMPOPO (LP)

12.5.1 Summary of Performance: Limpopo Province

Overview

The performance against targets is summarised as follows:

Table 25: Performance against targets

Performance indicator	Annual target	Achievement
Number of land claims settled	54	122
Number of land claims finalised	54	127
Number of phased claims approved	16	15
Number of claims lodged by 1998 researched	273	171

The Office of the Regional Land Claims Commissioner: Limpopo still stands by its motto which is excellence and efficiency. In the financial year under review, the office was affected by high vacancy rates in all directorates. In spite, the office still managed to exceed its targets and contribute to accomplishing the objectives of the state as far as land claims are concerned.

The office had a household budget allocation of R575,732,000.00 for the 2016/2017 financial year. By the 31st of March 2017, the office had already spent 100% of the allocated budget.

The office managed to exceed its settlement targets by settling 122 land claims against a target of 54. We also achieved 127 finalised land claims by the end of the financial year, against a target of 54 and with regards to phased claims, we accomplished 15 approved phased claims against a target of 16.

The office is concerned about its performance in relation to researched land claims as we have only achieved 171 approved researched land claims out of the target of 273, whilst 128 are still outstanding. To ensure that we reach the research target in the 2017/2018 financial year, we formulated a two-tier strategy. It involves supervised outsourcing of the majority of the research, coupled with an area-based research approach that will enable our own officers to finalise their research more efficiently and effectively.

The Office of the RLCC: LP has spent R161,312,468.08 on financial compensation, a significant portion of which were allocated to new land claims which are dubbed claims. Over 2000 beneficiaries benefitted from these approvals and we believe that their lives were improved from the compensation they received from the Commission.

The Office of the RLCC: LP also spent about R174,397,490.32 on land purchase projects and many land claimants were made overnight land owners through the restitution process. The Recap and Development unit of the Department of Rural Development and Land Reform in Limpopo is assisting all these communities by engaging different stakeholders to help them manage and use their land effectively.

12.5.2 Lodgement of new land claims

On the 28th of July 2016, the constitutional court delivered what is known as the LAMOSA judgment that stopped the lodgment of new land claims, which were reopened by parliament on the 1st of July 2014. The office used the lodgment mobile bus and lodgment truck in providing lodgment services to claimants in Waterberg district. At the same time, the lodgment centre situated in the Commission building in Polokwane was also utilized to serve the whole province. During the period starting from the 1st of April 2016 to the 27th of July 2016, the office managed to register 3559 land claims.

12.5.3 Distric based engagements sessions

As part of enhancing communication with land claimants and other stakeholders, the Office of the Regional Land Claims Commissioner in Limpopo conducted District based Stakeholders Engagement sessions providing status reports on outstanding claims (old order claims) lodged before 31st December 1998. The District based Stakeholder Engagement initiative was also aimed at building and nurturing better relationships and communication between the Commission, individuals and Communities who still have outstanding land claims lodged before the cut-off date of 31st December 1998.

The target was all individuals and Communities who lodged their claims by 31 December 1998.

The Limpopo Stakeholders Engagement sessions were held as follows;

Table 31: The Limpopo Stakeholders Engagement sessions;

Date	Venue	Nearest town	District	Attendance
13 April	Bolivia Lodge	Polokwane	Capricorn	541
26 April	Venda Tusk Sun	Thohoyandou	Vhembe	478
1 June 2016	OAT Lodge	Jane Furse	Sekhukhune	255
20 August 2016	Wayeni Primary School	Elim	Vhembe	80
21 August 2016	Dzumeri Tribal office	Giyani	Mopani	77

12.5.4 Untraceable Claimants

The Office of the RLCC: LP has recorded about 7 untraceable claimants where efforts were made to get the said claims without success. The office through print media advertisements as well as electronic media made announcements to trace untraceable claimants. The District Based Engagements were also utilized to communicate the same message. The Department of Home Affairs was also engaged where land claim forms reflected the ID numbers of the claimants. To date the office has been unsuccessful.

12.5.5 Settlement of land claims

At the beginning of the 2016/2017 financial year, the office took a decision to prioritise small land claims (less expensive). This enables us to settle more claims with the limited budget and resources that are allocated for this purpose.

Vhembe

One of the biggest land claims finalised this financial year is the Kruger National Park (KNP) land claim which cuts between Limpopo and Mpumalanga provinces. The three land claims finalised in the KNP were Madonsi/ Nwazukuzeku, Muyexe and Ndindani which are in the Vhembe district of the province. The outcome was that

315 household beneficiaries each received a financial compensation of R34,948,305.00 which was paid in equal amounts of R110,947.00 per household.

A total amount of R118,027,932.96 has also been approved for the second part of the claim which is developmental projects. The office, together with SANPARKS, the Department of Environmental Affairs and community representatives are busy finalising the beneficiation package, for which a part of this amount will be used.

Sekhukhune

Sekhukhune district is clouded by many difficult land claims which cut across chieftainship issues as well as complicated proclamations, which makes it difficult to settle land claims in the same district. The office managed with all the challenges in the district to settle 99 individual land claims in the Sekhukhune district. These are the individuals who have been dispossessed of their rights in land from the farm Hendrikplaats 281 KT.

The investigations revealed that the claimants came from different neighbouring areas for different reasons at different occasions. They lived in the area until they were dispossessed of land rights by the Montrose mine, between 1976 and 1978.

Capricorn

Some of the land claims were approved in the Capricorn district and the office settled four individual land claims to the value of R782,470.00. The claims were from Suileman Gani Osman AB Saddique, Fatima Gani, Farouk Gani and Abdool Razaak Tayob.

The office also finalised the Makgoathane community land claim to the value of R9,763,336.00 to be shared amongst 44 household beneficiaries in equal amounts of R221,894.00 per household.

Waterberg

One of the biggest land claims finalised by the office in this financial year is the Selobetsana Community land claim in the Waterberg District. An amount of R72,790,000.00 was approved for purchasing an economic unit of eight properties of 6350.2767 hectares, that is used for game farming in the tourism industry. Two more land claims were finalised in the Waterberg District which are the Hassan Family land claim to the value of R1,051,841.48 and Shamane Magashula phase 2 to the value of R15,157,310.00

Mopani

Settled land claims in Mopane district are Phase 2 of Baphalaborwa Ba Makhushane Community, Mamaila Balobedu Community, Mogoboya Family and N'wamankena Community.

12.5.6 Phased Land Claims

Table 32: Phased claims 2016/17 for Free State

Claim (Project)	Land-use (i.e. forestry, mining. If financial compensation state this)	No of Rights /Land Parcels	Claim Type		H/Hs	Ben	Hectares approved for restoration			Land Cost	Financial Compensation	Total Award Cost

Beneficiaries Of Mulanbwane Land Claim At their Land

**MPUMALANGA
PROVINCE**

12.6. SUMMARY OF PERFORMANCE: MPUMALANGA PROVINCE (MP)

12.6.1 Summary of Performance: Mpumalanga Province

Overview

The performance against targets is summarised as follows:

Table 35: Performance against targets

Performance indicator	Annual target	Achievement
Number of land claims settled	74	74
Number of land claims finalised	13	30
Number of phased claims approved	17	11
Number of claims lodged by 1998 researched	395	296

During the 2016/17 financial year the Office of the RLCC Mpumalanga settled claims totalling 28 261.69 hectares of which 12 174.84 hectares are state land and 16 086.84 hectares acquired from privately land owners amounting to R 158 403 040.23. An amount of R 49 492 188.19 has been used to settle 39 claims for financial compensation. The claims settled comprised of 1 798 households with 2 804 beneficiaries. The total budget spend on household is R 323 209 383.19 for the 2016/ 17 financial year. The office has spent R 38 491 777.29 on the Recapitalization and Development grants and transferred R76 231 748.87 on the second phase of the development grant for the Kruger National Park claim.

Highlights in some of the settled claims

Forestry claims

The office of the Regional Land Claims Commission in Mpumalanga (RLCC: MP) has been able to negotiate the settlement of the Ngodwana claim situated at Ehlanzeni District, Mbombela Local Municipality. The land is managed by South African Pulp and Paper Industry (SAPPI). The valuation amount was accepted by SAPPI and the RLCC MP office is in the process of negotiating with the claimants on the settlement model. Should the claimants agree on the process the office will channel the project for approval.

Secondly, the RLCC MP office has been able to negotiate with the South African Forestry Companies Limited (SAFCOL) for the settlement of the Kaapschehoop claim. This is a Forestry claim under SAFCOL management. Valuation has been conducted and the office is preparing an offer to the claimants.

Conservation claims

The Office of the Regional Land Claims Commission in Mpumalanga (RLCC: MP) participated in the People and Parks Conference that took place in Gauteng, Midrand. The office had a target of 5 (five) claims to be settled on conservation areas as part of its contribution to the People and Parks programme. Out of the five claims the office has been able to transfer 3 (three) claims to the claimants and title deeds were handed over to the claimants by the Minister of Rural Development and Land Reform and the Minister of Environmental Affairs during the People and Parks Conference.

