The image is overlaid with a semi-transparent light beige circle. At the bottom of the page, there are decorative curved bands in shades of orange and gold.

Report of the Accounting Officer

REPORT OF THE ACCOUNTING OFFICER ON THE ACTIVITIES OF THE GUARDIAN'S FUND FOR THE YEAR ENDED 31 MARCH 2016

Introduction

The Guardian's Fund (GF) is a statutory trust established in terms of Chapter V of the Administration of Estates Act, 1965 (Act 66 of 1965). The GF consists of all monies received by the Master of the High Court under the Administration of Estates Act, or any other law or pursuant to an order of court, or any money accepted by the Master in trust for any known or unknown person. Whenever any money is received or accepted by the Master, he or she must open an account in the books of the GF in the name of the person to whom the money belongs, or in the name of the estate of which the money forms part. The Master must, on application of any person who has become entitled to receive money from the Fund, pay that money to the applicant.

The purpose of the GF is therefore to protect and manage monies of persons deemed to be legally incapable or lacking the capacity to manage their own affairs as well as undetermined, unknown or absent heirs and untraceable persons.

The GF is held under management of the Masters of the High Courts of South Africa.

Some of the functions of the GF performed with the prescripts of the said Act, *inter alia*, are to -

- Invest trust monies held with the Public Investment Corporation (PIC);
- Calculate interest accruing in respect of monies received on behalf of beneficiaries at the interest rate as determined by the Minister for Justice and Constitutional Development annually; and
- Process inheritance applications and make the payments to persons entitled thereto.

Core Service Delivery Environment

The GF has representation in 6 Masters' offices, namely:

Pretoria, Cape Town, Pietermaritzburg, Grahamstown, Bloemfontein and Kimberley.

An additional 79 points of service throughout the country were established to assist with the GF customer interaction and making services available, thereby relieving the financial burden on vulnerable beneficiaries having to travel long distances to the Masters Offices to submit their applications.

The GF has a strategic objective to process completed applications and make payment to beneficiaries within 40 days. The GF is pleased to report that the Target of 90% for the 2015/16 year was successfully achieved, as 93% of beneficiaries were paid out within the 40 days.

Coupled with this, all GF Offices are utilising the ABSA Bi-Online Electronic payment system and have achieved 99% EFT payment transactions for the 2015/16 financial year, which enhances the turnaround time in payment of benefits.

The GF currently operates 3 electronic stand-alone systems: Guardians Fund System (Administrative); ABSA EFT System (Payment) and Great Plains System (Accounting). With the growth of the Fund, it is necessary for the GF to evolve to a single, fully integrated financial system.

During the 2015/16 year, the GF had engagements with various parties in relation to financial systems, so as to improve alignment with the Government Pension Administration Agency.

Coupled with this, the Third Party Funds piloted a new SAP based Financial system which the GF will evaluate and assess functionality for adaptation for the GF environment and business rules. It is envisaged that in the 2016/17 year, the GF system modernisation strategy will be approved and implementation phases will commence.

Growth of Beneficiary Liability

As has been disclosed in more detail in the financials on pages 15 to 42, it is illustrated below that the Fund continues to show positive growth in the volume of transactions handled, as well as in the total funds under management.

Guardian's Fund Beneficiary Receipts and Payments

Guardian's Fund - Transaction volumes (receipt and payments)

Guardian's Fund- Total assets vs beneficiary liabilities

Fraud Prevention and Detection

The GF has a Fraud Prevention Strategy, as well as a fully functional and capacitated Forensic Directorate, to ensure that all fraud and loss matters, as well as potential maladministration, is addressed pro-actively.

The GF also has a relationship with Law Enforcement agencies, and at times will engage them on matters should it be necessary, as was done in 2012/13 when the Special Investigations Unit was appointed to investigate loss of funds and the management of the Guardian's Fund in Pretoria and Pietermaritzburg offices.

The GF also performs a risk assessment annually to identify and address any emerging risk areas in order to ensure the integrity and safety of the beneficiary funds within the GF.