The 2 (two) remaining claims were approved by the Minister but the delay was on the part of signing of the Settlement Agreements by the MEC for Public Works in the Province. The office is engaging Mpumalanga Tourism and Parks Agency to fast track the signing of the Settlement Agreements and Co-Management Agreements on the two remaining claims.

State land claims

The Regional Land Claims Commission in Mpumalanga (RLCC: MP) has been able to transfer 3 (three) claims on State land to the claimants amounting to 5472.6353 hectares in extent. The communities that received their title deeds are Papkuilfontein community on the farm Papkuilfontein 469 JR (Remaining Extent of Portions 1, 2, 3, 4, 6, 7, 8 and 9) which is 2431.579 hectares, Dalumuzi CPA on the farm Papkuilfontein 469 JR (Remaining Extent of the farm Blesbokfontein 459 JR which is 606.6095 hectares and Tetema CPA on the farm Blesbokfontein 459 JR (Portions 1 and 2) which is 2 434.4288 hectares in extent.

Rural Economic Transformation Model

During the 2016/2017 financial year the office of the RLCC: MP has been able to settle three (3) claims out of the five (5) lodged within the Kruger National Park. The claim was settled in two phases, namely: phase one, being the settlement through financial compensation and phase two being the developmental grant which is the land value. The three communities are Mahashi, Ngirivane-Mathebula and Mhlanganisweni. All these communities are found on the poor communal land surrounding the Kruger National Park.

The office of the RLCC: MP, SANPARKS and the Department of Environmental Affairs are in the process of formulating a Rural Economic Transformation Model in the form of a beneficiation package for the communities to benefit them inside and outside the Kruger National Park utilising their developmental grant.

12.6.2 Lodgement of new land claims

The Constitutional Court handed down a unanimous judgement on the matter of the LAMOSA and other versus the National Council of Province. LAMOSA challenged the public participation process that was conducted prior the amendment of the Restitution of Land Rights Amendment Act (Act no 15 of 2014). The Amendment Act provided the re-opening of lodgement of land claims for a period of five years, starting from 1 July 2014 to 30 June 2019. The Constitutional Court found the National Council of Province failed to facilitate appropriate public consultation before the Act was passed. Therefore the Restitution of Land Rights Amendment Act is declared invalid. This means that the Amendment ceased to exist from midnight, on the 27 July 2016.

Potential claimants who have not lodged by 27 July 2016 may no longer do so and that the Commission cannot accept new land claims application. All manual claims must be returned to Regional office for safe keeping. The lodgement office must be kept open to inform potential claims about the court judgement. The mobile office must be grounded with immediate effect. Lodgement staff must be tasked with the capturing and uploading of the supporting documents that were submitted. The Commission must ensure to create correct files as per the approved file plan. Communicate with all new order claims and provide status of their claimed lodged, noting that new order claims will be process once the old order claims has been finalised, using the drafted letter format inform all claimants.

The statistical record of new order claim as per the date of the Constitutional Court Ruling is as follows;
Claims lodged were : 11015 / Distribution of claims per district
Ehlanzeni: 3103 / Gert Sibande : 4440 / Nkangala: 3472

Official issuing letters to claimants after the LAMOSA Judgement

12.6.3 Distric based engagements sessions

The Mpumalanga Regional Land Claims Commission made a significant impact whereby the then MEC, the Honourable Mr Gamede reached out to the three districts (Ehlanzeni, Nkangala and Gert Sibande) in an attempt to update them on the claims to be settled in 2016/2017. It must be noted that 200 claimants from Ehlanzeni district, 180 claimants from Nkangala and 160 claimants from Gert Sibande were reached out in this regard.

The Mpumalanga office also drafted a communication plan to reach out to all the three districts in the Province and distribute letters to inform claimants and other stakeholders about the implication of the Constitutional Court ruling. The aim of the outreach programme is the followings;

- Update the claims with supporting documents
- Entered all manual captured claims into the lodgement system
- Hold outreach consultation meeting informing claimants about the court judgement
- and Provide with status report, through letter on the status of their land claims

A total of 1515 letters were distributed in the three district of Mpumalanga Province. Areas that were visited include the followings: Shatale ;Bushbuckridge; Accornhoek ;Piet Retief ;Pankop; Marapyane; Siyabuswa ;Vaalbank ;Belfast ;Dullstroom;Waterval Boven;Machadodrop

District Engagements on progress regarding land Claims in Bushbuckridge (Thulamahashe stadium) by CD Sam Nkosi

12.6.4 Untraceable Claimants

In the beginning of the financial year the Mpumalanga office had quite a large number of untraceable claimants that amounted to 449. This had an impact in finalizing research. Attempts were made to trace them through Home Affairs, IEC and SASSA pay points and some were successfully traced. Tribal Authorities in and around the three Mpumalanga Districts (Nkangala, Ehlanzeni and Gert Sibande) were also contacted and some were also successfully traced. Eventually the office successfully traced 88 claimants and there is still a balance of 361 untraceable claimants that still need to be referred to the Service Provider or Tracing Agent for intervention.

12.6.5 Settlement of Land Claims

The office had a target of 74 claims to be settled in the financial year 2016/17 and it has achieved is target by settling 74 new claims benefitting 411 households.

12.6.6 Phased Land Claims

The office had a target of 17 phased claims to be approved in the financial year 2016/17 and was able to achieve 11; the underperformance was due to a number of the OVG recommendations rejected by land owners.

12.6.7 Finalised Land claims

The office had a target of 13 claims to be finalised and it has achieved 30 claims, this was due to the effort put by the office to concentrate on the backlogs that could not be finalised in the previous financial year.

12.6.8 Research Land Claims

The office had a target of 395 claims to be research in the financial year 2016/17 and it has achieved 296. The target for internal research was 205 and 190 claims were outsourced, the internal target was met because all the 296 was done internally. All the outsourced claims for research are yet to be finalised by the service providers.

**NORTHERN CAPE
PROVINCE**

12.7. SUMMARY OF PERFORMANCE: NORTHERN CAPE (NC)

12.7.1. Summary of Performance: Northern Cape Provincial

Overview

The performance against targets is summarised as follows:

Table 40: Performance against targets

Performance indicator	Annual target	Achievement
Number of land claims settled	15	14
Number of land claims finalised	14	25
Number of phased claims approved	6	4
Number of claims lodged by 1998 researched	0	38

The Office of the Regional Land Claims Commissioner in the Northern Cape engaged in all the necessary processes to ensure that the Annual Performance Plan 2016/2017 targets were met. The province did not meet its target in relation to the number of claims settled and the number of phased projects approved. However, the province overachieved under the number of claims finalised and the number of claims lodged by 1998 researched.

On Heritage day, 24th September 2016, the office participated in the Kalahari Desert Festival held in the Kgalagadi Transfrontier National Park in Mier Municipality, ZF Mgcawu District. The Khomani San or San Bushmen, lodged their land restitution claim in 1996 for land inside and outside the borders of the Kgalagadi Transfrontier National Park (previously known as the Kalahari Gemsbok National Park). The potential of all the land allocated to the Khomani San as part of the settlement of their land claim has extremely high potential and can generate abundant employment opportunities for the San. Approximately one thousand visitors pass through the Khomani San land en route to the Kgalagadi Transfrontier Park. The land owned by the Khomani San is ideally located to attract tourists and tap into the tourism market in the area.

In the last quarter of 2016/2017, the office launched an internal newsletter aimed at informing staff about activities of the commission in the Northern Cape Province, and educating them on policies that directly impact on their day to day activities as employees of the Commission in order to ensure compliance. In the three issues since inception, a number of topics ranging from water shortages in the Sol Plaatjie municipality, the LAMOSA judgment, OHS and ICT policies were covered. In each addition, one staff member was profiled, this in the spirit of staff getting to know each other not only as colleagues, but individual human beings as well. Several workshops and training sessions were attended by staff, notably the workshop hosted by the Office of the Valuer General. As with other years, our officials showed great dedication and commitment to ensure that the office stays on course and achieves its targets.

Staff attending workshop hosted by the OVG

12.7.2 Lodgement of new land claims

Since reopening of lodgement in July 2014, 5 721 new claims were lodged provincially across the five district – Frances Baard (1452); John Taolo Gaetsewe (488); Namakwa (516); Pixley Ka Seme (2042) and ZF Mgcawu (1223). An additional 158 new claims were lodged for other provinces.

With the lodgement of claims put on hold from the 28th July 2016, the staff was redeployed to other units to assist with achievement of performance targets. The redeployment came at an opportune time as the office had to contend with, in addition to annual performance targets, the Ministerial directive to finalise all research of claims by the end of the financial year (2016/2017), and the processing of all outstanding claims within twenty four (24) months.

Lodgement of Claims

12.7.3 Distric based engagements sessions

A number of engagement sessions were conducted with critical stakeholders and the general public to communicate the status of claims, provide general information to any enquiries that claimants might have, and educate the public on the land restitution process.

In addition, the Office intervened and provided support, where necessary, to claimants (pre- and post-settlement) in order to resolve any conflicts arising from settlement of claims. After 28 July 2016, community engagements were held to communicate the LAMOSA judgement and letters were sent to affected applicants to alert them of the impact of the judgement on their newly lodged claims.

12.7.4 Untraceable Claimants

There were 14 untraceable claimants during the period under review. Of these 11 were claimed individual urban properties in Barkly West. An official that was tasked with tracing the 11 claimants in the Barkly West area, embarked on a door to door exercise and managed to locate their descendants. Nine (9) out of eleven (11) claimants indicated that their claims were catered for in the settled Barkly West claim and that they were already paid their restitution awards (financial compensation). A consolidation memo was drafted for the RLCC's approval to consolidate the nine claims into the already settled claim. In addition, 2 more claimants were traced and it was discovered that the claimed properties fall within the Western Cape and Mpumalanga Provinces. These files were transferred to the respective provinces. The names of the remaining 3 claimants were handed over to the tracing agent to find.

12.7.5 Settlement of land claims

Of the fifteen (15) claims targeted for settlement in the period under review, the fourteen (14), highlighted below, could be achieved.

Grootfontein (Meyers Family) Claim

The one (1) claim was lodged by Mr Kealeboga Gordon Meyers on the 22nd October 1998 on behalf of the descendants of the Meyers family. The dispossession of the Meyers Family occurred over an extended period of time. Initially they were dispossessed of ownership rights, and thereafter sharecropping and labour tenancy interests. The dispossession of ownership rights took place in 1930, when the properties were expropriated by the state and transferred to the Union of South Africa. The dispossession took place because the farm was identified as a black spot. Mr Meyers and his brother were dispossessed because they were married to Black women and they had children with them while owning the farm. Since the farm was identified as a Black spot, the Meyers lost ownership rights. Nine (9) claimant households and fourteen (14) labour tenant households were verified, and 7824.8965 hectares were purchased at an amount of R46 908 484 in order to settle the claim.

Mooilaagte (Mokgosi Family) Claim

The one (1) claim was lodged by Ezekiel Mokgwamodimo Mokgosi on behalf of the Mokgosi family. The claim was lodged on the 13th March 1996. Petrus Skrus died intestate (without a will) in 1940. On 10 March 1943 the estate of Petrus Skrus was transferred to his eldest son Daniel Skrus as per Deed T86/1943 making him the legitimate heir of the estate. Around that time, in the 1940s, the only two farms in the area owned by Black people were Mooilaagte and Dipitseng. They were constantly harassed by government officials, especially from the Department of Native Affairs, to sell. They were allegedly assisted by a certain Mr Campbell, a white lawyer, during the transaction. On the 20th April 1943, they discovered that the farm was transferred to Daniel and Jan Roux. They were then informed to vacate the farm, and also informed that the farm was purchased for an amount of £1200. According to the claimants, Daniel died without knowing whether the money for the purchase of Mooilaagte was ever paid out to Mr Campbell. One household was verified. As they opted for land restoration, portion 3 of Farm No.97 and portion 0 of Farm Mooilaagte No. 103 were purchased at an amount of R8 100 000.00 and restored back to the family.

Boven Campbell (Balie Family) Claim

The three (3) claims were lodged by members of the Balie family – Jan Balie, Gertie Petersen and Lena Balie for farm Boven Campbell No.424. The farm was in the possession of the family as far back as 1865. After the death of Adam Balie in 1878, the farm was purchased by the Executor of the estate, a Mr Thomas Melvin Du Toit. The

farm was eventually transferred to the Union of South Africa, who then registered the farm in the name of the Local Board of Campbell. One of the grandchildren, Jan Balie remained resident on the farm. After his death in 1955, his five children were forcefully removed from the farm. The land was then occupied by a Mr Van Staden. In 1985, the family was forced to relocate from the commonage of Campbell to the Coloured group area, which was proclaimed in 1985. Eighty-two (82) households with 410 beneficiaries were verified, and they opted for financial compensation in lieu of portion 3, measuring 52 hectares in extent, for which they received R341 696. 36.

Phokwane Mixed Location Community Claim

The one (1) claim was lodged by Mr Segame Martin Letshabo on the 24th November 1998 on behalf of Phokwane Mixed Location claimants. The claimants were removed more than once by the previous government. The first removal occurred in 1918 from an area called Bavian to a farm called Geefdale where they stayed until 1926. Then they were moved again to a farm called Tadcaster, where they lived from 1926 until 1936, when they were relocated to Mixed Location. The name Mixed Location was derived from the fact that the composition of the residents was mixed, with both Black and Coloured people living there. They stayed in Mixed Location from 1936 until 1957, when they were moved again to a place called Voëltjiesdorp, where they lived until 1960. Then they were moved again to an area called Thagadiepelajang, where they resided until 1970 when the last forceful removal occurred. Two hundred (200) households with 2 600 beneficiaries were verified, and they received financial compensation which amounted to R44 378 800.00.

Holpan Community Claim

The one (1) claim was lodged by Mr. Eddie Charles Manuel on the 26th of April 1996 on behalf of the direct descendants of the originally dispossessed inhabitants of the Holpan community. The oral account by the claimants reveals that their grandparents were born in Holpan as far back as the 1800s. This supports the notion that their forebears inhabited the Holpan area prior to its initial registration by virtue of the Deeds of Grant by the Queen. The removals of the people of Holpan were a gradual process which dated back to the time when the initial registration of land in this area took place which was in 1877. The ODIs were removed on 24th December 1967, due to the deproclamation of the labour locations. Two hundred and seventy nine (279) households with an estimated 1 395 beneficiaries were verified for a settlement of amount of R36 723 457.00 in financial compensation.

Koegoekoep (Van Wyk Family) Claim

The one (1) claim was lodged by Mr Willem van Wyk on the 05th December 1998 on behalf of the Van Wyk family. The claimants indicated that the farm Koegoekoep was adjacent to Zwartmodder, a farm near the border of Namibia, which housed the Border Scouts at the time. They alleged that they were constantly harassed by the police, and eventually sold the farm. One household was verified with seventy-eight (78) beneficiaries. A historical valuation conducted indicated that they were undercompensated. They received an amount of R787 867.23 as financial compensation.

Koopmansfontein Community Claim

The one (1) claim was lodged by Mr. Barend Christoffel van Staden on behalf of the Koopmansfontein Community. According to the oral research, the Koopmansfontein Community resided on the farm Koopmansfontein since the nineteen hundreds. They accumulated beneficial occupational rights on the claimed land due to the fact that they have lived on the land for a continuous period of more than ten (10) years. The oral account reveals that dispossession occurred from the early 1960's until 1966. The evictions coincided with other forceful removals that occurred in Sydney on Vaal, Waldecks Plant, Gong Gong, Newlands Farm and Pniel. The government officials at the time, being aware of what was happening around these areas, visited Koopmansfontein and instructed non-whites to vacate the farm, stating that the area was zoned for white occupation. Hundred and one (101) households were verified, with five hundred and five (505) beneficiaries. The settlement was for the purchase of Portion 7 (Remaining Extent) and Portion 9 of the Farm Koopmansfontein No. 212 at an amount of R6 900 000.00.

Madibeng Community Claim

The one (1) claim was lodged by Mr Roundboy Gaboikaiwe Otletseng on the 14th December 1998 on behalf of the Madibeng Land Committee. The land was demarcated and surveyed by Mr Voster, who was the Extension Officer employed by the department of Agriculture. This project led to the communal land being sub-divided into farms, and subsequently portions. The community was relocated to the farm Severn, from the various areas they

used to live, in order to make way for the establishment and demarcation of the farms. The demarcated farms were allocated to whites, because they fell within areas prohibited for use and ownership by non-whites in terms of the Black Land Act No. 27 of 1913. Removals of Africans occurred because they were occupying land outside the scheduled areas. The Native Trust and Land Act No. 18 of 1936, stated that no native shall acquire land outside the scheduled areas. The number of households verified was fifty-six (56) with 265 beneficiaries. They opted for land restoration at a cost of R61 906 000.

Seeding Community Claim

The one (1) claim was lodged by Mr Agisanyang David Setlhodi on the 24th July 1998 on behalf of the Seeding Community. In 1885 the Cape Colony annexed Bechuanaland as part of the British crown. This was the first dispossession of rights that the Seeding tribe suffered. In 1913 the Kuruman Village Management Board was established, and they were allocated land equal to the entire native reserve. In 1916, the Kuruman municipality wrote a letter to the Minister of Land requesting to be granted commonage land inside the Crown reserve to secure land for the occupation of Europeans. As soon as the municipality was granted the land, they decided to remove all non-whites to areas outside the municipal boundaries and far away from European settlements. In 1918 the municipality requested more land to be allocated to them in order to expand the municipal area. In 1921, the Minister of Land allocated a further 3 000 morgen, which resulted in the second removal and gradual reduction of the extent of land occupied by the Seeding people. In the 1920s the Kuruman municipality established a local location for non-whites within the municipal boundaries, where both Coloured and Black people were staying together. Later in 1935 Black people were separated from the Coloured people and the location of GaSegonyana was established. In 1935 people were removed from Dikgweng to other parts of the reserve which were outside the boundaries of the municipality. In 1963 people living in GaSegonyana were removed to areas outside the boundaries of the municipality. Eighty (80) households with four hundred (400) beneficiaries were verified. Forty eight (48) households opted for financial compensation which amounted to R10 650 912.00, while 32 opted for land restoration at a cost of R32 750 000.