Investment Management

The Office of the Chief Financial Officer, with assistance from the Office of the Chief Master, is responsible for formulation and supervision of the mandate given to the Investment Manager (the Public Investment Corporation).

With a balance sheet of R11 billion (and growing) in investable assets, the stewardship of GF assets is a challenging and complex endeavour. I would like to take this opportunity to extend my sincere gratitude to our expert investment advisors and also to colleagues at National Treasury who have ensured that the Department is able to discharge its obligations and match the expectations and the safeguarding of the GF assets and the growing of investments.

The GF is pleased to report that, in the 2015/16 year, the Fund generated more than R737 million in investment income and was able to pass an additional 50 basis points (above market interest rate) to the beneficiaries.

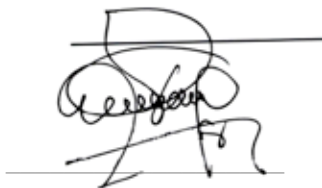

The rate of interest was 7.30% per annum for the financial year under review.

Acknowledgement

My appreciation towards the loyal support and valuable contributions of the various stakeholders is hereby acknowledged.

Approval

The annual financial statements as set out pages 15 to 42 have been approved by the Accounting Officer.

A handwritten signature in black ink, appearing to read 'V. Madonsela', is written over a horizontal line.

Mr V. Madonsela
Accounting Officer
Department of Justice and Constitutional Development
Date: 29 July 2016

Report of the Audit Committee

REPORT OF THE AUDIT COMMITTEE ON GUARDIAN'S FUND

1. REPORT OF THE AUDIT COMMITTEE

We are pleased to present our final report for the financial year ended 31 March 2016.

1.1 AUDIT COMMITTEE MEMBERS AND ATTENDANCE

The Audit Committee consists of the members listed below and is required to meet at least four times per annum as per its approved terms of reference. During the current year 4 meetings and 2 special meetings were held as indicated below.

Name of members	Numbers of meetings attended	Number of special meetings attended	Status
Mr. Motsamai Karedi (Chairperson)	4	2	Reappointed- 25 November 2015
Mr. Cedric Boltman	4	2	Reappointed- 25 November 2015
Ms. Besky Ngunjiri	4	1	Reappointed - March 2015
Mr. Wilson Ramabulana	4	2	Reappointed- 25 November 2015
Mr Andy Sello	4	2	Reappointed- 25 November 2015

1.2 AUDIT COMMITTEE RESPONSIBILITY

We report that we have complied with its responsibilities arising from Section 38 (1) (a) (ii) of the Public Finance Management Act and Treasury Regulation 3.1.13. The Audit Committee also reports that it has adopted appropriate formal terms of reference on its Audit Committee Charter. The charter has regulated its affairs and the Audit Committee has discharged all its responsibilities as contained therein.

1.3 THE EFFECTIVENESS OF INTERNAL CONTROL

The Audit Committee is satisfied that key controls remained in place throughout the year under review and where shortcomings in the internal controls were identified; management has addressed them through implementation of audit action plans. Internal Audit validated the audit action plans and the Audit Committee reviewed same to ensure effective implementation by management.

There has also been an improvement in the risk maturity level within the Department and that had contributed to the effectiveness of controls.

1.4 INTERNAL AUDIT

The Department of Justice and Constitutional Development's Internal Audit Unit is also responsible for the auditing of Guardian's Fund.

The Internal Audit unit has discharged its responsibilities as per the internal audit charter and plans.

1.5 AUDITOR-GENERAL SOUTH AFRICA

The Audit committee accepts and concurs with the unqualified audit opinion of the AGSA on Guardian's Fund for the year ended 31 March 2016.

1.6 REPORTS

1.6.1 The quality of in-year management and monthly/quarterly reports submitted in terms of the PFMA

The Audit committee has reviewed the monthly and quarterly reports and where concerns were raised, management acted on them and the Audit Committee monitored progress throughout the year.

1.6.1 Evaluation of financial statements

We have reviewed and discussed the audited annual financial statements with management and also reviewed the Department's compliance with legal and regulatory provisions. We have also reviewed the Auditor-General South Africa's report, management letter and management's responses to it and the Audit Committee is satisfied with the contents thereof.