Officials from the Regional Office were pleasantly surprised by the reaction of the beneficiaries of the Seeding and the Mixed Location claim. When payment vouchers were issued, claimants indicated that they are going to do much needed renovations to their homes, save some of the money and purchase food items for their families. Many claimants were so happy that they cried tears of joy because they have never held so much money in their hands. They now have the opportunity to improve their lives and to bring some relief to the grinding poverty which has plagued them for many years since their forced removal.

Keimoes Dry Erven (Coetzee Family) Claim

The one (1) claim was lodged by Ms Marinda Caroline Catherine Coetzee on the 28th August 1997 on behalf of her mother, Catherine Olivier and the direct descendants of her great-grandfather, Mr Gustav de Juy. Mr Gustav de Juy died on 26 March 1898. Erf No. 167 was granted to Mr Gustav de Juy on 30 December 1898 as a Crown grant, despite his death, while Erf No. 168 was granted to his estate on 12 August 1907. The claimant's great-grandfather lost formal registered rights. Dispossession for Erf No. 167 took place in 1935, followed by Erf No. 168 in 1960. Three (3) households with 64 beneficiaries were verified. They opted for financial compensation which amounted to R664 444.88.

Zoutputs (Family) Claim

The one (1) claim was lodged by John Johannes Izaaks on the 14th February 1996 on behalf of the descendants of Helena Maria Brand. The claimant is entitled to half share of the remainder of farm Zoutputs No. 331. On the 27th March 1950, Helena Maria Brand, was forced to sell her share to Johannes Moolman for £1500. This is considered a forced sale due to the racial climate of the time. The Izaaks family might well have been afraid of the consequences (arrest and prison sentence) if they did not sell and move. The sale was coerced by private white citizens who were (permitted, aided and supported) by racially discriminatory practices of the state. The dispossession was as a result of racial discriminatory practices. Eight (8) households with eight (8) beneficiaries were verified and they opted for financial compensation, at an amount of R681 088.60.

Lutzburg and Warmzand (Snyders Family) Claim

The land claim was lodged by Mr Charles Francis Snyders on the 30th December 1998 on behalf of the direct descendants of Abram Snyders Senior. A Power of Attorney was given to Mr Charles Francis Snyders to pursue

the claim on behalf of the entire Snyders family. The land claim is for restitution of unregistered rights in land that various families held including the Snyders family on the Farm Warmzand No. 468 in the Kai Garb Local Municipality, Z.F Mgcawu District within the Northern Cape Province. The claimants were dispossessed of unregistered rights in a form of beneficial occupational rights. They stayed on Farm Warmzand No. 468 for a continuous period of more than ten years before the actual dispossession. Sixteen (1) households with 45 beneficiaries were verified. The claimants are opted for financial compensation for beneficial occupational rights lost, which amounts to R221, 894.00.

Table 41. Statistical information of the 14 land claims approved for settlement

Claim/Project	No. of claims settled	Claim type		Hectares awarded	Hectares that could have been awarded in financial compensation claims	Total award cost (R)	Type of awards

Lutzborg and Warmzand Claim	1	1			10.0000	221 894.00	Financial Compensation

12.7.6 Phased land claims

Of the six (6) claims targeted, only four (4) could be achieved. This target could not be achieved due to the fact that the majority of those that were targeted for approval, were at a final stage and could only be counted as finalised, as already alluded to above (finalised claims).

Kuiepan Phase 1

Four claims were lodged by Mr Gerrit Titus lodged on 27 October 1998, Dirk Olyn on 30 December 1998, Paul Johannes Van Wyk on 23 December 1998, and Mr Piet Eksteen on 27 September 1996. The two claims lodged by Mr Gerrit Titus and Paul Johannes Van Wyk were lodged on behalf of the Kuiepan community, while the other two Dirk Olyn and Mr Piet Eksteen lodged individual claims. The four claims were consolidated into one because the date and circumstances of dispossession were the same. In 1885 the Cape Colony annexed the Gordonia area as part of the British crown. In 1895, Europeans started trekking into the area and requested the use of grazing land from the locals. It was after 1913, that whites started physically removing natives from the farm Kuiepan, using the provisions of the natives and Act, Act no. 27 of 1913, which restricted natives all over the country to own land in scheduled areas. Mass dispossession of Natives, were effected from 1923, 1969. These evictions intensified in 1936, with the enactment of the natives Trust Act. The prevention of the Illegal Squatting Act of 1951 prevented blacks from residing in areas that were designated for white farming, and thus led to the Kuiepan community being evicted from their land as squatters. Seventy-five (75) households with 897 beneficiaries were verified for land restoration at a cost of **R55 580 000**.

Holpan Phase 2

The claim was lodged by Mr. Eddie Charles Manuel on behalf of the direct descendants of the originally dispossessed inhabitants of the Holpan community. The claim was lodged on the 26th of April 1996. The oral account by the claimants reveals that their grandparents were born in Holpan as far back as the 1800s. This supports the notion that their forebears inhabited the Holpan area prior to its initial registration by virtue of the Deeds of Grant by the Queen. The removals of the people of Holpan were a gradual process which dated back to the time when the initial registration of land in this area took place which was in 1877. The ODIs were removed on 24th December 1967, due to the de-proclamation of the labour locations. Hundred and fifty-three households were verified and a settlement amount of **R16 974 891** was paid out.

Hondeklipbay Phase 3

Two community land claims were lodged by Mr RG Wyngaard and Mr DJ Markus on behalf of the Hondeklipbay community. There two claims were consolidated and Mr Markus was given Power of Attorney to pursue both claims. After diamond were discovered in Hondeklipbay in the 1920s, the community was driven out of the narrow strip of diamond rich land situated at the West coast of the Northern Cape Province. The State alluvial diggings were established in the 1920s on the Hondeklipbay reserves. Mineral rights were granted to Cape Coast Exploration Limited, De Beers Consolidated Mines, and White people. Full ownership rights were granted to De Beers Consolidated Mines and White miners. After discovery of the diamonds in the 1920s the community's movements were restricted to local area, and the rest of the land was registered to white farmers. No livestock was allowed in Hondeklipbay because there was no grazing land due to the mining activities taking place. Eleven households with an estimated fifty-five beneficiaries were verified, and they received **R1 220 417** as financial compensation.

Phokwane Mixed Location Community Claim

One claim was lodged by Mr Segame Martin Letshabo on 24th November 1998 on behalf of Phokwane Mixed Location claimants. The claimants were removed more than once by the previous government. The first removal occurred in 1918 from an area called Bavian to a farm called Geefdale where they stayed until 1926. Then they were moved again to a farm called Tadcaster, where they lived from 1926 until 1936, when they were relocated to Mixed Location. The name Mixed Location was derived from the fact that the composition of the residents was mixed, with black and coloured living there. They stayed in Mixed Location from 1936 until 1957, when they were moved again to a place called Voeltjiesdorp, where they lived until 1960. Then they were moved again to an area called Thagadiepelajang, where they resided until 1970 when the last forceful removal occurred. Two hundred and thirty two (232) households with an estimated 2600 beneficiaries were verified, and they received financial compensation which amounted to **R25 739 704.00**.

Table 42. Statistical information for land claims approved for phased settlement projects

Name of Claim	Type of Claim	Hectares Restored	Hectares that would have been restored in Financial Compensation Claims	Total Cost (R)	Type of Award
Kuiepan Phase 1	Rural	17 329.3993	-	55 580 000.00	Land Restoration
Hondeklipbay Phase 3	Rural	-	4795.7618	1 220 417.00	Financial Compensation
Holpan Phase 2	Rural	-	2322.1788	16 974 891.00	Financial Compensation
Mixed Location Phase 3	Rural	-	163.5782	25 739 704.00	Financial Compensation

12.7.7 Finalised claims

A concerted effort by both the Finance and Legal units, in collaboration with Operations in the Province, ensured an overachievement of this target. Whereas the target was 14 claims, a total of **25** claims were finalised. In addition, the phased claims in the final stage added to the number of achievements on the target. Of the 25 finalised claims, the majority were dismissals, due to the fact that the claims did not meet the requirements and criteria set out in Section 2 (1a-e) and 11(1a-c) of the Restitution of Land Rights Act (Act No.22 of 1994) as amended.

Vreede Family claim.

The one (1) claim was lodged by Mr Francis William Clarke on behalf of the family. The farm was originally allocated to Mr Frans Maasdorp by the Gordonia Management Committee in 1882, ownership of which was confirmed by Crown grant of 22 November 1892. The claimants lost registered rights when they were forced to sell their farms to white landowners. The claimants opted for land restoration and properties measuring 21850.6994 hectares in extent were purchased at an amount of **R57 185 846.00**. The Minister of DRDLR, Mr Gugile Nkwinti (MP) and the Premier of the Northern Cape Province, Ms Sylvia Lucas, officiated at a celebration to hand over 39 394. 6594ha of land to the Kurrees (8 631.0936ha), Krantzkop (8 912.8664 ha) and **Vreede (21 850.6994ha)** families on the 23rd September 2016.

Solomons Family

Two (2) separate claims were lodged by Mr Benjamin Solomons on behalf of his father and Mr Barend Van Staden, now Van Wyk, on behalf of the Griqua nation. The Solomons family was dispossessed of unregistered rights in land. One (1) household with 4 beneficiaries was verified. They were awarded financial compensation of R221 894.00

Table 43. Statistical information for the 25 finalised land claims

Claim/Project	Approval Date	No. of Claim Forms	No. of Households	No. of Bene	Type of Claim	Expenditure (R)

**NORTH WEST
PROVINCE**

12.8. SUMMARY OF PERFORMANCE: NORTH WEST (NW)

12.8.1 Summary of Performance: North West Province

Overview

The performance against targets is summarised as follows:

Table 45: Performance against targets

Performance indicator	Annual target	Achievement
Number of land claims settled	9	12
Number of land claims finalised	13	25
Number of phased claims approved	18	12
Number of claims lodged by 1998 researched	0	13

The North West Province is naturally a rural province, therefore the majority relies on agricultural activities for a living. As a result land becomes a very critical economic pillar in shaping and changing the socio-economic conditions of the community. This is supported by the work of the Commission in restoration of more land as opposed to financial compensation.

2016/2017 is another year on which the Office of the Regional Land Claims Commissioner for North West (RLCC: NW) can reflect with pride and appreciate the efforts of the team in striving to reach its APP targets and spend its allocated budget.

12.8.2 Lodgement of new land claims

Old Delareyville Handover Celebration

The Premier of the North West Province, Honorable S.R.O Mahumapelo accompanied by Member of the Executive Committee responsible for Rural, Environmental and Agricultural Development, Honourable M. Tlhape as well as the hosting Major, Counsellor Malwane, issued financial compensation vouchers to the value of R26 183 492.00 on the 14th of March 2017, which was shared amongst 121 households.

This financial compensation vouchers is as a result of a successful land claim submitted by Makweteng land claimants which was lodged through the Restitution of Land Rights Act, 1994 (Act No. 22 of 1994) as amended. From the approved 121 households, 115 are home-owners and 06 tenants. Each household from the 115 households received an amount of R221 894.00 whilst the 6 tenants received R110 947.00 each.

12.8.3 Settlement Of Land Claims

HIGHLIGHTS OF 2016/2017 FINANCIAL YEAR

Barolong Boo Phoi

Barolong Boo Phoi lodged a land claim on 105 farms; which is the second biggest land claim in the North West province after Barolong Boo Mariba land claim. The appointment of an external independent researcher, to conduct research on this land claim has resulted in the office finalizing all outstanding challenges which were relating to the validity of the land claim.

Subsequent to the conclusion of this research some of the land owners approached the office with the intention to offer their farms for sale to the office. As a result of the engagements with the land owners the office managed to successfully acquire a very highly productive game and livestock farm called Noneng Ranch for the community with the extent of 4315.6008ha at an amount of R57 million. With the acquisition of this farm, the commission will provide necessary post settlement support to the community so that the land remains sustainable.

Bahurutshe Land Claims

On the 05th of December 2016 the Minister of Rural Development and Land Reform, the Honorable Mr. Gugile Nkwinti, accompanied by the Premier of North West, MEC for Rural Environmental and Agricultural Development as well as the Executive Mayor of Ngaka Modiri Molema District Municipality celebrated the handing over of Title Deeds to the five big Bahurutshe Community land claims.

Taking into consideration the complexity of settling these land claims, which included challenges around chieftaincy, the office is excited to report that it has nevertheless managed to restore the land as indicated in the table below:

Total hectares restored to all the 5 (five) Bahurutshe Communities: 49 831.128HA

Total land purchase amount: R465, 326,484.20

Total No of household: 1878

Table 46

Tribe	Hacters Claimed	Hacters Restored	No of H/H	Land purchased amount	Grants approved
Bahurutshe Boo Moiloa	23187.6620	18 615.144HA (incl additional)	576	R204 940 775.69	R20 400 943.47
Bahurutshe Boo Sebogodi	49721.3621	13 971.7641	120	R127 926 374.01	R12 527 056.30
Bahurutshe Boo Mokgatla	31154.0414	5977.9447 (incl additional)	690	R144 496 658.60	R00
Boo Moiloa Of Leeufontein	22167.0144	4599.2931	396	R59 466 675.00	R9 125 000.00
Tshwaane	16863.6723	6666.9821	96	R61 921 680.92	R15 544 340.23
TOTAL	143 093.752	54 280.8949	1878	R598 752 164.22	R57 597 340.00

Below are the pictorials of the land handover celebration:

Bahurutshe Land Hand Over Celebration; from left: Kgosi Moiloo, North West Premier Supra Obakeng Ramoeletsi Mahumapelo, Ikalafeng Sebogodi, Minister Gugile Nkwinti, Kgosi Sebogodi, Executive Mayor of Ngaka Modiri Molema District, Cllr Justice Makolomakwa as well as Mr Botlhole on stage during the handover of Tittle Deed.

Settlement Of Delareyville

The office managed to settle one of the complex financial compensation land claims. Due to the high number of elder households involved in this claim, it was critical for the office to process and finalize payment to these households as a matter of urgency. From the financial approval of R26million the office managed to process payments to the value of R24million a period of three months. The remaining amount of R2million will be paid to the remaining households within the first quarter of 2017/2018 financial year.

Beneficiaries showcasing their financial voucher during a Handover Celebration at Old Delareyville

Baphiring CPA

The office managed to settle one of the most difficult, long outstanding court cases, i.e. Baphiring land claim. Due to the differences and the community on the type of legal entity to be established, the office transferred the settled properties to the State.

The office eventually resolved these challenges in that the parties involved managed to reach an amicable solution on the type of legal entity to be registered, which was Baphiring Communal Property Association (CPA). This is one triumphant achievement as it resulted in the transfer of the properties from the State to Baphiring CPA.

Barolong Boo Rapulana CPA

This is yet another milestone achieved in the establishment and registration of Barolong Boo Rapulana Communal Property Association (CPA). Barolong Boo Rapulana is comprised of two chiefs, being Kgosi Seatlholo of Lotlhakane village and Kgosi Matlaba of Bodibe village who had differences in the type of legal entity to hold their land. Through intensive workshops by the office the constitution was eventually adopted and verification of beneficiaries was finalized, leading to the registration of Barolong Ba Rapulana CPA. The properties, which were initially transferred to the State as a result of these challenges, are now in the process of being transferred to the rightful owners.

Improved Working Relations With North West Provincial Shared Service Centre

Recapitalization and Development – RECAP is a mandate which falls under the Provincial Shared Service Centre (PSSC: NW), and through strengthened relations with PSSC: NW, the office managed to get three (3) projects approved for RECAP and Development.

Remarkable strides have been made with regards to the capacitation of Communal Property Associations. This was achieved through the collaboration between the Restitution office and the Shared Services Centre. Joint Communal Property Institutions (CPI) workshops were held with the intention to assist the CPI's to be compliant with the provisions of Section 9 of the Communal Property Associations Act and for communities to better understand the Rural Economy Transformation Model (RETM).

The Provincial Shared Services Centre organized a two-day Strategic Planning session from 18 – 19 November 2016 which was attended by all the branches in the Provincial department, represented by officials on Junior-, Middle- and Senior Management levels. The activity was beneficial to all branches as it allowed the branches to develop an integrated Operational plans.

**WESTERN CAPE
PROVINCE**

12.9. SUMMARY OF PERFORMANCE: WESTERN CAPE (WC)

12.9.1 Summary of Performance: Western Cape Province

Overview

The performance against targets is summarised as follows:

Table 47: Performance against targets

Performance indicator	Annual target	Achievement
Number of land claims settled	227	356
Number of land claims finalised	169	159
Number of phased claims approved	0	7
Number of claims lodged by 1998 researched	328	358

The Office of the Regional Land Claims Commissioner: Western Cape (RLCC: WC) managed to settle 356 claims and 358 claims were researched with limited resources.

Although Phased projects were not part of the APP targets, the RLCC: WC managed to facilitate the approval of seven projects.

12.9.2 Lodgement of new land claims

The LAMOSAs judgement placed a stop to the lodgment of new claims on 27 July 2017. By this time, 17 881 claims were lodged for the Western Cape Province, with the bulk of the claims being lodged for predominantly the major Central Business District (CBD's) in the City of Cape Town and George in the Eden District. Access was however provided to all rural towns by means of the Mobile Lodgment Unit.

12.9.3 Distric based engagements sessions

The RLCC: WC embarked on an information dissemination campaign after the LAMOSAs Judgment targeting old order claims, new order claims and potential claimants and information meetings were held in Gugulethu, Thembalethu and Conville.