A handwritten signature in black ink, appearing to read 'M Karedi', is written over a horizontal line.

M Karedi
Chairperson of the Audit Committee
Date: 29 July 2016

Report of the Auditor- General to Parliament

Report of the Auditor-General to Parliament on Guardian's Fund

Report on the financial statements

Introduction

1. I have audited the financial statements of the Guardian's fund set out on pages 15 to 42 which comprise statement of financial position as at 31 March 2016, the statement of financial performance, statement of changes in net assets, and cash flow statement for the year then ended, as well as the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting Officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-general's responsibility

3. My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with International Standards on Auditing. Those standards require that I comply with ethical requirements, and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Guardian's fund as at 31 March 2016 and its financial performance and cash flows for the year ended, in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP).

Report on other legal and regulatory requirements

7. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) and the general notice issued in terms thereof, I have a responsibility to report findings on compliance with legislation and internal control. The objective of my tests was to identify reportable findings as described under each subheading but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

Predetermined objectives

8. I did not audit performance against predetermined objectives, as the Fund is not required to prepare a report on its performance against predetermined objectives. The Fund does not fall within the ambit of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999) (PFMA) and is not subject to entity-specific legislation that requires reporting on performance against predetermined objectives.

Compliance with legislation

9. I performed procedures to obtain evidence that the Guardian's Fund had complied with applicable legislation regarding financial matters, financial management and other related matters. I did not identify any instances of material non-compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA.

Internal control

10. I considered internal control relevant to my audit of the financial statements, and compliance with legislation. I did not identify any significant deficiencies in internal control.

Auditor-General

Pretoria

GUARDIAN'S FUND
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016
ACCOUNTING POLICIES

1. GENERAL INFORMATION

The Guardian's Fund is a statutory trust established in terms of Chapter V of the Administration of Estates Act, 1965 (Act 66 of 1965).

The purpose of the Guardian's Fund is to protect and manage monies of persons deemed to be legally incapable or lacking the capacity to manage their own affairs as well as undetermined, unknown or absent heirs and untraceable persons.

The Guardian's Fund is held under management of the Masters of the High Court of South Africa.

2. PRINCIPAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

The financial statements have been prepared on the historical cost basis, except for investments that have been measured at fair value. The financial statements are presented in Rands. The financial statements have been prepared on a going concern basis.

Statement of compliance

The financial statements of the Guardian's Fund have been prepared in accordance with South Africa Standards of Generally Recognised Accounting Practice as required by the Public Finance Management Act (Act No. 1 of 1999) (PFMA).

2.2 Summary of significant accounting policies

2.2.1 Financial instruments

Financial instruments at Fair Value

The classification depends on the purpose for which the financial assets were acquired, and is determined by management at the initial recognition of the financial assets. Financial instruments are classified at fair value and are comprised of a portfolio of money market instruments. Money market investments were designated at fair value as these instruments are non-derivative instruments and payments can be determined by the fund.

Fair value financial assets are measured with consideration that unrealised gains and losses are recognised directly in surplus or deficit. Interest earned whilst holding fair value financial investments is reported as interest income using the effective interest rate. Dividends earned whilst holding fair value financial investments are recognised in the statement of changes in net assets as "other operating income" when the right of the payment has been established. The losses arising from impairment of such investments are recognised in the statement of financial performance in "impairment losses on financial investments", and adjusted on a monthly basis.

Financial assets, other than those at Fair Value Through Profit or Loss (FVTPL), are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

(i) Date of recognition

Purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulations or convention in the marketplace are recognised on the date that the Guardian's Fund commits to purchase or sell the asset.

(ii) Initial recognition of financial instruments

The classification of financial instruments at initial recognition depends on the purpose for which the financial instruments were acquired and their characteristics. All financial instruments are measured initially at their fair value, and transaction costs on financial instruments at fair value through surplus or deficit are recognised in surplus or deficit.

(iii) Subsequent Measurement

Financial Instruments at fair value through surplus or deficit are subsequently measured at fair value, with gains and losses arising from changes in fair value being included in surplus or deficit for the period.