12.9.4 Untraceable Claimants

For the 264 listed untraceable claimants for the Western Cape, a team was established to fast-track the tracing of untraceable claimants. The project commenced in September 2016 and for the period under review 98 of the 264 untraceable claimants was located.

The process of identifying untraceable claimants included calls to the last known telephone/cell phone number, visits to the last known home address, community information sessions and posting letters to the last known postal/street address.

A total of 17 claimants were residing outside the Western Cape Province and are either in other provinces and other countries, and other Provincial Land Claims Commission Offices are assisting in tracing the claimants.

The Office of the Regional Land Claims Commissioner: Western Cape is in the process of engaging with other Government stakeholders to assist with providing contact information for the remaining 166 claimants.

12.9.5 Settlement of land claims

District Six

The Department of Rural Development and Land Reform is currently busy with the implementation of Phase 3 of the District Six Redevelopment that consists of 108 units. It is envisaged that Phase 3 will be completed by August 2017. At the same time a service provider was appointed to develop a holistic master plan in accordance to the

community's needs to ensure that the remaining sites of District Six are developed simultaneously. It is envisaged that the final draft will be submitted by the end of March 2017.

Richmond Park

The Richmond Park development is in the implementation phase with the upgrade of access and feeder roads and the installation of bulk electrical and civil services. The Business Park will cater for retail, light industrial, warehousing and office space. The design for the shopping centre was also completed.

Protea Village

The Protea Village Communal Property Association decided to partner with Bethel Property as their preferred Development Managers. The Business Plan focussing on the residential and commercial development of Erven 242 and 212 in Bishopscourt adjacent to Kirstenbosch Botanical Gardens with a total extent of 12.35ha. The Business plan will make provision for housing for the 86 claimant families and create meaningful and sustainable income for the Protea Village claimant households in the short, medium and long-term.

Ebenhaeser

Seven (7) Restituted Farms has been transferred out of the Nine (9) farms that were approved during 2015/2016 financial year. The extent of the 7 Farms is 371.1557 hectares.

Ebenhaeser CPA applied for recap for the 7 restituted farms. The service provider was appointed to develop Business Plans for the 7 farms. Upon the receipt of the Business Plans, Recapitalisation application was lodged and the project was presented to the National Tender Committee (NTC) on 8 July 2016. The NTC advised that the 7 farms application must be consolidated into one project due to the fact that the grant will be transferred to the same legal entity. The NTC raised technical issues to be addressed. The issues include inter alia Water rights, management fee, and number of labourers, central mechanisation, and existing agreements, Identification of the roles and responsibilities of other interested parties, CPA skills and capabilities.

On 21 July 2016 the department officials met with the CPA leadership, excluding the appointed service provider, to discuss the inputs made by the NTC. A meeting was scheduled with the service provider to consolidate the business plans.

Klippiess Eiland Community Claim

The Klippiess Eiland community claim covers former residents of Klippiess Eiland, Suikerbult, North End and West Bank in Oudtshoorn, Eden District Municipality. Claimant households were forcefully removed from these areas due to the implementation of the Group Areas Act.

Phase four of the Klippiess Eiland Community Claim was settled for an amount of R 34 060 729.00 consisting of 307 households and approximately 1418 beneficiaries. It is the intention to complete the last phase of Klippiess Eiland during the 2017/18 financial year.

13. FINANCIAL PERFORMANCE INFORMATION

13.1. Introduction

Section 21 of the Restitution Act stipulates that the CRLR must “annually not later than the first day of June submit to Parliament a report on all its activities during the previous year, up to 31 March.” This annual report is in fulfilment of that requirement but also largely in line with the requirements of Section 40 (1) and (3) of the PFMA. The Public Service Regulations, 2001 prescribes that human resource information is included in the annual report and the Minister of Public Service and Administration has prescribed this requirement for all government departments within public service.

As the CRLR is not a fully-fledged government department, nor a completely independent entity of government, this annual report therefore seeks to only extract and report on the most crucial performance and reporting requirements in terms of the statutory requirements above.

13.2. Financial Performance Overview

The performance of the CRLR in respect of financial management and expenditure during the period under review was excellent. The CRLR managed to spend 100% of the budget allocated which includes 100% expenditure on the household budget. Below is table 53 that depicts Expenditure breakdown between Backlog and New Claims: Financial Year 2016/2017, whilst graph 1 depicts Household Expenditure Per Province.

Table 53: Expenditure breakdown between Backlog and New Claims: Financial Year 2016/2017

Expenditure breakdown between Backlog and New Claims: Financial Year 2016/2017			
Province	Expenditure - Claims approved prior 2016	Expenditure - Claims approved in 2016/17	Total Expenditure
Eastern Cape	186 799 415.59	109 721 233.93	296 520 649.52
Free State	2 277 542.23	30 165 214.48	32 442 756.71
Gauteng	5 980 372.56	31 131 701.28	37 112 073.84

Western Cape			4 236 814.10		99 332 914.05	19 399 604.71	122 969 332.86	
Total	190 946.31	1 728 282.01	1 034 873 776.67	48 690.00	1 422 303 345.87	322 840 577.71	2 781 985 618.57	

Whilst the CRLR can report that a significantly higher amount of funds flowed towards the purchase of land vis a vis financial compensation, some work in respect of the expenditure on grants that has been committed to restitution projects still needs to increase significantly. The CRLR sets aside 25% of the household budget per annum for recapitalisation and development but only 12% of that budget was spent for that specific purpose.

PART D

GOVERNANCE

14. GOVERNANCE INTRODUCTION

The CRLR remains committed to maintain the highest standards of governance which is fundamental to the management of the public finances and resources allocated to us.

As a programme of the DRDLR, the CRLR participates in all governance fora as well as submit statutory and governance plans and reports to the DRDLR.

The governance section in this annual report broadly complies with the National Treasury Guidelines but as the CRLR is not a completely separate and stand-alone entity in terms of the PFMA, full and comprehensive compliance to all governance reporting is contained in the annual report of the DRDLR.

14.1. Risk Management

The CRLR complies and adheres to the risk management policy and strategy of the DRDLR and partakes in the Risk and Compliance Management Committee.

A full risk assessment has been done with the support of the Chief Risk Officer of the DRDLR and a summary of the risk assessment and mitigation plan is outlined in table 55 below.

Table 55: Risk assessment and response

Risk type	Risk	Risk response/mitigation plan
Financial Risks		
Budgetary risks	Limited budget	Draft business plan for Treasury and indicate funds required in Adjustment & Medium Term Expenditure Framework (MTEF) cycle
Expenditure risks	Under-spending	Improved planning through EPMO and expenditure projections alignment
Operational Risks		
IT systems	Lack of consolidated information management system No single and effective Performance Management Systems (PMS) or Management of information System (MIS) system in place	Develop a web-based single PMS & MIS. Apply change management principles during implementation

Risk type	Risk	Risk response/mitigation plan
Legal and regulatory risks	<p>No clear finite mandate of the CRLR (e.g. scope creep into post settlement issues)</p> <p>Litigation risks</p>	<p>Clarify mandate in context of future autonomy and develop plan to ensure integration with DRDLR processes.</p> <p>Improvement of tracking and management of matters in court.</p> <p>Improvement of research.</p> <p>Standardisation of processes and workflow.</p> <p>Decision-making centralised and/or standardised work processes.</p> <p>Finalising of land base – Umhlaba Wethu migration.</p> <p>IT systems to support information and project management to be implemented.</p> <p>Improved process mapping and shortening of procedures.</p> <p>Compliance checklist and quality control by Quality Assurance.</p> <p>Increased Quality Assurance capacity</p>
Human Resource risks	Ineffectual human resources	Development of institutional form and organogram (structure) in line with business processes
Process risks	<p>Overlap of land claims</p> <p>No single defined business process with timeframes</p>	Developed detailed business process that is elaborated into SOPs for ultimate inclusion into toolkit.
Political and Reputational Risks		
Reputational risks	Reputational risk linked to delays in settlement of claims	<p>Statutory Commission meetings to be held with formal and widespread communication aim, including media as well as quarterly statistics release.</p> <p>Process mapping to be done for shortened and simpler procedures.</p> <p>Communication strategy to be developed</p>
Communication risks	Communication to solicit land claims up to 30 June 2019	<p>Communication improved</p> <p>Human and financial communication resources to be increased as per plan</p>

14.2. Portfolio Committees

The CRLR attended the following Parliamentary Committee meetings:

- 06 April 2016 - 2016 Strategic Plans for the CRLR.
- 17 May 2016 – Briefing on the Annual Report by CRLR.
- 31 August 2016 – Briefing on Restitution of Land Rights Amendment Act: Constitutional Court judgement.
- 06 September 2016 - Extension of Security of Tenure Amendment Bill and Briefing on the Constitutional Court Judgement on the Restitution Amendment Act.
- 07 September 2016 - Communal Property Associations performance; Constitutional Court judgment: implications for Commission on Restitution of Land Rights.
- 12 September 2016 - Commission on Restitution of Land Rights on their 2015/16 Annual Reports with Auditor General's inputs.
- 14 February 2017 - Briefing on the status on the Restitution Amendment Bill (to be tabled as a private member's bill).
- 22 February 2017 - Briefing on progress made on Alexkor SOC Limited and South African Forestry Companies Limited land claims.
- 28/03/2017 - Quarter 3 performance of the CRLR

14.3. Internal Audit and Audit Committees

The Internal Audit Unit of the DRDLR performed a follow-up audit on records management within the CRLR. It was an operational, legal compliance and IT audit.