(iv) De-recognition

The financial instrument is de-recognised when the contractual agreement in respect of the financial assets is terminated.

2.2.2 Cash and cash equivalents

Demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash, and are subject to an insignificant risk of changes in value, are disclosed under another category of financial instrument, depending on the nature.

Cash and cash equivalents that do not have fixed and determined payments will be classified as available-for-sale financial assets.

Cash and cash equivalents and bank borrowings are recorded at face value.

2.2.3 Revenue recognition

The Guardian's Fund recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity, and specific criteria in terms of the Estates Act, 1965 (Act 66 Of 1965), have been met.

Interest Income

Interest revenue is accrued on a time basis, by reference to the principal outstanding and the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

2.2.4 Financial Liability

This includes Beneficiary Liability and Other Payables

(i) Initial Recognition

The Financial Liability is initially recognised at historical cost at the date of receipt of the monies due by the Fund to external parties.

(ii) Subsequent Recognition

After initial recognition, the liability is measured at the value of the amount owing to the external parties, whom have a right against the fund, after taking into account the provisions of the Estates Act, 1965 (Act 66 of 1965).

(iii) De-recognition

The financial liability is de-recognised when the obligation of the Guardian's Fund to the external parties has been extinguished.

2.2.5 Related Party Disclosure

The Guardian's Fund was established in terms of the Administration of Estates Act and operates within the Department of Justice and Constitutional Development. The Guardian's Fund resides in the Branch of the Office of the Chief Master, and all operating costs are funded by the Department.

The integration of the Guardian's Fund sections in the Office of the Chief Master creates a complex environment in which to estimate the values of the related party (The Department of Justice and Constitutional Development).

Other Related Party transactions are disclosed in terms of the requirements of the standards as in Note 12.

2.2.6 Fraud and losses

(i) Initial Recognition

Fraud is defined as the unlawful and intentional making of a misrepresentation resulting in actual or potential prejudice to the Fund, while losses result from any other cause that may not be intentional. Fraud and losses are administered in line with

Section 12 of the Treasury Regulations and are disclosed in note 14 on the financial statements as and when they are discovered and reported by the relevant GF Offices to the Departments forensic directorate for investigation. They are not disclosed on the face of the balance sheet.

(ii) Subsequent Recognition and de-recognition

A Loss Control Officer keeps a register in which particulars of all losses are recorded. For instance, steps taken, amount recovered or not recovered and how the matter has been disposed of, must be recorded in this register. Every year the note is updated with the movement in the register.

2.2.7 Allocation account

(i) Initial Recognition

The Guardian's Fund operated in a manual environment prior to 31 March 2005. From 1 April 2005 an administrative electronic system called the Guardian's Fund System (GFS), from which the beneficiary liability figures are derived, was introduced. The allocation account is used primarily to apportion transactions that are received through the suspense account to the various types of beneficiary liabilities and also to cater for verification difference.

(ii) Subsequent Recognition

The allocation account is adjusted yearly with all financial adjustments made to beneficiary accounts that relate to prior financial periods.

(iii) De-recognition

The allocation account will be de-recognised when the financial benefit to or obligation by the fund is extinguished.

2.2.8 Other Receivables

(i) Initial Recognition

These are various amounts that are owed to the fund from its day to day operations. Other receivables are measured at initial recognition at fair value.

(ii) Subsequent Recognition

Appropriate allowances for estimated irrecoverable amounts are recognised in profit or loss when there is objective evidence that the asset is impaired. Subsequently, these are reported at their net realisable value.

(iii) De-recognition

Other receivables are de-recognised when they are fully paid or when there is objective evidence that the amounts will not be collectible.

2.2.9 Interest paid to beneficiaries

(i) Initial Recognition

Interest paid is an expense that represents monies paid to the beneficiaries by the Fund. It is credited to the beneficiary accounts through the GFS. Interest is accrued from the next calendar month after receipt date up to five years after it has become claimable, unless it is legally claimed before such expiration.

(ii) Subsequent Recognition

Interest paid is adjusted in retrospect every year because of the verification process and other adjustments to beneficiary balances.