It was also a cyclical review of the performance of the CRLR.

PART E

HUMAN RESOURCE MANAGEMENT

15. HUMAN RESOURCE INTRODUCTION

The full set of Human Resource Management information required by the Minister for the public service and administration of all departments in the public service, is contained in the annual report of the DRDLR. The most crucial matters in relation to the management of Human Resources in the CRLR have been extracted and are reflected in this part of the annual report.

15.1. Human Resources Oversight Statistics

The DRDLR manages PERSAL and key information on the human resources of the CRLR. They provide human resource functions to the CRLR apart from some basic oversight and coordination that takes place from the Office of the CLCC.

Extracts of the most important human resource statistics are hereby provided.

15.1.1. Expenditure on personnel

Table 56 below shows the expenditure on compensation of employees (COE) during the reporting period. The budgetary allocation was not wholly in line with the actual incumbents in all the offices at the stage when the allocations were granted to offices. As such, offices may show a slight over- or under expenditure which was offset at the end of the financial year.

Table 56: Expenditure on compensation of employees

Office	Budget	COE Expenditure	Balance	% Expenditure
Head Office	44 063 000	39 545 549	4 517 451	90%
Eastern Cape	30 772 000	32 140 069	-1 368 069	104%
Free State	13 336 000	14 588 911	-1 252 911	109%
Gauteng	27 400 000	28 236 963	-836 936	103%
KwaZulu-Natal	56 143 000	53 318 133	2 824 867	95%
Limpopo	44 431 000	41 099 852	3 331 148	93%
Mpumalanga	50 394 000	49 116 675	1 277 325	97%
Northern Cape	14 629 000	15 181 609	-552 609	104%
Western Cape	26 814 000	25 625 445	1 188 555	96%
North West	28 655 000	26 657 173	1 997 827	93%
Total	336 637 000	325 510 352	11 126 648	97%

The slight under expenditure in the COE was due to vacancies, as well as posts vacated in the period under review and subsequently filled.

Table 57: Expenditure on Compensation of employees by salary band

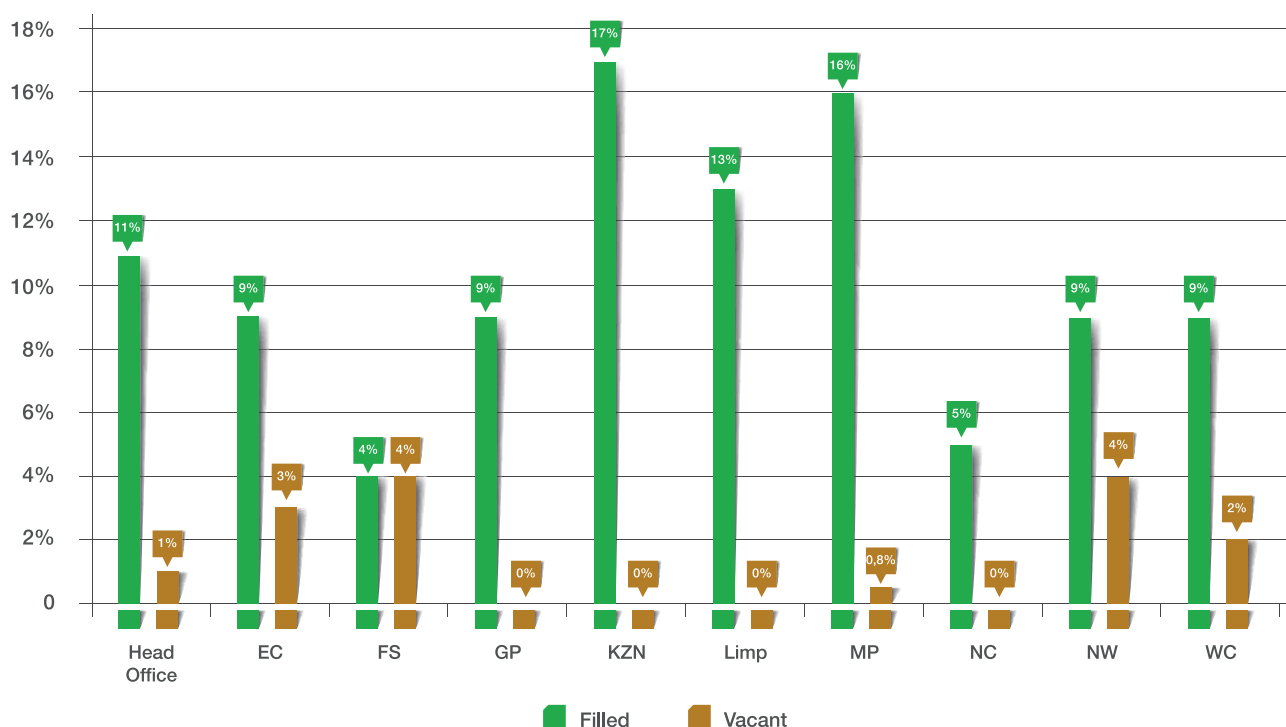

Salary band	Personnel expenditure	% of total personnel cost	No. of employees	Average personnel cost per employee
Lower skilled (Levels 1-2)	0	0%	0	0
Skilled (Levels 3-5)	26 832 048	8%	115	233 322
Highly skilled production (Levels 6-8)	115 353 253	39%	360	358 260
Highly skilled supervision (Levels 9-12)	139 411 056	42%	230	606 135
Senior and top management (Levels 13-16)	35 384 277	11%	35	1 010 979
Total	316 980 634	100%	740	2 208 696

15.5.2 Employment and vacancies

Table 58: Employment and vacancies

Office	Number of funded posts	Number of posts filled	Number of posts vacant	Number of employees additional employed	Head count
Head Office	1	80	1	0	80
Eastern Cape	2	67	2	0	67
Free State	1	28	1	4	32
Gauteng	0	64	0	0	64
KwaZulu-Natal	0	114	0	1	115
Limpopo	0	92	0	0	92
Mpumalanga	1	114	1	0	114
Northern Cape	0	35	0	0	35
North West	3	69	3	0	69
Western Cape	1	66	1	1	67
TOTAL	9	729	9	6	735

Graph 2: Branch organisational pyramid analysis

RLCC KZN had the most number of employees in CRLR with a total of 17%, followed by RLCC MP with 16%. RLCC FS had the lowest number of employees, sitting at 4%.

In terms of vacancies, CRLR had a vacancy rate of 15%. The highest vacancy rate was RLCC: FS and NW with 4% respectively. RLCC GP, KZN, Limp and NC had 0% vacancy rate.

By end of March 2016, the average CRLR vacancy rate was under the maximum prescribed 10%.

15.5.3 Filling of SMS Posts

During the year under review, six funded SMS posts were vacant or became vacant. These were the Directors Quality Assurance in the Limpopo and the Northern Cape provinces, Directors Operations in the North West and the Free State as well as the Director Legal in the Mpumalanga office. In addition, the post of Chief Director: Land Restitution Support in the Western Cape also remained vacant upon the resignation of the incumbent in January 2016.

The Directors Quality Assurance in the Limpopo was filled by means of the appointment of an internal male candidate, while the Northern Cape one was filled through promotion of an internal male candidate. The Director Operations post in the North West office was also successfully filled through a horizontal transfer of a male candidate.

Shortages in the Compensation of Employee budget has slightly affected the recruitment progress in the CRLR, hence the other three posts could not be filled expeditiously. However, efforts are being made to ensure that all posts are filled in the shortest period possible.