18. RISK MANAGEMENT

18.1 Introduction

As a client of the PIC, the Guardian's Fund specifies its desirable risk parameters in accordance with its own risk appetite. This risk appetite informs the formal investment mandate given to the PIC. The mandate consciously promotes a responsible approach to risk to ensure the long term sustainability of the Fund and to protect the reputation of the Fund. The ultimate responsibility for investment risk management oversight lies with the PIC and not with the Guardian's Fund.

18.2 Market risk

Market risk is the exposure to adverse change in the market value of our investment position caused by changes in prices and rates. The Fund's activities expose it primarily to the risks of fluctuations in the interest rate.

Interest rate risk refers to the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Market risk exposures are measured using sensitivity analysis. A sensitivity analysis shows how net surplus and/or net assets would have been affected by changes in the relevant risk variable that were reasonably possible at the reporting date.

The GF was exposed to market risk in relation to the economic position of African Bank Limited, which resulted in Impairment losses (See Notes[5]). However, due to the GF managing Market and Concentration Risk, this did not have a significant impact on the GF, as displayed by the healthy profit gained in 2015 and 2016 (See Statement of Financial Performance).

18.3 Interest rate risk

This risk is the potential financial loss as a result of adverse movements in interest rates that affect the value of money market instruments. As a PIC client, Guardian's Fund has exposure to interest rate risk through investments in money markets.

Sensitivity to interest rate movements is measured by the duration of the fixed interest exposure. Such duration is dictated in the Guardian's Fund client investment mandate to PIC, relative to the appropriate benchmark.

Furthermore, these investment mandates prescribe how the assets should be managed by PIC, in line with Guardian's Fund liquidity needs and its liability profile.

18.4 Interest rate risk sensitivity analysis

The sensitivity analysis below has been determined based upon financial instruments exposure to interest rates at the Statement of Financial position date.

The basis points increase or decrease, as detailed in the table below, were determined by management and represent management's assessment of a reasonable change in interests rates. The positive number indicates an increase in net surplus and a negative number indicates a decrease in net surplus.

There is no change in the methods and assumptions used in preparing the sensitivity analysis from one year to the next. In the graph, the zero interest rate represents the base - as disclosed in the Audited Financial Statements.

Interest rate sensitivity analysis

The above sensitivity analysis shows that even with a 2% change (both ways) in the interest rate, the Guardian's Fund would have earned sufficient interest investment income to cover the interest paid to fund beneficiaries at the gazetted rate of interest. (Base figures are as follows: Interest received - R737 million and Interest paid - R612 million).

18.5 Credit risk

Guardian's Fund investment portfolios are exposed to the potential for credit-related losses that can result due to an individual, counterparty or issuer being unable or unwilling to honour contractual obligations.

To mitigate this risk, and minimize excessive credit exposure to one single counterparty, the Guardian's Fund mandate to PIC states that PIC will only invest with local commercial banks or institutions that have a credit rating of at least "A" from one of the recognised domestic and/or international credit rating agencies.

18.6 Concentration risk

Concentration risk is the risk of losses arising due to poor diversification within funds, which can result in undesirable risk exposures. The Guardian's Fund manages this risk through the PIC investment mandate, which dictates the level of concentration. Money market investments are spread across banks to reduce and diversify the client's concentration risk.

18.7 Liquidity risk

Liquidity risk is the potential that there will not be adequate liquid assets available to meet the obligations of the Guardian's Fund when they fall due.

The Guardian's Fund manages this risk through the investment mandate that is signed with PIC. The mandate is in line with the Fund's liquidity needs and liability profile of the Fund. Currently, the Guardian's Fund liquid assets holding is R10.6 Billion.

18.8 Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people, systems and external events. The Fund recognises the significance of the operational inherent in all the Fund's activities. Operational risk is managed within acceptable levels through an appropriate level of management focus and resource allocation.

18.9 Compliance risk

Compliance risk is defined as the risk of legal sanctions, material financial loss, or loss to reputation the Fund may suffer as a result of its failure to comply with laws, its own regulations, code of conduct, and standards of best/good practice. Compliance is managed through the DFI and Procedure Manual which are updated regularly.