15.5.4 Employment Equity

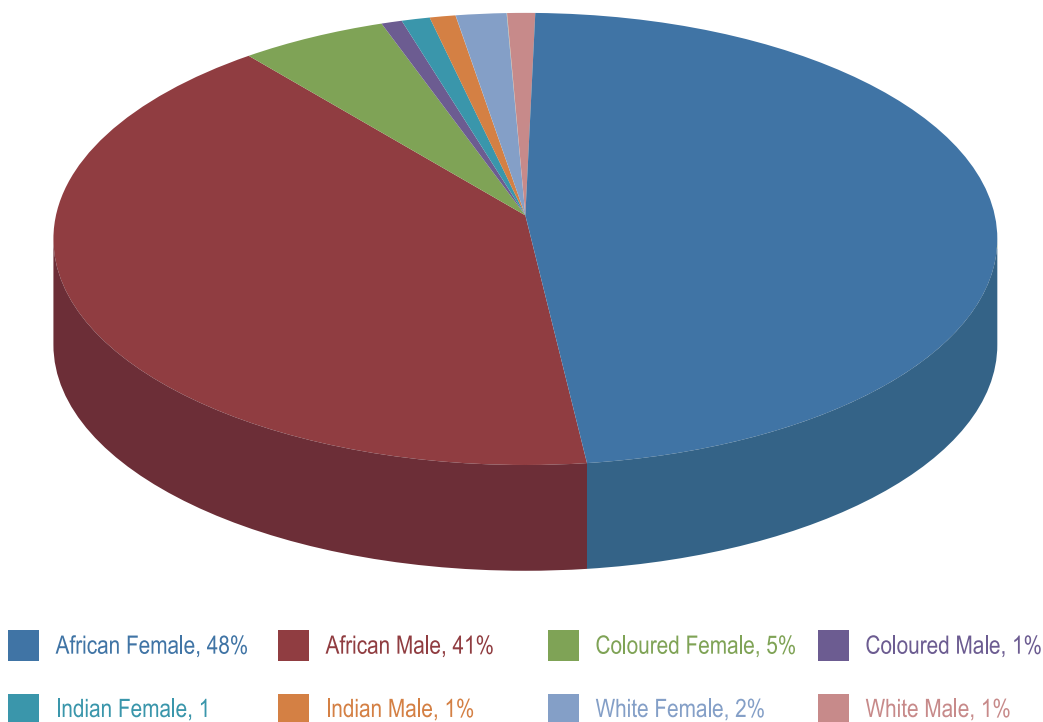

Table 59: Employment equity numbers per salary level, race and gender for the CRLR

Salary Levels	African		Coloured		Indian		White		Total
	Female	Male	Female	Male	Female	Male	Female	Male	
Level 16	0	0	0	0	0	0	0	0	0
Level 15	1	0	0	0	0	0	0	0	1
Level 14	1	7	1	0	1	1	1	0	12
Level 13	3	13	0	2	1	0	2	1	22
Level 9-12	106	101	5	2	3	3	4	2	226
Level 7-8	123	105	10	3	1	1	3	0	246
Level 4-6	120	72	23	2	4	2	3	2	228
Level 1-3	0	0	0	0	0	0	0	0	0

Table 60: Employment equity percentages per race and gender for the CRLR

African Female	African Male	Coloured Female	Coloured Male	Indian Female	Indian Male	White Female	White Male	Total Female	Total Male
48%	41%	5%	1%	1%	1%	2%	1%	55%	42%

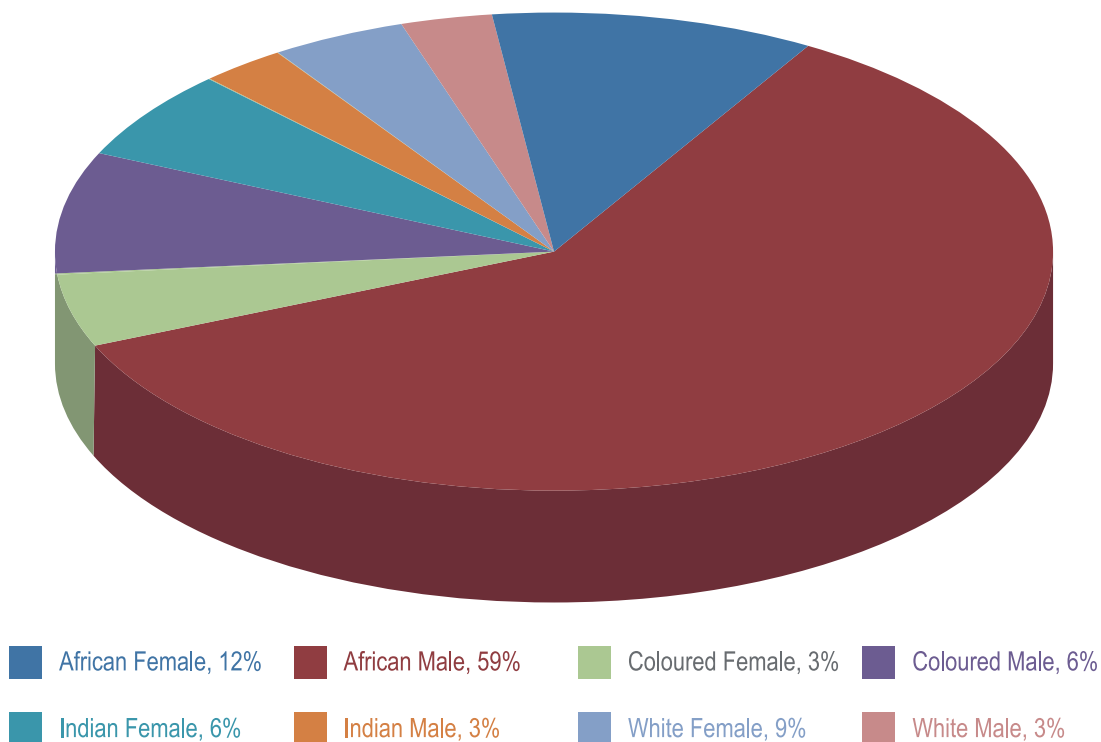

Graph 3: Employment equity percentages per race and gender for the SMS cadre in the CRLR

CRLR had the majority of its employees as African Female, accounting for 48% of the total staff establishment, followed by African Male with 41%. Coloured, Indian and White Male as well as Indian Female were the lowest represented groups, each accounting for 1% of the total staff establishment.

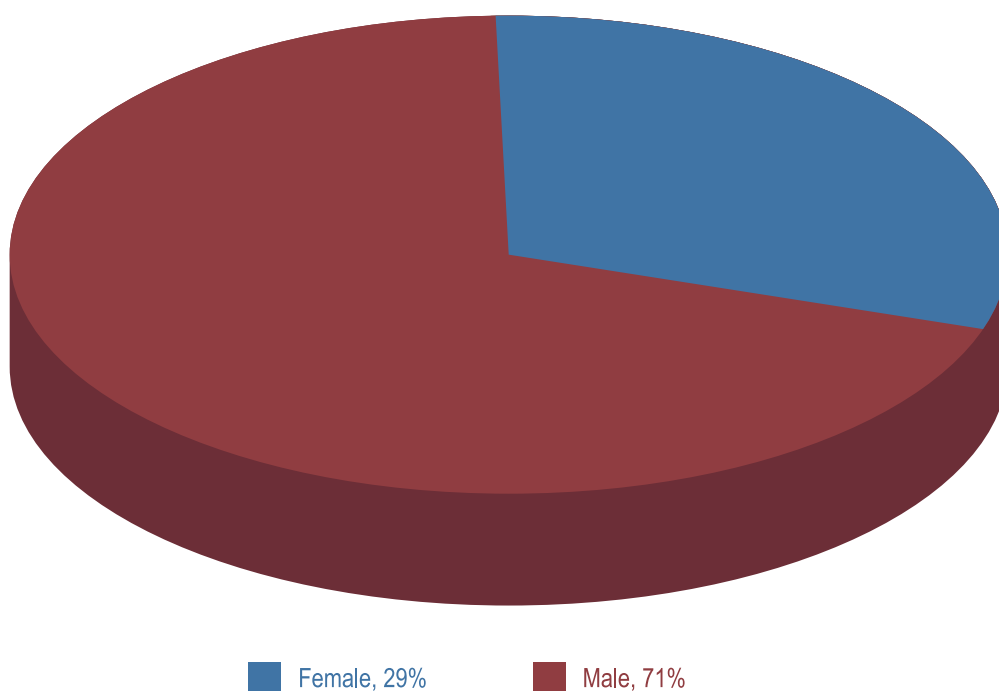

Employment equity percentages per race and gender for the Senior Management Services cadre in the CRLR

Graph 4: Employment equity percentages per race and gender for the SMS cadre in the CRLR

African Male was in high percentage in the CRLR with 59%, followed by African Female at 12%. The lowest was the Indian and White Male together with Coloured Female each at 3% at this occupational group.

Graph 5: Gender breakdown for the SMS cadre

The majority of the employees in Senior Management positions in the CRLR were African Male, accounting for 71%.

15.2. Performance management

The CRLR made a concerted effort in the period under review to ensure that the performance agreements of staff members across provinces who perform the same or similar functions are the same or similar. The standardisation of performance agreements for SMS members have been concluded during the financial year under review.

All members of the SMS concluded and signed a performance agreement with their respective supervisors for the period under review. The CLCC entered into a performance agreement with the Minister.

15.2.1. Labour relations

The CRLR played the coordinating role in all Labour Relations matters, providing support and information to the DRLR Labour Relations team in the facilitation of grievances and misconduct cases for the period under review.

A total number of five grievances were dealt with by the CRLR of which 98% were resolved within the 90 days period as prescribed by the grievance rules in the public service. The remaining matters are still on going at different forums and could therefore not be finalised during this period. Nine misconduct cases were also recorded by the CRLR and with the assistance of the DRLR, 10% of which was finalised and the remaining 90% is still in progress.

15.3. Training and Development

The CRLR offered structure training to 145 employees. A total of 93 employees received the leadership training on 7 Habits of Highly Effective People which is meant to equip employees to ensure an efficient and effective Commission. Furthermore, 54 employees were also enrolled on the Advanced Microsoft Excel and PowerPoint course.
